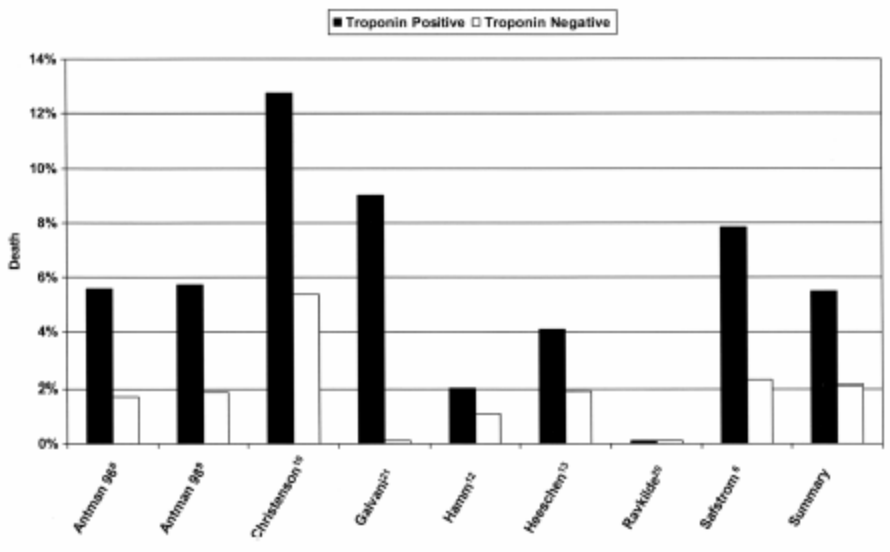
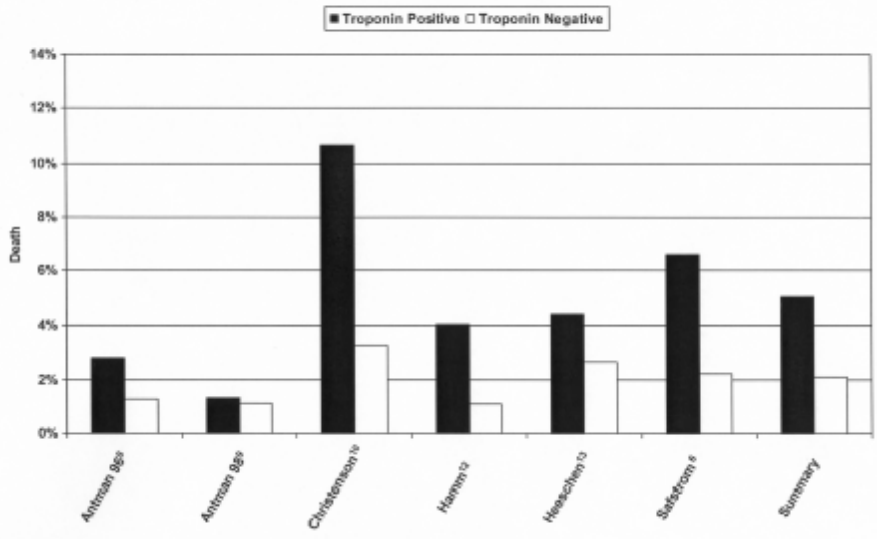
# FIGURES

Figure 1. Troponin: Death for women with and without an elevated troponin.



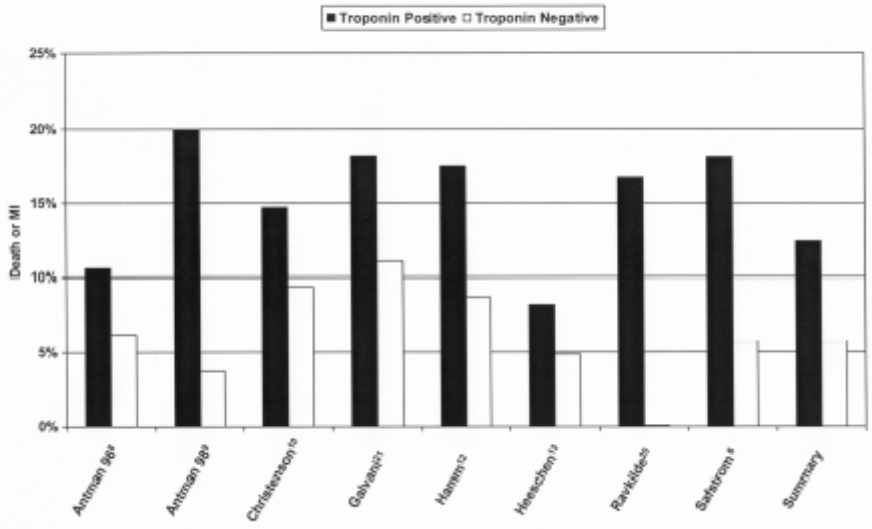
Note: superscripted numbers correspond with citations on reference list for Chapter 5.

Figure 2. Troponin: Death for men with and without an elevated troponin.



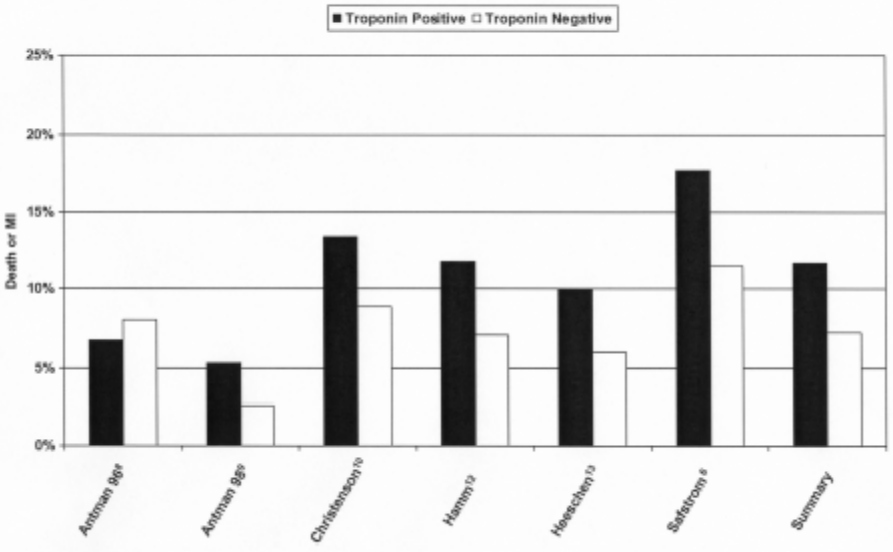
Note: superscripted numbers correspond with citations on reference list for Chapter 5.

Figure 3. Troponin: Death or myocardial infarction for women with and without an elevated troponin.



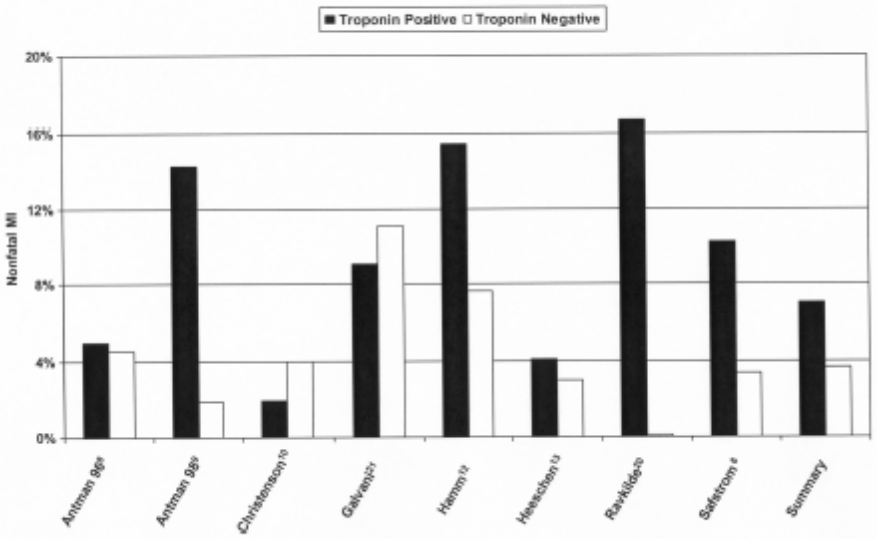
Note: superscripted numbers correspond with citations on reference list for Chapter 5.

Figure 4. Troponin: Death or myocardial infarction for men with and without an elevated troponin.



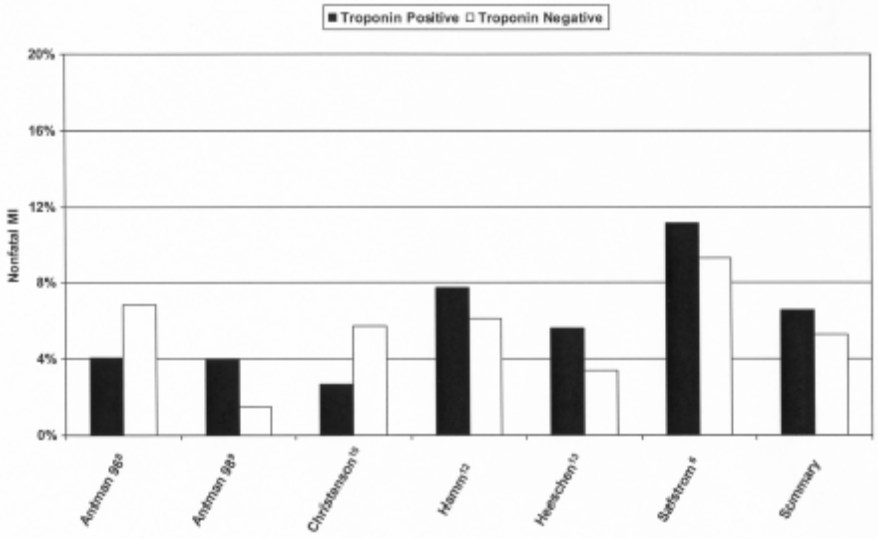
Note: superscripted numbers correspond with citations on reference list for Chapter 5.

Figure 5. Troponin: Nonfatal infarction for women with and without an elevated troponin.



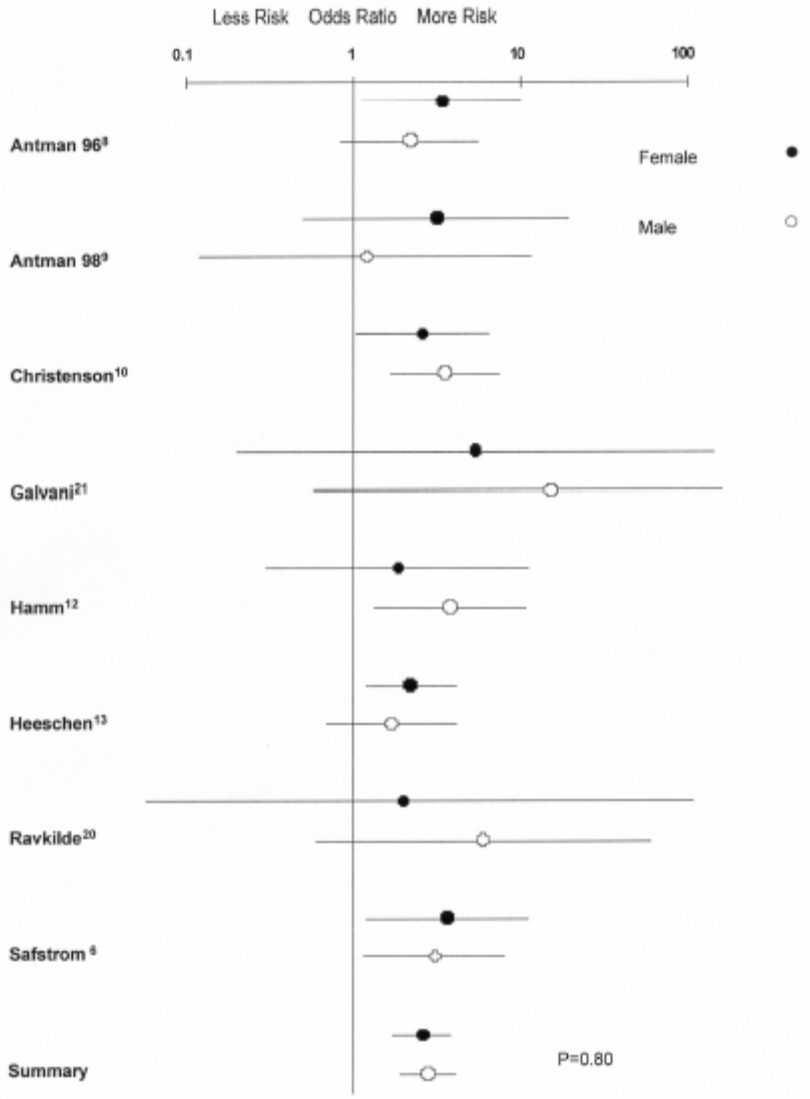
Note: superscripted numbers correspond with citations on reference list for Chapter 5.

Figure 6. Troponin: Nonfatal infarction for men with and without an elevated troponin.



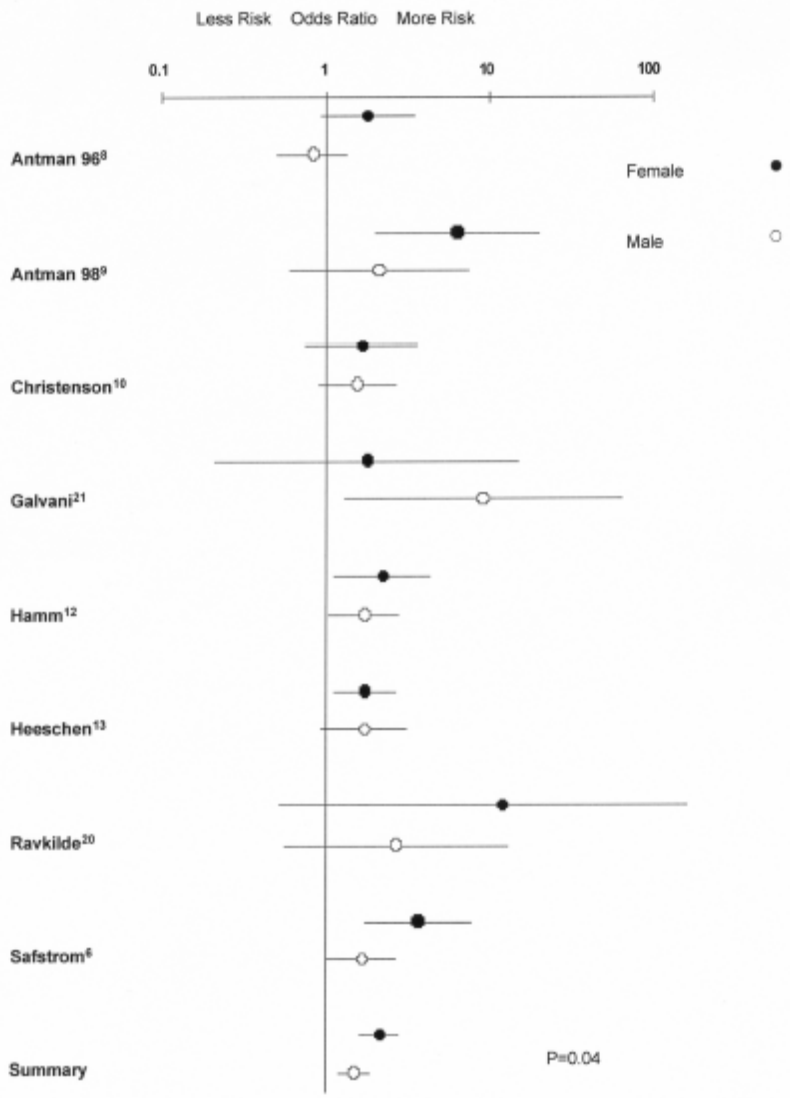
Note: superscripted numbers correspond with citations on reference list for Chapter 5.

Figure 7. Troponin: Odds ratios (95% confidence intervals) and their summary for death for both men and women.



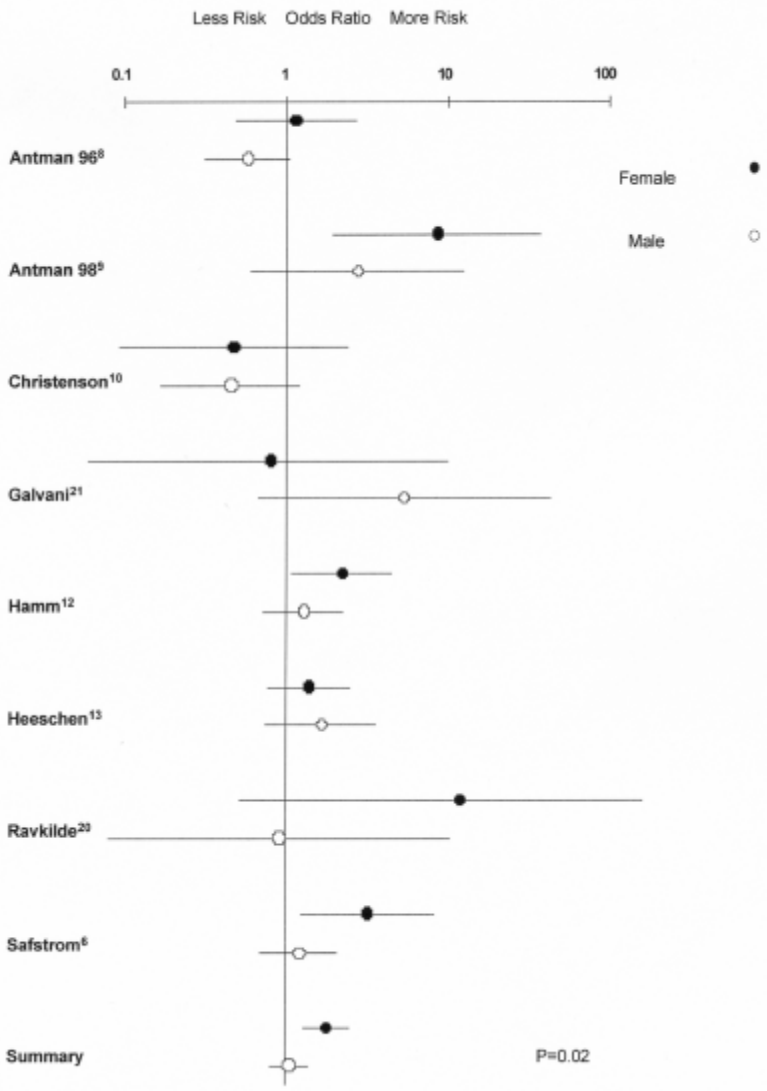
Note: superscripted numbers correspond with citations on reference list for Chapter 5.

Figure 8. Troponin: Odds ratios (95% confidence intervals) and their summary for death or myocardial infarction for both men and women.



Note: superscripted numbers correspond with citations on reference list for Chapter 5.

Figure 9. Troponin: Odds ratios (95% confidence intervals) and their summary for nonfatal myocardial infarction for both men and women.



Note: superscripted numbers correspond with citations on reference list for Chapter 5.
