

PL 112-154 – Benefits Following a Natural Disaster

If you're a participant in VA's Vocational Rehabilitation and Employment (VR&E) Program, a new law provides additional benefits for Veterans who, effective August 6, 2013, were displaced from their home following a natural or other disaster.

Eligible participants—those participating in employment services as part of a VR&E program--may qualify for up to two additional months of a special allowance, the Employment Adjustment Allowance (EAA).

Want more information? Have questions concerning eligibility? Please contact your assigned VR&E Counselor at your local regional office.
