USDA Extends Application Deadline for Dairy Margin Protection Program to June 22

The re-enrollment deadline for the Margin Protection Program (MPP) for Dairy has been extended until June 22, 2018.

The new and improved program protects participating dairy producers when the margin – the difference between the price of milk and feed costs – falls below levels of protection selected by the applicant.

The re-enrollment deadline was previously extended through June 8, 2018. The deadline is being extended a second time to ensure that dairy producers are given every opportunity to make a calculated decision and enroll in the program if they choose.

This will be the last opportunity for producers to take advantage of key adjustments Congress made to provisions of the MPP program under the Bipartisan Budget Act of 2018 to strengthen its support of dairy producers. USDA encourages producers contemplating enrollment to use the online web resource at www.fsa.usda.gov/mpptool to calculate the best levels of coverage for their dairy operation.

The next margin under MPP, for May 2018, will be published on June 28, 2018. Therefore, all coverage elections on form CCC-782 and the \$100 administrative fee, unless exempt, must be submitted

Farm Loan Chief:

Mike Hoyt

Phone: 859-224-7440

To find contact information for your local office go to www.fsa.usda.gov/ky

to the County FSA Office no later than June 22, 2018. No registers will be utilized, so producers are encouraged to have their enrollment for 2018 completed by COB June 22, 2018.

All dairy operations must make new coverage elections for 2018 during the re-enrollment period, even if the operation was enrolled during the previous 2018 signup. Coverage elections made for 2018 will be retroactive to January 1, 2018. MPP payments will be sequestered at a rate of 6.6 percent.

To learn more about the Margin Protection Program for dairy, contact your local USDA Farm Service Agency county office at offices.usda.gov or visit us on the Web at www.fsa.usda.gov.

USDA Resumes Continuous Conservation Reserve Program Enrollment

One-Year Extension Available to Holders of Many Expiring Contracts through Continuous Signup

As part of a 33-year effort to protect sensitive lands and improve water quality and wildlife habitat on private lands, the U.S. Department of Agriculture (USDA) will resume accepting applications for the voluntary [Conservation Reserve Program](#) (CRP). Eligible farmers, ranchers, and private landowners can sign up at their local [Farm Service Agency \(FSA\)](#) office between June 4 and Aug. 17, 2018.

FSA stopped accepting applications last fall for the CRP continuous signup (excluding applications for the Conservation Reserve Enhancement Program (CREP) and CRP grasslands). This pause allowed USDA to review available acres and avoid exceeding the 24 million-acre CRP cap set by the 2014 Farm Bill. New limited practice availability and short sign up period helps ensure that landowners with the most sensitive acreage will enroll in the program and avoid unintended competition with new and beginning farmers seeking leases. CRP enrollment currently is about 22.7 million acres.

2018 Signup for CRP

For this year's signup, limited priority practices are available for continuous enrollment. They include grassed waterways, filter strips, riparian buffers, wetland restoration and others. [View a full list of practices](#).

FSA will use updated soil rental rates to make annual rental payments, reflecting current values. It will not offer incentive payments as part of the new signup.

USDA will not open a general signup this year, however, a one-year extension will be offered to existing CRP participants with expiring CRP contracts of 14 years or less. Producers eligible for an extension will receive a letter with more information.

CRP Grasslands

Additionally, FSA established new [ranking criteria](#) for [CRP Grasslands](#). To guarantee all CRP grasslands offers are treated equally, applicants who previously applied will be asked to reapply using the new ranking criteria. Producers with pending applications will receive a letter providing the options.

About CRP

In return for enrolling land in CRP, USDA, through FSA on behalf of the Commodity Credit Corporation (CCC), provides participants with annual rental payments and cost-share assistance. Landowners enter into contracts that last between 10 and 15 years. CRP pays producers who remove sensitive lands from production and plant certain grasses, shrubs and trees that improve water quality, prevent soil erosion and increase wildlife habitat.

The new changes to CRP do not impact the Conservation Reserve Enhancement Program, a related program offered by CCC and state partners.

Producers wanting to apply for the CRP continuous signup or CRP grasslands should contact their USDA service center. To locate your local FSA office, visit <https://www.farmers.gov>. More information on CRP can be found at www.fsa.usda.gov/crp.

2018 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit the local County FSA office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for Kentucky:

July 15, 2018 All Other Crops

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of “cover only,” “green manure,” “left standing,” or “seed,” then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact the local County FSA office.

ARC/PLC Acreage Maintenance

Producers enrolled in the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs must protect all cropland and noncropland acres on the farm from wind and water erosion and noxious weeds. Producers who sign ARC county or individual contracts and PLC contracts agree to effectively control noxious weeds on the farm according to sound agricultural practices. If a producer fails to take necessary actions to correct a maintenance problem on a farm that is enrolled in ARC or PLC, the County Committee may elect to terminate the contract for the program year.

Farm Service Agency County Committee Elections Launch June 15

The nomination period for USDA Farm Service Agency (FSA) County Committees runs June 15 through Aug. 1, 2018, and elections will take place starting in November.

County committees are unique to FSA and serve as a direct link between agricultural communities across the country and USDA. FSA's been across the country interviewing current committee members to spotlight their involvement in their county. [Read what they have to say](#) and check back each week.

For more information on FSA county committees, visit www.fsa.usda.gov/elections

Guaranteed Loan Program

FSA guaranteed loans allow lenders to provide agricultural credit to farmers who do not meet the lender's normal underwriting criteria. Farmers and ranchers apply for a guaranteed loan through a lender, and the lender arranges for the guarantee. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. Guaranteed loans can be used for both farm ownership and operating purposes.

Guaranteed farm ownership loans can be used to purchase farmland, construct or repair buildings, develop farmland to promote soil and water conservation or to refinance debt.

Guaranteed operating loans can be used to purchase livestock, farm equipment, feed, seed, fuel, farm chemicals, insurance and other operating expenses.

FSA can guarantee farm ownership and operating loans up to \$1,399,000. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your lender or local FSA farm loan office for more information on guaranteed loans.

FSA Offers Joint Financing Option on Direct Farm Ownership Loans

The USDA Farm Service Agency's (FSA) [Direct Farm Ownership loans](#) are a resource to help farmers and ranchers become owner-operators of family farms, improve and expand current operations, increase agricultural productivity, and assist with land tenure to save farmland for future generations.

Depending on the applicant's needs, there are three types of Direct Farm Ownership Loans: regular, down payment and joint financing. FSA also offers a [Direct Farm Ownership Microloan](#) option for smaller financial needs up to \$50,000.

Joint financing allows FSA to provide more farmers and ranchers with access to capital. FSA lends up to 50 percent of the total amount financed. A commercial lender, a State program or the seller of the property being purchased, provides the balance of loan funds, with or without an FSA guarantee. The maximum loan amount for a Joint Financing loan is \$300,000 and the repayment period for the loan is up to 40 years.

To be eligible, the operation must be an eligible farm enterprise. Farm Ownership loan funds cannot be used to finance nonfarm enterprises and all applicants must be able to meet general eligibility requirements. Loan applicants are also required to have participated in the business operations of a farm or ranch for at least three years out of the 10 years prior to the date the application is submitted. The applicant must show documentation that their participation in the business operation of the farm or ranch was not solely as a laborer.

For more information about FSA Loan programs, contact your local FSA office or visit www.fsa.usda.gov. To find your local FSA office, visit <http://offices.usda.gov>
