

**TOTAL QUANTITIES AND COSTS  
OF MAJOR WEAPON SYSTEMS PROCURED  
1974 - 1994**

May 24, 1993

The following tables provide information on the numbers and costs of most weapons bought from 1974 through 1994. The primary source for this information is the Department of Defense procurement document commonly referred to as the "**P-1**". Costs include prior year advance procurement budget authority but exclude current year advance procurement, initial spares, and/or **outfitting** and post delivery **costs--that is, the "top-line" P-1** data are used. Costs are presented in current and constant 1994 dollars--pages numbered with the prefix "A-" are in current dollars and those with the prefix "B-" are in constant 1994 dollars.

The tables are organized as follows:

**Tables Containing Current Dollar Estimates**
