

Throughout its history, the Conference has been a vocal supporter for continued Congressional attention in meeting the nation's water-related needs, including navigation, flood damage reduction and risk management, environmental restoration, hydroelectric power, recreation, and water supply.

The Conference is guided by its purpose of promoting better understanding of the public value of the American waterways system, and to document the importance of far-sighted navigation and water resources policies to a sound economy, industrial and agricultural productivity, regional development, environmental quality, energy conservation, international trade, defense preparedness, and the overall national interest.

The Committee on Transportation and Infrastructure, understands the importance of the nation's waterways in preserving both the economic and environmental health and prosperity of the nation. Water is our common heritage. America's greatest population centers are cities because they have ports. Seventy-five percent of the nation's population lives along the water, either on the coasts or the inland waterways. Despite the relative scarcity of potable water supplies, generations of Americans have taken water for granted. For most Americans, the only time to think about water is when there is too much or not enough. Today, our nation and the world face significant water resources challenges; yet, there are clear signs that water-use is not being properly used or planned at home or throughout the world.

For over a century, the U.S. Army Corps of Engineers (Corps) has served our nation well in investigating and addressing our most critical water resources challenges. Whether it is the construction and maintenance of our coastal and inland navigation systems, protecting the lives and livelihoods of our constituents from flooding or coastal storms, or restoring some of the nation's greatest natural treasures, such as Yellowstone National Park or the Everglades, the nation has relied on its premier water-resources related agency, the Corps, to meet its current and future challenges.

The Committee on Transportation and Infrastructure, is a vital partner to that effort. It is through the periodic enactment of a water resources development act that Congress provides direction to the Corps to meet both the current and future water resources challenges of the nation, including authorizing critical navigation, flood damage reduction, environmental restoration projects, and studies carried out by the Corps.

Following the successful enactment of the Water Resources Development Act of 2007 (P.L. 110-114), the Democratic and Republican leadership of the Committee on Transportation and Infrastructure committed to enactment of a water resources development act every Congress.

Throughout its history, these water resources development acts have provided the Corps with the authority to carry out nationally significant projects that have improved the economic prosperity of the nation, have protected its citizenry from the threat of flooding and coastal storms, and have put in place restoration efforts for many of America's natural treasures.

Throughout this effort, the National Waterways Conference has been a vocal advocate

for regular authorization of water resources development acts. In the view of the Conference, regular consideration of such laws, such as that taken by our Committee in support of H.R. 5892, the "Water Resources Development Act of 2010", is "essential to the nation's environmental well-being and our economic vitality." I applaud the valuable role that the Conference has played in the formation of water resources laws, and commend them for bringing the often-competing views of the various waterway users to the forefront of the debate on nationally significant water resources policies.

I also commend the Conference for its vocal support for funding of the Corps of Engineers in the American Recovery and Reinvestment Act (P.L. 111-5). Under the Recovery Act, Congress provided \$4.6 billion to the Corps to address both a significant portion of its backlog of operation and maintenance needs, as well as plan and begin construction of the next-generation of water-related infrastructure.

According to the Corps, as of August 31, more than 92 percent of the \$4.6 billion is under obligation, with the remainder likely to be obligated by the end of the fiscal year. By almost all accounts, this investment of \$4.6 billion has been a huge success in meeting the water-related infrastructure needs of the nation. I applaud the foresight of the National Waterways Conference in its advocacy for this effort.

Mr. Speaker, I commend the Conference for its commitment to meeting the water-resources-related challenges of the nation, and for marking its 50th anniversary.

I urge my colleagues to join me in supporting H. Res. 1639.

Mr. HARE. Mr. Speaker, I rise today to ask my colleagues to join me in recognizing the 50th anniversary of the National Waterways Conference.

I would like to begin by thanking Chairman JIM OBERSTAR of the Transportation and Infrastructure Committee for his support of the National Waterways Conference and for cosponsoring this resolution.

I am proud to have introduced H. Res. 1639 because the National Waterways Conference has worked tirelessly since 1960 in educating the public and elected officials about the importance of our nation's inland waterways system. The Conference reaches all corners of inland waterways, the Great Lakes, and coastal stakeholders because it consists of a diverse group of professionals who all work toward a common goal: utilizing the waterways in an efficient and responsible manner, while being accountable to the environment in and around our waters.

The Conference has also worked closely with the U.S. Army Corps of Engineers in planning valuable economic and environmental water-based projects in nearly every geographic region of the U.S. and territories. For example, in the 17th District of Illinois, the Sny Island Levee District and the Upper Mississippi, Illinois and Missouri Rivers Association have for years worked to ensure that Congress does not forget about the catastrophic flooding in the Midwest, and they have advocated for maximizing urgently needed flood protection and flood control. The Corps in turn has closely studied and crafted a plan for protecting the Upper Mississippi River Valley communities. The Conference and Corps complement each other extremely well.

In addition to recognizing and commending the Conference, the resolution recognizes the solid commitment and excellent work done by the Corps of Engineers—the nation's premier waterways infrastructure operators, designers and builders. The Corps is responsible for waterways navigation, flood damage reduction, and environmental restoration for more than 11,000 miles of channels in 41 States, in addition to the important role it plays in supporting our troops.

I believe it is in the best interest of the American people that the National Waterways Conference continues to work with the Congress, the Corps' Civil Works Division, and local communities because of its expertise in planning for a sound economy, industrial and agricultural productivity, regional development, environmental quality, energy conservation, international trade, and national defense preparedness.

Mr. Speaker, I know the National Waterways Conference will have another successful 50 years advocating for improvements to our nation's water infrastructure. I would like to thank the National Waterways Conference for all of their hard work, and I wish them the best of luck in their next chapter.

I urge all of my colleagues to support passage of this bill.

Mr. MARIO DIAZ-BALART of Florida. Mr. Speaker, I yield back the balance of my time.

Mr. SCHAUER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Michigan (Mr. SCHAUER) that the House suspend the rules and agree to the resolution, H. Res. 1639.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

#### WINSTON E. ARNOW FEDERAL BUILDING

Mr. SCHAUER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4387) to designate the Federal building located at 100 North Palafox Street in Pensacola, Florida, as the "Winston E. Arnow Federal Building".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 4387

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. DESIGNATION.

The Federal building located at 100 North Palafox Street in Pensacola, Florida, shall be known and designated as the "Winston E. Arnow Federal Building".

#### SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the Federal building referred to in section 1 shall be deemed to be a reference to the "Winston E. Arnow Federal Building".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Michigan (Mr. SCHAUER) and the gentleman from Florida (Mr. MARIO DIAZ-BALART) each will control 20 minutes.

The Chair recognizes the gentleman from Michigan.

GENERAL LEAVE

Mr. SCHAUER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 4387.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. SCHAUER. Mr. Speaker I yield myself such time as I may consume.

I would urge the adoption of this resolution, and I reserve the balance of my time.

Mr. MARIO DIAZ-BALART of Florida. I yield myself such time as I may consume.

Mr. Speaker, I would like to take this opportunity to thank Congressman MILLER of Florida for his leadership and hard work on this bill to correct the designation of this building, which was named after Judge Arnow.

Now, we could say so much about the judge, but Mr. Speaker, I would just like to highlight one part of his career, which is something I try to do whenever possible whenever anybody serves in the Armed Forces of the United States of America. I think, as much as his record is meritorious, it is something I always like to highlight.

Judge Arnow was in the private practice of law, but he also served as a U.S. Army major in the JAG Corps during World War II and served as a municipal judge in Gainesville, Florida. Again, I could go on and on, but I always try to highlight when someone has a military career in order to make sure that it is something we will never forget.

Mr. OBERSTAR. Madam Speaker, I rise in support of H.R. 4387, a bill to designate the Federal building located at 100 North Palafox Street in Pensacola, Florida, as the "Winston E. Arnow Federal Building".

Winston Eugene Arnow was an American lawyer and judge of the United States District Court for the Northern District of Florida. He practiced civil rights law in Gainesville before he was appointed to the Federal bench by President Johnson. His name is now synonymous with the momentous civil rights period from 1969 to 1978 in Northwest Florida when he followed the U.S. Supreme Court mandates to ensure the election of African Americans, public school desegregation, and improved prison conditions in the Escambia County jail.

Judge Arnow served as the chief judge of the Northern District of Florida, stretching from Pensacola to Gainesville, from 1969 until 1981. In 1969, Arnow ordered the Escambia County School District desegregated. In 1972, he presided over the trial of the Gainesville Eight, a group of anti-Vietnam War activists who were indicted on charges of conspiracy to disrupt the 1972 Republican National Convention in Miami Beach, Florida. All eight were acquitted.

Judicial authorities and officials viewed Judge Arnow as "all integrity," ignoring criticism by doing what he thought was the right and proper thing to do to protect civil liberties. He believed firmly in the U.S. Constitution and followed the statutes and higher court deci-

sions to the letter. Judge Arnow was a man of strong moral character, and conducted his court proceedings based on fairness and courtesy. He was a courageous trial judge and dedicated public servant. It is both fitting and proper that we honor his public service with this designation.

I urge my colleagues to join me in supporting H.R. 4387.

Mr. MARIO DIAZ-BALART of Florida. I yield back the balance of my time.

Mr. SCHAUER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Michigan (Mr. SCHAUER) that the House suspend the rules and pass the bill, H.R. 4387.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

RAY DAVES AIR TRAFFIC CONTROL TOWER

Mr. SCHAUER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5591) to designate the facility of the Federal Aviation Administration located at Spokane International Airport in Spokane, Washington, as the "Ray Daves Air Traffic Control Tower," as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 5591

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. DESIGNATION.**

*The airport traffic control tower located at Spokane International Airport in Spokane, Washington, and any successor airport traffic control tower at that location, shall be known and designated as the "Ray Daves Airport Traffic Control Tower".*

**SEC. 2. REFERENCES.**

*Any reference in a law, map, regulation, document, paper, or other record of the United States to the airport traffic control tower referred to in section 1 shall be deemed to be a reference to the "Ray Daves Airport Traffic Control Tower".*

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Michigan (Mr. SCHAUER) and the gentleman from Florida (Mr. MARIO DIAZ-BALART) each will control 20 minutes.

The Chair recognizes the gentleman from Michigan.

GENERAL LEAVE

Mr. SCHAUER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 5591.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. SCHAUER. I yield myself such time as I may consume.

Mr. Speaker, I support H.R. 5591, and I urge support of this bill.

I reserve the balance of my time.

□ 1910

Mr. MARIO DIAZ-BALART of Florida. I yield myself such time as I may consume.

Mr. Speaker, I also rise in support of H.R. 5591, introduced by my colleague from Washington, Representative MCMORRIS RODGERS, which, as the gentleman has just said, designates the airport traffic control tower located at Spokane International Airport as the Ray Daves Air Traffic Control Tower.

Again, I urge all our colleagues to also support it.

Mr. OBERSTAR. Mr. Speaker, I rise in support of H.R. 5591, as amended, introduced by the gentleman from Washington (Mrs. MCMORRIS RODGERS), which designates the airport traffic control tower located at Spokane International Airport in Spokane, Washington, as the "Ray Daves Air Traffic Control Tower".

The air traffic controllers in Spokane, Washington, were so inspired by the biography of Ray Daves, a World War II radioman and civilian air traffic controller, that they began urging to have the airport traffic control tower where he had worked named after him.

Ray Daves was a radioman for the U.S. Navy during World War II. He survived the bombing of Pearl Harbor. During the attack, he carried ammunition to a machine gun on the second-story roof of the U.S. Pacific Fleet Headquarters on Oahu, Hawaii. Later, Daves volunteered for service aboard the USS *Yorktown* aircraft carrier, where he was assigned to the emergency radio room. He was present during the Battle of the Coral Sea and the sinking of *Yorktown* during the Battle of Midway in 1942.

During the rest of World War II, Daves served his country in Alaska as a radioman at Cold Bay, Alaska, for the U.S. Navy's air fields in the Aleutian Islands and flew "second seat" as gunner for aerial search-and-destroy missions against Japanese submarines in Alaskan waters. He also served as a liaison for the Soviet Air Force pilots who acquired U.S. bombers and fighter planes for the war in Europe. Daves taught at the Navy's school for radiomen in Gulfport, Mississippi, from 1945 until the end of the war.

When the war was over, Daves became a civilian air traffic controller at Geiger Field, later known as the Spokane International Airport in Spokane, Washington. He worked as an air traffic controller there for almost 30 years (from 1946 to 1974). Currently, Daves volunteers by educating other veterans about the Honor Flight program, which helps World War II veterans visit the memorial in their honor located in Washington, DC.

I urge my colleagues to join me in supporting H.R. 5591.

Mrs. MCMORRIS RODGERS. Mr. Speaker, I rise today in strong support of H.R. 5591, to designate the Federal Aviation Administration facility at the Spokane International Airport in Spokane, Washington, as the "Ray Daves Air Traffic Control Tower." I thank Chairman OBERSTAR and Ranking Member MICA for bringing the bill to the floor today.

As the sponsor of this bill, it is with great pride I stand here today. Ray Daves is a Purple Heart recipient and Pearl Harbor survivor who served our nation aboard the USS *Yorktown* throughout the Pacific during World War II.
