

FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

Preamble

Section 2108(a) and Section 2108(e) of the Social Security Act (the Act) provide that each state and territory* must assess the operation of its state child health plan in each federal fiscal year and report to the Secretary, by January 1 following the end of the federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the state must assess the progress made in reducing the number of uncovered, low-income children. The state is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The state is also out of compliance if any section of this report relevant to the state's program is incomplete.

The framework is designed to:

- Recognize the **diversity** of state approaches to CHIP and allow states **flexibility** to highlight key accomplishments and progress of their CHIP programs, **AND**
- Provide **consistency** across states in the structure, content, and format of the report, **AND**
- Build on data **already collected** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance **accessibility** of information to stakeholders on the achievements under Title XXI

The CHIP Annual Report Template System (CARTS) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: Program Challenges and Accomplishments

* - When "state" is referenced throughout this template it is defined as either a state or a territory.

***Disclosure.** According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, write to: CMS, 7500 Security Blvd., Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.

State/Territory: MA

Name of State/Territory

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a) and Section 2108(e)).

Signature: Robin Callahan

CHIP Program Name(s): All, Massachusetts

CHIP Program Type:

- CHIP Medicaid Expansion Only
- Separate Child Health Program Only
- Combination of the above

Reporting Period: 2017 (Note: Federal Fiscal Year 2017 starts 10/1/2016 and ends 9/30/2017)

Contact Person/Title: Robin Callahan, Deputy Medicaid Director

Address: EOHHS/Office of Medicaid

City: Boston State: MA Zip: 02108

Phone: 617-573-1745 Fax: 617-573-1894

Email: alison.kirchgasser@state.ma.us

Submission Date: 12/29/2017

(Due to your CMS Regional Contact and Central Office Project Officer by January 1st of each year)

Section I. Snapshot of CHIP Program and Changes

- 1) To provide a summary at-a-glance of your CHIP program, please provide the following information. If you would like to make any comments on your responses, please explain in narrative below this table.

Provide an assurance that your state's CHIP program eligibility criteria as set forth in the CHIP state plan in section 4, inclusive of PDF pages related to Modified Adjusted Gross Income eligibility, is accurate as of the date of this report.

Please note that the numbers in brackets, e.g., [500] are character limits in the Children's Health Insurance Program (CHIP) Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

CHIP Medicaid Expansion Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee? NO YES N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: [500]

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: [500]

Individuals receive fee-for-service (FFS) until they enroll with MCO/PCC, and may also receive premium assistance with wrap benefits provided on a FFS basis

Separate Child Health Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee? NO YES N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL
12	36	150	200
20	60	200	250
28	84	250	300

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL
	432	150	200
	720	200	250
	1008	250	300

If yes, briefly explain fee structure: [500]

\$432 for families between 150-200% FPL, \$720 for families between 200-250% FPL, \$1008 for families between 250-300% FPL.

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: [500]

Individuals receive FFS until they enroll with MCO/PCC, and may also receive premium assistance with a FFS dental wrap.

2) Have you made changes to any of the following policy or program areas during the reporting period? Please indicate "yes" or "no change" by marking the appropriate column.

For FFY 2017, please include only the program changes that are in addition to and/or beyond those required by the Affordable Care Act.

	Medicaid Expansion CHIP Program			Separate Child Health Program

Section II Program’s Performance Measurement and Progress

This section consists of two subsections that gather information about the CHIP and/or Medicaid program. Section IIA captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your state. Section IIB captures progress towards meeting your state’s general strategic objectives and performance goals.

Section IIA: Enrollment And Uninsured Data

1. The information in the table below is the Unduplicated Number of Children Ever Enrolled in CHIP in your state for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 (Unduplicated # Ever Enrolled Year) in your state’s 4th quarter data report (submitted in October) in the CHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by CARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response. If the information displayed in the table below is inaccurate, please make any needed updates to the data in SEDS and then refresh this page in CARTS to reflect the updated data.

Program	FFY 2016	FFY 2017	Percent change FFY 2016-2017
CHIP Medicaid Expansion Program	75095	90074	19.95
Separate Child Health Program	112509	130054	15.59

- A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent. **[7500]**

While overall children’s enrollment in both our Medicaid and CHIP programs grew by a small amount over the fiscal year, integrated eligibility system enhancements have improved our ability to appropriately determine children’s eligibility for CHIP and we therefore saw a shift in enrollments from Medicaid to CHIP during the year.

2. The tables below show trends in the number and rate of uninsured children in your state. Three year averages in Table 1 are based on the Current Population Survey. The single year estimates in Table 2 are based on the American Community Survey (ACS). CARTS will fill in the single year estimates automatically, and significant changes are denoted with an asterisk (*).If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3. .

Table 1: Number and percent of uninsured children under age 19 below 200 percent of poverty, Current Population Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Std. Error	Rate	Std. Error
1996 - 1998	70	15.5	4.6	1.0
1998 - 2000	68	15.5	4.2	.9
2000 - 2002	40	9.9	2.6	.7
2002 - 2004	53	11.7	3.4	.7
2003 - 2005	50	11.7	3.2	.7
2004 - 2006	44	11.0	2.8	.7
2005 - 2007	36	10.0	2.3	.7
2006 - 2008	35	10.0	2.3	.6
2007 - 2009	23	8.0	1.5	.5
2008 - 2010	25	5.0	1.6	.3
2009 - 2011	28	5.0	1.8	.3
2010 - 2012	26	5.0	1.7	0

Table 2: Number and percent of uninsured children under age 19 below 200 percent of poverty, American Community Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Margin of Error	Rate	Margin of Error
2013	10	2.0	.7	.2
2014	11	2.0	.7	.2
2015	7	2.0	.5	.1
2016	6	2.0	.4	.2
Percent change 2015 vs. 2016	14.3%	N/A	.0%	N/A

- A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children. **[7500]**
- B. Please note any comments here concerning ACS data limitations that may affect the reliability or precision of these estimates. **[7500]**
3. Please indicate by checking the box below whether your state has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

- Yes (please report your data in the table below)
- No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Topic	Description
Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

- A. Please explain why your state chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.
[7500]

- B. What is your state’s assessment of the reliability of the estimate? Please provide standard errors, confidence intervals, and/or p-values if available.
[7500]

- C. What are the limitations of the data or estimation methodology?
[7500]

- D. How does your state use this alternate data source in CHIP program planning?
[7500]

Enter any Narrative text related to Section IIA below. **[7500]**

Section IIB: State Strategic Objectives And Performance Goals

This subsection gathers information on your state’s general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your CHIP state plan. (If your goals reported in the annual report now differ from Section 9 of your CHIP state plan, please indicate how they differ in “Other Comments on Measure.” Also, the state plan should be amended to reconcile these differences). The format of this section provides your state with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years’ annual reports (FFY 2015 and FFY 2016) will be populated with data from previously reported data in CARTS. If you reported data in the two previous years’ reports and you want to update/change the data, please enter that data. If you reported no data for either of those two years, but you now have data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2017).

In this section, the term performance measure is used to refer to any data your state provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, “objectives” refer to the five broad categories listed above, while “goals” are state-specific, and should be listed in the appropriate subsections within the space provided for each objective.

NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

In addition, please do not report the same data that were reported for Child Core Set reporting. The intent of this section is to capture goals and measures that your state did not report elsewhere. As a reminder, Child Core Set reporting migrated to MACPRO in December 2015. Historical data are still available for viewing in CARTS.

Additional instructions for completing each row of the table are provided below.

A. Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be:** “Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13th birthday.”

B. Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- New/revised: Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- Continuing: Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- Discontinued: Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued. GAL

Please indicate the status of the data you are reporting for each goal, as follows:

- Provisional: Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2017.

Explanation of Provisional Data – When the value of the Status of Data Reported field is selected as “Provisional”, the state must specify why the data are provisional and when the state expects the data will be final.

- Final: Check this box if the data you are reporting are considered final for FFY 2017.
- Same data as reported in a previous year’s annual report: Check this box if the data you are reporting are the same data that your state reported for the goal in another annual report. Indicate in which year’s annual report you previously reported the data.

C. Measurement Specification:

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which states may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed.

D. HEDIS® Version:

Please specify HEDIS® Version (example 2016). This field must be completed only when a user select the HEDIS® measurement specification.

“Other” measurement specification explanation:

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected.

E. Data Source:

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

F. Definition of Population Included in Measure:

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure.

For measures related to increasing access to care and use of preventative care, please

- Check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.
- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, denominator includes only children enrolled in managed care in certain counties, technological limitations preventing reporting on the full population defined, etc.). Please report information on exclusions in the definition of the denominator (including the proportion of children excluded), The provision of this information is important and will provide CMS with a context so that comparability of denominators across the states and over time can occur.

G. Deviations from Measure Specification

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that states must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

- Year of Data (e.g., partial year),
- Data Source (e.g., use of different data sources among health plans or delivery systems),
- Numerator (e.g., coding issues),
- Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),
- Other.

When one or more of the types are selected, states are required to provide an explanation.

Please report the year of data for each performance measure. The year (or months) should correspond to the period in which enrollment or utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

Date Range: available for 2017 CARTS reporting period.

Please define the date range for the reporting period based on the “From” time period as the month and year which corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year which corresponds to the end period in which utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

H. Performance Measurement Data (HEDIS® or Other):

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on

whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator). The reporting unit for each measure is the state as a whole. If states calculate rates for multiple reporting units (e.g., individual health plans, different health care delivery systems), states must aggregate data from all these sources into one state rate before reporting the data to CMS. In the situation where a state combines data across multiple reporting units, all or some of which use the hybrid method to calculate the rates, the state should enter zeroes in the “Numerator” and “Denominator” fields. In these cases, it should report the state-level rate in the “Rate” field and, when possible, include individual reporting unit numerators, denominators, and rates in the field labeled “Additional Notes on Measure,” along with a description of the method used to derive the state-level rate.

I. Explanation of Progress:

The intent of this section is to allow your state to highlight progress and describe any quality-improvement activities that may have contributed to your progress. Any quality-improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your progress. An example of a quality-improvement activity is a state-wide initiative to inform individual families directly of their children’s immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality-improvement plans. In this section, your state is also asked to set annual performance objectives for FFY 2018, 2019 and 2020. Based on your recent performance on the measure (from FFY 2015 through 2017), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your state set for the year, as well as any quality-improvement activities that have helped or could help your state meet future objectives.

J. Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIA, Questions 2 and 3)

FFY 2015	FFY 2016	FFY 2017
<p>Goal #1 (Describe) Maintain an overall children's uninsurance rate of no more than 2%</p>	<p>Goal #1 (Describe) Maintain an overall children's uninsurance rate of no more than 2%</p>	<p>Goal #1 (Describe) Maintain an overall children's uninsurance rate of no more than 2%</p>

FFY 2015	FFY 2016	FFY 2017
Additional notes on measure:	Additional notes on measure:	Additional notes/comments on measure:
<p>Explanation of Progress:</p> <p>How did your performance in 2015 compare with the Annual Performance Objective documented in your 2014 Annual Report? This is a revised measure. The percentage of CHIP enrolled children receiving Premium Assistance is much higher than the percentage reported last year of all enrolled children receiving Premium Assistance.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? The Commonwealth's efforts towards universal coverage continue to succeed despite increases in health insurance premiums. Providing subsidies to employees so that they can participate in their employer-sponsored insurance is a valuable and cost-effective tool for MassHealth in decreasing uninsurance and increasing enrollment in health insurance of children-particularly within higher income ranges. Enrollment in employer sponsored insurance in Massachusetts continues to be strong and has remained steady since the implementation of health care reform, showing no signs that MassHealth has crowded out private insurance.</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2016 compare with the Annual Performance Objective documented in your 2015 Annual Report?</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report? We were unable to report on this measure last year due to data issues. In looking at the rate for FFY15, it appears we used the number of all children (both Medicaid and CHIP) on premium assistance for the numerator and just CHIP enrolled children for the denominator resulting in an artificially high rate of 15%. Since CHIP children by definition must be uninsured upon enrollment and since the only CHIP children in premium assistance are those for whom we found access to insurance during an investigation, it is not surprising that the rate of CHIP children in premium assistance is low. Therefore we will revise this goal for next year.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? The Commonwealth's efforts towards universal coverage continue to succeed despite increases in health insurance premiums. Providing subsidies to employees so that they can participate in their employer-sponsored insurance is a valuable and cost-effective tool for MassHealth in decreasing uninsurance and increasing enrollment in health insurance of children-particularly within higher income ranges. Enrollment in employer sponsored insurance in Massachusetts continues to be strong and has remained steady since the implementation of health care reform, showing no signs that MassHealth has crowded out private insurance.</p>

Numerator: 1437 Denominator: 0 Rate:</p>

FFY 2015	FFY 2016	FFY 2017
<p>Additional notes on measure: Number of CACs throughout MA that have the capability to assist in submitting an electronic application on the ACAs HIX website, or via paper increased from 1,153 immediately before the states of FY2014, to 1,654 as of 9/30/2015</p>	<p>Additional notes on measure: Number of CACs throughout Massachusetts that have the capability to assist in submitting an electronic application on the ACA’s HIX website, or via paper changed from 1654 immediately before the start of FFY2016, to 1551 as of 9/30/2016. While there was a bit of a decrease, the number of CAC organizations increased significantly during the same time period – 193 to 250 (Goal #1) and the number of individuals serving as CACs throughout the Commonwealth far surpass this particular goal of 1,000.</p>	<p>Additional notes/comments on measure: We discovered the metric supplied for this goal since FFY 2014 has been slightly off from the actual number for the time period covered in this report. Revised numbers are 1268 for FFY 14, 1484 for FFY15 and 1495 for FFY16.</p>
<p>Explanation of Progress:</p> <p>How did your performance in 2015 compare with the Annual Performance Objective documented in your 2014 Annual Report? The number of CACs throughout MA that have the capability to assist in submitting an electronic application on the ACAs HIX website, or via paper increased from 1,153 immediately before the start of FFY2014 to 1,654 as of 9/30/2015</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? The effort to continuously increase the number of CACs statewide has the capacity to increase access to an enrollment in health care programs for children.</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2016 compare with the Annual Performance Objective documented in your 2015 Annual Report? Number of CACs throughout Massachusetts that have the capability to assist in submitting an electronic application on the ACA’s HIX website, or via paper changed from 1654 immediately before the start of FFY2016, to 1551 as of 9/30/2016. While there was a bit of a decrease, the number of CAC organizations increased significantly during the same time period – 193 to 250 (Goal #1), and the number of individuals serving as CACs throughout the Commonwealth far surpass this particular goal of 1,000.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? The effort to continuously increase the number of CACs statewide has the capacity to increase access to and enrollment in health programs for children.</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report? Number of CACs throughout Massachusetts that have the capability to assist in submitting an electronic application on the ACA’s HIX website, or via paper changed from 1495 immediately before the start of FFY2017, to 1437 as of 9/30/2017. While there was a slight decrease this year compared to FFY16, it is normal for the number of certified individuals to fluctuate up or down throughout the year, this change is well within our expectations, and the number of individuals serving as CACs throughout the Commonwealth continues to hold steady and far surpasses the goal of 1,000.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? The effort to continuously increase the number of CACs statewide has the capacity to increase access to and enrollment in health programs for children.</p>

FFY 2015	FFY 2016	FFY 2017
<p>Explanation of Progress:</p> <p>How did your performance in 2015 compare with the Annual Performance Objective documented in your 2014 Annual Report? A performance rate of 76.4% for this measure was reported in the 2014 Annual Report. The rate reported in this year's report is 68.3%. Our performance rate for this measure has decreased since the rate reported in last year's CHIP report. However, we note that the national Medicaid 90th percentile also decreased over the past 2 years (The HEDIS national Medicaid 90th percentile 2013 rate was 80.1%, the 2014 national Medicaid 90th percentile rate was 78.4%, and the 2015 national Medicaid 90th percentile rate is 69.8%). This overall decrease in performance on this measure, here and nationally, points to the need for continued focus on this measure.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? In 2014, MassHealth convened an internal Pediatric QI workgroup to identify and implement activities to support improved performance on this measure, as well as all the other measures for which performance goals were set in this section of the CHIP report. The workgroup has undertaken several activities to support improved performance on each of the measures, and is working to identify additional activities. To support improvements in the rate at which women receive >81% of the recommended perinatal care visits, MassHealth has leveraged activities underway as part of its Adult Medicaid Quality grant using Text4Baby's ad hoc and standard messages encouraging access to timely prenatal care, and leveraging AMQ grant connections to</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2016 compare with the Annual Performance Objective documented in your 2015 Annual Report? A performance rate of 68.3% for this measure was reported in the 2015 Annual Report. The rate reported in this year's report is 65.7%.</p> <p>The HEDIS 2016 rate is below the 90th national Medicaid benchmark, and continues to show room for improvement.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? MassHealth convened an internal Pediatric QI workgroup to identify and implement activities to support improved performance on this measure, as well as all measures for which performance goals were set in this section of the CHIP report. To support improvements in the rate at which women receive >81% of the recommended perinatal care visits, MassHealth continues to share information on the availability of Text4Baby (which provides messages encouraging access to timely prenatal care), and is in the process of developing resource sheets for and providers to encourage members to access prenatal care services, and to share information with providers on resources for their patients.</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report? Not applicable - new goal</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? MassHealth convened an internal Pediatric QI workgroup to identify and implement activities to support improved performance on all measures for which performance goals were set in the FFY 2015 and 2016 CHIP report. In the past year, the group has worked to draft two materials designed to support pregnant members to access prenatal care early, and supporting providers in helping make connections for their members with community-based resources related to pregnancy and MCH care. We expect these materials to be finalized and disseminated in the upcoming year. Though the group was working to support improvement on the Frequency of Perinatal Care measure, we are aware that NCQA will not include this measure in HEDIS 2018. As the materials in development are designed to support both early and frequent access to prenatal care, they are likely to also be impactful for the Timeliness of Prenatal Care measure that is replacing the frequency of prenatal care goal in this CHIP report.</p>

FFY 2015	FFY 2016	FFY 2017
<p>community-based provider trainings to relay messages. These activities were implemented in a timeframe that occurred later than any timeframes being reported on above. Continued Below</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2016: national Medicaid 90th percentile for HEDIS 2015 (69.8%)</p> <p>Annual Performance Objective for FFY 2017: national Medicaid 90th percentile for HEDIS 2016</p> <p>Annual Performance Objective for FFY 2018: national Medicaid 90th percentile for HEDIS 2017</p> <p><i>Explain how these objectives were set:</i> MassHealth has identified the national Medicaid 90th percentile as an achievable benchmark</p>	<p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2017: national Medicaid 90th percentile for HEDIS 2016</p> <p>Annual Performance Objective for FFY 2018: national Medicaid 90th percentile for HEDIS 2017</p> <p>Annual Performance Objective for FFY 2019: national Medicaid 90th percentile for HEDIS 2017</p> <p><i>Explain how these objectives were set:</i> MassHealth has identified the national Medicaid 90th percentile as an achievable benchmark</p>	<p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2018: national Medicaid 90th percentile for HEDIS 2018</p> <p>Annual Performance Objective for FFY 2019: national Medicaid 90th percentile for HEDIS 2019</p> <p>Annual Performance Objective for FFY 2020: national Medicaid 90th percentile for HEDIS 2020</p> <p><i>Explain how these objectives were set:</i> MassHealth has identified the national Medicaid 90th percentile as an achievable benchmark</p>
<p>Other Comments on Measure: MassHealth has recently been awarded an Improving Maternal and Infant Health Outcomes in Medicaid and CHIP grant to test a measurement of contraceptive use, and this may present additional opportunities for alignment to support improved rates of perinatal care visits.</p>	<p>Other Comments on Measure:</p>	<p>Other Comments on Measure:</p>

Objectives Related to Increasing Access to Care (Usual Source of Care, Unmet Need) (Continued)

FY 2015	FFY 2016	FFY 2017
<p>Goal #2 (Describe) Maintain or improve the percentage of children aged 6-20 who were discharged from a hospital for treatment of selected mental health disorders and who had a follow-up visit with a mental health practitioner within 7 days of discharge at the at a level which exceeds the 2015 national Medicaid 90th percentile rate (63.85%)</p>	<p>Goal #2 (Describe) Maintain or improve the percentage of children aged 6-20 who were discharged from a hospital for treatment of selected mental health disorders and who had a follow-up visit with a mental health practitioner within 7 days of discharge at a level which meets or exceeds the 2016 national Medicaid 90th percentile rate of 64.2%.</p>	<p>Goal #2 (Describe) Maintain or improve the percentage of children aged 6-20 who were discharged from a hospital for treatment of selected mental health disorders and who had a follow-up visit with a mental health practitioner within 7 days of discharge at a level which meets or exceeds the 2017 national Medicaid 90th percentile rate of 65%.</p>

A performance rate of 69.5% for this measure was reported in the 2015 Annual Report. This year's rate is 68.0%.	Explanation of Progress: How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report? A performance rate of 68% for this measure was reported in the 2016 Annual Report. This year's rate is 66.6%. Although the rate decreased, it is above the 90th percentile goal for 2017 of 65%. Due to the decrease in the rate since last year, it remains an area of focus for improvement.

FY 2015	FFY 2016	FFY 2017
<p>CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? MassHealth notes a difference in denominator size between this year's and last year's reports. Rates reported last year were produced through the CHIPRA grant, by staff new to using Medicaid claims and encounter data, which may have impacted the accuracy of the results. However, as both year's results demonstrate similar rates, we are comfortable with comparing rates for this measure over time.</p> <p>MassHealth has convened an internal Pediatric QI workgroup to identify and implement activities to support improved performance on several of the child core set measures. MassHealth is analyzing data to identify specific activities to undertake to support improvements in this measure. Activities will likely include identifying and sharing best practices, and collaborating with entities managing BH provider networks to enhance ongoing activities to support improved follow-up visits.</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2016: national Medicaid 90th percentile for HEDIS 2015 (63.85%) Annual Performance Objective for FFY 2017: national Medicaid 90th percentile for HEDIS 2016 Annual Performance Objective for FFY 2018: national Medicaid 90th percentile for HEDIS 2017</p> <p><i>Explain how these objectives were set:</i> MassHealth has identified the national Medicaid 90th percentile as an achievable benchmark</p>	<p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? MassHealth convened an internal Pediatric QI workgroup to identify and implement activities to support improved performance on this measure, as well as all measures for which performance goals were set in this section of the CHIP report.</p> <p>MassHealth supports improvement on this measure through a Pay for Performance initiative with its PCC Plan behavioral health managed care vendor. In 2016, the vendor developed and implemented activities to support timely access to information on hospital admissions to care managers, and best practice sharing among inpatient providers for ensuring that follow-up appointments are made as part of discharge planning. As these activities took place mainly during CY 2016, we would not expect these actions to have had an impact on HEDIS 2016 rates. MassHealth will continue to monitor performance rates on this measure, and identify opportunities to impact performance.</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2017: National Medicaid 90th percentile rate, HEDIS 2016. Annual Performance Objective for FFY 2018: National Medicaid 90th percentile rate, HEDIS 2017.</p>	<p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? MassHealth (MH) convened an internal Pediatric QI wrkgrp to id & implement activities to support improved performance on this measure & all measures for which performance goals were set. MH supports improvement on this measure through a Pay 4 Performance initiative with its PCC Plan behav hlth mngd care vendor. In 2016, the vendor reviewed data on follow-up visit rates for children & implemented a process where care mngrs working w/ chldrn w/ serious emotional disturbance received notification when 1 of their enrolled members was hospitalized for a BH condition, in order to support the care mngr's ability to facilitate arrangements for timely F/U after discharge. This process remains in place & the vendor is monitoring the impact on F/U visit rates for the children impacted by the process change. (Cont. in next box)</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2018: The vendor also supports best practice sharing among inpatient providers on ways to support F/U visits being made as part of discharge planning through facilitating discussions at regular meetings the vendor holds with these providers.</p> <p>National Medicaid 90th percentile rate, HEDIS 2018.</p> <p>Annual Performance Objective for FFY 2019: National Medicaid 90th percentile rate, HEDIS 2019.</p>

FFY 2015	FFY 2016	FFY 2017
<p>Explanation of Progress:</p> <p>How did your performance in 2015 compare with the Annual Performance Objective documented in your 2014 Annual Report? A performance rate of 60.3% for this measure was reported in the 2014 Annual Report. This year's rate is 62.7%.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? In 2014, MassHealth convened an internal Pediatric QI workgroup to identify and implement activities to support improved performance on this measure, as well as all the other measures for which performance goals were set in this section of the CHIP annual report. The workgroup has undertaken several activities to support improved performance on each of the measures, and is working to identify additional activities. To support improvements in the rate at which children newly prescribed ADHD medications receive the recommended number of follow-up visits, the workgroup has implemented a number of activities, including compiling a list of web-based resources for providers and families, and sharing those widely with providers and DPH care coordinators, as well as supporting best practice sharing among providers working on making improvements in performance on this measure. These activities were implemented later than the timeframe reported on as part of the HEDIS 2015 data collection process.</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2016: national Medicaid 90th percentile for HEDIS 2015 (65.2%) Annual Performance Objective for FFY 2017: national Medicaid 90th percentile for HEDIS 2016 Annual Performance Objective for FFY 2018: national Medicaid 90th percentile for HEDIS 2017</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2016 compare with the Annual Performance Objective documented in your 2015 Annual Report? A performance rate of 62.7% for this measure was reported in the 2015 Annual Report. This year's rate is 67.6%. This rate exceeds the national Medicaid 90th percentile.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? MassHealth convened an internal Pediatric QI workgroup to identify and implement activities to support improved performance on this measure, as well as all the other measures for which performance goals were set in this section of the CHIP annual report.</p> <p>To support improvements in the rate at which children newly prescribed ADHD medications receive the recommended number of follow-up visits, MassHealth convened a best practice sharing webinar for practices participating in Primary Care Payment Reform, compiled a list of web-based resources that may be of use to both members and providers, and disseminated this resource to PCC Plan providers, via a listserv and newsletter, and to MCO Quality Managers. MassHealth is also supporting improvement on this measure through a P4P project with the managed care entity for behavioral health services for the PCC Plan.</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2017: National Medicaid 90th percentile rate, HEDIS 2016 Annual Performance Objective for FFY 2018: National Medicaid 90th percentile rate, HEDIS 2017</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report? A performance rate of 67.6% for this measure was reported in the 2016 Annual Report. This year's rate is 66.2%. The rate declined since last year and falls below the benchmark set for this goal – which is the 90th percentile for HEDIS 2017 national Medicaid (69.47%). Thus, it remains an area of focus for improvement.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? MassHealth convened an internal Pediatric QI workgroup to identify and implement activities to support improved performance on this measure, as well as all the other measures for which performance goals were set in this section of the CHIP annual report. This year, and adding to activities undertaken over the past year, MassHealth gathered ideas from providers working on the ADHD measure, and is currently drafting a resource for primary care providers who are looking to make improvements in their rates of ADHD medication follow-up visits. The resource includes a summary of practice-based activities that providers have implemented, as well as steps and tips to help practices develop and implement quality improvement projects. These activities will be finalized after the measurement period being examined as part of this measure.</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2018: National Medicaid 90th percentile rate, HEDIS 2018 Annual Performance Objective for FFY 2019: National Medicaid 90th percentile rate, HEDIS 2019</p>

These activities happened during the latter half of Calendar year 2015, and therefore may not have impacted performance on this measure.</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2017: National Medicaid 90th percentile rate, HEDIS 2016 Annual Performance Objective for FFY 2018: National Medicaid 90th percentile rate, HEDIS 2017 Annual Performance Objective for FFY 2019: National Medicaid 90th percentile rate, HEDIS 2017</p> <p><i>Explain how these objectives were set:</i> MassHealth has identified the national Medicaid 90th percentile as an achievable benchmark</p>	<p>This year's rate is 80.4%. The rate declined since last year and continues to fall below the benchmark set for this goal – which is the 90th percentile for HEDIS 2017 national Medicaid (86.8%). Thus, it remains an area of focus for improvement.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? MassHealth convened an internal Pediatric QI workgroup to identify and implement activities to support improved performance on this measure, as well as all the other measures for which performance goals were set in this section of the CHIP annual report. To support improvements in the rate at which adolescents receive recommended vaccines, MassHealth gathered ideas from providers working on the IMA measure, and is currently drafting a resource for primary care providers who are looking to make improvements in their adolescent immunization rates. The resource includes a summary of practice-based activities that providers have implemented, as well as steps and tips to help practices develop and implement quality improvement projects. These activities will be finalized after the measurement period being examined as part of this measure.</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2018: National Medicaid 90th percentile rate, HEDIS 2018 Annual Performance Objective for FFY 2019: National Medicaid 90th percentile rate, HEDIS 2019 Annual Performance Objective for FFY 2020: National Medicaid 90th percentile rate, HEDIS 2020</p> <p><i>Explain how these objectives were set:</i> MassHealth has identified the national Medicaid 90th percentile as an achievable benchmark</p>
<p>Other Comments on Measure:</p>	<p>Other Comments on Measure: Note that MA is discontinuing its goal related to the Childhood Immunization Status (CIS) measure because performance rates for this</p>	<p>Other Comments on Measure:</p>

Other Comments on Measure:	Other Comments on Measure:	Other Comments on Measure:

1. What other strategies does your state use to measure and report on access to, quality, or outcomes of care received by your CHIP population? What have you found? **[7500]**
MassHealth collects and reports on selected measures from the HEDIS measure set for its MCO and PCC Plan enrolled populations. Many of the Child Core Set measures are included in the slate of collected HEDIS measures.

Drawing from lessons learned from the state's work on quality measures undertaken as part of MA's CHIPRA Quality Demonstration Grant, MassHealth is calculating results for some of the non-HEDIS measures, using administrative data sets (DEVT SCREENING, SEAL).

Additionally, MassHealth is working with the MA Department of Public Health to utilize the MassCHIP system as a source of data for one additional measure from the Child Core Set (LOW BIRTH WEIGHT)

MassHealth uses the HEDIS data and the Child Core Set data as part of the overall quality management strategy used for managing contracts with its contracted Managed Care Organizations (MCOs), and for identifying areas for focus for quality improvement work with the MCOs and for its primary care case management program (the Primary Care Clinician (PCC) Plan). Additionally, measures from the Child Core Set will be included in the measure set being developed for use in assessing performance in MassHealth's Accountable Care Organization program.

Supporting improved performance on selected measures from the Child Core Set is the focus of work being undertaken by MassHealth to pursue and meet performance improvement goals that are included elsewhere in this annual CHIP report.

By using the Child Core Set in these multiple ways, MassHealth is able to monitor, track, and support improvement of care received by the CHIP population

2. What strategies does your CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your CHIP population? When will data be available? **[7500]**

MassHealth plans to continue to utilize measures from the Child Core Measures set in the manner noted above moving forward. As new measures are added to the Core Set, MassHealth will evaluate its resources and ability to calculate these measures, assess performance on the measures, and identify new opportunities for improvement.

3. Have you conducted any focused quality studies on your CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found? **[7500]**

No focused quality studies were undertaken this year.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your CHIP program's performance. Please include any analyses or descriptions of any efforts designed to reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives. **[7500]**

Annual MassHealth Managed Care Reports that measure plan performance based on selected measures from the HEDIS measures set, are posted online at <http://www.mass.gov/eohhs/researcher/insurance/masshealth-reports/masshealth-managed-care-mco-reports.html>

Additionally, MassHealth's Managed Care Quality Strategy, which sets forth the values, goals and strategies that reflect MassHealth's commitment to its members receiving high-quality care, is posted online at

<http://clpc.ucsf.edu/sites/clpc.ucsf.edu/files/MA%20MassHealth%20Managed%20Care%20Quality%20Strategy%202013.pdf>

Section III: Assessment of State Plan and Program Operation

Please reference and summarize attachments that are relevant to specific questions

Please note that the numbers in brackets, e.g., [7500] are character limits in the State Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

Section IIIA: Outreach

1. How have you redirected/changed your outreach strategies during the reporting period? [7500]

The Health Care Reform (HCR) Outreach and Education Unit coordinates statewide outreach activities, disseminates educational materials related to state and federal Health Care Reform, and collaborates with state and community-based agencies. This coordination helps prevent the duplication of outreach efforts in the community, strengthens the knowledge of providers and residents, and provides information to help individuals make smart choices about health coverage. The overall functions of the HCR Unit include: managing and providing oversight to outreach and enrollment grant programs; supporting and managing training and technical assistance for community providers, partners, certified assisters (including certified application counselors and Navigators), and grantee organizations around health care reform policy and program changes; and coordinating and collaborating with state agencies around state and federal health care reform policies, messaging, and outreach activities.

MassHealth is transitioning from fee-for-service, siloed care and into integrated, accountable care models. Accountable Care Organizations (ACOs) are provider-led organizations that coordinate care, have an enhanced role for primary care, and are rewarded for value – better cost and outcomes – not volume. During this transition period, new ACOs will outreach to members to provide outreach and assistance to established members and ease their access to services in cases such as behavioral health issues, childcare support needs, or transportation difficulties, etc. In addition, trained certified assisters and Navigators will help support MassHealth members understand their new MassHealth health plan options and what this transition period means.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? [7500]

We have found the following methods to be most effective in reaching low-income, uninsured children:

MassHealth outreach staff have facilitated enrollment events collaborating with local health centers and partner organizations across the Commonwealth. Events help members' complete renewals and health plan selection. Enrollment events are opportunities for new applicants and current members to attend, meet with MassHealth staff to ask questions about their coverage, and seek assistance in understanding how to use their health care. During the first quarter of 2018, from January to March, there will be 10 enrollment events. These events are to reach individuals where they are and conduct services in a way that meets the individual's needs. MassHealth also continues to work collaboratively with the Massachusetts medical community to train, educate and promote MassHealth policies and initiatives. These collaborations are inclusive of working with over 25 Massachusetts Professional Associations, including the Massachusetts Hospital Association, the Massachusetts League of Community Health Centers, the Massachusetts Medical Society and the Massachusetts Chapter of the American Academy of Pediatrics. MassHealth reaches their respective constituents by presenting at their meetings and hosting provider specific educational forums. Additional outreach efforts include utilizing the web

as a major communication vehicle to reach the provider community, conducting one-on-one provider training and hosting targeted face-to-face provider educational and training forums throughout the state as well as conducting training and education sessions online. These tools help ensure MassHealth providers stay current on developments in the MassHealth program.

MassHealth continues to fund and provide leadership for the Massachusetts Health Care Training Forum (MTF) program. MTF is a partnership between MassHealth and MassAHEC Network at the University of MA Medical School (UMMS). MTF hosts four regional meetings each quarter that feature presentations to keep health care organizations and community agencies that serve MassHealth members, the uninsured, and underinsured informed of the latest changes in MassHealth and overall state and federal health care reform policies. MassHealth presents information about programmatic operations and policy changes and often leading community advocates share updates about policy developments in state and federal health care reform. MTF also provides information via a listserv of approximately 6,375 members, and a website offering resource information and meeting materials. The website had over 57,000 visitors with 98,000 page views in FFY17. The meetings promote information dissemination, sharing of best practices, and building of community and public sector linkages in order to increase targeted outreach and member education information about MassHealth. In SFY17, MTF program attendance remained steady at a total of 1,858 individuals. In addition to those attending the in-person meetings 1,703 participated in webinars and conference call meetings.

3. Which of the methods described in Question 2 would you consider a best practice(s)? **[7500]**

All of the methods referenced in #2 are considered a best practice. It's very effective to reach individuals where they are in the community and to conduct services in a cultural and linguistic fashion that meets the individual's needs.

4. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)?

Yes No

Have these efforts been successful, and how have you measured effectiveness? **[7500]**

MassHealth continues to translate materials into Spanish, Brazilian Portuguese, Chinese, Vietnamese, Haitian Creole, Russian, French, Arabic, Greek, Polish, Korean, Italian, Khmer, Hindi, Gujarati, and Laotian.

The Member Education Unit conducts in-service presentations to various organizations including but not limited to: The Massachusetts Office of Refugees and Immigrants Refugee Resettlement Training Unit; Native American Indian Tribes; School Nurses; School-based Medicaid Programs; sister state agencies such as the Department of Public Health, Department of Mental Health, Department of Children and Families, Department of Department of Developmental Services, Department of Veteran's Services, and the Office of Substance Abuse; Community Action Councils; the Brain Injury Association of Massachusetts; various ethnic cultural organizations (including the Latino, Vietnamese, Brazilian, and Somalian populations), advocates for the homeless, shelters, and other facilities working with the homeless population, Senior Care Organizations, the Massachusetts Head Start Program, the Office of Substance Abuse, Family Support Groups, and the Gay, Lesbian, Bisexual and Transgender Youth Support Project.

These presentations provide education on a variety of topics including: MassHealth benefits; coverage types; covered services; rights and responsibilities; navigation tools such as website searching; how to access the MAhealthconnector.org; how to access other state health insurance programs; the application process; and post-enrollment information on how to maintain health coverage once it has been obtained. Member Education offers continued support to these organizations via e-mail and telephone in order to ensure proper procedure and an expedited service to the members. These efforts have been successful by encouraging new applicants, dispelling any myths about public programs, and assisting members with health insurance coverage retention.

The Member Education Unit also provide education on the MassHealth managed care organization (MCO) and new ACO Plan networks, about the 2017-2018 member movement, as well as ongoing member case coverage.

5. What percentage of children below 200 percent of the federal poverty level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? **[5]** 100

(Identify the data source used). **[7500]**

According to the American Community Survey Data for 2016

Enter any Narrative text related to Section IIIA below. **[7500]**

Response to #5: According to the American Community Survey Data for 2016, .4% of children under 200% FPL in Massachusetts are uninsured. It is extremely challenging to determine what portion of the remaining uninsured are eligible for Medicaid or CHIP, particularly given uncertainty around the immigration status of such individuals. With that said, given the extremely low uninsurance rate for children under 200% FPL and the Commonwealth's extensive efforts to identify and enroll all eligible children, the Commonwealth believes that the number of remaining eligible but unenrolled children is minimal. Since the field above requires a number, we entered 100 but again are unable to verify this number.

Section IIIB: Substitution of Coverage (Crowd-out)

All states should answer the following questions. Please include percent calculations in your responses when applicable and requested.

1. Does your program require a child to be uninsured for a minimum amount of time prior to enrollment (waiting period)?

- No
 Yes
 N/A

If no, skip to question 5. If yes, answer questions 2-4:

2. How many months does your program require a child to be uninsured prior to enrollment?
3. To which groups (including FPL levels) does the period of uninsurance apply? **[1000]**

4. List all exemptions to imposing the period of uninsurance **[1000]**

5. Does your program match prospective enrollees to a database that details private insurance status?

- No
 Yes
 N/A

6. If answered yes to question 5, what database? **[1000]**

Health Management Systems (HMS) conducts a monthly State and National data match using a system called "Match MAX" which identifies health insurance for all MassHealth members.

7. At the time of application, what percent of CHIP applicants are found to have Medicaid [(# applicants found to have Medicaid/total # applicants) * 100] **[5]**

and what percent of applicants are found to have other group health insurance [(# applicants found to have other insurance/total # applicants) * 100] [5]? 7

Provide a combined percent if you cannot calculate separate percentages. [5]

8. What percent of CHIP applicants cannot be enrolled because they have group health plan coverage? [5] 0

a. Of those found to have had other, private insurance and have been uninsured for only a portion of the state's waiting period, what percent meet your state's exemptions to the waiting period (if your state has a waiting period and exemptions) [(# applicants who are exempt/total # of new applicants who were enrolled)*100]? [5]

9. Do you track the number of individuals who have access to private insurance?

Yes No

10. If yes to question 9, what percent of individuals that enrolled in CHIP had access to private health insurance at the time of application during the last federal fiscal year [(# of individuals that had access to private health insurance/total # of individuals enrolled in CHIP)*100]? [5] 7

Enter any Narrative text related to Section IIIB below. [7500]

Question B2 - MassHealth has a joint application for Medicaid and CHIP; as such it is not possible to determine the first statistic. After eligibility determination was done, 7% of CHIP applicant children (children with income in CHIP range) were found to have other insurance.

Question B3 – MassHealth has authorization under an 1115 waiver to enroll children with insurance at CHIP income levels into MassHealth using Title XIX funding. MassHealth does not have a waiting period.

Section IIIC: Eligibility

This subsection should be completed by all states. Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.

Section IIIC: Subpart A: Eligibility Renewal and Retention

1. Do you have authority in your CHIP state plan to provide for presumptive eligibility, and have you implemented this? Yes No

If yes,

- a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination? [5]
- b. Of those children who are presumptively enrolled, what percent of those children are determined eligible and enrolled upon completion of the full eligibility determination? [5]

2. Select the measures from those below that your state employs to simplify an eligibility renewal and retain eligible children in CHIP.

Conducts follow-up with clients through caseworkers/outreach workers

Sends renewal reminder notices to all families

- How many notices are sent to the family prior to disenrolling the child from the program? [500]
MassHealth sends one notice to the family advising of the need to submit the annual review.

- At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the state?)
[500]
No reminders are sent.

Other, please explain: [500]

3. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology. [7500]

All of the above strategies have played an important role in making the process work better for our MassHealth members. MassHealth has not conducted a formal evaluation of each outreach strategy, but rather has measured effectiveness through qualitative reporting from our outreach partners. Each month, grantees report on what enrollment and outreach strategies worked best. Findings show it's very effective to follow-up with individuals where they are in the community, conducting services in a cultural and linguistic fashion that meets the individual's needs. Tying enrollment and outreach events to current affairs, such as a Family Fun Day sponsored by the MA Dept. of Children and Families or back to school campaigns, is also key to success since these are a natural draw for individuals to attend.

Section IIIC: Subpart B: Eligibility Data

Table 1. Data on Denials of Title XXI Coverage in FFY 2017

States are required to report on all questions (1, 1.a., 1.b., and 1.c) in FFY 2017. Please enter the data requested in the table below and the template will tabulate the requested percentages.

Measure	Number	Percent
1. Total number of denials of title XXI coverage	3048	100
a. Total number of procedural denials	2299	75.4
b. Total number of eligibility denials	745	24.4
i. Total number of applicants denied for title XXI and enrolled in title XIX	0	
<input type="checkbox"/> (Check here if there are no additional categories)	4	0.1
c. Total number of applicants denied for other reasons Please indicate: <u>Unknown</u>		

2. Please describe any limitations or restrictions on the data used in this table:
We have a joint application and determine applicants for the richest benefit for which they are eligible. Therefore we do not deny applicants for title XXI and enroll them in title XIX but rather just enroll them directly into Title XIX.

Definitions:

1. The “the total number of denials of title XXI coverage” is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2017. This definition only includes denials for title XXI at the time of initial application (not redetermination).
 - a. The “total number of procedural denials” is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2017 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).
 - b. The “total number of eligibility denials” is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2017 (i.e., income too high, income too low for title XXI /referred for Medicaid eligibility determination/determined Medicaid eligible , obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.)
 - i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX.
 - c. The “total number of applicants denied for other reasons” is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

Table 2. Redetermination Status of Children

For tables 2a and 2b, reporting is required for FFY 2017.

Table 2a. Redetermination Status of Children Enrolled in Title XXI.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XXI and eligible to be redetermined	214997	100%			
2. Total number of children screened for redetermination for title XXI	214997	100	100%		
3. Total number of children retained in title XXI after the redetermination process	181175	84.27	84.27		
4. Total number of children disenrolled from title XXI after the redetermination process	33822	15.73	15.73	100%	
a. Total number of children disenrolled from title XXI for failure to comply with procedures	30303			89.6	
b. Total number of children disenrolled from title XXI for failure to meet eligibility criteria	2709			8.01	100%
i. Disenrolled from title XXI because income too high for title XXI (If unable to provide the data, check here <input type="checkbox"/>)	97				3.58
ii. Disenrolled from title XXI because income too low for title XXI (If unable to provide the data, check here <input type="checkbox"/>)	0				
iii. Disenrolled from title XXI because application indicated access to private coverage or obtained private coverage (If unable to provide the data or if you have a title XXI Medicaid Expansion and this data is not relevant check here <input type="checkbox"/>)	0				
iv. Disenrolled from title XXI for other eligibility reason(s) Please indicate: <u>No longer in family group, moved out of state, deceased.</u> (If unable to provide the data check here <input type="checkbox"/>)	2612				96.42
c. Total number of children disenrolled from title XXI for other reason(s) Please indicate: <u>Unknown</u> (Check here if there are no additional categories <input type="checkbox"/>)	810			2.39	

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].
-

Definitions:

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2017, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose

eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.

2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2017 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2017.
4. The “total number of children disenrolled from title XXI after the redetermination process” is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2017. This includes those children that states may define as “transferred” to Medicaid for title XIX eligibility screening.
 - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2017 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
 - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their state’s CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.
 - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.
The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

Table 2b. Redetermination Status of Children Enrolled in Title XIX.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XIX and eligible to be redetermined	452658	100%			
2. Total number of children screened for redetermination for title XIX	452658	100	100%		
3. Total number of children retained in title XIX after the redetermination process	398266	87.98	87.98		
4. Total number of children disenrolled from title XIX after the redetermination process	54392	12.02	12.02	100%	
a. Total number of children disenrolled from title XIX for failure to comply with procedures	45916			84.42	
b. Total number of children disenrolled from title XIX for failure to meet eligibility criteria	8384			15.41	100%
v. Disenrolled from title XIX because income too high for title XIX (If unable to provide the data, check here <input type="checkbox"/>)	183				2.18
vi. Disenrolled from title XIX for other eligibility reason(s) Please indicate: <u>Moved out of state, no longer in family group, deceased.</u> (If unable to provide the data check here <input type="checkbox"/>)	8201				97.82
c. Total number of children disenrolled from title XIX for other reason(s) Please indicate: <u>Unknown</u> (Check here if there are no additional categories <input type="checkbox"/>)	92			0.17	

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

Definitions:

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2017, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.
2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2017 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2017.
4. The “total number of children disenrolled from title XIX after the redetermination process” is defined as the total number of children who are disenrolled from title XIX following the redetermination process in FFY 2017. This includes those children that states may define as “transferred” to CHIP for title XXI eligibility screening.
 - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XIX for failure to successfully complete the redetermination process in FFY 2017 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
 - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XIX for no longer meeting one or more of their state’s Medicaid eligibility criteria (i.e., income too high, etc.).
 - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XIX for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.
The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XIX (line 4).

Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XIX and Title XXI, Second Quarter FFY 2017

The purpose of tables 3a and 3b is to measure the duration, or continuity, of Medicaid and CHIP enrollees' coverage. This information is required by Section 402(a) of CHIPRA. **Reporting on this table is required.**

Because the measure is designed to capture continuity of coverage in title XIX and title XXI beyond one year of enrollment, the measure collects data for 18 months of enrollment. This means that reporting spans two CARTS reports over two years. The duration measure uses a cohort of children and follows the enrollment of the same cohort of children for 18 months to measure continuity of coverage. **States identify a new cohort of children every two years. States identified newly enrolled children in the second quarter of FFY 2016 (January, February, and March of 2016) for the FFY 2016 CARTS report. This same cohort of children will be reported on in the FFY 2017 CARTS report. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary.**

The FFY 2017 CARTS report is the second year of reporting in the cycle of two CARTS reports on the cohort of children identified in the second quarter of FFY 2016. The next cohort of children will be identified in the second quarter of the FFY 2018 (January, February and March of 2018).

Instructions: For this measure, please identify newly enrolled children in both title XIX and title XXI in the second quarter of FFY 2016, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2016 must have birthdates after July 1999 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18th month of coverage. Similarly, children enrolled in February 2016 must have birthdates after August 1999, and children enrolled in March 2016 must have birthdates after September 1999. Each child newly enrolled during this time frame needs a unique identifier or "flag" so that the cohort can be tracked over time. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary. Please follow the child based on the child's age category at the time of enrollment (e.g., the child's age at enrollment creates an age cohort that does not change over the 18 month time span).

Please enter the data requested in the tables below, and the template will tabulate the percentages. The tables are pre-populated with the 6-month data you reported last year; in this report you will only enter data on the 12- and 18-month enrollment status.. **Only enter a "0" (zero) if the data are known to be zero. If data are unknown or unavailable, leave the field blank.**

Note that all data must sum correctly in order to save and move to the next page. The data in each individual row must add across to sum to the total in the "All Children Ages 0-16" column for that row. And in each column, the data within each time period (6, 12 and 18 months) must each sum up to the data in row 1, which is the number of children in the cohort. This means that in each column, rows 2, 3 and 4 must sum to the total in row 1; rows 5, 6 and 7 must sum to the row 1; and rows 8, 9 and 10 must sum to row 1. **Rows numbered with an "a" (e.g., rows 3a and 4a) are excluded from the total because they are subsets of their respective rows.**

Table 3a. Duration Measure of Children Enrolled in Title XIX

Not Previously Enrolled in CHIP or Medicaid—"Newly enrolled" is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2016, he/she would not be enrolled in either title XXI or title XIX in December 2015, etc.)

Not Previously Enrolled in Medicaid—"Newly enrolled" is defined as not enrolled in title XIX in the month before enrollment (i.e., for a child enrolled in January 2016, he/she would not be enrolled in title XIX in December 2015, etc.)

Table 3a. Duration Measure, Title XIX	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
1. Total number of children newly enrolled in title XIX in the second quarter of FFY 2016	21921	100%	8105	100%	5530	100%	5533	100%	2753	100%
Enrollment Status 6 months later										
2. Total number of children continuously enrolled in title XIX	19635	89.57	7521	92.79	4933	89.2	4861	87.85	2320	84.27
3. Total number of children with a break in title XIX coverage but re-enrolled in title XIX	452	2.06	117	1.44	140	2.53	132	2.39	63	2.29
3.a. Total number of children enrolled in CHIP (title XXI) during title XIX coverage break (If unable to provide the data, check here <input type="checkbox"/>)	122	0.56	24	0.3	33	0.6	41	0.74	24	0.87
4. Total number of children disenrolled from title XIX	1834	8.37	467	5.76	457	8.26	540	9.76	370	13.44
4.a. Total number of children enrolled in CHIP (title XXI) after being disenrolled from title XIX (If unable to provide the data, check here <input type="checkbox"/>)	508	2.32	79	0.97	138	2.5	195	3.52	96	3.49
Enrollment Status 12 months later										
5. Total number of children continuously enrolled in title XIX	16621	75.82	6264	77.29	4219	76.29	4173	75.42	1965	71.38
6. Total number of children with a break in title XIX coverage but re-enrolled in title XIX	1310	5.98	496	6.12	357	6.46	306	5.53	151	5.48
6.a. Total number of children enrolled in CHIP (title XXI) during title XIX coverage break (If unable to provide the data, check here <input type="checkbox"/>)	363	1.66	126	1.55	108	1.95	88	1.59	41	1.49
7. Total number of children disenrolled from title XIX	3990	18.2	1345	16.59	954	17.25	1054	19.05	637	23.14

Definitions:

1. The “total number of children newly enrolled in title XIX in the second quarter of FFY 2016” is defined as those children either new to public coverage or new to title XIX, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.
2. The total number of children that were continuously enrolled in title XIX for 6 months is defined as the sum of:
 - the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and who were continuously enrolled through the end of June 2016
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and who were continuously enrolled through the end of July 2016
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and who were continuously enrolled through the end of August 2016
3. The total number who had a break in title XIX coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XIX by the end of the 6 months, is defined as the sum of:
 - the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and who disenrolled and re-enrolled in title XIX by the end of June 2016
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and who disenrolled and re-enrolled in title XIX by the end of July 2016
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and who disenrolled and re-enrolled in title XIX by the end of August 2016
 - 3.a. From the population in #3, provide the total number of children who were enrolled in title XXI during their break in coverage
4. The total number who disenrolled from title XIX, 6 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and were disenrolled by the end of June 2016
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and were disenrolled by the end of July 2016
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and were disenrolled by the end of August 2016
 - 4.a. From the population in #4, provide the total number of children who were enrolled in title XXI in the month after their disenrollment from title XIX.
5. The total number of children who were continuously enrolled in title XIX for 12 months is defined as the sum of:
 - the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and were continuously enrolled through the end of December 2016
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and were continuously enrolled through the end of January 2017
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and were continuously enrolled through the end of February 2017
6. The total number of children who had a break in title XIX coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 12 months, is defined as the sum of:
 - the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and who disenrolled and then re-enrolled in title XIX by the end of December 2016

- + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and who disenrolled and then re-enrolled in title XIX by the end of January 2017
- + the number of children with birthdates after September 1999 who were newly enrolled in March 2016 and who disenrolled and then re-enrolled in title XIX by the end of February 2017

6.a. From the population in #6, provide the total number of children who were enrolled in title XXI during their break in coverage.

7. The total number of children who disenrolled from title XIX 12 months after their enrollment month is defined as the sum of:
- the number of children with birthdates after July 1999, who were enrolled in January 2016 and were disenrolled by the end of December 2016
 - + the number of children with birthdates after August 1999, who were enrolled in February 2016 and were disenrolled by the end of January 2017
 - + the number of children with birthdates after September 1999, who were enrolled in March 2016 and were disenrolled by the end of February 2017

7.a. From the population in #7, provide the total number of children, who were enrolled in title XXI in the month after their disenrollment from title XIX.

8. The total number of children who were continuously enrolled in title XIX for 18 months is defined as the sum of:
- the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and were continuously enrolled through the end of June 2017
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and were continuously enrolled through the end of July 2017
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and were continuously enrolled through the end of August 2017

9. The total number of children who had a break in title XIX coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 18 months, is defined as the sum of:
- the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and who disenrolled and re-enrolled in title XIX by the end of June 2017
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and who disenrolled and re-enrolled in title XIX by the end of July 2017
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and who disenrolled and re-enrolled in title XIX by the end of August 2017

9.a. From the population in #9, provide the total number of children who were enrolled in title XXI during their break in coverage.

10. The total number of children who were disenrolled from title XIX 18 months after their enrollment month is defined as the sum of:
- the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and disenrolled by the end of June 2017
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and disenrolled by the end of July 2017
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and disenrolled by the end of August 2017

10.a. From the population in #10, provide the total number of children who were enrolled in title XXI (CHIP) in the month after their disenrollment from XIX.

Table 3b. Duration Measure of Children Enrolled in Title XXI

Specify how your “newly enrolled” population is defined:

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2016, he/she would not be enrolled in either title XXI or title XIX in December 2015, etc.)

Not Previously Enrolled in CHIP—“Newly enrolled” is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2016, he/she would not be enrolled in title XXI in December 2015, etc.)

Table 3b. Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
1. Total number of children newly enrolled in title XXI in the second quarter of FFY 2016	5172	100%	297	100%	1449	100%	2253	100%	1173	100%

 - 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.
4. The total number who disenrolled from title XXI, 6 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and were disenrolled by the end of June 2016
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and were disenrolled by the end of July 2016
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and were disenrolled by the end of August 2016
 - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.
5. The total number of children who were continuously enrolled in title XXI for 12 months is defined as the sum of:
 - the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and were continuously enrolled through the end of December 2016
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and were continuously enrolled through the end of January 2017
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and were continuously enrolled through the end of February 2017
6. The total number of children who had a break in title XXI coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
 - the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and who disenrolled and then re-enrolled in title XXI by the end of December 2016
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and who disenrolled and then re-enrolled in title XXI by the end of January 2017
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and who disenrolled and then re-enrolled in title XXI by the end of February 2017
 - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.
7. The total number of children who disenrolled from title XXI 12 months after their enrollment month is defined as the sum of:

- the number of children with birthdates after July 1999, who were enrolled in January 2016 and were disenrolled by the end of December 2016
 - + the number of children with birthdates after August 1999, who were enrolled in February 2016 and were disenrolled by the end of January 2017
 - + the number of children with birthdates after September 1999, who were enrolled in March 2016 and were disenrolled by the end of February 2017
- 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.
8. The total number of children who were continuously enrolled in title XXI for 18 months is defined as the sum of:
- the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and were continuously enrolled through the end of June 2017
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and were continuously enrolled through the end of July 2017
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and were continuously enrolled through the end of August 2017
9. The total number of children who had a break in title XXI coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
- the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and who disenrolled and re-enrolled in title XXI by the end of June 2017
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and who disenrolled and re-enrolled in title XXI by the end of July 2017
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and who disenrolled and re-enrolled in title XXI by the end of August 2017
- 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.
10. The total number of children who were disenrolled from title XXI 18 months after their enrollment month is defined as the sum of:
- the number of children with birthdates after July 1999, who were newly enrolled in January 2016 and disenrolled by the end of June 2017
 - + the number of children with birthdates after August 1999, who were newly enrolled in February 2016 and disenrolled by the end of July 2017
 - + the number of children with birthdates after September 1999, who were newly enrolled in March 2016 and disenrolled by the end of August 2017
- 10.a. From the population in #10, provide the total number of children who were enrolled in title XIX (Medicaid) in the month after their disenrollment from XXI.

Section IIIC, Question A1 - Prior to the ACA, we provided presumptive eligibility to pregnant women and children and our CHIP state plan used to reflect that. When we implemented the mandatory Hospital Presumptive Eligibility under the ACA (and implemented Provisional Eligibility under our Section 1115 Demonstration), we removed the general presumptive eligibility authority from the CHIP State Plan and instead indicated on CS28 that the only Separate CHIP population for whom we allow Hospital Presumptive Eligibility is the CHIP Unborn population.

We will provide the data for IIIC, 1a and 1b at a later time.

Section IIID: Cost Sharing

1. Describe how the state tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year?
 - a. Cost sharing is tracked by:
 - Enrollees (shoebox method)

If the state uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. **[7500]**
 - Health Plan(s)
 - State
 - Third Party Administrator
 - N/A (No cost sharing required)
 - Other, please explain. **[7500]**
2. When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased? Yes No
3. Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. **[7500]**

Massachusetts' eligibility verification system (EVS) enables providers to recognize no cost sharing is applicable for member via restrictive messaging that displays upon verification of eligibility.
4. Please provide an estimate of the number of children that exceeded the 5 percent cap in the state's CHIP program during the federal fiscal year. **[500]**

7507
5. Has your state undertaken any assessment of the effects of premiums/enrollment fees on participation in CHIP?
 Yes No If so, what have you found? **[7500]**
6. Has your state undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?
 Yes No If so, what have you found? **[7500]**
7. If your state has increased or decreased cost sharing in the past federal fiscal year, how is the state monitoring the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what have you found? **[7500]**

Section IIIE: Employer sponsored insurance Program (including

Premium Assistance)

1. Does your state offer an employer sponsored insurance program (including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI Demonstration) for children and/or adults using Title XXI funds?

- Yes, please answer questions below.
 No, skip to Program Integrity subsection.

Children

- Yes, Check all that apply and complete each question for each authority.
- Purchase of Family Coverage under the CHIP state plan (2105(c)(3))
 - Additional Premium Assistance Option under CHIP state plan (2105(c)(10))
 - Section 1115 Demonstration (Title XXI)
 - Premium Assistance Option (applicable to Medicaid Expansion) children (1906)
 - Premium Assistance Option (applicable to Medicaid Expansion) children (1906A)

Adults

- Yes, Check all that apply and complete each question for each authority.
- Purchase of Family Coverage under the CHIP state plan (2105(c)(10))
 - Section 1115 demonstration (Title XXI)
 - Premium Assistance option under the Medicaid state plan (1906)
 - Premium Assistance option under the Medicaid state plan (1906A)

2. Please indicate which adults your state covers with premium assistance. (Check all that apply.)

- Parents and Caretaker Relatives
 Pregnant Women

3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) **[7500]**

Premium Assistance maximizes private insurance by providing premium assistance if an uninsured child has access to coverage through employer-based insurance, and only offering direct coverage through MassHealth if there is no other access to health insurance. For all applicants, the Commonwealth performs a health insurance investigation, accessing a comprehensive database. Contact is made with all employed members of the household and their employers to determine if employer-sponsored insurance (ESI) is available that meets the basic benefit level, is cost effective and meets an employer contribution level of 50%. If MassHealth-qualifying ESI is available, applicants may receive premium assistance, but may not receive direct coverage. MassHealth does not allow the family to opt out of ESI in order to obtain direct public coverage. This process controls crowd-out by maximizing the state's opportunity to identify applicants with access to ESI and require enrollment. Once access to ESI is confirmed, children's parents must enroll them in premium assistance or the child's MassHealth will be terminated. Children must be uninsured at the time of application to be eligible for CHIP funding. If they are insured at the time of application they will be eligible for Title XIX under our 1115 waiver. MassHealth monitors health insurance status of potential members both at the time of application and monthly so that only uninsured children are covered in CHIP. Insurance status is verified through national insurance databases that identify coverage from any source, including noncustodial parents.

MassHealth contracts with Health Management Systems (HMS) which conducts a monthly state and national data match using a system called "Match MAX" which Identifies health Insurance for all potential members. MassHealth also has a dedicated process to match with a file from the Department of Revenue (DOR) to identify noncustodial parents of applicants and recipients who have court orders for medical support. This process allows us to not only verify existing coverage, but also to enforce the obligation of non-custodial parents by contacting their employers to arrange enrollment of the parent in an employer-sponsored family plan to cover their children.

4. What benefit package does the ESI program use? **[7500]**

Secretary approved per the State Plan amendment approved in March 2002

5. Are there any minimum coverage requirements for the benefit package?

Yes No

6. Does the program provide wrap-around coverage for benefits?

Yes No

7. Are there limits on cost sharing for children in your ESI program?

Yes No

8. Are there any limits on cost sharing for adults in your ESI program?

Yes No

9. Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your premium assistance program?

Yes No

If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum **[7500]**? Parents of eligible children are notified of the family out of pocket maximum (calculated using 5 percent of the family income less anticipated required member contribution towards ESI plan). Parents submit receipts for cost incurred and once 5 percent cap amount is met, children receive MassHealth wrap benefits for remainder of family cap year.

10. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

Number of childless adults ever-enrolled during the reporting period

811 Number of adults ever-enrolled during the reporting period

4733 Number of children ever-enrolled during the reporting period

11. Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2017.

Children 17258 Parents 6473

12. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

The greatest challenge for the ESI program has been and continues to be the maintenance of household information relating to employment, health insurance plan benefits meeting the qualifying standards for coverage (ESI plans are steadily increasing deductibles and out of pocket maximums, health insurance premiums are increasing, more employers are offering High Deductible Health Plans with Health Savings Accounts).

13. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

The Premium Assistance Unit continues to make enhancements in order to streamline the current process of investigating referrals for access to ESI. This includes targeted approaches to analyzing and working referral files and enhancing relationships with employers to get more timely and accurate updated information. MassHealth is working to maximize participation in its Premium Assistance program for ESI, including enforcing mandatory enrollment in ESI when adults have access to qualifying ESI that is cost effective.

14. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

The goal of the Premium Assistance program is to continue to increase enrollment into the program by use of streamlined investigation processes, system enhancements to better identify members with potential access to ESI, improved program applications/member communication and increased outreach to members. One new enhancement is that MassHealth will begin collecting a Health Insurance Responsibility Disclosure (“HIRD”) Form from every employer in Massachusetts with 6 or more employees. The HIRD Form will collect information about the employers’ ESI offerings, which will assist MassHealth in determining members’ access to qualifying ESI and eligibility for Premium Assistance. In addition, in order to ensure the cost effectiveness of the Premium Assistance program, MassHealth is requesting a waiver to not provide a Medicaid cost sharing wrap when any member enrolled in Premium Assistance receives services from a provider that is not enrolled as a MassHealth provider. The changes are being implemented as cost avoidance/cost savings measures.

15. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

There are several factors that MassHealth looks at when measuring the impact of the ESI program on retention of children. The Premium assistance program allows MassHealth to enroll more members into the program because of the cost savings incurred by helping Medicaid eligible members enroll into private health insurance. Because MassHealth helps purchase family plans household members that are not Medicaid eligible are also covered. Enrolling families in ESI is critical to retention of children in the program. MassHealth analyzes how many policies are purchased in order to determine cost avoidance and cost savings.

16. Provide the average amount each entity pays towards coverage of the dependent child/parent under your ESI program:

Population	State	Employer	Employee
Child	314	50	50
Parent	150	50	50

17. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

Children	Low <u>0</u>	High <u>2930</u>
Parent	Low	High

18. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

Employers must contribute at least 50% toward the cost of the health insurance.

19. Please provide the income levels of the children or families provided premium assistance.

From To

Income level of Children: 0 % of FPL [5] 300 % of FPL [5]

Income level of Parents: 0 % of FPL [5] 133 % of FPL [5]

20. Is there a required period of uninsurance before enrolling in premium assistance?

Yes No

If yes, what is the period of uninsurance? **[500]**

21. Do you have a waiting list for your program? Yes No

22. Can you cap enrollment for your program? Yes No

23. What strategies has the state found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? **[7500]**

Since Premium Assistance investigates employers and the insurance offered to employees, the employer database that was created is a critical tool in facilitating the investigation process. The process allows MassHealth to gather all of the ESI information that an employer offers including: the names of all health insurance plans the employer offers, premiums and tiers, annual open enrollment rates, summary of benefits for each health insurance offered. This process of gathering and storing current employer insurance information streamlines the determination when other members are being reviewed and are employed by the same employer. The database is updated annually, during the open enrollment periods.

Note on Response to #19:

There is no income limit for disabled children on CommonHealth

Section III F: Program Integrity

COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS, I.E., THOSE THAT ARE NOT MEDICAID EXPANSIONS)

1. Does your state have a written plan that has safeguards and establishes methods and procedures for:

(1) prevention: Yes No

(2) investigation: Yes No

(3) referral of cases of fraud and abuse? Yes No

Please explain: **[7500]**

It is important to point out that in Massachusetts Medicaid and CHIP are managed and operated seamlessly as one program known as the MassHealth program. Therefore, while there are no separate fraud and abuse activities for CHIP, all methods and procedures employed by the Commonwealth to detect, investigate, and refer cases of fraud and abuse in the Medicaid program are brought to bear on CHIP. In Massachusetts, state staff performs all application, redetermination, matching, case maintenance, and referral processes for all MassHealth programs, including CHIP. All contractual arrangements regarding fraud and abuse activities apply to CHIP as well as Medicaid.

MassHealth emphasizes aggressive management of its front-end program processes to ensure that services provided are medically necessary, provided by qualified health care providers, provided to eligible residents of the Commonwealth, and that payments are appropriately made. Ongoing efforts to combat fraud, waste, and abuse, including utilization management and regular program and clinical review, are central to all program areas. Sophisticated information systems support MassHealth's efforts to detect inappropriate billings before payment is made, and to ensure that eligibility determinations are accurate.

MassHealth implemented a pre-payment predictive modeling solution in June 2013. The predictive modeling tool uses sophisticated algorithms to analyze claims, builds provider profiles of suspicious billing patterns and assigns risk scores to potentially inappropriate claims.

Equally important are mechanisms for detailed reporting and review of claims after bills are paid to identify inappropriate provider behavior, and methods to ensure that MassHealth identifies members whose changed circumstances may affect their continuing eligibility. As with our front-end processes, information systems are a critical component of MassHealth's work to identify and address inappropriate payments.

Post-payment activities are an important "second look" and are particularly important to the identification of prosecutable fraud. And when our systems identify potential fraud, MassHealth acts aggressively to pursue the case with the appropriate authorities.

MassHealth has the following documentation regarding established methods and procedures for prevention, investigation, and referral of cases of fraud and abuse:

- 1) MassHealth Program Integrity Activities Inventory
- 2) Efforts to Prevent and Identify Fraud, Waste, and Abuse—description and identification of responsible units
- 3) Provider Compliance activity sheet
- 4) Utilization Management plan
- 5) Memorandum of Understanding between the Executive Office of Health and Human Services (EOHHS) and the Office of the Attorney General, Massachusetts Medicaid Fraud Control Unit
- 6) Interdepartmental Service Agreement between EOHHS and the Department of Revenue (DOR)

- 7) MassHealth Eligibility Operations Memo 04-04 re: New Member Fraud Referral Process
- 8) MassHealth Eligibility Operations Memo 01-7 re: Department of Revenue “New Hire” Match
- 9) MassHealth Eligibility Operations Memo 99-14 re: Annual Eligibility Review Process for Health Care Reform Members on MA-21
- 10) Contract between EOHHS and MedStat Group to perform Program Integrity gap analysis—deliverables dated June 30, 2005.
- 11) Eligibility Verification System (EVS) codes—online system for providers to verify MassHealth eligibility at point of service
- 12) Managed care contract language specifying program integrity and fraud and abuse prevention, detection, and reporting requirements for health plans contracting with MassHealth, including the requirement to have a compliance plan, designed to guard against fraud and abuse.

Do managed health care plans with which your program contracts have written plans?

Yes No

Please Explain: **[500]**

Please see above.

- 2. For the reporting period, please report the
 - 8710 Number of fair hearing appeals of eligibility denials
 - 143 Number of cases found in favor of beneficiary
- 3. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

Provider Credentialing

75 Number of cases investigated

0 Number of cases referred to appropriate law enforcement officials

Provider Billing

64 Number of cases investigated

13 Number of cases referred to appropriate law enforcement officials

Beneficiary Eligibility

954 Number of cases investigated

172 Number of cases referred to appropriate law enforcement officials

Are these cases for:

CHIP

Medicaid and CHIP Combined

- 4. Does your state rely on contractors to perform the above functions?

Yes, please answer question below.

No

5. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors? Please explain: **[7500]**

The Provider Compliance Unit, operated within the University of Massachusetts Medical School (UMMS), and managed by the MassHealth Program Integrity Unit, is our primary post-payment fraud detection unit. Utilizing algorithms and reports found in our data warehouse, and through data analysis, the Provider Compliance Unit reviews paid claims data to detect aberrant trends and outlier billing patterns that can indicate potential fraud. The Provider Compliance Unit meets our federal regulatory obligation to establish a surveillance utilization control system to safeguard against fraudulent, abusive, and inappropriate use of the Medicaid program.

Additionally, MassHealth Program Integrity Unit works across units engaged in program integrity to coordinate activities, establish unit specific internal control plans and risk assessments, manage external audit activity and coordinate the CMS Payment Error Rate Measurement (PERM).

Our MMIS system processes provider claims and contains a significant number of sophisticated edits, rules, and other program integrity checks and balances. As a result, approximately 13.2% of all claims submitted are denied and 0.2% are suspended for review or verification. The MMIS has been designed with enhanced Program Integrity capabilities, including expanded functionality to add claims edits as needed in order to keep abreast with the latest trends in aberrant or fraudulent claims submissions. Generally, information systems support to MassHealth remains a significant priority of the Executive Office of Health and Human Services, in large part because of the potential of leveraging technology to combat fraud, waste, and abuse in the Medicaid program. The EOHHS Data Warehouse, for example, is a consolidated repository of claims and eligibility data that provides program and financial managers with the ability to develop standard and ad-hoc management reports.

The Claims Operations Unit manages our claims processing contractor and monitors claims activity weekly. The EOHHS Office of Financial Management organizes a weekly Cash Management Team made up of budget, program, and operations staff that closely monitors the weekly provider claims payroll and compares year-to-date cash spending with budgeted spending by both provider type and budget category. The prior authorization unit ensures that certain services are medically necessary before approving the service. Even more sophisticated measures are in place for the pharmacy program. The Drug Utilization Review program at UMMS monitors and audits pharmacy claims and is designed to prevent early refills, therapeutic duplication, ingredient duplication, and problematic drug-drug interaction. In February 2004, our Managed Care Program instituted required reporting on fraud and abuse protections for all of MassHealth's managed care organizations.

Finally, the MassHealth Operations unit provides close oversight of a contract for customer services to MassHealth members and providers. MassHealth currently employs a single vendor for customer services, responsible for both provider relations and member relations. The integration of these vendor services brings with it many new opportunities in the program integrity area. Our customer services contractors verify the credentials of all providers applying to participate in our program as well as re-credentialing existing providers and will work closely with the Board of Registration in Medicine, the Division of Professional Licensing, the Department of Public Health, the US Department of Health and Human Services, and the Office of the Inspector General to identify disciplinary actions against enrolled providers.

6. Do you contract with managed care health plans and/or a third party contractor to provide this oversight?

Yes

No

Please Explain: **[500]**

The relationship with UMMS as described above is governed by an interagency service agreement (ISA) between the medical school and EOHHS.

Response to 2 "Number of fair hearing appeals of eligibility denials", includes both denials and terminations.

Section IIIG: Dental Benefits:

Please **ONLY** report data in this section for children in Separate CHIP programs and the Separate CHIP part of Combination programs. Reporting is required for all states with Separate CHIP programs and Combination programs. If your state has a Combination program or a Separate CHIP program but you are not reporting data in this section on children in the Separate CHIP part of your program, please explain why. Explain: **[7500]**

1. **Information on Dental Care for Children in Separate CHIP Programs (including children in the Separate CHIP part of Combination programs). Include all delivery system types, e.g. MCO, PCCM, FFS.**

Data for this table are based on the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

a. **Annual Dental Participation Table for Children Enrolled in Separate CHIP programs and the Separate CHIP part of Combination programs (for Separate CHIP programs, please include ONLY children receiving full CHIP benefits and supplemental benefits).**

FFY 2017	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Individuals Enrolled for at Least 90 Continuous Days¹	217394	928	15303	28428	50189	62582	59964
Total Enrollees Receiving Any Dental Services²	116381	12	3241	13971	30943	38336	29878

FFY 2017	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
[7]							
Total Enrollees Receiving Preventive Dental Services³ [7]	104886	0	2987	13358	29382	34336	24823
Total Enrollees Receiving Dental Treatment Services⁴ [7]	59485	10	377	3688	14392	22239	18779

¹ **Total Individuals Enrolled for at Least 90 Continuous Days** – Enter the total unduplicated number of children who have been continuously enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days in the federal fiscal year, distributed by age. For example, if a child was enrolled January 1st to March 31st, this child is considered continuously enrolled for at least 90 continuous days in the federal fiscal year. If a child was enrolled from August 1st to September 30th and from October 1st to November 30th, the child would not be considered to have been enrolled for 90 continuous days in the federal fiscal year. Children should be counted in age groupings based on their age at the end of the fiscal year. For example, if a child turned 3 on September 15th, the child should be counted in the 3-6 age grouping.

²**Total Enrollees Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (or equivalent CDT codes D0100 - D9999 or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

³**Total Enrollees Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 (or equivalent CDT codes D1000 - D1999 or equivalent CPT codes, that is, only those CPT codes that are for preventive dental services and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

⁴**Total Enrollees Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (or equivalent CDT codes D2000 - D9999 or equivalent CPT codes, that is, only those CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services, and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

Report all dental services data in the age category reflecting the child's age at the end of the federal fiscal year even if the child received services while in two age categories. For example, if a child turned 10 on September 1st, but had a cleaning in April and a cavity filled in September, both the cleaning and the filling would be counted in the 10-14 age category.

- b. **For the age grouping that includes children 8 years of age, what is the number of such children who have received a sealant on at least one permanent molar tooth⁵? [7]**
8850

⁵**Receiving a Sealant on a Permanent Molar Tooth** -- Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth, as defined by HCPCS code D1351 (or equivalent CDT code D1351), based on an unduplicated paid, unpaid, or denied claim. For this line, include sealants placed by any dental professional for whom placing a sealant is within his or her scope of practice. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, 31, and additionally, for those states that cover sealants on third molars, also known as wisdom teeth, the teeth numbered 1, 16, 17, 32.

Report all sealant data in the age category reflecting the child's age at the end of the federal fiscal year even if the child was factually a different age on the date of service. For example, if a child turned 6 on September 1st, but had a sealant applied in July, the sealant would be counted in the age 6-9 category.

2. **Does the state provide supplemental dental coverage?** Yes No

If yes, how many children are enrolled? [7]

What percent of the total number of enrolled children have supplemental dental coverage? [5]

Enter any Narrative text related to Section IIIG below. [7500]

Section IIIG: CHIPRA CAHPS Requirement:

CHIPRA section 402(a)(2), which amends reporting requirements in section 2108 of the Social Security Act, requires Title XXI Programs (i.e., CHIP Medicaid Expansion programs, Separate Child Health Programs, or a combination of the two) to report CAHPS results to CMS starting December 2013. While Title XXI Programs may select any CAHPS survey to fulfill this requirement, CMS encourages these programs to align with the CAHPS measure in the Children's Core Set of Health Care Quality Measures for Medicaid and CHIP (Child Core Set). Starting in 2013, Title XXI Programs should submit summary level information from the CAHPS survey to CMS via the CARTS attachment facility. We also encourage states to submit raw data to the Agency for Healthcare Research and Quality's CAHPS Database. More information is available in the Technical Assistance fact sheet, Collecting and Reporting the CAHPS Survey as Required Under the CHIPRA: <https://www.medicaid.gov/medicaid/quality-of-care/downloads/cahpsfactsheet.pdf>

If a state would like to provide CAHPS data on both Medicaid and CHIP enrollees, the agency must sample Title XIX (Medicaid) and Title XXI (CHIP) programs separately and submit separate results to CMS to fulfill the CHIPRA Requirement.

Did you Collect this Survey in Order to Meet the CHIPRA CAHPS Requirement? Yes No

If Yes, How Did you Report this Survey (select all that apply):

- Submitted raw data to AHRQ (CAHPS Database)
- Submitted a summary report to CMS using the CARTS attachment facility (NOTE: do not submit raw CAHPS data to CMS)
- Other. Explain:

If No, Explain Why:

Select all that apply (Must select at least one):

- Service not covered
- Population not covered
 - Entire population not covered
 - Partial population not covered
 Explain the partial population not covered:
- Data not available
 - Explain why data not available
 - Budget constraints
 - Staff constraints
 - Data inconsistencies/accuracy
 - Please explain:
 - Data source not easily accessible
 - Select all that apply:
 - Requires medical record review
 - Requires data linkage which does not currently exist
 - Other:
 - Information not collected.
 - Select all that apply:
 - Not collected by provider (hospital/health plan)
 - Other:
 - Other:
- Small sample size (less than 30)
 - Enter specific sample size:
- Other. Explain:

Definition of Population Included in the Survey Sample:

Definition of population included in the survey sample:

- Denominator includes CHIP (Title XXI) population only.
 - Survey sample includes CHIP Medicaid Expansion population.
 - Survey sample includes Separate CHIP population.
 - Survey sample includes Combination CHIP population.

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded:

Which Version of the CAHPS® Survey was Used?

- CAHPS® 5.0.
- CAHPS® 5.0H.
- Other. Explain:

Which Supplemental Item Sets were Included in the Survey?

- No supplemental item sets were included
- CAHPS Item Set for Children with Chronic Conditions
- Other CAHPS Item Set. Explain:

Which Administrative Protocol was Used to Administer the Survey?

- NCQA HEDIS CAHPS 5.0H administrative protocol
- AHRQ CAHPS administrative protocol

Other administrative protocol. Explain:

Enter any Narrative text related to Section IIIH below. **[7500]**

The state plans to administer the 3.0 CG-CAHPS instrument as part of a requirement for its ACO program, to include surveys of children. The survey will be administered with results calculated in 2019.

Section III I: Health Service Initiatives (HSI) Under the CHIP State Plan

Persuant to Section 2105(a)(1)(D)(ii) of the Social Security Act, states have the option to use up to 10 percent of actual or estimated Federal expenditures to develop state-designed Health Services Initiatives (HSI) (after first funding costs associated with administration of the CHIP state plan), as defined in regulations at 42 CFR 457.10, to improve the health of low-income children.

1) Does your state operate HSI(s) to provide direct services or implement public health initiatives using Title XXI funds?

Yes, please answer questions below.

No, please skip to Section IV.

2) In the table below, please provide a brief description of each HSI program operated in the state in the first column. In the second column, please list the populations served by each HSI program. In the third column, provide estimates of the number of children served by each HSI program. In the fourth column, provide the percentage of the population served by the HSI who are children below your state's CHIP FPL eligibility threshold.

HSI Program	Population Served by HSI Program	Number of Children Served by HSI Program	Percent of Low-income Children Served by HSI Program ¹
<p>Healthy Families:</p> <p>This Newborn Home Visiting Program, called "Healthy Families", provides a neonatal and postnatal parenting education and home visiting program</p>	Families with at-risk newborns	4400	
<p>Essential School Health Services:</p> <p>provides school nurse services</p>	Students in K-12 who receive school nurse services		

¹ The percent of children served by the HSI program who are below the CHIP FPL threshold in your state should be reported in this column.

<p>Safe Spaces:</p> <p>provides suicide prevention and violence prevention programs for Gay, Lesbian, Bisexual and Transgender youth</p>	<p>Community agencies serve young LGBT people throughout the state, and agencies can have specific focus groups such as homeless youth.</p>	489	
<p>State-funded WIC: provides the same services as the federally funded Women, Infant, and Children's Program Services</p>	<p>Pregnant women and mothers with children under age 5.</p>	2400	100
<p>Smoking Prevention and Cessation Programs:</p> <p>provides media campaigns and youth training initiatives to discourage tobacco use among young people</p>	<p>Young people throughout Massachusetts.</p>		
<p>Family Planning Programs:</p> <p>provides services such as exams, referrals, counseling, and education</p>	<p>Clients of community based agencies including clinics, health centers, etc.</p>	9000	
<p>Project to Prevent Out of Home Residential Placements:</p> <p>The Department of Developmental Disabilities provides an array of community based services to help young people continue to live at home with their families</p>	<p>Clients of the Department of Developmental Disabilities who are at high-risk of needing institutional level care.</p>	300	
<p>School Breakfast:</p> <p>The Department of</p>	<p>Children in K-12 schools</p>		

Elementary and Secondary Education provides funds for school breakfasts			
Safe and Successful Youth: provides funding for communities to design and implement strategies to reduce high risk behaviors among young males	Adolescent males	1000	
Teen Pregnancy Prevention: The Department of Public Health funds community based programs which implement strategies to reduce teen pregnancies	Teens at high risk of becoming pregnant	4000	
Youth Violence Prevention: The Department of Public Health provides funding to community based organizations which provide activities aimed at preventing and reducing at-risk behavior among young people	High risk youth	5000	
Young Parent Support: The Department of Children and Families provides funding for community based organizations that provide outreach, home visits, mentoring, and parent groups in order to strengthen the skills of young parents	High risk families	390	

Safe Spaces - Some of the services are outreach or drop in services so there is no specific client count.

Smoking prevention - Services are outreach or media campaigns so there is no specific client count.

School breakfast - The program pays for more than 5 million breakfasts in schools around the state, but there is no data on unduplicated students.

Safe and Successful Youth - approximate count

Teen Pregnancy Prevention - approximate count

Youth Violence Prevention - Approximate count. Emphasis is on after-school programs with an outreach or “drop-in” aspect so no specific client data is available.

Child at risk - no data on unduplicated child count

Percentage of Low-income children served:

For most HSI programs services are not limited to certain income levels and data is not collected on income so it is not possible to determine the percent of low-income children served by the HSI.

Section IV. Program financing for State Plan

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-federal funds).
(Note: This reporting period equals federal fiscal year 2017. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

COST OF APPROVED CHIP PLAN

Benefit Costs	2017	2018	2019
Insurance payments	4403816	4429177	4454684
Managed Care	328129854	341796439	343758684
Fee for Service	359316968	354026096	356058550
Total Benefit Costs	691850638	700251712	704271918
(Offsetting beneficiary cost sharing payments)			
Net Benefit Costs	\$ 691850638	\$ 700251712	\$ 704271918

Administration Costs	2017	2018	2019
Personnel	22323494	22323494	22343494
General Administration			
Contractors/Brokers (e.g., enrollment contractors)			
Claims Processing			
Outreach/Marketing costs			
Other (e.g., indirect costs)			
Health Services Initiatives	54561970	54561970	54561970
Total Administration Costs	76885464	76885464	76905464
10% Administrative Cap (net benefit costs ÷ 9)	76872293	77805746	78252435

	2017	2018	2019
Federal Title XXI Share	676487770	683880715	687436096
State Share	92248332	93256461	93741286
TOTAL COSTS OF APPROVED CHIP PLAN	768736102	777137176	781177382

2. What were the sources of non-federal funding used for state match during the reporting period?

- State appropriations
- County/local funds
- Employer contributions
- Foundation grants
- Private donations
- Tobacco settlement
- Other (specify) **[500]**

3. Did you experience a short fall in CHIP funds this year? If so, what is your analysis for why there were not enough federal CHIP funds for your program? **[1500]**
 No

4. In the tables below, enter 1) number of eligibles used to determine per member per month costs for the current year and estimates for the next two years; and, 2) per member per month (PMPM) cost rounded to a whole number. If you have CHIP enrollees in a fee for service program, per member per month cost will be the average cost per month to provide services to these enrollees.

A. Managed Care

Year	Number of Eligibles	PMPM (\$)
2017	106163	\$324
2018	107012	\$323
2019	107867	\$322

A. Fee For Service

Year	Number of Eligibles	PMPM (\$)
2017	113956	\$323
2018	114876	\$322
2019	115794	\$322

Enter any Narrative text related to Section IV below. **[7500]**

Section V: Program Challenges and Accomplishments

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted CHIP. **[7500]**

Massachusetts remains committed to providing access to health insurance to all of its residents. The major elements of the Affordable Care Act were modeled after our state health reforms of 2006 and the implementation of the ACA in the state built on and enhanced our state reform efforts. The state has maintained its highest in the nation insurance rate, measured at 97.5% total and at 99.1% for children under 18 in 2016 (2016 American Community Survey) and there is strong political and fiscal support to maintain or even improve these rates.

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

The greatest challenge is the uncertainty of continued funding for CHIP and needing to think through options for the separate CHIP population if CHIP is not reauthorized.

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

We implemented a number of eligibility process improvements (advanced data matching, form pre-population, automated bank account tracking) and 35% of renewals are now auto-renewed. On the quality side, Massachusetts' rates were in the best performing quartile for 14 out of 18 child core set measures included in the recently released FFY 2015 report.

4. What changes have you made or are planning to make in your CHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

Massachusetts is embarking on a major payment and delivery system reform that seeks to enhance the health care experience for MassHealth members, improve health outcomes, and make the MassHealth program more sustainable for the future. The reforms, which include transition from fee for service, siloed care toward managed and accountable care models, will impact both Medicaid and CHIP members. In addition to the current options of the Primary Care Clinician Plan and traditional managed care organizations, managed care eligible Medicaid and CHIP members will be able to choose to enroll in one of 17 newly procured Accountable Care Organizations beginning in March of 2018.

Although our performance on the child core set quality measures is high, we are also looking at ways to improve performance on selected child core set quality measures.

Enter any Narrative text related to Section V below. **[7500]**
