1 latory mandates which promise no reduction in global car-  
2 bon emissions will lead to the loss of millions of jobs for  
3 Americans. Congress must rely on the most sound and  
4 complete scientific evidence in order to tackle these chal-  
5 lenges.

5 in no event later than 30 days following the Secretary's  
6 determination establish a binding schedule to ensure the  
7 most expeditious possible review and processing of the re-

9 (b) PERMIT CLASSES AND SCHEDULES.—

10 (1) CLASS I PERMITS.—An oil and gas permit  
11 shall be designated as a class I permit under this  
12 section if the permitted activity is of a nature that  
13 would typically require preparation of an environ-

15 permitting decision. For such permits, the Regional  
16 Permit Coordinator shall establish a schedule for  
17 timely completion of all permit reviews and proc-  
18 essing, not to exceed 30 months. The Regional Per-  
19 mit Coordinator shall make the schedule publicly  
20 available within 10 days after the schedule is estab-  
21 lished.

22 (2) CLASS II PERMITS.—An oil and gas permit  
23 shall be designated as a class II permit under this  
24 section if the permitted activity is of a nature that

2 For such permits, the Regional Permit Coordinator  
3 shall establish the most expeditious schedule possible  
4 for completion of all permit reviews and processing,  
5 not to exceed 90 days. The Regional Permit Coordi-  
6 nator may grant a one-time extension of that sched-  
7 ule, not to exceed 60 days, upon a good cause show-  
8 ing that additional time is necessary to complete  
9 permit decisions. Not later than 15 days after estab-  
10 lishing or extending any schedule for a class II per-  
11 mit, the Regional Permit Coordinator shall provide  
12 the permit applicant with the schedule.

13 (3) CLASS III PERMITS.—Notwithstanding para-  
14 graphs (1) and (2), an oil and gas permit shall be  
15 designated as a class III permit under this section  
16 if the permitted activity either qualifies for a statu-  
17 tory or regulatory categorical exclusion under NEPA  
18 or if the requirements under NEPA and other appli-  
19 cable law for the permit have been completed within  
20 30 days after the date of a complete application. For  
21 such permits, the permit shall be issued within 30  
22 days after the date of a complete application.

23 (4) RECLASSIFICATION OF CLASS II PERMIT.—  
24 If prior to the expiration of the established schedule  
25 for a class II permit newly discovered information

1 indicates that the class II permit will significantly  
2 affect the quality of the human environment, the  
3 Secretary may, in consultation with the permit appli-

9 will be constructed and will operate in conformity with the  
10 license, the provisions of this Act, and the Commission’s  
11 rules and regulations. The Commission shall identify with-  
12 in the combined license the inspections, tests, and anal-

16 sonable assurance that the facility has been constructed  
17 and will be operated in conformity with the license, the  
18 provisions of this Act, and the Commission’s rules and  
19 regulations. Following issuance of the combined license,  
20 the Commission shall ensure that the prescribed inspec-

12          a predecessor of the taxpayer (or, in the case of a  
13          sale and leaseback described in section 50(a)(2)(C),

6           such expenditures are paid.

7           “(2) SPECIAL RULES FOR APPLYING PARA-  
8           GRAPH (1).—For purposes of paragraph (1)—

9           “(A) COMPONENT PARTS, ETC.—Property  
10           which is not self-constructed property and

24           “(i) IN GENERAL.—In the case of a  
25           facility or a component of a facility which

1 is not self-constructed, the amount taken  
2 into account under paragraph (1)(B) for  
3 any taxable year shall not exceed the  
4 amount which represents the portion of the  
5 overall cost to the taxpayer of the facility  
6 or component of a facility which is prop-

8 ity or component which is completed dur-  
9 ing such taxable year.

10 “(ii) CARRY-OVER OF CERTAIN  
11 AMOUNTS.—In the case of a facility or  
12 component of a facility which is not self-

2 section for the earlier of—

3 “(i) the taxable year in which the fa-  
4 cility is placed in service, or

5 “(ii) the first taxable year for which  
6 recapture is required under section

10 this subsection—

11 “(A) The term ‘self-constructed facility’  
12 means any facility if it is reasonable to believe  
13 that more than half of the qualified nuclear fa-  
14 cility expenditures for such facility will be made  
15 directly by the taxpayer.

16 “(B) A component of a facility shall be  
17 treated as not self-constructed if the cost of the  
18 component is at least 5 percent of the expected  
19 cost of the facility and the component is ac-  
20 quired by the taxpayer.

21 “(4) ELECTION.—An election shall be made  
22 under this section for a qualified nuclear power facil-  
23 ity by claiming the nuclear power facility construc-  
24 tion credit for expenditures described in paragraph  
25 (1) on a tax return filed by the due date for such

1 return (taking into account extensions). Such an  
2 election shall apply to the taxable year for which  
3 made and all subsequent taxable years. Such an

14 “(2) QUALIFIED NUCLEAR POWER FACILITY  
15 EXPENDITURES.—

16 “(A) IN GENERAL.—The term ‘qualified

2 of such facility in service.

3 “(B) PRE-EFFECTIVE DATE EXPENDI-  
4 TURES.—Qualified nuclear power facility ex-  
5 penditures do not include any expenditures in-  
6 curred by the taxpayer before January 1, 2007,  
7 unless such expenditures constitute less than 20  
8 percent of the total qualified nuclear power fa-  
9 cility ex-penditures (determined without regard  
10 to this subparagraph) for the qualified nuclear  
11 power facility.

12 “(3) DELAYS AND SUSPENSION OF CONSTRUC-

24 riod in which the taxpayer has failed to  
25 incur qualified nuclear power facility ex-

1           penditures totaling at least 20 percent of  
2           the expected total cost of the nuclear  
3           power facility.

4           “(B) AUTHORITY TO WAIVE.—The Sec-  
5           retary may waive the application of clause (ii)  
6           of subparagraph (A) if the Secretary deter-  
7           mines that the taxpayer intended to continue  
8           the construction of the qualified nuclear power  
9           facility and the expenditures were not incurred  
10          for reasons outside the control of the taxpayer.

11          “(C) RESUMPTION OF CONSTRUCTION.—If  
12          a nuclear power facility that is under construc-  
13          tion ceases to be a qualified nuclear power facil-  
14          ity by reason of paragraph (2) and work is sub-  
15          sequently resumed on the construction of such  
16          facility—

17                 “(i) the date work is subsequently re-  
18                 sumed shall be treated as the date that  
19                 construction began for purposes of para-  
20                 graph (1), and

21                 “(ii) if the facility is a qualified nu-  
22                 clear power facility, the qualified nuclear  
23                 power facility expenditures shall be deter-  
24                 mined without regard to any delay or tem-

16   property which, when placed in service, will be  
17   a qualified rehabilitated building or a qualified  
18   nuclear power facility, then the tax under this  
19   chapter for such taxable year shall be increased  
20   by an amount equal to the aggregate decrease

20 scribed in subsection (b)(2) of this section and ap-  
21 proval resolutions described in subsection (b)(3) of  
22 this section; and they supersede other rules only to  
23 the extent that they are inconsistent therewith; and

24 (2) with full recognition of the constitutional  
25 right of either House to change the rules (so far as

1 relating to the procedure of that House) at any time,  
2 in the same manner and to the same extent as in  
3 the case of any other rule of that House.

4 (b) DEFINITIONS.—For purposes of this section—

5 (1) the term “community” means any entity of  
6 local government appropriate, in terms of legal au-  
7 thority, for negotiating and entering into temporary  
8 spent nuclear fuel storage agreements provided for  
9 in section 3210;

10 (2) the term “implementing bill” means only a  
11 bill of either House of Congress which is introduced  
12 as provided in subsection (c) of this section with re-  
13 spect to one or more temporary spent nuclear fuel  
14 storage agreements and which contain—

15 (A) a provision approving such storage  
16 agreements,

17 (B) a provision approving the statement of  
18 administrative action (if any) proposed to im-  
19 plement such storage agreements,

20 (C) if changes in existing laws or new stat-  
21 utory authority is required to implement such  
22 storage agreement or agreements, provisions  
23 necessary or appropriate to implement such  
24 agreement or agreements either repealing or

1           amending existing laws or providing new statu-  
2           tory authority; and

3           (D) a provision containing revenue meas-  
4           ures (if any), by reason of which the bill must  
5           originate in the House of Representatives as  
6           provided for in subsection (c); and

7           (3) The term “approval resolution” means only  
8           a joint resolution of the two Houses of the Congress,  
9           the matter after the resolving clause of which is as  
10          follows: “That the Congress approves the temporary  
11          spent nuclear fuel storage agreement between the  
12          Secretary of Energy and \_\_\_\_\_ on  
13          \_\_\_\_\_,” the first blank space being filled  
14          with the name of the governor involved and the sec-  
15          ond blank space being filled in with the appropriate  
16          date.

17          (c) INTRODUCTION AND REFERRAL.—On the day on  
18          which the temporary spent nuclear fuel storage agreement  
19          is submitted to the House of Representatives and the Sen-  
20          ate under this title, the implementing bill submitted by  
21          the Secretary with respect to such temporary spent nu-  
22          clear fuel storage agreement shall be introduced (by re-  
23          quest) in the House by the majority leader of the House,  
24          for himself and the minority leader of the House, or by  
25          Members of the House designated by the majority leader

1 and minority leader of the House; and shall be introduced  
2 (by request) in the Senate by the majority leader of the  
3 Senate, for himself and the minority leader of the Senate,  
4 or by Members of the Senate designated by the majority  
5 leader and minority leader of the Senate. If either House  
6 is not in session on the day on which such temporary spent  
7 nuclear fuel storage agreement is submitted, the imple-  
8 menting bill shall be introduced in that House, as provided  
9 in the preceding sentence, on the first day thereafter on  
10 which that House is in session. Such bills shall be referred  
11 by the Presiding Officers of the respective Houses to the  
12 appropriate committee, or, in the case of a bill containing  
13 provisions within the jurisdiction of two or more commit-  
14 tees, jointly to such committees for consideration of those  
15 provisions within their respective jurisdictions.

16 (d) AMENDMENTS PROHIBITED.—No amendment to  
17 an implementing bill or approval resolution shall be in  
18 order in either the House of Representatives or the Sen-  
19 ate; and no motion to suspend the application of this sub-  
20 section shall be in order in either House, nor shall it be  
21 in order in either House for the Presiding Officer to enter-  
22 tain a request to suspend the application of this subsection  
23 by unanimous consent.

24 (e) PERIOD FOR COMMITTEE AND FLOOR CONSIDER-  
25 ATION.—

1           (1) Except as provided in subsection (e)(2), if  
2           the committee or committees of either House to  
3           which an implementing bill or approval resolution  
4           has been referred have not reported it at the close  
5           of the 45th day after its introduction, such com-  
6           mittee or committees shall be automatically dis-  
7           charged from further consideration of the bill or res-  
8           olution and it shall be placed on the appropriate cal-  
9           endar. A vote on final passage of the bill or resolu-  
10          tion shall be taken in each House on or before the  
11          close of the 15th day after the bill or resolution is  
12          reported by the committee or committees of that  
13          House to which it was referred, or after such com-  
14          mittee or committees have been discharged from fur-  
15          ther consideration of the bill or resolution. If prior  
16          to the passage by one House of an implementing bill  
17          or approval resolution of that House, that House re-  
18          ceives the same implementing bill or approval resolu-  
19          tion from the other House, then—

20                   (A) the procedure in that House shall be  
21                   the same as if no implementation bill or ap-  
22                   proval resolution had been received from the  
23                   other House, but

1 (B) the vote on final passage shall be on  
2 the implementing bill or approval resolution of  
3 the other House.

4 (2) For purposes of computing a number of  
5 days in either House as provided for in subsection  
6 (e)(1), there shall be excluded any day on which that  
7 House is not in session.

8 (3) If the implementing bill contains one or  
9 more revenue measures—

10 (A) the provisions of subsection (e)(1)  
11 shall not apply; and

12 (B) the Senate shall not take final action  
13 on the bill until it is received from the House.

14 (f) FLOOR CONSIDERATION IN THE HOUSE.—

15 (1) A motion in the House of Representatives  
16 to proceed to the consideration of an implementing  
17 bill or approval resolution shall be highly privileged  
18 and not debatable. An amendment to the motion  
19 shall not be in order, nor shall it be in order to move  
20 to reconsider the vote by which the motion is agreed  
21 to or disagreed to.

22 (2) Debate in the House of Representatives on  
23 an implementing bill or approval resolution shall be  
24 limited to not more than 10 hours, which shall be  
25 divided equally between those favoring and those op-

1       posing the bill or resolution. A motion further to  
2       limit debate shall not be debatable. It shall not be  
3       in order to move to recommit an implementing bill  
4       or approval resolution or to move to reconsider the  
5       vote by which an implementing bill or approval reso-  
6       lution is agreed to or disagreed to.

7               (3) Motions to postpone, made in the House of  
8       Representatives with respect to the consideration of  
9       an implementing bill or approval resolution, and mo-  
10      tions to proceed to the consideration of other busi-  
11      ness, shall be decided without debate. If a motion to  
12      proceed to consideration is agreed to, such resolution  
13      shall remain unfinished business of House until dis-  
14      posed of.

15              (4) All appeals from the decisions of the Chair  
16      relating to the application of the Rules of the House  
17      of Representatives to the procedure relating to an  
18      implementing bill or approval resolution shall be de-  
19      cided without debate.

20              (5) Except to the extent specifically provided in  
21      the preceding provisions of this subsection, consider-  
22      ation of an implementing bill or approval resolution  
23      shall be governed by the Rules of the House of Rep-  
24      resentatives applicable to other bills and resolutions  
25      in similar circumstances.

1 (g) FLOOR CONSIDERATION IN THE SENATE.—

2 (1) A motion in the Senate to proceed to the  
3 consideration of an implementing bill or approval  
4 resolution shall be privileged and not debatable. An  
5 amendment to the motion shall not be in order, nor  
6 shall it be in order to move to reconsider the vote  
7 by which the motion is agreed to or disagreed to.

8 (2) Debate in the Senate on an implementing  
9 bill or approval resolution, and all debatable motions  
10 and appeals in connection therewith, shall be limited  
11 to not more than 10 hours. The time shall be equally  
12 divided between, and controlled by, the majority  
13 leader and the minority leader or their designees.

14 (3) Debate in the Senate on any debatable mo-  
15 tion or appeal in connection with an implementing  
16 bill or approval resolution shall be limited to not  
17 more than 1 hour, to be equally divided between,  
18 and controlled by, the mover and the manager of the  
19 bill or resolution, except that in the event the man-  
20 ager of the bill or resolution is in favor of any such  
21 motion or appeal, the time in opposition thereto  
22 shall be controlled by the minority leader or his des-  
23 ignee. Such leaders, or either of them, may, from  
24 time under their control on the passage of an imple-  
25 menting bill or approval resolution, allot additional

1 time to any Senator during the consideration of any  
2 debatable motion or appeal.

3 (4) A motion in the Senate to further limit de-  
4 bate is not debatable. A motion to recommit an im-  
5 plementation bill or approval resolution is not in  
6 order.

7 **SEC. 3212. CONTRACTING AND NUCLEAR WASTE FUND.**

8 Section 302 of the Nuclear Waste Policy Act of 1982  
9 (42 U.S.C. 10222) is amended—

10 (1) in subsection (a)(1), by adding at the end  
11 the following:

12 “For any civilian nuclear power reactor a license ap-  
13 plication for which is filed with the Commission, pursuant  
14 to its authority under section 103 or 104 of the Atomic  
15 Energy Act of 1954, after the date of enactment of this  
16 Act, contracts entered into under this section shall—

17 “(A) except as provided in subsections  
18 302(a)(1)(B), (C), (D), and (E), below, be gen-  
19 erally consistent with the terms and conditions  
20 of the ‘Standard Contract for Disposal of Spent  
21 Nuclear Fuel and/or High-Level Radioactive  
22 Waste,’ as codified at 10 C.F.R. Part 961 and  
23 in effect on January 1, 2007;

1           “(B) provide for the taking of title to, and  
2           for the Secretary to dispose of, the high-level  
3           waste or spent nuclear fuel;

4           “(C) contain no provisions providing for  
5           adjustment of the 1.0 mil per kilowatt-hour fee  
6           established by paragraph (2);

7           “(D) be entered into no later than 60 days  
8           following the docketing of the license applica-  
9           tion by the Commission, or the date of enact-  
10          ment of this Act, whichever is later;

11          “(E) provide that, on a schedule consistent  
12          with the Secretary’s acceptance of spent nuclear  
13          fuel from each civilian nuclear power reactor or  
14          site, and completed not later than the Sec-  
15          retary’s completing the acceptance of all spent  
16          nuclear fuel from that commercial nuclear  
17          power reactor or site, the Secretary shall accept  
18          from each such reactor or site, all low-level ra-  
19          dioactive waste defined in section 3(b)(1)(D) of  
20          the Low-level Radioactive Waste Policy Act, as  
21          amended, 42 U.S.C. 2021c(b)(1)(D).”; and

22          (2) in subsection (a)(4), by striking all after  
23          “herein.” in the second sentence; and

24          (3) in subsection (a)(6), by adding at the end  
25          the following:

1           “Further, the Secretary shall offer to settle any ac-  
2 tions pending on the date of enactment of this Act for  
3 damages resulting from failure to commence accepting  
4 spent nuclear fuel or high-level radioactive waste on or be-  
5 fore January 31, 1998. Each offer to settle shall provide  
6 for the payment of \$150 to the other party to a contract  
7 for disposal of spent nuclear fuel and high-level radioactive  
8 waste for each kilogram of spent nuclear fuel which such  
9 party was or shall be entitled to deliver to the Department  
10 in a particular year, based on the following aggregate ac-  
11 ceptance rates: 400 MTU for 1998; 600 MTU for 1999;  
12 1,200 MTU for 2000; 2,000 MTU for 2001; and 3,000  
13 MTU for 2002 and thereafter; provided that the Secretary  
14 shall adjust the payment amount per kilogram of spent  
15 nuclear fuel under this subsection (a)(6) annually accord-  
16 ing to the most recent Producer Price Index published by  
17 the Department of Labor. Such aggregate acceptance  
18 rates shall be allocated among parties to contracts with  
19 the United States based upon the age of spent nuclear  
20 fuel, as measured by the date of the discharge of such  
21 spent nuclear fuel from the civilian nuclear power reactor.  
22 Such offer to settle also shall include an annual payment  
23 of the amount to be determined by the Secretary of En-  
24 ergy to any such party where a civilian nuclear power reac-  
25 tor has been decommissioned, except for those portions of

1 the facility that cannot be decommissioned until removal  
2 of spent nuclear fuel and high-level radioactive waste. The  
3 Secretary also shall offer like compensation to parties to  
4 contracts entered into pursuant to section 302 of the Nu-  
5 clear Waste Policy Act of 1982 (42 U.S.C. 10222) who  
6 brought actions for damages prior to the date of enact-  
7 ment of this Act, but which were no longer pending as  
8 of said date, provided that such compensation shall be re-  
9 duced by the amount of any settlement or judgment re-  
10 ceived by such party.”; and

11 (4) in subsection (d), by adding at the end the  
12 following:

13 “No amount may be expended by the Secretary from  
14 the Waste Fund to carry out research and development  
15 activities on advanced nu-clear fuel cycle technologies.”.

16 **SEC. 3213. CONFIDENCE IN AVAILABILITY OF WASTE DIS-**  
17 **POSAL.**

18 (a) CONGRESSIONAL DETERMINATION.—The Con-  
19 gress finds that—

20 (1) there is reasonable assurance that high-level  
21 radioactive waste and spent nuclear fuel generated  
22 in reactors licensed by the Nuclear Regulatory Com-  
23 mission in the past, currently, or in the future will  
24 be managed in a safe manner without significant en-

1        vironmental impact until capacity for ultimate dis-  
2        posal is available; and

3            (2) the Federal Government is responsible and  
4        has an established a policy for the ultimate safe and  
5        environmentally sound disposal of such high-level ra-  
6        dioactive waste and spent nuclear fuel.

8        standing any other provision of law, for the period fol-  
9        lowing the licensed operation of a civilian nuclear power  
10       reactor or any facility for the treatment or storage of  
11       spent nuclear fuel or high-level radioactive waste, no con-  
12       sideration of the public health and safety, common defense  
13       and security, or environmental impacts of the storage of  
14       high-level radioactive waste and spent nuclear fuel gen-  
15       erated in reactors licensed by the Nuclear Regulatory  
16       Commission in the past, currently, or in the future, is re-  
17       quired by the Department of Energy or the Nuclear Regu-  
18       latory Commission in connection with the development,  
19       construction, and operation of, or any permit, license, li-  
20       cense amendment, or siting approval for, a civilian nuclear  
21       power reactor or any facility for the treatment or storage  
22       of spent nuclear fuel or high-level radioactive waste. Noth-  
23       ing in this section shall affect the Department of Energy's  
24       and Nuclear Regulatory Commission's obligation to con-  
25       sider the public health and safety, common defense and

1 security, and environmental impacts of storage during the  
2 period of licensed operation of a civilian nuclear power re-  
3 actor or facility for the treatment or storage of spent nu-  
4 clear fuel or high-level radioactive waste.

5 **SEC. 3214. LIMITATION ON USE OF FUNDS.**

6 None of the funds authorized by this Act may be used  
7 to improve or build any temporary storage or spent nu-  
8 clear fuel and high-level radioactive waste disposal facility  
9 in a State previously recommended for repository develop-  
10 ment under Public Law 97-425.

17 under Federal law for a covered energy project is  
18 deemed approved upon the expiration of the 6-month  
19 period beginning on the date of the submittal of a

## 4 **TITLE IV—JOB CREATION**

### 5 **SEC. 4001. SENSE OF CONGRESS.**

6 (a) FINDINGS.—Congress finds the following:

7 (1) A comprehensive energy policy would en-  
8 hance the national security of the United States in  
9 two ways, by reducing our dependency on foreign  
10 sources of fuel and by simultaneously creating tens  
11 of millions of jobs over the next few decades.

12 (2) Opening the full Outer Continental Shelf to  
13 energy production would create 36 million jobs over  
14 the next 30 years.

15 (3) Despite its distance from the continental  
16 United States, the opening of just 2,000 acres of  
17 land in the Arctic Coastal plain of Alaska is enough  
18 to supply up to an additional million jobs throughout  
19 the Nation. Millions more jobs will be created in sec-  
20 tors of the economy that make our traditional  
21 sources of energy more efficient and clean.

22 (4) Despite the progress being made in the de-  
23 velopment of new and renewable energy sources and  
24 technologies, for the foreseeable future, there are no  
25 viable substitutes for the widely available, affordable

1 petroleum resources located within the United  
2 States.

3 (5) While support must be given to continue to  
4 encourage the development of alternative energy  
5 sources, Congress must embrace a comprehensive  
6 energy policy that understands fossil fuels will con-  
7 tinue to play a significant role in our energy policy  
8 for at least several more generations.

9 (6) By doing so, the United States will embrace  
10 a realistic plan to reduce our dependency on foreign  
11 sources of energy and ensure our economic security.

12 (b) SENSE OF CONGRESS.—It is the sense of Con-  
13 gress that a comprehensive energy policy that promotes  
14 conservation, production, and innovation will consequently  
15 lead to massive long-term job creation.
