### **Acting State Executive Director:**

Michelle Page

### **Division Chiefs:**

Angela Hanson  
Stuart Shelstad

### **A Note From the State Office**

You may have heard by now that FSA has a collaboration with the organization SCORE to assist and support farmers and ranchers with the business and finance side of their operations.

SCORE is currently in the process of updating a volunteer base for mentors with agricultural experience, and also have been meeting with FSA staff in counties to discuss ways that SCORE can be engaged in supporting the customers that we serve at FSA.

Farmers and ranchers can request a mentor by going to [www.SCORE.org](http://www.SCORE.org). For more information about FSA's collaboration with SCORE and mentorship, please visit <https://newfarmers.usda.gov/mentorship>.

Have a safe and happy harvest season!

Cassie Buck  
Raj Kohli  
Laurie Moss

**State Committee:**

Debra Crusoe, Member  
Richard Peterson, Member  
Roger Vogt, Member  
Scott Winslow, Member

## **USDA Issues Safety-Net Payments to Minnesota Farmers**

USDA Minnesota Farm Service Agency (FSA) announced that approximately 95,660 Minnesota farms that enrolled in safety-net programs established by the 2014 Farm Bill will receive financial assistance for the 2016 crop year. The programs, known as Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC), are designed to protect against unexpected drops in crop prices or revenues due to market downturns.

Producers in 86 Minnesota counties have experienced a significant drop in prices or revenues below the benchmark established by the ARC or PLC program and thus, will receive payments totaling \$216 million. Payments related to corn and wheat crops made up much of those payments. There were also payments for grain sorghum, oats, barley, canola, dry peas, and soybean crops. Cash flow from these payments is particularly helpful to farmers and ranchers in counties impacted by natural disasters.

Payments by county for an eligible commodity can vary because average county yields will differ.

More details on the price and yield information used to calculate the financing assistance from the safety-net programs is available on the FSA website at [www.fsa.usda.gov/arc-plc](http://www.fsa.usda.gov/arc-plc) and [www.fsa.usda.gov/minnesota](http://www.fsa.usda.gov/minnesota).

---

## **Farmers to Receive Documentation of USDA Services**

Farm Service Agency (FSA) reminds agricultural producers that FSA provides a receipt to customers who request or receive assistance or information on FSA programs.

The 2014 Farm Bill requires a customer receipt to be issued for any agricultural program assistance requested from FSA, the Natural Resources Conservation Service (NRCS) and Rural Development (RD). Receipts include the date, summary of the visit and any agricultural information, program and/or loan assistance provided to an individual or entity. Electronic receipts for acreage reports began on Aug. 1, 2016.

A service is any information, program or loan assistance provided whether through a visit, email, fax or letter.

---

## **USDA Processing Pending Conservation Reserve Program Continuous Enrollment Offers**

*Acceptance of Most 2018 Offers Temporarily Suspended*

USDA's Farm Service Agency (FSA) will process many pending eligible offers for land enrollment in the Conservation Reserve Program (CRP), and will temporarily suspend accepting most new offers until later in the 2018 fiscal year.

All current, eligible CRP continuous enrollment offers made through Sept. 30, 2017, except for those made under the Pollinator Habitat Initiative (CP42), will be approved. Additionally, FSA is temporarily suspending acceptance of most offers going forward to provide time to review CRP allocation levels, and to avoid exceeding the statutory cap of 24 million acres.

The CRP acreage cap is a provision of the 2014 Farm Bill. Current enrollment is about 23.5 million acres nationwide. USDA is accepting all pending continuous enrollment offers that were made beginning on May 4, 2017, and extending through Sept. 30, 2017, except Pollinator Habitat Initiative offers. Pollinator acreage offers are being declined because the program has met its acreage enrollment goal. Effective immediately, USDA is suspending acceptance of all new CRP continuous offers received or submitted after Sept. 30, 2017. The suspension will continue until later in the 2018 fiscal year.

However, FSA will continue to accept eligible offers for state-specific Conservation Reserve Enhancement Program (CREP) and CRP Grasslands enrollment. Offers received on or after Oct. 1, 2017, are subject to fiscal year 2018 rental rates which have been adjusted to reflect current market conditions and were established after careful review of the latest USDA National Agricultural Statistics Service (NASS) cash rent data.

In return for enrolling in CRP, USDA, through FSA, provides participants with rental payments and cost-share assistance. Landowners enter into contracts that last between 10 and 15 years. CRP pays farmers and ranchers who remove sensitive lands from production and plant certain grasses, shrubs and trees that improve water quality, prevent soil erosion and increase wildlife habitat. Payment totals for 2017 were announced earlier this week totaling over \$1.6 billion.

For more information about CRP, contact your local FSA office or visit [www.fsa.usda.gov/crp](http://www.fsa.usda.gov/crp). To locate your local FSA office, visit <http://offices.usda.gov>.

---

## **MAL and LDP Policy**

The Agricultural Act of 2014 authorized 2014-2018 crop year Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs), with a few minor policy changes.

Among the changes, farm-stored MAL collateral transferred to warehouse storage will retain the original loan rate, be allowed to transfer only the outstanding farm-stored quantity with no additional quantity allowed and will no longer require producers to have a paid for measurement service when moving or commingling loan collateral.

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide producers interim

financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2017 MALs and LDPs for all eligible commodities after harvest. Requests for loans and LDPs shall be made on or before the final availability date for the respective commodities.

Before MAL repayments with a market loan gain or LDP disbursements can be made, producers must meet the requirements of actively engaged in farming, cash rent tenant and member contribution.

Commodity certificates are available to loan holders who have outstanding nonrecourse loans for wheat, upland cotton, rice, feed grains, pulse crops (dry peas, lentils, large and small chickpeas), peanuts, wool, soybeans and designated minor oilseeds. These certificates can be purchased at the posted county price (or adjusted world price or national posted price) for the quantity of commodity under loan, and must be immediately exchanged for the collateral, satisfying the loan. MALs redeemed with commodity certificates are not subject to the actively engaged in farming, cash-rent tenant, Adjusted Gross Income provisions or the payment limitation.

To be considered eligible for an LDP, producers must have form [CCC-633EZ, Page 1](#) on file at their local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

The 2014 Farm Bill also establishes payment limitations per individual or entity not to exceed \$125,000 annually on certain commodities for the following program benefits: price loss coverage payments, agriculture risk coverage payments, marketing loan gains (MLGs) and LDPs. These payment limitations do not apply to MAL loan disbursements or redemptions using commodity certificate exchange.

Adjusted Gross Income (AGI) provisions were modified by the 2014 Farm Bill, which states that a producer whose total applicable three-year average AGI exceeds \$900,000 is not eligible to receive an MLG or LDP. Producers must have a valid CCC-941 on file to earn a market gain of LDP. The AGI does not apply to MALs redeemed with commodity certificate exchange.

For more information and additional eligibility requirements, please visit a nearby USDA Service Center or FSA's website [www.fsa.usda.gov](http://www.fsa.usda.gov).

## **USDA Expands Grasslands Conservation Program to Small-Scale Livestock Producers**

*Helping Dairy, Beef and Other Producers Protect Working Grasslands in 43 States*

USDA will accept over 300,000 acres in 43 states that were offered by producers during the recent ranking period for the Conservation Reserve Program (CRP) Grasslands enrollment with emphasis placed on small-scale livestock operations. Through the voluntary CRP Grasslands program, grasslands threatened by development or conversion to row crops are maintained as livestock grazing areas, while providing important conservation benefits. Approximately 200,000 of the accepted acres were offered by small-scale livestock operations.

The most recent ranking period closed on Dec. 16, 2016, and included for the first time a CRP Grasslands practice specifically tailored for small-scale livestock grazing operations to encourage broader participation. Under this ranking period and for future periods, small-scale livestock operations with 100 or fewer head of grazing cows (or the equivalent) can submit applications to

enroll up to 200 acres of grasslands per farm. Larger operations may still make offers through the normal process. USDA met its goal of 200,000 acres under this small-scale initiative. The new practice for small-scale livestock grazing operations encourages greater diversity geographically and in all types of livestock operations. Visit <http://go.usa.gov/x9PFS> to view the complete list of acres accepted by state.

Participants in CRP Grasslands establish or maintain long-term, resource-conserving grasses and other plant species to control soil erosion, improve water quality and develop wildlife habitat on marginally productive agricultural lands. CRP Grasslands participants can use the land for livestock production (e.g. grazing or producing hay), while following their conservation and grazing plans in order to maintain the cover.

Small livestock operations or other farming and ranching operations interested in participating in CRP Grasslands should contact their local FSA office. To learn more about FSA's conservation programs, visit [www.fsa.usda.gov/conservation](http://www.fsa.usda.gov/conservation).

---

## **FSA Offers Joint Financing Option on Direct Farm Ownership Loans**

The USDA Farm Service Agency's (FSA) [Direct Farm Ownership loans](#) are a resource to help farmers and ranchers become owner-operators of family farms, improve and expand current operations, increase agricultural productivity, and assist with land tenure to save farmland for future generations.

Depending on the applicant's needs, there are three types of Direct Farm Ownership Loans: regular, down payment and joint financing. FSA also offers a [Direct Farm Ownership Microloan](#) option for smaller financial needs up to \$50,000.

Joint financing allows FSA to provide more farmers and ranchers with access to capital. FSA lends up to 50 percent of the total amount financed. A commercial lender, a State program or the seller of the property being purchased, provides the balance of loan funds, with or without an FSA guarantee. The maximum loan amount for a Joint Financing loan is \$300,000 and the repayment period for the loan is up to 40 years.

To be eligible, the operation must be an eligible farm enterprise. Farm Ownership loan funds cannot be used to finance nonfarm enterprises and all applicants must be able to meet general eligibility requirements. Loan applicants are also required to have participated in the business operations of a farm or ranch for at least three years out of the 10 years prior to the date the application is submitted. The applicant must show documentation that their participation in the business operation of the farm or ranch was not solely as a laborer.

For more information about FSA Loan programs, contact your local FSA office or visit [www.fsa.usda.gov](http://www.fsa.usda.gov). To find your local FSA office, visit <http://offices.usda.gov>.

---

## **Disaster Set-Aside (DSA) Program**

FSA borrowers with farms located in designated primary or contiguous disaster areas who are unable to make their scheduled FSA loan payments should consider the Disaster Set-Aside (DSA) program.

DSA is available to producers who suffered losses as a result of a natural disaster and is intended to relieve immediate and temporary financial stress. FSA is authorized to consider setting aside the portion of a payment/s needed for the operation to continue on a viable scale.

Borrowers must have at least two years left on the term of their loan in order to qualify.

Borrowers have eight months from the date of the disaster designation to submit a complete application. The application must include a written request for DSA signed by all parties liable for the debt along with production records and financial history for the operating year in which the disaster occurred. FSA may request additional information from the borrower in order to determine eligibility.

All farm loans must be current or less than 90 days past due at the time the DSA application is complete. Borrowers may not set aside more than one installment on each loan.

The amount set-aside, including interest accrued on the principal portion of the set-aside, is due on or before the final due date of the loan.

For more information, contact your local FSA farm loan office.

---

## **Emergency Assistance for Livestock, Honeybee, and Farm-Raised Fish Program (ELAP)**

The Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) provides emergency assistance to eligible livestock, honeybee, and farm-raised fish producers who have losses due to disease, adverse weather or other conditions, such as blizzards and wildfires, not covered by other agricultural disaster assistance programs.

Eligible livestock losses include grazing losses not covered under the Livestock Forage Disaster Program (LFP), loss of purchased feed and/or mechanically harvested feed due to an eligible adverse weather event, additional cost of transporting water because of an eligible drought and additional cost associated with gathering livestock to treat for cattle tick fever.

Eligible honeybee losses include loss of purchased feed due to an eligible adverse weather event, cost of additional feed purchased above normal quantities due to an eligible adverse weather condition, colony losses in excess of normal mortality due to an eligible weather event or loss condition, including CCD, and hive losses due to eligible adverse weather.

Eligible farm-raised fish losses include death losses in excess of normal mortality and/or loss of purchased feed due to an eligible adverse weather event.

Producers who suffer eligible livestock, honeybee, or farm-raised fish losses from Oct. 1, 2016 to Sept. 30, 2017 must file:

- A notice of loss the earlier of 30 calendar days of when the loss is apparent or by Nov. 1, 2017
- An application for payment by Nov. 1, 2017

The Farm Bill caps ELAP disaster funding at \$20 million per federal fiscal year.

The following ELAP Fact Sheets (by topic) are available online:

- ELAP for Farm-Raised Fish Fact Sheet
- ELAP for Livestock Fact Sheet
- ELAP for Honeybees Fact Sheet

To view these and other FSA program fact sheets, visit the FSA fact sheet web page at [www.fsa.usda.gov/factsheets](http://www.fsa.usda.gov/factsheets).

---

## 2018 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local FSA office to file an accurate crop certification report by the applicable deadline.

Acreage reporting dates vary by crop and by county so please contact your local FSA office for a list of county-specific deadlines.

The following exceptions apply to acreage reporting dates:

- If the crop has not been planted by the applicable acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the applicable acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office
- If a perennial forage crop is reported with the intended use of "cover only," "green manure," "left standing," or "seed," then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the applicable dates or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local FSA office.
