

Military Construction

The following appropriations for Oregon are being considered for inclusion in the Military Construction, Veterans Affairs and Related Agencies appropriations bill for fiscal year 2011.

Washington County Field Maintenance Shop (FMS) - \$11,376,000

Oregon Military Department (OMD), Hillsboro, OR

This project will design and construct a new 21,000 square foot Field Maintenance Shop (FMS).

The Dalles Readiness Center PROJ # 410026 - \$19,092,560

Oregon Military Department (OMD), The Dalles, OR

Replace the existing armory in The Dalles to accommodate Company A (-) of the 3-116 Rifle Cavalry.

Joint Force Headquarters Addition/Alteration PROJ # 410301 - \$21,285,000

Oregon Military Department (OMD), Salem, OR

Design and construct the addition/alteration of 134,361 square feet at the Joint Forces Headquarters (JFHQ) for the Oregon Military Department.

Alert Aircraft Shelter - \$3,900,000

142d Fighter Wing, Portland, Oregon

This project constructs a third alert aircraft shelter within the Alert Aircraft Area (AAA) at the Portland Air National Guard base. Our current situation has an alert fighter aircraft loaded with live munitions geographically separated from the AAA. This spare aircraft is required to meet Operation Noble Eagle mission requirements. To utilize this aircraft as a primary or a spare during an alert scramble, we have to load up one pilot and 2 crew chiefs into a truck, and move them to the alert aircraft located approximately a quarter mile away. All other ASA alert sites have the spare located next to the primary aircraft. This separation does not allow the appropriate time for alert crews to change to the spare jet and make their required launch time. With the current higher headquarters timing criteria this is unacceptable.

Replace Fire Station - \$8,300,000

173d Fighter Wing, Kingsley Field, OR

Construct a 19,050 square foot fire station.

Washington County Readiness Center PROJ # 410093 - \$15,478,000

Oregon Military Department (OMD), Hillsboro, OR

Replace the existing armory in Hillsboro, Oregon to adequately accommodate units of D Company 2 Battalion of the 162 Infantry Regiment.

Klamath Falls AFRC/Security Forces Building - \$12,858,000 (ARNG) \$6,480,000 (ANG)

Oregon Military Department (OMD), Klamath Falls, OR

This project will replace both the Klamath Falls Armory built in 1956 and a building at Kingsley Field built in 1959 with a new readiness center and force protection building to accommodate both C Troop of the 1-82 Cavalry Squadron Dismounted Scouts and 173d Security Force Squadron.

Josephine County Field Maintenance Shop - \$12,146,000

Oregon Military Department (OMD), Grants Pass, OR

Design and construct a new 21,358 square foot Field Maintenance Shop (FMS)

Camp Rilea Infrastructure (Waste Water Treatment Plant) - \$3,608,000

Oregon Military Department (OMD), Warrenton, OR

The purpose of the project is to improve the wastewater treatment plant providing sanitary sewer treatment for Camp Rilea's resident and emergency populations. The project needs to be completed to meet current and future demand, comply with federal and state environmental laws.

Tolbert Bridge, Clackamas (Defense Access Roads (DAR) - \$23,605,000

Oregon Military Department (OMD), Clackamas, OR

The purpose of the project is to design and construct a new 200 feet long and 70 feet wide railroad overpass and 1,000 lineal feet of a 50 feet wide road network to a new Camp Withycombe main entrance. This project will mitigate the significant increase in traffic on Clackamas County and State of Oregon roadways by providing a transportation network to a new main entrance to Camp Withycombe. The national significance of this project is providing facilities to maintain the mobilization readiness of the Oregon National Guard in support of the Global War on Terrorism and the capability for soldiers and assigned equipment to respond when called upon by the Governor of the State of Oregon or the President of the United States of America for any contingency.

Camp Withycombe Infrastructure - \$15,757,000

Oregon Military Department (OMD), Clackamas, OR

The project will provide adequate infrastructure utilities to support existing and future construction. This project will provide the full range of utility needs to the installation including sanitary sewer, storm sewer, power, communication, data, traffic circulation, secure perimeter, water, and gas services. Upgrading the infrastructure will provide a more efficient, energy and water saving system.
