The Honorable George Miller
Chairman, Committee on Education and Labor
2205 Rayburn House Office Building
United States House of Representatives
Washington, D.C. 20515

Dear Chairman Miller,

I commend you for your success in introducing the Improving Nutrition for America's Children Act. This robust and responsible piece of legislation will make significant strides in curbing childhood hunger, one of the most urgent problems facing the growth and development of our nation's children today. Provisions in the bill that improve nutrition in our schools and expand access to more low-income children are the right steps towards meeting President Obama's goal of ending child hunger in our country by 2015.

I look forward to working with you and your colleagues to ensure that this bill becomes a reality and that significant and responsible investments are made to ensure our youngsters have the healthy food they need to thrive. I can envision no other greater priority than ensuring our children grow up in a society without hunger.

All the Best,

Ambassador Tony P. Hall
Director
The Alliance to End Hunger
