Just Around the Corner

November 10: Offices closed for Veterans Day

November 15: Acreage report deadline for crop year 2018 perennial forages and fall-planted small grains

November 20: NAP perennial fruits application closing date for 2018 crop year

November 23: Offices closed for Thanksgiving Day

December 1: NAP honey, maple sap application closing date for 2018 crop year

December 4: County Office Committee election ballots deadline for postmark or county office in-person submission at your county office

December 25: Offices closed for Christmas Day

January 1: Newly elected County Office Committee members take office

January 15: Acreage report deadline for crop year 2018 perennial fruits

The dates here are provided for general reference. Some areas and crops may have dates that differ from the general guidelines above. It is the producer's responsibility to personally verify deadlines applicable to each farm's crops with their local Farm Service Agency county office.

Producers are Encouraged to Report Prevented Planting and Failed Acres

USDA Farm Service Agency (FSA) reminds producers to report prevented planting and failed acres in order to establish or retain FSA program eligibility for some programs.

Producers should report crop acreage they intended to plant, but due to natural disaster, were prevented from planting. Prevented planting acreage must be reported on form CCC-576, Notice of Loss, no later than 15 calendar days after the final planting date as established by FSA and Risk Management Agency (RMA).

Contact your local FSA office for a list of final planting dates by crop.

If a producer is unable to report the prevented planting acreage within the 15 calendar days following the final planting date, a late-filed report can be submitted. Late-filed reports will only be accepted if FSA conducts a farm visit to assess the eligible disaster condition that prevented the crop from being planted. A measurement service fee will be charged.

Additionally, producers with failed acres should also use form CCC-576, Notice of Loss, to report failed acres.

Producers of hand-harvested crops must notify FSA of damage or loss through the administrative County Office within 72 hours of the date of damage or loss first becomes apparent. This notification can be provided by filing a CCC-576, email, fax or phone. Producers who notify the County Office by any method other than by filing the CCC-576 are still required to file a CCC-576, Notice of Loss, within the required 15 calendar days.

For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP), producers must file a Notice of Loss within 15 days of the occurrence of the disaster or when losses become apparent. Producers must timely file a Notice of Loss for failed acres on all crops including grasses.

Marketing Assistance Available for 2017 Crops

The 2014 Farm Bill authorized 2014-2018 crop year Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs).

In Michigan, certain types of wheat and barley prices are nearing a range where LDPs may be applicable, so producers should become familiar with the process to access this assistance.

MALs and LDPs provide financing and marketing assistance for commodities such as feed grains, soybeans and other oilseeds, pulse crops, wool and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows.

A producer who is eligible to obtain an MAL, but agrees to forgo the loan, may obtain an LDP if such a payment is available.

To be eligible for an MAL or an LDP, producers must have a beneficial interest in the commodity, in addition to other requirements. A producer retains beneficial interest when control of and title to the commodity is maintained. For an LDP, the producer must retain beneficial interest in the commodity from the time of planting through the date the producer filed [Form CCC-633EZ \(page 1\)](#) in the FSA County Office. For more information, producers should contact their local FSA county office or view the [LDP Fact Sheet](#).

Unauthorized Disposition of Grain

If loan grain has been disposed of through feeding, selling or any other form of disposal without prior written authorization from the county office staff, it is considered unauthorized disposition. The financial penalties for unauthorized dispositions are severe and a producer's name will be placed on a loan violation list for a two-year period. Always call before you haul or feed any grain under loan.

FSA Encourages Farmers and Ranchers to Vote in County Committee Elections

The 2017 Farm Service Agency County Committee Elections began on Nov. 6, when ballots were mailed to eligible voters. The deadline to return the ballots to local FSA offices is Dec. 4, 2017.

County committee members are an important component of the operations of FSA and provide a link between the agricultural community and USDA. Farmers and ranchers elected to county committees help deliver FSA programs at the local level, applying their knowledge and judgment to make decisions on commodity price support programs; conservation programs; incentive indemnity and disaster programs for some commodities; emergency programs and eligibility. FSA committees operate within official regulations designed to carry out federal laws.

To be an eligible voter, farmers and ranchers must participate or cooperate in an FSA program. A person who is not of legal voting age, but supervises and conducts the farming operations of an entire farm may also be eligible to vote.

Eligible voters who do not receive a ballot can obtain one from their local USDA Service Center. Dec. 4, 2017, is the last day for voters to submit ballots in person to local USDA Service Centers. Ballots returned by mail must also be postmarked no later than Dec. 4.

Newly elected committee members will take office Jan. 1, 2018.

USDA Expands Grasslands Conservation Program to Small-Scale Livestock Producers

Helping Dairy, Beef and Other Producers Protect Working Grasslands in 43 States

USDA will accept over 300,000 acres in 43 states that were offered by producers during the recent ranking period for the Conservation Reserve Program (CRP) Grasslands enrollment with emphasis placed on small-scale livestock operations. Through the voluntary CRP Grasslands program, grasslands threatened by development or conversion to row crops are maintained as livestock grazing areas, while providing important conservation benefits. Approximately 200,000 of the accepted acres were offered by small-scale livestock operations.

The most recent ranking period closed on Dec. 16, 2016, and included for the first time a CRP Grasslands practice specifically tailored for small-scale livestock grazing operations to encourage broader participation. Under this ranking period and for future periods, small-scale livestock operations with 100 or fewer head of grazing cows (or the equivalent) can submit applications to enroll up to 200 acres of grasslands per farm. Larger operations may still make offers through the normal process. USDA met its goal of 200,000 acres under this small-scale initiative. The new practice for small-scale livestock grazing operations encourages greater diversity geographically and in all types of livestock operations. Visit <http://go.usa.gov/x9PF5> to view the complete list of acres accepted by state.

Participants in CRP Grasslands establish or maintain long-term, resource-conserving grasses and other plant species to control soil erosion, improve water quality and develop wildlife habitat on marginally productive agricultural lands. CRP Grasslands participants can use the land for livestock production (e.g. grazing or producing hay), while following their conservation and grazing plans in order to maintain the cover.

Small livestock operations or other farming and ranching operations interested in participating in CRP Grasslands should contact their local FSA office. To learn more about FSA's conservation programs, visit www.fsa.usda.gov/conservation.

Loans for Targeted Underserved Producers

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or to purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, FSA has provided priority funding for members of targeted underserved applicants.

A targeted underserved applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, targeted underserved groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

October 2017 Interest Rates

Farm Ownership and Farm Operating Loans:

- Farm Operating - Direct 2.750%
- Farm Ownership - Direct 3.625%
- Farm Ownership - Direct, Joint Financing 2.500%
- Farm Ownership - Down Payment 1.500%
- Emergency Loan - Amount of Actual Loss 3.750%

Crop Year 2017 Commodity Loans:

- Crop year commodity loans less than 1 year: 2.375% per annum
- CCC borrowing rate-base interest charges: 1.375% per annum

Farm Storage Facility Loans:

- 3 year loan terms: 1.625% per annum
 - 5 year loan terms: 1.875% per annum
 - 7 year loan terms: 2.125% per annum
 - 10 year loan terms: 2.375% per annum
 - 12 year loan terms: 2.375% per annum
