HIGHLIGHTS OF THE BILL

The Committee recommends \$3,341,401,898 in discretionary resources for operations of the Legislative Branch of government (excluding Senate items). The fiscal year 2016 recommendation is the same as the current fiscal year level and is a decrease of \$172,291,202 below the budget request as amended.

Conforming to longstanding practice under which each body of Congress determines its own housekeeping requirements and the other concurs without intervention, funds for the Senate are not included in the bill as reported to the House. The budget request for the Senate for fiscal year 2016 including those under the Architect of the Capitol totals \$1,015,150,816 as amended.

This bill reflects a continued acknowledgment that the Legislative Branch must set itself as an example for fiscal restraint while continuing to serve the Nation. This bill will require strict fiscal discipline on the part of all congressional offices and all agency heads in the Legislative Branch.

LEGISLATIVE BRANCH-WIDE MATTERS

Zero Base Budgeting.—The Committee continues to be very pleased with the results of the zero-base budgeting exercise directed to be conducted by all the agencies of the Legislative Branch. The Committee believes that this valuable budgeting process has given agencies the opportunity to take a fresh look at all areas of their operations and make funding reductions and alignments within the current budget base. The Committee believes that there are continued opportunities to realize meaningful savings by

carefully reviewing each agency's budget requirements from a zero base and directs all agencies to continue to develop budget requests from a zero base.

Committee Requests, Furloughs and Performance Based Merit Increases.—The Committee directs that adherence to the language carried in House Reports 112–148, 112–511 and 113–417 pertaining to Committee Requests and Furloughs to be continued unless otherwise so directed. Performance Based Merit Increases are not to exceed the maximum allowable for agencies with a certified SES performance appraisal system.

Shared Services Report.—House Report 113–417 directed the Legislative Branch Financial Managers Council (LBFMC) to prepare a report on the feasibility of shared services between the agencies of the Legislative Branch. The report provided many issues to be considered by the Committee regarding shared services and the Committee acknowledges the excellent work of the (LBFMC) members for their work on this report.

Cyber Security/Information Sharing.—The Committee has concerns regarding the potential of cyber security attacks from not only enemies abroad but domestically. The Legislative Branch agencies are not immune to such attacks. Almost daily there are reports of not only government agency attacks but attacks on our large financial institutions, health providers, and large and small retail operations. The Committee directs the Chief Information Officers (CIO's) to all work together in a collaborative manner by sharing technology information, in such areas as best practices/lessons learned, and potential pitfalls of any new information technology initiatives especially in the cyber security area. Sharing of such information should not only strengthen the position of the Legislative Branch but should avoid the potential of systems and processes that have not proven themselves but should also achieve financial savings.

Cloud Technology.—In late 2014 the Government Publishing Office began moving the agency's internal email system to the cloud. The GPO reported that this would simplify the agency's IT infrastructure, gain greater functionality, and enable faster upgrades for future enhancements. The Committee applauds the GPO on this effort. With the potential for faster service and financial savings the Committee directs that all agencies consider such a change within their individual IT operations, not only for internal mail, but also other IT applications.

The Committee recommends \$36,589,000 for the care and maintenance of the Library buildings and grounds. This amount is \$5,591,000 below the fiscal year 2015 level and is \$29,212,000 below the budget request.

The Committee is very concerned with the amount of time it has taken to begin construction of the Library of Congress Book Module 5 at the Fort Meade facility. In September 2013 the Committee provided \$1.2 million dollars towards the cost of Module 5. It was not until July 2014 that the Architect of the Capitol began what is called “Design Re-Fresh Phase” of the project some ten months after the funding became available.

In January 2014 the Committee provided an additional \$18.2 million dollars to complete construction of Module 5 and according to the latest project time line construction is projected to begin in October 2015 with a projected completion date of October 2017. Thus, in summary from the beginning availability of funding for this project, September 2013, until the beginning of actual construction, October 2015, over two years will have elapsed. And from the first availability of funding until end of construction it will take over 4 years.

The Committee understands a “re-fresh” of the design of the project was required however, for 10 months to elapse without any action on the part of the AoC is unacceptable. The Committee expects the AoC to review the internal business operations of the AoC organization so as to never allow another lapse of time for any project to begin almost one year after the beginning of funding availability.

The recommendation supports an operating budget of \$24,943,000 and a project budget of \$11,646,000, including the following capital projects:

Appropriation, fiscal year 2015	\$19,159,000
Budget request, fiscal year 2016	28,247,000

The Committee recommends \$22,058,000 for Capitol Police buildings, grounds, and security. This amount is \$2,899,000 above the fiscal year 2015 level and is \$6,189,000 below the budget request.

The recommendation supports an operating budget of \$17,533,000 which reflects a reduction of \$600,000 for lease costs associated with the Alternate Computer Facility. In addition included is a project budget of \$4,525,000, including the following capital projects:

BOTANIC GARDEN

Appropriation, fiscal year 2015	\$15,573,000
Budget request, fiscal year 2016	12,113,000

The Committee recommends \$11,892,000 for salaries and expenses of the Botanic Garden. This amount is \$3,681,000 below the fiscal year 2015 level and is \$221,000 below the budget request.

The recommendation supports an operating budget of \$9,792,000 and a project budget of \$2,100,000, including the following capital projects:

Minor Construction	\$2,100,000
Total	\$2,100,000

Again the Committee congratulates the Botanic Garden on the accomplishments of its education and outreach programs, which have leveraged the Garden’s unparalleled expertise to provide unique educational opportunities. The Committee urges the Garden to continue forming partnerships with national and local organizations, and to utilize House Office Buildings for visitors and constituents, in order to advance educational goals.

CAPITOL VISITOR CENTER

Appropriation, fiscal year 2015	\$20,844,000
Budget request, fiscal year 2016	21,043,000
Recommended in the bill	20,557,000

The Committee recommends \$20,557,000 for the operation of the Capitol Visitor Center (CVC). This amount is \$287,000 below the fiscal year 2015 level and \$486,000 below the budget request.

There are no capital projects in fiscal year 2016.

The CVC was established to improve security for all persons working in or visiting the U.S. Capitol and to enhance the educational experience of visitors.

The Committee has some concerns with the cost of meals in the Capitol Visitor Center (CVC). Therefore, the Committee directs the Architect of the Capitol to review, in consultation with the Chief Administrative Officer of the House, the costs of meals in the CVC versus the House cafeterias and to make a proposed contract ad-

justment resulting in the ability of families to have a two meal option per day to eat in the CVC for approximately the same price as in the House cafeterias. The Architect of the Capitol is directed to report to the Committee on Appropriations of the House within 90 days of enactment of this Act the findings and the recommended changes.

ADMINISTRATIVE PROVISIONS

Section 1101 prohibits payment of bonuses to contractors behind schedule or over budget.

Section 1102 prohibits expenditure of funds for scrims for projects performed by the Architect of the Capitol.

Section 1103 authorizes acquisition of certain acreage at Fort George Meade from the Maryland State Highway Administration.

Section 1104 limits the obligation of funds provided for large scale projects pending an approved plan by the Comptroller General and the Committee on Appropriations of the House.

LIBRARY OF CONGRESS

The Committee recommends \$591,431,000 for the operations of the Library of Congress. This is \$33,071,000 below the budget request and is \$510,000 above the current level. In addition to the appropriation, the Committee recommends offsetting collections of \$42,127,000.

Established by Congress in 1800, the Library of Congress is one of the largest libraries in the world, with a collection of more than 130,000,000 print, audio, and video items in 460 languages. Among its major programs are acquisitions, preservation, administration of U.S. copyright laws by the Copyright Office, research and analysis of policy issues for the Congress by the Congressional Research Service, and administration of a national program to provide reading material to the blind and physically handicapped. The Library maintains a significant number of collections and provides a range of services to libraries in the United States and abroad.

A good business practice for any customer service organization is to periodically survey that customer base to determine if the products and services being provided are meeting the expectations of the customer. A proper survey can help the service provider to determine the strengths and weaknesses of the organization and what if any corrective action needs to be addressed. The Committee believes that such a survey of the Library's customer base would be beneficial. Therefore, the Committee directs the Library of Congress to commission an independent survey of all Members and committees of the House of Representatives to ascertain their fundamental and optimal requirements for services and support from the Library of Congress and especially the Congressional Research Service. A report and analysis of the survey results is to be provided to the Committees on Appropriations of the House no later than 180 days after enactment of this Act.

The Committee has serious concerns regarding the recent Government Accountability Office (GAO) report on the Information Technology (IT) of the Library of Congress. The examination of the Library IT operations by the GAO was undertaken at the request of the Committee. The Committee believed, as it does with any pro-

gram, a periodic examination of any agency’s operations and processes is the responsibility of good Government oversight. The current GAO report of the Library IT operations and the Copyright Office IT has provided a number of observations and recommendations for needed change in the overall Library IT operations. Although the recommendations are numerous, the Committee believes that the Librarian of Congress, the Register of Copyrights, and the Library management team can and will address each recommendation in a timely, collaborative, and methodical process that achieves positive results for the Library. The Committee will be working with the Library in the upcoming months to track the progress the Library makes on addressing the recommendations of the GAO reports. The Librarian, the Register of Copyrights, and the entire Library management team will be required to provide quarterly reports to the Committee on Appropriations of the House and Senate on objectives met, milestones reached and overall progress on addressing the GAO recommendations and be prepared to discuss the GAO report at the next budget cycle hearing.

SALARIES AND EXPENSES

Appropriation, fiscal year 2015	\$413,007,000
Budget request, fiscal year 2016	438,020,000
Recommended in the bill	413,007,000
Offsetting collections	6,350,000
	\$419,357,000

The Committee recommends \$413,007,000, plus authority to spend \$6,350,000 in receipts, for the salaries and expenses appropriation. This amount is \$25,013,000 below the budget request and is the same as the current level.

The Committee expects the Veterans History Project will be maintained at least at the fiscal year 2015 levels. Further, the Committee directs that the \$5,500,000 base provided for the mass deacidification program be maintained to the fullest extent possible.

COPYRIGHT OFFICE

Appropriation, fiscal year 2015	\$20,721,000
Budget request, fiscal year 2016	23,098,000
Recommended in the bill	21,231,000
Offsetting collections	35,777,000
	\$57,008,000

The Committee recommends \$21,231,000, plus authority to spend \$35,777,000 in receipts, for the Copyright Office. This is \$2,705,000 above the fiscal year 2015 level and is \$1,867,000 below the budget request. The increase above the current level is comprised of \$2,195,000 offset with increased authority to spend receipts and will fund the Copyright Office Registration staffing increase of 20 FTE’s. The balance of \$510,000 and 5 additional FTE’s will address copyright recordation business process reengineering.

The Committee continues to support the Copyright Office as reflected with the additional fiscal year 2015 funding that was provided to reduce the claims and process processing time for copyright registrations (\$750,000) and to conduct business analysis for the business process engineering of the document recordation func-

tion (\$1,500,000). The Committee fully understands the importance of the Copyright Office as it relates to creativity and commercial artistic activity not only within the United States but also on a world-wide basis. In order to serve the copyright owners and the copyright community in the 21st century, a robust modern information technology (IT) operation will be necessary. The \$1.5 million provided in fiscal year 2015 began the effort to determine the requirements for a modern IT environment. With the planning underway, the Committee directs the Register of Copyrights to report, to the Committee on Appropriation and relevant Authorizing Committees of the House on a detailed plan on necessary IT upgrades, with a cost estimate, that are required for a 21st century copyright organization. In addition to the cost estimate, the Register shall include recommendations on a funding strategy and a time frame for completion of a new IT system that is necessary to better serve the public in the digital age. The Register should seek public comments to help inform the Copyright Office with the funding strategy and implementation timeline. The cost estimate is to be provided to the Committee with 180 days of enactment of this Act with the funding strategy to be provided 45 days after public comments are received.

The Committee understands the Copyright Office has offered its expertise on copyright matters to the Executive Branch, including participation in international discussions, and expects the Office to continue that important role.

Budget request, fiscal year 2016	111,956,000

The Committee recommends \$50,248,000 for salaries and expenses of the National Library Service for the Blind and Physically Handicapped (NLS). This amount is \$1,180,000 below the budget request and is the same as the current level.

The NLS has successfully administered a free national reading program for blind and physically handicapped residents of the United States and U.S. citizens living abroad since 1931. NLS provides direction for the production of books and magazines in braille and recorded formats and audio playback machines for distribution through a nationwide network of 56 regional and 65 sub-regional libraries.

The Committee recognizes the importance of technology in ensuring that blind and physically handicapped United States residents

and citizens are afforded access to reading material in a timely manner. In order to preserve the National Library Service for the Blind and Physically Handicapped today and ensure it is prepared to meet the needs of future generations, the Committee directs the Government Accountability Office (GAO) to review the services provided by the National Library. This review should include, but is not limited to, a review of the NLS's user base, a comparison of services and playback equipment offered by the NLS to private sector services and technologies currently used by the blind and physically handicapped community, to include an evaluation of possible cost efficiencies in utilizing private sector technologies, availability of alternate distribution methods and other aspects of the NLS's services that the GAO deems relevant. The GAO is to prepare a report of its findings and report back to the Committee on Appropriations of the House and Senate no later than December 31, 2015.

Recommended in the bill	30,500,000

The Committee recommends \$30,500,000 for the salaries and expenses of the Public Information Programs of the Superintendent of Documents. This amount is \$1,000,000 below the fiscal year 2015 level and is the same as the budget request.

The Public Information Programs of the Superintendent of Documents account funds the mailing of government documents for Members of Congress and Federal agencies, as statutorily authorized; the compilation of catalogs and indexes of government publications; and the cataloging, indexing, and providing of government

publications in digital and tangible formats to the Federal Depository and International Exchange libraries and to other individuals and entities, as authorized by law.

The bill continues language authorizing the operation of the revolving fund and authority to hire or purchase automobiles, advisory councils, and consultants.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

Appropriation, fiscal year 2015	\$522,000,000

GAO was established by the Budget and Accounting Act of 1921. GAO works for Congress by responding to requests for studies of Federal Government programs and expenditures. GAO may also initiate its own work.

The Committee recognizes the important work that the Government Accountability Office does on a daily basis to provide oversight, transparency, and accountability for Congress and the American people.

ADMINISTRATIVE PROVISION

Section 1301 authorizes details of personnel to the Government Accountability Office.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

Appropriation, fiscal year 2015	\$5,700,000
Budget request, fiscal year 2016	8,000,000
Recommended in the bill	1,000,000

The Committee recommends \$1,000,000 which is \$4,700,000 below the current fiscal year and \$7,000,000 below the request.

The Committee believes given our current fiscal environment, and in light of both the lack of quantifiable results from the Open World Leadership Center and its duplication of programs more ap-

appropriately offered by the State Department, the program has long outlived its short-term intent. The Committee has provided an allocation to be used for the orderly shutdown during fiscal year 2016 of the Open World Leadership Center.

(5) shall not allow any assignment under this subsection to commence after the end of the 5-year period beginning on the date of the enactment of this subsection.
