MEMORANDUM

FROM: Raymond Hall, Budget Analysis Division
Victoria Fraider, Budget Analysis Division

SUBJECT: Selected Weapons Costs for the President's 1995 Program

The attached tables show the amounts programmed by the Administration for various weapons. The primary sources for the budget authority and number of weapons (quantities) are the Congressional Data Sheets (CDS) and the Selected Acquisition Reports (SAR), which the Department of Defense submitted to the Congress in February 1994; the source for each weapon is noted parenthetically after the weapon's name. The outlays were estimated using the Congressional Budget Office's outlay rates. Those rates are the same as the Administration's rates in most cases. All costs are in millions of current dollars. Details in the tables may not add to totals because of rounding.

The tables are organized by service. Data on Army weapons start on page **A-1**, Navy and Marine Corps data on page **N-1**, and Air Force data on page **F-1**. Joint service or DoD programs are included at the end, starting on page **J-1**.

Questions should be directed to Raymond Hall or Victoria Fraider at (202) **226-2840**.
