200 North High St.  
Room 540  
Columbus, OH, 43215  
Phone: 614-255-2441  
FAX: 855-832-5100

**State Executive Director:**  
Leonard Hubert

**Administrative Officer:**  
Mimi Garringer

**Conservation Chief:**  
Brandi Koehler

### LIP Disaster Assistance Available for FSA Livestock Losses in 2018

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2018, eligible losses must occur on or after Jan. 1, 2018, and no later than 60 calendar days from the ending date of the applicable adverse weather event or attack. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 90 calendar days after the end of the calendar year in which the eligible loss condition occurred.

**Farm Loan Chief:**  
David Drake

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

**Price Support Chief:**  
Vacant

**Production Adjustment,  
Compliance and Risk  
Management Chief:**  
Matt Kleski

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 1.5% and Non-Adult Beef Cattle (less than 400 pounds) = 3%. These established percentages reflect losses that are considered expected or typical under “normal” conditions. Producers who suffer livestock losses in 2018 must file both of the following:

Visit the Ohio FSA website for additional information at:  
[www.fsa.usda.gov/oh](http://www.fsa.usda.gov/oh)

- A notice of loss the earlier of 30 calendar days of when the loss was apparent
- An application for payment by March 31, 2019.

Please contact your [FSA County Office](#) for questions specific to your operation.

Additional information about LIP is available at the FSA office or read the [LIP fact sheet](#).

## Applications for FSA Loans

Farmers that intend to apply to the Farm Service Agency for loan assistance for the upcoming crop year are encouraged to file their applications as early as possible. Filing early will help ensure that your loan is processed and approved as early as possible so that planting decisions can be made. Not applying early can result in a delay in processing loans due to the volume of applications that must be processed in date order. Contact your local FSA Loan Approval Official for more details and assistance in applying.

## Emergency Assistance for Livestock, Honeybee, and Farm-Raised Fish Program (ELAP)

The Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) provides emergency assistance to eligible livestock, honeybee, and farm-raised fish producers who have losses due to disease, adverse weather or other conditions, such as blizzards and wildfires, not covered by other agricultural disaster assistance programs.

Eligible livestock losses include grazing losses not covered under the Livestock Forage Disaster Program (LFP), loss of purchased feed and/or mechanically harvested feed due to an eligible adverse weather event, additional cost of transporting water because of an eligible drought and additional cost associated with gathering livestock to treat for cattle tick fever.

Eligible honeybee losses include loss of purchased feed due to an eligible adverse weather event, cost of additional feed purchased above normal quantities due to an eligible adverse weather condition, colony losses in excess of normal mortality due to an eligible weather event or loss condition, including CCD, and hive losses due to eligible adverse weather.

Eligible farm-raised fish losses include death losses in excess of normal mortality and/or loss of purchased feed due to an eligible adverse weather event.

Producers who suffer eligible livestock, honeybee, or farm-raised fish losses from Oct. 1, 2017 to Sept. 30, 2018 must file:

- A notice of loss the earlier of 30 calendar days of when the loss is apparent or by Nov. 1, 2018
- An application for payment by Nov. 1, 2018

The Farm Bill caps ELAP disaster funding at \$20 million per federal fiscal year.

The following ELAP Fact Sheets (by topic) are available online:

- ELAP for Farm-Raised Fish Fact Sheet
- ELAP for Livestock Fact Sheet
- ELAP for Honeybees Fact Sheet

To view these and other FSA program fact sheets, visit the FSA fact sheet web page at [www.fsa.usda.gov/factsheets](http://www.fsa.usda.gov/factsheets).

## **CRP Participants Must Maintain Approved Cover on Acreages Enrolled in CRP and Farm Programs**

Conservation Reserve Program (CRP) participants are responsible for ensuring adequate, approved vegetative and practice cover is maintained to control erosion throughout the life of the contract after the practice has been established. Participants must also control undesirable vegetation, weeds (including noxious weeds), insects and rodents that may pose a threat to existing cover or adversely impact other landowners in the area.

All CRP maintenance activities, such as mowing, burning, disking and spraying, must be conducted outside the primary nesting or brood rearing season for wildlife, which for Ohio is March 1 through July 15. However, spot treatment of the acreage may be allowed during the primary nesting or brood rearing season if, left untreated, the weeds, insects or undesirable species would adversely impact the approved cover. In this instance, spot treatment is limited to the affected areas in the field and requires County Committee approval prior to beginning the spot treatment. The County Committee will consult with NRCS to determine if such activities are needed to maintain the approved cover.

Annual mowing of CRP for generic weed control, or for cosmetic purposes, is prohibited at all times.

---

## **Annual Review of Payment Eligibility for New Crop Year**

All participants of FSA programs who request program benefits are required to submit a completed CCC-902 (Farming Operation Plan) and CCC-941 Average Gross Income (AGI) Certification and Consent to Disclosure of Tax Information to be considered for payment eligibility and payment limitation applicable for the program benefits.

Participants are not required to annually submit new CCC-902s for payment eligibility and payment limitation purposes unless a change in the farming operation occurs that may affect the determination of record. A valid CCC-902 filed by the participant is considered to be a continuous

certification used for all payment eligibility and payment limitation determinations applicable for the program benefits requested.

Participants are responsible for ensuring that all CCC-902 and CCC-941 and related forms on file in the county Office are correct at all times. Participants are required to timely notify the county office of any changes in the farming operation that may affect the determination of record by filing a new or updated CCC-902 as applicable.

Changes that may require a NEW determination include, but are not limited to, a change of:

- Shares of a contract, which may reflect:
  - A land lease from cash rent to share rent
  - A land lease from share rent to cash rent (subject to the cash rent tenant rule)
  - A modification of a variable/fixed bushel-rent arrangement
- The size of the producer's farming operation by the addition or reduction of cropland that may affect the application of a cropland factor
- The structure of the farming operation, including any change to a member's share
- The contribution of farm inputs of capital, land, equipment, active personal labor, and/or active personal management
- Farming interests not previously disclosed on CCC-902 including the farming interests of a spouse or minor child
- Financial status that may affect the 3-year average for the determination of average AGI or other changes that affects eligibility under the average adjusted gross income limitations.

Participants are encouraged to file or review these forms within the deadlines established for each applicable program for which program benefits are being requested.

## 2017 Census of Agriculture Deadline Nears

In December farmers across the nation will receive the 2017 Census of Agriculture. Conducted once every five years, the census of agriculture is a complete count of all U.S. farms, ranches, and those who operate them; it is the only source of uniform, comprehensive, and impartial agriculture data for every state and county in the nation.

Producers can mail in their completed census form, or respond online via the improved web questionnaire. Producers can respond to the census online or by mail and highly recommend to complete the questionnaire online. The online questionnaire now has timesaving features, such as automatic calculations, and the convenience of being accessible on mobile and desktop devices. The census response deadline is **February 5, 2018**.

Farmers and ranchers, trade associations, government, extension educators, researchers, and many others rely on census of agriculture data when making decisions that shape American agriculture – from creating and funding farm programs to boosting services for communities and the industry. The census of agriculture is a producer's voice, future, and opportunity.

For more information about the 2017 Census of Agriculture, visit [www.agcensus.usda.gov](http://www.agcensus.usda.gov) or call (614) 728-2100.
