USDA Issues Safety-Net Payments to Farmers in Response to 2015 Market Downturn

The U.S. Department of Agriculture (USDA) announced that many of the 1.7 million farms that enrolled in either the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs will receive safety-net payments due to market downturns during the 2015 crop year.

This fall, USDA will be making more than \$7 billion in payments under the ARC-County and PLC programs to assist participating producers, which will account for over 10 percent of USDA's projected 2016 net farm income. These payments will help provide reassurance to America's farm families, who are standing strong against low commodity prices compounded by unfavorable growing conditions in many parts of the country.

Unlike the old direct payment program, which issued payments during both weak and strong market conditions, the 2014 Farm Bill authorized the ARC-PLC safety net to trigger and provide financial assistance only when decreases in revenues or crop prices, respectively, occur. The ARC and PLC programs primarily allow producers to continue to produce for the market by making payments on a percentage of historical base production, limiting the impact on production decisions.

Nationwide, producers enrolled 96 percent of soybean base acres, 91 percent of corn base acres and 66 percent of wheat base acres in the ARC-County coverage option. Producers enrolled 99 percent of long grain rice and peanut base acres and 94 percent of medium grain rice base acres in the PLC option. Overall, 76 percent of participating farm base acres are enrolled in ARC-County, 23 percent in PLC and one percent in ARC-Individual. For other program information including frequently asked questions, visit www.fsa.usda.gov/arc-plc.

Payments are made to producers who enrolled base acres of barley, corn, grain sorghum, lentils, oats, peanuts, dry peas, soybeans, wheat and canola. In the upcoming months, payments will be announced after marketing year average prices are published by USDA's National

Agricultural Statistics Service for the remaining covered commodities. These include long and medium grain rice (except for temperate Japonica rice), which will be announced in November, remaining oilseeds and chickpeas, which will be announced in December, and temperate Japonica rice, which will be announced in early February 2017. Upland cotton is no longer a covered commodity.

The Budget Control Act of 2011, passed by Congress, requires USDA to reduce 2015 ARC and PLC payments by 6.8 percent. For more information, producers are encouraged to visit their local Farm Service Agency (FSA) office. To find a local FSA office, visit <http://offices.usda.gov>.

USDA Reminds Producers of Nov. 1 ELAP Application Deadline

Eligible livestock, honeybee, and farm-raised fish producers who experienced losses due to disease, adverse weather or other conditions, such as blizzards and wildfires, not covered by other agricultural disaster assistance programs, have until Nov. 1, 2016, to submit an application and notice of loss under the Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP).

Eligible livestock losses include grazing losses not covered under the Livestock Forage Disaster Program (LFP), loss of purchased feed and/or mechanically harvested feed due to an eligible adverse weather event, additional cost of transporting water because of an eligible drought and additional cost associated with gathering livestock to treat for cattle tick fever.

Eligible honeybee losses include loss of purchased feed due to an eligible adverse weather event, cost of additional feed purchased above normal quantities due to an eligible adverse weather condition, colony losses in excess of normal mortality due to an eligible weather event or loss condition, including CCD, and hive losses due to eligible adverse weather.

Eligible farm-raised fish losses include death losses in excess of normal mortality and/or loss of purchased feed due to an eligible adverse weather event.

Producers who suffer eligible livestock, honeybee, or farm-raised fish losses from October 1, 2015 to September 30, 2016 must file:

- A notice of loss the earlier of 30 calendar days of when the loss is apparent or by November 1, 2016
- An application for payment by November 1, 2016

The Farm Bill caps ELAP disaster funding at \$20 million per federal fiscal year.

The following ELAP Fact Sheets (by topic) are available online:

- ELAP for Farm-Raised Fish Fact Sheet
- ELAP for Livestock Fact Sheet
- ELAP for Honeybees Fact Sheet

To view these and other FSA program fact sheets, visit the FSA fact sheet web page at www.fsa.usda.gov/factsheets.

Double-Cropping

Each year, state committees will review and approve or disapprove county committee recommended changes or additions to specific combinations of crops.

Double-cropping is approved when the two specific crops have the capability to be planted and carried to maturity for the intended use, as reported by the producer, on the same acreage within a crop year under normal growing conditions. The specific combination of crops recommended by the county committee must be approved by the state committee.

Double-cropping is approved in Maryland on a county-by-county basis. Contact your local FSA Office for a list of approved double-cropping combinations for your county.

A crop following a cover crop terminated according to termination guidelines is approved double cropping and these combinations do not have to be approved by the state committee.

Measurement Service

Farmers who would like a guarantee on their crop plantings and land use acreages can make it official by using the FSA measurement service. Producers must file a request with the county office staff and pay the cost of a field visit to have stake and referencing done on the farm. Measurement service is available using digital imagery. If an on-site visit is not required producers are charged a reduced rate.

Incorrect acreage self-certification can result in reduced program payments, penalty or loss of eligibility.

FSAfarm+, FSA's Customer Self-Service Portal

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) has launched a new tool to provide farmers and ranchers with remote access to their personal farm information using their home computers. Farmers and ranchers can now view, print or export their personal farm data all without visiting an FSA county office.

The program, known as **FSAfarm+**, provides you with secure access to view your personal FSA data, such as base and yields, Conservation Reserve Program data, other conservation program acreage, Highly Erodible Land Conservation and Wetland Conservation status information, field boundaries, farm imagery, name and address details, contact information and membership interest and shares in the operation. This data will be available in real time, at no cost to the producer and allow operators and owners to export and print farm records, including maps. Producers also can electronically share their data with a crop insurance agent from their own personal computer.

Farm operators and owners first will need "Level 2 eAuthentication" to access the webportal. This level of security ensures that personal information is protected for each user. Level 2 access can be obtained by going to www.eauth.usda.gov, completing the required information and then visiting your local FSA office to finalize access.

For more information on **FSAfarm+**, the customer self-service portal, contact your local FSA office. To find your local FSA county office, click <http://offices.usda.gov>.

USDA Offers Targeted Farm Loan Funding for Underserved Groups and Beginning Farmers

The USDA Farm Service Agency (FSA) reminds producers that FSA offers targeted farm ownership and farm operating loans to assist underserved applicants as well as beginning farmers and ranchers.

USDA defines underserved applicants as a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of the group without regard to their individual qualities. For farm loan program purposes, targeted underserved groups are women, African Americans, American Indians and Alaskan Natives, Hispanics and Asians and Pacific Islanders.

Underserved or beginning farmers and ranchers who cannot obtain commercial credit from a bank can apply for either FSA direct loans or guaranteed loans. Direct loans are made to applicants by FSA. Guaranteed loans are made by lending institutions who arrange for FSA to guarantee the loan. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. The FSA guarantee allows lenders to make agricultural credit available to producers who do not meet the lender's normal underwriting criteria.

The direct and guaranteed loan program provides for two types of loans: farm ownership loans and farm operating loans. In addition to customary farm operating and ownership loans, FSA now offers Microloans through the direct loan program. The focus of Microloans is on the financing needs of small, beginning farmer, niche and non-traditional farm operations. Microloans are available for both ownership and operating finance needs. To learn more about microloans, visit www.fsa.usda.gov/microloans.

To qualify as a beginning producer, the individual or entity must meet the eligibility requirements outlined for direct or guaranteed loans. Additionally, individuals and all entity members must have operated a farm for less than 10 years. Applicants must materially or substantially participate in the operation.

For more information on FSA's farm loan programs and targeted underserved and beginning farmer guidelines, visit www.fsa.usda.gov/farmloans.

Guaranteed Loan Program

FSA guaranteed loans allow lenders to provide agricultural credit to farmers who do not meet the lender's normal underwriting criteria. Farmers and ranchers apply for a guaranteed loan through a lender, and the lender arranges for the guarantee. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. Guaranteed loans can be used for both farm ownership and operating purposes.

Guaranteed farm ownership loans can be used to purchase farmland, construct or repair buildings, develop farmland to promote soil and water conservation or to refinance debt.

Guaranteed operating loans can be used to purchase livestock, farm equipment, feed, seed, fuel, farm chemicals, insurance and other operating expenses.

FSA can guarantee farm ownership and operating loans up to \$1,399,000. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your lender or local FSA farm loan office for more information on guaranteed loans.

Weather the Storm: FEMA Mobile App Provides Weather Alerts and Safety Tips

USDA offers programs to help producers recover from disasters; FEMA can help you prepare ahead of time

The Federal Emergency Management Agency (FEMA) recently launched a free mobile app that will instruct the public on what to before, during and after emergencies. The app is available for download for Apple, Android and Blackberry mobile devices.

Download the app to:

- Receive alerts from the National Weather Service for up to five locations
- Get safety reminders, read tips to survive natural disasters and customize your emergency checklist
- Locate open shelters and where to talk to FEMA in person (or on the phone)
- Upload and share your disaster photos to help first responders.

For more information about the FEMA app, visit fema.gov/mobile-app. To download the FEMA app from the Apple Store visit <https://itunes.apple.com/us/app/fema/id474807486?mt=8>. To download the FEMA app on Google Play for Android visit: <https://play.google.com/store/apps/details?id=gov.fema.mobile.android&hl=en>

Selected Interest Rates and Dates to Remember

| Selected Interest Rates for October 2016 | |
|---|--------|
| 90-Day Treasury Bill | 0.250% |
| Farm Operating Loans — Direct | 2.125% |
| Farm Ownership Loans — Direct | 3.125% |
| Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher | 1.50% |
| Emergency Loans | 3.125% |
| Farm Storage Facility Loans (7 years) | 1.50% |
| Commodity Loans 1996-Present | 1.625% |

| Dates to Remember | |
|-------------------|---|
| Nov 7 | COC Election ballots mailed to eligible voters |
| Nov 15 | Crop reporting deadline for PRF (Pasture Rangeland Forage) |
| Nov 20 | NAP application deadline for Perennial crops (other than those intended for forage), peaches, apples, cherries, grapes, berries |
| Dec 1 | NAP application deadline for honey and maple sap |
| Dec 5 | Last day to return COC Election ballots to the USDA Service Center |
| Dec 15 | Crop reporting deadline for fall forage seeding, Perennial forage, fall-seeded small grains |
| Dec 16 | Enrollment deadline for 2017 Margin Protection Program for Dairy (MPP-Dairy) |
| Dec 31 | NAP application deadline for potatoes |
