

CONGRESSIONAL BUDGET OFFICE
COST ESTIMATE

May 24, 2010

S. 3372

**A bill to modify the date on which the Administrator of the
Environmental Protection Agency and applicable states
may require permits for discharges on certain vessels**

*As ordered reported by the Senate Committee on Environment and Public Works
on May 20, 2010*

Under current law, permit requirements related to certain discharges from fishing vessels and nonrecreational vessels less than 79 feet in length will become effective on July 31, 2010. S. 3372 would extend that date until December 18, 2013. CBO estimates that enacting this legislation would have no significant budgetary effect.

Pay-as-you-go procedures do not apply to this legislation because it would not affect direct spending or revenues.

S. 3372 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is Susanne S. Mehlman. This estimate was approved by Theresa Gullo, Deputy Assistant Director for Budget Analysis.
