PURPOSE OF THE GRANT

The Distracted Driving Grant promotes innovative initiatives among law enforcement agencies to reduce injuries and fatalities related to Distracted Driving.

PROGRAM OVERVIEW

Reducing fatalities and injuries due to distracted driving is a national priority. The Traffic Safety Division is seeking proposals to effectively address these issues. Your proposals should be innovative and address a specific local traffic safety concern. This should include evidence based programming substantiated by data, education and awareness campaigns, and enforcement. Activities included in this program should align with a specific program(s) within the NHTSA Countermeasures that Work document. <https://www.nhtsa.gov/sites/nhtsa.dot.gov/files/812202-countermeasuresthatwork8th.pdf>

Applications for this award should provide a description distinct to distracted driving trends in your area. It is important to examine trends, specify desired outcomes, and consider how to monitor them over time. Outcome-based initiatives are performance results or performance indicators that include short-term and long-term goals. Applicants should observe trends and use this information to establish annual and five-year targets, and provide a rationalization for identified targets.

All agencies are required to read and agree to the 2019 Distracted Driving Grant Policies and Procedures document to be awarded.

ELIGIBILITY REQUIREMENTS

1. 23 U.S.C. Chapter 4—Highway Safety Act of 1966, as amended
2. Sec. 1906, Pub. L. 109-59, as amended by Sec. 4011, Pub. L. 114-94

APPENDIX A: DISTRACTED DRIVING POLICIES AND PROCEDURES

The Distracted Driving Grant Program is the primary enforcement program in Indiana to combat Distracted Driving. This program is intended to decrease fatalities and injuries related to distracted driving in Indiana.

Funding

Distracted Driving grant funds will cover the costs of the overtime salary of traffic enforcement officers, and minimal administrative costs which will not exceed 10% of the awarded grant funds.

All law enforcement agencies and Traffic Safety Partnerships (TSPs) who conduct traffic safety initiatives supported by funding provided by the National Highway Traffic Safety Administration (NHTSA) and passed through the Indiana Criminal Justice Institute (ICJI) shall pay all law enforcement officers or personnel for work performed beyond their regular work period at an overtime reimbursement rate that is congruent to the FLSA overtime rate for law enforcement personnel, and shall be time and one-half of their regular individual rate of pay. This time and one-half reimbursement rate policy is to be based on the regular individual's rate of pay. ICJI will not provide reimbursement to law enforcement agencies for any fringe benefit costs added to the officer's regular rate of pay. Fringe benefit costs can include but are not limited to employer costs related to FICA, health insurance, and pension contributions.

All departments/TSPs will cover the costs of benefits, gasoline, mileage, equipment, etc. All funding will be provided on a REIMBURSEMENT BASIS ONLY.

Costs charged to the grant must meet the following requirements:

- Funds are to be supplemental and do not substitute for on-going activities. Personnel expenses will be for distracted driving enforcement activities only, and will not include any activity (enforcement, reporting, or otherwise) conducted during regular duty hours.
- Funds must conform to federal, state, and local policies, regulations and procedures that apply uniformly to other activities.
- The costs charged to this grant cannot be included as a cost of any other federally funded program.
- The funds should not result in a profit to the state or local unit of government.
- Costs must be incurred within the grant period.
- Costs must be adequately supported by documentation.
- Salaries and wages chargeable to this highway safety project must be supported by appropriate time distribution records, and must follow department/agency pay policies.

- No more than 10% of the total grant funds expended at any point in time during the grant period may be used for the costs of administrative duties relating to the grant (e.g. dispatch, seat belt survey, clerk, and coordinator duties associated with reporting under the requirements of this grant). Agencies utilizing administrative hours must document the type of activity using a log sheet which will be provided so that administrative expenditures can be monitored. ***Any administrative pay must be placed in the category of "Other" in the Budget area line item versus "Personnel."***

Activities and Procedures

All departments/Traffic Safety Partnerships (TSPs) agree to follow the Distracted Driving schedule and activities as outlined in the Policy and Procedures document. Activities included in this program should align with a specified program(s) within the NHTSA [Countermeasures That Work](#) document.

Projects must include the following elements:

- Enforcement data collection (***Required*** observational distracted driving surveys at the beginning of the enforcement period and at the end of the enforcement period).
- High Visibility Traffic Enforcement, including media event, news releases, and public education.
- Media event announcements including news conferences, radio, and news releases. There must be a media event prior to the enforcement period and following the enforcement period.
- Report all activity and enforcement (both in the OPO Database and IntelliGrants).
- Awarded agencies must work during the enforcement period and not outside of these dates.

Agencies awarded funding under the Distracted Driving grant must conduct all enforcement during the designated grant period.

Enforcement

This grant will provide funding to the department/TSP to conduct distracted driving enforcement during the grant period of October 1, 2018 - September 30, 2019.

Grantee efforts, with both enforcement and public awareness campaigns, will focus on the following:

- Decreasing distracted driving related crashes, fatalities, and injuries
- Increasing compliance with distracted driving laws

Our department/TSP agrees to meet the following minimum grant requirements:

- Enforcement Guidelines to include the below:

- Officers should endeavor to make sure the person is texting or emailing. The Indiana Statute requires the driver be sending or receiving communication, so checking programs such as GPS travel planning and weather applications do not violate the law.
 - It is recommended officers include a narrative report alongside any citations to ensure proper enforcement of the infraction in court.
 - Officers should take note that the Graduated Driver's License Law states no persons under 21 years of age may use a handheld communications device of any sort for any purpose other than calling 911.
 - If possible, officers should obtain video or photographic evidence of cell phone usage and texting to help secure convictions.
 - Officers are not permitted to confiscate the cell phone of a person suspected of violating 9-21-8-59 in order to confirm or capture any information confirming the use of electronic communications.
- Grantees must participate in Distracted Driving Awareness Month (April).
 - This includes pre and post media releases provided by ICJI
 - Spotter-type enforcement strategies preferred – Other enforcement strategies described in application may be considered by the Criminal Justice Institute.
 - Examples of spotter-type enforcement would be officers on school buses, overpasses, posing as homeless person at intersection, etc.
 - Enforcement areas should include intersections and other areas where traffic naturally slows. Enforcement locations should be included in grant application with narrative for rationale as to why locations were chosen.
 - Grantees must participate in some enforcement at least once each quarter.
 - Grantees must adhere to the plan described in the application submitted for this program.
 - For all other traffic violations, citations are highly recommended during the increased enforcement period to receive the full impact of the program.

Fiscal Reporting

Reporting for OPO will be completed by entering information into the OPO Database as well as the IntelliGrants system. Reports are due to the OPO Database and IntelliGrants within 20 days for quarterly and within 30 days for the final report.

ATTENTION: NO FINAL FISCAL CLAIMS WILL BE ACCEPTED FOR PAYMENT AFTER OCTOBER 30TH. NO EXCEPTIONS.

The following documentation must be included with each **fiscal report** submitted into the IntelliGrants system:

- Fiscal Reports
 - Chief/Sheriff Letter (signed)
 - Personnel Details report from the OPO Database
 - Administrative Log (if applicable)

Note: Agencies claiming administrative time must have an administrative log with the coordinator's signature AND an authoritative signature or an OAS with coordinator's signature AND authoritative signature. If a coordinator uses the OAS signature option, an administrative log is still required.

Program Reporting

The following documentation must be included with each **program report** submitted into the IntelliGrants system:

- Program Reports
 - Pre & post media
 - Program Totals report from the OPO Database

It is the responsibility of each grantee to ensure all officers working on grant funded time will complete an **Officer Activity Detail Sheet** and Personnel Log for the enforcement period. The department/TSP will maintain all Officer Activity Detail Sheets on file for a minimum of five years. All reports and activity sheets will be routinely monitored by the Law Enforcement Liaison and/or Traffic Safety Division Program Staff.

ICJI reserves the right to request data from enforcement at any point in time after the enforcement has been conducted. **Officer Activity Detail Sheets** will be distributed to each agency at the time the award is granted.

The following documentation must be included with each **program report** submitted into the IntelliGrants system:

Additional Grant Management Criteria

- The grantee must maintain a proper grant file with all grant documentation included in the file for monitoring by the Local Law Enforcement Liaison or the Traffic Safety Program Staff.
- The Department must maintain on file Standard Operating Procedures for officers to work the program.

- The Department must maintain on file Standard Operating Procedures of enforcement of occupant protection laws.
- The Department must have on file current departmental salary ordinance.
- **Only paid Indiana law enforcement officers with full arrest powers shall be funded to work this program.**

Program Evaluation

Each department/TSP receiving grant funds will be administratively evaluated utilizing the ICJI Traffic Safety Division reporting forms as well as on-site monitoring. Programs will also be evaluated on the goals submitted by each department. Additionally, the overall success of the statewide program will be measured through crash statistics. The ICJI Traffic Safety Division will maintain communication with the grantees to guide and encourage positive results.

Supplanting and Cost Assumption

Federal grant dollars are intended to complement enforcement efforts already established by the department/TSP. These grant funds will not supplant enforcement efforts or equipment already owned in the jurisdiction.

BUY AMERICA ACT

The Grantee will comply with the Buy America requirement (23 U.S.C. 313) when purchasing items using Federal funds. Buy America requires a State, or subgrantee, to purchase only steel, iron, and manufactured products produced in the United States with Federal funds, unless the Secretary of Transportation determines that such domestically produced items would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactorily quality or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. In order to use Federal funds to purchase foreign produced items, the State must submit a waiver request that provides an adequate basis and justification to and approved by the Secretary of Transportation.

MONITORING

2 C.F.R. Part 200 sets forth monitoring requirements whereby the State must establish and carry out a process of assessing the progress of projects and programs that are funded, in whole or in part, by federal funds. This monitoring function measures both financial and programmatic progress. It also provides an opportunity for technical assistance to the Applicant, measures compliance, builds partnerships for success, and provides results based feedback to the Applicant. The State will monitor all grant awards via an ICJI Program Manager and/or ICJI Compliance Monitoring Team. As part of the monitoring process, the ICJI Program Manager will review all reports submitted by the Grantee for accuracy, timeliness, completeness, etc. The State will conduct on-site or off-site monitoring reviews of the Project during the term of the grant agreement and for up to three (3) years after it expires or is otherwise terminated. At the request of the State, any and all documentation related to the grant shall be provided at no cost. If the Applicant fails to cooperate with the State's monitoring process, the State may consider such non-cooperation as a material breach.

Delinquent, inaccurate, incomplete, or fraudulent reports will be addressed by ICJI. ICJI's remedies include, but are not limited to, identifying the Grantee as high risk, de-obligated funding, disqualification from future funding, and referral to the federal Office of Inspector General. The recipient agrees to comply with any additional requirements that may be imposed during the grant

performance period if the State determines that the recipient is a high-risk Applicant or Grantee pursuant to 28 C.F.R. parts 66, 70.

- B. *Single audit.* A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single audit conducted in accordance with §200.514 Scope of audit except when it elects to have a program-specific audit conducted in accordance with paragraph (c) of this section.
- C. *Program-specific audit election.* When an entity expends Federal awards under only one Federal program (excluding research and development) and the Federal program's statutes, regulations, or the terms and conditions of the Federal award do not require a financial statement audit of the entity, the entity may elect to have a program-specific audit conducted in accordance with §200.507 Program-specific audits. A program-specific audit may not be elected for research and development unless all of the Federal awards expended were received from the same Federal agency, or the same Federal agency and the same pass-through entity, and that Federal agency, or pass-through entity in the case of a subrecipient, approves in advance a program-specific audit.
- D. *Exemption when Federal awards expended are less than \$750,000.* A non-Federal entity that expends less than \$750,000 during the non-Federal entity's fiscal year in Federal awards is exempt from Federal audit requirements for that year, except as noted in §200.503 Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO).

Any amendment to the grant agreement must be submitted in writing and approved by the State prior to the implementation of the amendment. Amendments include, but are not limited to, changes to the Project Budget or scope of the Project, extensions to the period of performance, changes concerning an authorized official. Amendments require strong justification and supporting documentation. Furthermore, the amendment must comply with all federal and state laws, rules, and regulations.

If the Applicant wishes to seek an exemption to a federal or state law, regulation, or rule, such request must be submitted in writing and approved by the State prior to the Applicant obligating or expending any grant funds related to the desired exemption.

Federal law prohibits the use of federal funds from certain activities irrespective of the federal funding source or the specifics of the grant program. These prohibitions include:

- Lobbying, including attempts to influence legislation or the outcome of any federal, state, or local elections. Recent changes to the law have expanded the prohibition to any federally appropriated funding used, either directly or indirectly, to support the enactment, repeal, modification, or adoption of any law, regulation, or policy, at any level of government. Violations of this prohibition are now subject to civil fines of up to \$100,000 per violation.
- Fundraising (including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions).
