

June 2016

## Maryland FSA Newsletter

### Maryland Farm Service Agency

339 Busch's Frontage Road, Suite 104  
Annapolis, MD 21409

Phone: 443-482-2760  
Fax: 855-401-6639

[www.fsa.usda.gov/md](http://www.fsa.usda.gov/md)

**State Executive Director:**  
Linda D. Slacum

**State Committee:**  
William Malkus,  
Chairperson  
Pamela S. Callahan  
David Patrick  
Sarah Rider  
William D. Walmsley

**Farm Loan Program Chief:**  
Cheryl Walker

**Farm Programs Chief:**  
Bob Wevodau

To find contact information for your local office go to [www.fsa.usda.gov/md](http://www.fsa.usda.gov/md)

### FSA Unveils Monthly Webinar Series

The FSA Outreach and Education Division will host a series of webinars each month to inform producers about FSA programs and initiatives. To register for any of the below listed webinars, visit [www.fsa.usda.gov/outreach](http://www.fsa.usda.gov/outreach) and click on "Outreach Webinars."

**July 19 @ 2 p.m. EDT**  
**Understanding Receipt for Service**

To ensure that all USDA customers and potential customers are being served properly in local offices, the 2014 Farm Bill requires that a receipt be provided. Learn more about Receipt for Service, how it affects you and what you can expect when you visit a local Farm Service Agency county office.

**Aug. 9 @ 2 p.m. EDT**  
**Need Commodity Storage? The Farm Storage Facility Loan (FSFL) Can Help**

The Farm Storage Facility Loan Program provides low-interest financing so producers can build or upgrade permanent or portable facilities to store commodities. Learn how this program may be able to help your operation.

*Persons with disabilities who require accommodations to attend or participate in these webinars should contact Tanya Brown at 202-690-1700 or Federal Relay Service at 1-800-877-8339 at least three business days prior to the webinar.*

The webinars will be recorded for future viewing and can be accessed on [www.fsa.usda.gov/outreach](http://www.fsa.usda.gov/outreach).

---

## 2016 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local FSA office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for Maryland:

Reporting Date	Crop
Sept 30	Aquaculture, Christmas Trees, Floriculture, Ginseng, Mushrooms, Turf Grass Sod
Nov 15	Pasture, Rangeland, and Forage
Dec 15	Fall Forage Seeding, Perennial Forage, Fall-Seeded Small Grains
Jan 2	Honey
Jan 15	Apples, Peaches
May 15	Spring Forage Seeding, Peas (Green only), Potatoes
May 31	Ornamental Nursery
June 15	Tomatoes
July 15	Beans (Limas only), Cucumbers (Planted 4/20-6/25 in Caroline, Dorchester, Kent, and Talbot Counties), <b>All Other Crops</b>
Aug 15	Beans (all types except Limas), Cucumbers (Planted 6/26-8/10 in Caroline, Dorchester, Kent, and Talbot Counties)

The following exceptions apply to acreage reporting dates:

- If the crop has not been planted by the applicable acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the applicable acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of "cover only," "green manure," "left standing," or "seed," then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the applicable dates or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local FSA office.

### Changes for Customers of FSA and RMA

Producers that report crop information to both FSA and RMA will be able to report common data one time through the reporting channel of their choice. They can report to their FSA County Office or to their Approved Insurance Provider (AIP) and data which is common to both Agencies will be shared electronically in near real-time.

**At this time, producers must still visit both offices to validate and sign their respective acreage reports.**

---

## Producers are Encouraged to Report Prevented Planting and Failed Acres

USDA Farm Service Agency (FSA) reminds producers to report prevented planting and failed acres in order to establish or retain FSA program eligibility for some programs.

Producers should report crop acreage they intended to plant, but due to natural disaster, were prevented from planting. Prevented planting acreage must be reported on form CCC-576, *Notice of Loss*, no later than 15 calendar days after the final planting date as established by FSA and Risk Management Agency (RMA).

Contact your local FSA office for a list of final planting dates by crop.

If a producer is unable to report the prevented planting acreage within the 15 calendar days following the final planting date, a late-filed report can be submitted. Late-filed reports will only be accepted if FSA conducts a farm visit to assess the eligible disaster condition that prevented the crop from being planted. A measurement service fee will be charged.

Additionally, producers with failed acres should also use form CCC-576, *Notice of Loss*, to report failed acres.

Producers of hand-harvested crops must notify FSA of damage or loss through the administrative County Office within 72 hours of the date of damage or loss first becomes apparent. This notification can be provided by filing a CCC-576, email, fax or phone. Producers who notify the County Office by any method other than by filing the CCC-576 are still required to file a CCC-576, *Notice of Loss*, within the required 15 calendar days.

For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP), producers must file a *Notice of Loss* within 15 days of the occurrence of the disaster or when losses become apparent. Producers must timely file a Notice of Loss for failed acres on all crops including grasses.

---

## USDA's Building Blocks for Climate Smart Agriculture & Forestry

The U.S. Department of Agriculture announced a comprehensive and detailed approach to support farmers, ranchers, and forest land owners in their response to address the causes of climate change in April 2015. The framework consists of 10 building blocks that span a range of technologies and practices to reduce greenhouse gas emissions, increase carbon storage, and generate clean renewable energy through mitigation.

USDA's strategy focuses on climate-smart practices designed for working production systems that provide multiple economic and environmental benefits in addition to supporting resilience to extreme weather, reduced emissions and increased carbon storage.

Through this comprehensive set of voluntary programs and initiatives spanning its programs, USDA expects to reduce net emissions and enhance carbon sequestration by over **120 million metric tons** of CO<sub>2</sub> equivalent (MMTCO<sub>2</sub>e) per year – about 2% of economy-wide net greenhouse emissions – by 2025. That's the equivalent of taking **25 million cars** off the road, or offsetting the emissions produced by powering nearly **11 million homes** last year.

For more information on the Building Blocks for Climate Smart Agriculture and Forestry click the following link: <http://www.usda.gov/documents/climate-smart-fact-sheet.pdf> . For additional information on ways to consider greenhouse gases when managing land, refer to the USDA Climate Hub webpage: <http://www.climatehubs.oce.usda.gov/>.

## USDA Financial Assistance Available to Help Organic Farmers Create Conservation Buffers

USDA is assisting organic farmers with the cost of establishing up to 20,000 acres of new conservation buffers and other practices on and near farms that produce organic crops.

The financial assistance is available from the USDA Conservation Reserve Program (CRP), a federally funded voluntary program that contracts with agricultural producers so that environmentally sensitive land is not farmed or ranched, but instead used for conservation benefits. CRP participants establish long-term, resource-conserving plant species, such as approved grasses or trees (known as “covers”) to control soil erosion, improve water quality and develop wildlife habitat. In return, FSA provides participants with rental payments and cost-share assistance. Contract duration is between 10 and 15 years.

For conservation buffers, funds are available for establishing shrubs and trees, or supporting pollinating species, and can be planted in blocks or strips. Interested organic producers can offer eligible land for enrollment in this initiative at any time.

Other USDA FSA programs that assist organic farmers include:

- The Noninsured Crop Disaster Assistance Program that provides financial assistance for 55 to 100 percent of the average market price for organic crop losses between 50 to 65 percent of expected production due to a natural disaster.
- Marketing assistance loans that provide interim financing to help producers meet cash flow needs without having to sell crops during harvest when market prices are low, and deficiency payments to producers who forgo the loan in return for a payment on the eligible commodity.
- A variety of loans for operating expenses, ownership or guarantees with outside lenders, including streamlined microloans that have a lower amount of paperwork.
- Farm Storage Facility Loans for that provide low-interest financing to build or upgrade storage facilities for organic commodities, including cold storage, grain bins, bulk tanks and drying and handling equipment.
- Services such as mapping farm and field boundaries and reporting organic acreage that can be provided to a farm’s organic certifier or crop insurance agent.

Visit [www.fsa.usda.gov/organic](http://www.fsa.usda.gov/organic) to learn more about how FSA can help organic farmers. For an interactive tour of CRP success stories, visit [www.fsa.usda.gov/CRPis30](http://www.fsa.usda.gov/CRPis30) or follow #CRPis30 on Twitter. To learn more about FSA programs visit a local FSA office or [www.fsa.usda.gov](http://www.fsa.usda.gov). To find your local FSA office, visit <http://offices.usda.gov>.

## USDA Offers Targeted Farm Loan Funding for Underserved Groups and Beginning Farmers

The USDA Farm Service Agency (FSA) reminds producers that FSA offers targeted farm ownership and farm operating loans to assist underserved applicants as well as beginning farmers and ranchers.

USDA defines underserved applicants as a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of the group without regard to their individual qualities. For farm loan program purposes, targeted underserved groups are women, African Americans, American Indians and Alaskan Natives, Hispanics and Asians and Pacific Islanders.

Underserved or beginning farmers and ranchers who cannot obtain commercial credit from a bank can apply for either FSA direct loans or guaranteed loans. Direct loans are made to applicants by

FSA. Guaranteed loans are made by lending institutions who arrange for FSA to guarantee the loan. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. The FSA guarantee allows lenders to make agricultural credit available to producers who do not meet the lender's normal underwriting criteria.

The direct and guaranteed loan program provides for two types of loans: farm ownership loans and farm operating loans. In addition to customary farm operating and ownership loans, FSA now offers Microloans through the direct loan program. The focus of Microloans is on the financing needs of small, beginning farmer, niche and non-traditional farm operations. Microloans are available for both ownership and operating finance needs. To learn more about microloans, visit [www.fsa.usda.gov/microloans](http://www.fsa.usda.gov/microloans).

To qualify as a beginning producer, the individual or entity must meet the eligibility requirements outlined for direct or guaranteed loans. Additionally, individuals and all entity members must have operated a farm for less than 10 years. Applicants must materially or substantially participate in the operation.

For more information on FSA's farm loan programs and targeted underserved and beginning farmer guidelines, visit [www.fsa.usda.gov/farmloans](http://www.fsa.usda.gov/farmloans).

---

## Loan Servicing

There are options for Farm Service Agency loan customers during financial stress. If you are a borrower who is unable to make payments on a loan, contact your local FSA Farm Loan Manager to learn about the options available to you.

---

## Selected Interest Rates and Dates to Remember

Selected Interest Rates for June 2016	
90-Day Treasury Bill	.250%
Farm Operating Loans — Direct	2.25%
Farm Ownership Loans — Direct	3.50%
Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher	1.50%
Emergency Loans	3.25%
Farm Storage Facility Loans (7 years)	1.625%
Farm Storage Facility Loans (10 years)	1.875%
Farm Storage Facility Loans (12 years)	1.875%
Commodity Loans 1996-Present	1.625%

Dates to Remember	
July 15	Crop reporting deadline for beans (limas only), cucumbers (planted 4/20-6/25 in Caroline, Dorchester, Kent and Talbot Counties), <b>All Other Crops</b>
July 19	<i>Understanding Receipt for Service Webinar</i>
Aug 1	Enrollment deadline for 2016 Safety Net Coverage (ARC/PLC)
Aug 1	Deadline to request transfer of farm records to different administrative county for FY2016
Aug 1	COC Election nomination forms must be postmarked or received by county office
Aug 9	<i>Farm Storage Facility Loan (FSFL) Webinar</i>
Aug 15	Crop reporting deadline for beans (all types except limas), cucumbers (planted 6/28-8/10 in Caroline, Dorchester, Kent and Talbot Counties)
