

U.S. Customs and Border Protection

Interceptor Class All-Weather 33-Foot SAFE Boat

FACT SHEET

Marine interdiction agents with CBP's Air and Marine Operations (AMO) use the 33-foot Secure Around Flotation Equipped (SAFE) Boat for the pursuit and boarding (inland and offshore) of vessels transiting in locations with extreme weather conditions.

The SAFE Boat's features make it ideal for performing law enforcement missions such as maritime smuggling in rough seas and areas congested with waterborne debris. Its fabricated marine-grade aluminum hull and foam collar provide the stability and buoyancy of a rigid-hulled inflatable boat, with unmatched durability and safety. The foam collars enable the boat to remain buoyant, even if taking on water in extreme conditions. The boat's protective cabin has heat and air to protect its crew from the elements.

The SAFE Boat 3-person (minimum) crew work together with AMO aviation assets and other federal, state, and local law enforcement entities to accomplish the homeland security mission.

Performance and Weights:

- **Maximum Speed**
45 knots (51 mph)
- **Range**
300 nautical miles (345 miles)
- **Endurance**
4 to 6 hours
- **Length**
33 feet
- **Maximum Gross Weight**
13,300 pounds

Features:

- 3 X 300 HP Mercury outboard engines
- Marine surface radar
- Electro-optical/infrared sensors
- Shock-mitigating seats
- State-of-the-art marine navigational suite
