**Significant Incident Summary Worksheet**

For Nakamoto to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The Significant Incident Summary Worksheet represents data on ICE detainees only, per the OIC. There were no deaths, serious suicide attempts or escapes involving ICE detainees during this inspection period. ICE detainees are not charged a medical co-pay.

There were four sexual assault allegations involving an ICE detainee reported for this inspection period. The first allegation involved a male officer and improper touching of a male detainee's genitalia during a pat down. Video surveillance was available for review and the allegation was determined to be unfounded. The second allegation involved a female detainee who alleged she was sexually assaulted by staff during three different incidents at night. A review of the allegations was determined to be unfounded. The third allegation involved a female detainee who alleged two female detainees sexually assaulted her. A review of the allegations was determined to be unfounded. The fourth allegation involved a male detainee who alleged he was sexually assaulted by another male detainee. A review of the allegations was determined to be unfounded. All allegations were appropriately handled per established policy and procedures.

There were six hunger strikes reported during this inspection period. A review of the six detainee medical records reflected the detainees were appropriately managed with respect to medical and mental health care and the requirements of the standard. Documentation in the medical record was accurate, timely and appropriate.

There were seven use of force incidents on ICE detainees during this inspection period; six were immediate uses of force and one was a planned use of force. Of the six spontaneous uses of force, three involved OC and three involved officers physically restraining detainees. The one planned use of force involved a small group of detainees who refused to return to their cells after several staff orders and attempts at confrontation avoidance. Ultimately the facility activated their CERT and the detainees were restrained and moved to the SMU using minimal amounts of force and no chemical agents. In all seven of the incidents, detainees were examined by medical staff immediately subsequent to all incidents. None of the detainee or staff suffered any substantive injuries. The use of force packages were reviewed and it was determined that staff followed policy in all incidents. All use of force incidents were appropriately documented and reviewed by senior staff.

The facility does not have Tasers. The facility uses a restraint chair in lieu of four/five-point restraints. The facility does not have a canine unit. The only chemical agent approved for use is oleoresin capsicum (OC)/pepper spray. The facility does not use or train staff in the use of unsafe types of restraint.
