

On Wednesday, July 21, 2010, the Government Management, Organization and Procurement Subcommittee will hold a hearing entitled, "Green Building Practices in the Federal Sector: Progress and Challenges to Date." The hearing will examine to what extent the federal government has incorporated green, high-performance building practices into the renovation and construction of existing and new U.S. government owned and leased buildings in accordance with the Energy Independence and security Act of 2007 (EISA), and Executive Order 13514 and other relevant statutes and directives.

The hearing will take place at 10:00 a.m. in room 2154 Rayburn House Office Building.

The witnesses scheduled to testify include:
