Eligibility Factor	Self-Attestation Accepted without Additional Verification	Self-Attestation Accepted with Post-Enrollment Verification (Y/N)	Electronic Data Source Used (Y/N) <i>If Yes, please describe in comments</i>	Paper Documentation Required from the Individual (Y/N)	Non-Applicable (N/A)	Comments
1. Applicant does not have other coverage	NO	NO	YES	YES	Must be Applied	Customer statement is accepted. However, if our electronic interface from Office of Recovery Services (ORS) shows that the customer has an insurance, this discrepancy must be addressed. An email is sent to ORS to verify if the customer still has the insurance; if the customer does not have the insurance, the TPL is removed in our system. If the ORS verifies that the customer has insurance, but the customer still states that they do not, the customer can provide additional documentation to provide to ORS.
2. Applicant does not have access to affordable ESI	NO	NO	NO	YES		Utah has a an Employer's Health Insurance Information Form that we require customer's employer or human resource personnel to complete to verify if the customer has available health insurance. At application and review we verify before we approve the case.
3. When child has had coverage (as applicable to states' waiting period)	NO	NO	YES	YES		If the customer has had the information known to ORS, we send an email to ORS to verify the termination of the insurance. If the customer is not known to ORS, a certificate of coverage or other documentation to show the termination of the insurance is requested from the customer.
4. Access to public employee coverage	NO	YES	YES	YES		We gather this information at application through self-attestation. If the electronic data source shows a discrepancy with client attestation then we request additional information from the customer.

Eligibility Factor	Self-Attestation Accepted without Additional Verification	Self-Attestation Accepted with Post-Enrollment Verification (Y/N)	Electronic Data Source Used (Y/N) <i>If Yes, please describe in comments</i>	Paper Documentation Required from the Individual (Y/N)	Non-Applicable (N/A)	Comments
5a. Waiting period exception #1 (describe):	YES	NO	NO	NO		Exception 1: Voluntary termination of COBRA coverage. We take customer statement on the voluntary termination of coverage reason.
5b. Waiting period exception #2 (describe):	YES	NO	NO	NO		Exception 2: Voluntary termination of HIP Utah (Health Insurance Pool) coverage. We take customer statement on the voluntary termination of coverage reason.
5c. Waiting period exception #3 (describe):	YES	NO	NO	NO		Exception 3: Voluntary termination of coverage by non-custodial parent. We take customer statement on the voluntary termination of coverage reason.
5d. Waiting period exception #4 (describe):	NO	NO	YES	NO		Exception 4: Voluntary termination of UPP reimbursed employer-sponsored coverage. We verify the end date for UPP in our eREP eligibility system. Paper documentation would never be necessary, as the eRep eligibility system is the primary source of information.
5e. Waiting period exception #5 (describe):	NO	NO	NO	YES		Exception 5: Voluntary termination of insurance that does not provide coverage in Utah. We obtain verification from the customer to verify that the coverage is not provided in Utah and when it ended.
5f. Waiting period exception #6 (describe):	YES	NO	NO	NO		Exception 6: Voluntary termination of limited health insurance plan. We take the customer statement on the voluntary termination.
5g. Waiting period exception #7 (describe):	NO	NO	YES	NO		Exception 7: ORS forces enrollment under NMSN (National Medical Support Notice). Then, because the cost of insurance exceeds 5% of the gross monthly income, ORS reverses the forced enrollment and the child is terminated from the TPL of the custodial parent. We verify this with ORS.

Section D. Additional Verification Questions		
	Question	Response
1	If paper documentation is required when a data source is not available or the information obtained from a data source is not reasonably compatible with the information provided by or on behalf of the individual, briefly describe how the state determined that establishing and using an electronic data source was not effective, considering such factors as cost and program integrity in accordance with 42 CFR 435.952(c):	For factors that we do not accept self-attestation without additional verification, we will only ask for paper documentation when there is no electronic data available or when the electronic data is not reasonably compatible with client attestation and we have exhausted all other electronic data sources and information from other agencies. Agency also uses multiple back-up data sources for verification, prior to reaching out to individual for paper.
2	Please describe how the state uses PARIS?	PARIS is accessed by eligibility workers at application and renewal. It is a data source in our eFind system. Workers sort through the old data and if we find inconsistencies with the data we have on file the customer is asked to explain. PARIS is also used to verify current federal wages.
3	Please indicate (YES) or (NO) if the State intends to request Secretarial approval to solely use alternative data sources for financial verification other than those listed in 42 CFR 435.948 (Numbers 1-8 in Section B-1).	NO
	If (YES), please submit a letter to CMS requesting such approval describing how the the state meets the following requirements: 1) Reduces administrative costs and burdens on both individuals and the State, 2) Maximizes accuracy and minimizes delay, 3) Meets the requirements related to confidentiality, disclosure, maintenance and use of information, and 4) Promotes coordination with other insurance affordability programs.

4	Please indicate (YES) or (NO) if the State intends to request Secretarial approval to use a mechanism other than the federal data services hub for information that is available through the hub.	YES

Utah has been granted a full indefinite Hub waiver to use an existig SAVE match to verify immigration status and to use SOLQ directly with SSA to verify SSN, citizenship and Title II income.	
5	Describe any additional MAGI-based eligibility verification policies and procedures that have not been covered in this verification plan (optional):		

Section A. Additional Comments

When income data from the State and Federal sources are incompatible such that one is above the applicable income standard and one is below the applicable income standard, the State will use the State income verifications to compare with client attestation of income to determine if they are reasonably compatible.

State has a local data hub that is used that has access to local data sources known as e-Find.

At time of application and re-certification, a real time interface with quarterly wage data (QWD) occurs. The customer attests that there has not been a change in employer, no recent raise or change of hours occurred, they are not self-employed, and their current income is compatible with the most recent QWD available. If those questions are appropriately answered, the wage matched income is used to determine the person's eligibility. If the wage match income would make the person ineligible, more information is requested to properly deny the case as over income.
