

Senate Homeland Security Appropriations Bill for Fiscal Year 2011
 Congressionally Directed Spending Requests Submitted by Senator Mary Landrieu of Louisiana on March 30, 2010

Project Name	Intended Recipient and Location	Purpose of Project	FY2011 Funding Request
Advanced Monitoring and Protection System (AMPS)	Southern University (Baton Rouge, LA)	Fulfills critical DoD and DHS requirement to provide rapid alerting and information for first responders due to terrorist related or accidental release of toxic chemicals within or near military and other critical installations.	\$3,500,000
Cyber Assurance and Defense Center	Cyber Innovation Center (Bossier City, LA)	The Cyber Assurance and Defense Center (CADC) is a public-private partnership conducting discovery and analysis functions on participant networks to detect, assess and report cyber threat data to industry, state, and federal agencies. The CADC will be an extension and integral function of state Chief Information Security Officer (CISO) efforts to defend state systems from threats and assure network capabilities are available for official state business. The act of routinely monitoring networks, discovering threats and analyzing the capabilities of those threats will not only satisfy a state and local need but through the Department of Homeland Security, the CADC's resulting finished threat products will be shared with other states and thus help defend this nation from future cyber calamities. The identification of network security "problems" in the CADC will drive innovation; those problems will be offered to the business community and academia to foster research and development of cyber solutions.	\$3,000,000
East Baton Rouge Parish, Louisiana Emergency Operations Center Expansion	City of Baton Rouge / Parish of East Baton Rouge (Baton Rouge, LA)	The project will prepare the site and initiate construction of an expansion of the current limited Emergency Operations Center facility to better accommodate emergency response personnel and government representatives from throughout south Louisiana.	\$1,000,000
Emergency Operations Center	Plaquemines Parish Government (Belle Chasse, LA)	Development of a new Emergency Operations Center to maintain a central hub facility to monitor and direct emergency operations in Plaquemines Parish.	\$1,000,000
Enhanced Anthrax Defense	OxB Corporation (Baton Rouge, LA)	To fund testing and regulatory approval of a newly developed defense against anthrax.	\$4,000,000
Louisiana Sheriffs' Association Emergency Operations Center	Louisiana Sheriffs Association (Baton Rouge, LA)	The purpose of this project is to construct an Emergency Operations Center within the Louisiana Sheriffs' Association.	\$750,000
Modeling and Enhancing Socio-Economic Resiliency of Disasters	University of Louisiana at Lafayette - National Incident Management Systems and Advanced Technologies (NIMSAT) Institute (Statewide)	The University of Louisiana at Lafayette created the National Incident Management Systems and Advanced Technologies (NIMSAT) Institute to assist Louisiana and the Nation in the management of all-hazard disasters. The project will focus on enhancing the resiliency of a region at risk to intensifying hurricanes, vanishing wetlands, and changing climate. The proposed \$20M investment will support R&D, operations, and outreach at NIMSAT/NISAC to quantify the economic significance of GoM's interdependent CI/KR and supply chain systems, identify approaches to enhance their resiliency, and to develop cost-benefit analyses that will help stakeholders evaluate costs of resilience versus benefits of reduced national economic risk.	\$20,000,000 and Language

Senate Homeland Security Appropriations Bill for Fiscal Year 2011
 Congressionally Directed Spending Requests Submitted by Senator Mary Landrieu of Louisiana on March 30, 2010

Project Name	Intended Recipient and Location	Purpose of Project	FY2011 Funding Request
National Domestic Preparedness Consortium	Louisiana State University A &M College, Public institution of Higher Education (Statewide)	Louisiana State University's (LSU) National Center for Biomedical Research and Training (NCBRT), Academy of Counter-Terrorist Education is a founding member of the Consortium which consists of LSU, New Mexico Tech, Texas A&M University, U. S. Department of Energy's Nevada Test Site, University of Hawaii, Transportation Technology Center, Inc., and the U. S. Department of Homeland Security's Center for Domestic Preparedness. The National Domestic Preparedness Consortium shall identify, develop, test, and deliver training to State, local, and tribal emergency response providers, provide on-site and mobile training at the performance and management and planning levels, and facilitate the delivery of training by the training partners of the U. S. Department of Homeland Security.	\$23,000,000
Plaquemines Parish Emergency Operation Center	Plaquemines Parish Sheriff's Office (Belle Chasse, LA)	To provide Plaquemines Parish Sheriff, Fire, EMS, Emergency Management, all parish emergency support agencies, with a bricks and mortar facility and the necessary equipment to coordinate Emergency Services and Resources during disasters and emergencies.	\$2,000,000
Procurement and Installation of Explosive Detection Systems (EDS) at Medium-and-Small-Sized Airports	Transportation Security Administration (Caddo, Lafayette & Rapides Parishes, LA)	The goal of the project is to continue statutory language and funding for medium-and small-sized airports in the fiscal year 2011 budget for TSA to ensure that EDS are deployed to replace ETD systems as the primary checked baggage screening technology.	Language
Rail Security Training Program	Louisiana Chemical Association (Baton Rouge, LA)	This project will develop and implement an intensive security awareness and threat intervention training program for front line railroad workers and first response personnel.	\$500,000
Regional Training Facility with a multi story tower for fire and police training for emergency responders in this region.	Lincoln Parish Fire Department (Dubach, LA)	Construct a regional Training Facility with a multi story tower for fire and police training for emergency responders in this region	\$740,000
Resilient and Ready Communities	Save the Children (New Orleans, Baton Rouge, Alexandria and Shreveport, LA)	Helping communities in at-risk regions meet new national standards and integrate best practices for supporting children's safety and well-being through preparedness planning and programs.	\$200,000
St Bernard Sheriff's Office command center	St. Bernard Sheriff's Office (Chalmette, LA)	to establish a command center for the Use of the Sheriff's Office and first responders in case of disaster	\$8,000,000
Urban Search and Rescue Teams	FEMA (Southeast United States)	There are 28 Urban Search and Rescue teams across the nation that receive federal funding for training, equipment, and exercises. The FY09 Committee report required FEMA to evaluate the current number and location of teams and report to the committee whether additional teams should be established in specific regions. In this report FEMA stated they believed that they were adequately staffed on the number of search and rescue teams currently in operation in the United States.	\$30,000,000
