

1 would have to pay for crude oil in the absence
2 of such a waiver; and

3 (C) will not lead to higher gasoline costs to
4 consumers than consumers would have to pay
5 in the absence of such a waiver.

6 (2) Where crude oil is refined in an adjacent
7 foreign country and consumed therein in exchange
8 for the same quantity of crude oil being consumed
9 in the United States.

10 (3) Where a waiver is necessary under the Con-
11 stitution, a law, or an international agreement.
