& Vivian Wright

State Committee Meeting:

February 22, 2018

State Executive Director:

David Curtis

Administrative Officer:

Sharon Baker

Message from the SED

Arkansas Farmers that need resources to help build plans for their business can find access at USDA's new producer-focused website, farmers.gov.

We encourage each Arkansas Farmer to visit this website where you will find updated information and tools that outline the programs available through FSA, NRCS and RMA.

We welcome each Arkansas Farmer's suggestions and feedback while building this valuable tool for you to use.

Upcoming Events and Workshops

The USDA Arkansas Farm Service Agency (FSA) is committed to educating producers on available programs and loans. FSA representatives will be available at the following workshops and conferences. Producers interested in attending these conferences/workshops should follow the registration or RSVP instructions listed below.

Mar 9. - Rural Life Conference

The University of Arkansas at Pine Bluff (UAPB) is hosting the 2018

Farm Programs:
Diana Colvard, Acting

Farm Loan Programs:
James Culpepper

Please contact your local FSA Office for questions specific to your operation or county. To find contact information for your local office go to www.fsa.usda.gov/ar.

Rural Life Conference. **Jessica McAfee, FSA Farm Loan Officer; Rhonda O'Guinn, FSA Outreach & Communications Specialist; and Rod Woods, FSA Executive Director will present a workshop on FSA Programs. Exhibitor Dean Callahan, FSA Program Technician, will manage the FSA Exhibit Booth.** The conference will be held Friday, Mar. 9, 2018, and is free to farmers and homemakers. Registration begins at 7:30 a.m. and the opening session begins at 8:45 a.m. The conference will be held at the Pine Bluff Convention Center, One Convention Center Drive in Pine Bluff. Additional Information may be found at <https://www.youtube.com/watch?v=udL5ATv4iLQ>.

Mar 13-14. - Arkansas Women in Agriculture

Arkansas Women in Agriculture (ARWIA) is hosting the 2018 ARWIA Conference. **FSA will have an Information Booth.** The conference will be held Tuesday-Wednesday, Mar. 13-14, 2018. The conference will be held at the Wyndham Riverfront Hotel, 2 Riverfront Place, North Little Rock, Arkansas. For additional information and to register, please visit: <http://arwomeninag.org/>

Apr 26. – Small Scale Producer and Landowner Conference

The University of Arkansas at Pine Bluff's Small Farm Program is hosting the Small Scale Producer and Landowner Conference. **FSA will present on Farm Programs and Fam Loan Programs.** The meeting will be held on Thursday, Apr. 26, 2018 at the Southwest Center, 3222 W. 7th Street, Texarkana, TX. Time to be announced.

If you have any questions regarding FSA programs or loans, please contact your local USDA Service Center. To locate a USDA Service Center near you, visit: <http://offices.usda.gov>.

Farmers to Receive Documentation of USDA Services

Farm Service Agency (FSA) reminds agricultural producers that FSA provides a receipt to customers who request or receive assistance or information on FSA programs.

The 2014 Farm Bill requires a customer receipt to be issued for any agricultural program assistance requested from FSA, the Natural Resources Conservation Service (NRCS) and Rural Development (RD). Receipts include the date, summary of the visit and any agricultural information, program and/or loan assistance provided to an individual or entity. Electronic receipts for acreage reports began on Aug. 1, 2016.

A service is any information, program or loan assistance provided whether through a visit, email, fax or letter.

Using FSA Direct Farm Ownership Loans for Construction

The USDA Farm Service Agency's (FSA) [Direct Farm Ownership loans](#) are a resource to help farmers and ranchers become owner-operators of family farms, improve and expand current operations, increase agricultural productivity, and assist with land tenure to save farmland for future generations.

Depending on the applicant's needs, there are three types of Direct Farm Ownership Loans: regular, down payment and joint financing. FSA also offers a [Direct Farm Ownership Microloan](#) option for smaller financial needs up to \$50,000.

Amongst other purposes, Direct Farm Ownership Loans can be used to construct, purchase or improve farm dwellings, service buildings or other facilities and improvements essential to an operation.

To do this, applicants must provide FSA with an estimate of the total cost of all planned development that completely describe the work, prior to loan approval and must show proof of sufficient funds to pay for the total cost of all planned development at or before loan closing. In some instances, applicants may be asked to provide certified plans, specifications or contract documents. The applicant cannot incur any debts for materials or labor or make any expenditures for development purposes prior to loan closing with the expectation of being reimbursed from FSA funds.

Construction and development work may be performed either by the contract method or the borrower method. Under the contract method, construction and development contractors perform work according to a written contract with the applicant or borrower. An applicant for a direct loan to finance a construction project must obtain a surety bond that guarantees both payment and performance in the amount of the construction contract from a construction contractor.

A surety bond is required when a contract exceeds \$100,000, an authorized agency official determines that a surety bond appears advisable to protect the borrower against default of the contractor or a contract provides for partial payments in excess of the amount of 60 percent of the value of the work in place.

Under the borrower method, the applicant or borrower will perform the construction and development work. The borrower method may only be used when the authorized agency official determines, based on information from the applicant, that the applicant possesses or arranges to obtain the necessary skill and managerial ability to complete the work satisfactorily and that such work will not interfere with the applicant's farming operation or work schedule.

For more eligibility requirements and information about FSA Loan programs, contact your local FSA office or visit www.fsa.usda.gov. To find your local FSA office, visit <http://offices.usda.gov>.

Filing CCC-941 Adjusted Gross Income (AGI) Certifications

Many producers have experienced delays in receiving Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) payments, Loan Deficiency Payments (LDPs) and Market Gains on Marketing Assistance Loans (MALs) because they have not filed form CCC-941, Adjusted Gross Income Certification. LDPs will not be paid until all eligible producers, including landowners who share in the crop, have filed a valid CCC-941.

Producers without a valid CCC-941 certifying their compliance with the average adjusted gross income provisions will not receive payments that have been processed. All farm operator/tenants/owners who have not filed a CCC-941 and have pending payments should IMMEDIATELY file the form with their recording county FSA office. Farm operators and tenants are encouraged to ensure that their landowners have filed the form. FSA has been issuing 2016 ARC/PLC payments and 2017 CRP payments.

FSA can accept the CCC-941 for 2015, 2016, 2017 and 2018. Unlike the past, producers must have the CCC-941 certifying their AGI compliance before any payments can be issued.

Environmental Review Required Before Project Implementation

The National Environmental Policy Act (NEPA) requires Federal agencies to consider all potential environmental impacts for federally-funded projects before the project is approved.

For all Farm Service Agency (FSA) programs, an environmental review must be completed before actions are approved, such as site preparation or ground disturbance. These programs include, **but are not limited to**, the Emergency Conservation Program (ECP), Farm Storage Facility Loan (FSFL) program and farm loans. If project implementation begins before FSA has completed an

environmental review, this will result in a denial of the request. There are exceptions regarding the Stafford Act and emergencies. It is important to wait until you receive written approval of your project proposal before starting any actions, including, but not limited to, vegetation clearing, site preparation or ground disturbance.

Remember to contact your local FSA office early in your planning process to determine what level of environmental review is required for your program application so that it can be completed timely.

Applications cannot be approved contingent upon the completion of an environmental review. FSA must have copies of all permits and plans before an application can be approved.

Unauthorized Disposition of Grain

If loan grain has been disposed of through feeding, selling or any other form of disposal without prior written authorization from the county office staff, it is considered unauthorized disposition. The financial penalties for unauthorized dispositions are severe and a producer's name will be placed on a loan violation list for a two-year period. Always call before you haul any grain under loan.

USDA Processing Pending Conservation Reserve Program Continuous Enrollment Offers

Acceptance of Most 2018 Offers Temporarily Suspended

USDA's Farm Service Agency (FSA) will process many pending eligible offers for land enrollment in the Conservation Reserve Program (CRP), and will temporarily suspend accepting most new offers until later in the 2018 fiscal year.

All current, eligible CRP continuous enrollment offers made through Sept. 30, 2017, except for those made under the Pollinator Habitat Initiative (CP42), will be approved. Additionally, FSA is temporarily suspending acceptance of most offers going forward to provide time to review CRP allocation levels, and to avoid exceeding the statutory cap of 24 million acres.

The CRP acreage cap is a provision of the 2014 Farm Bill. Current enrollment is about 23.5 million acres nationwide. USDA is accepting all pending continuous enrollment offers that were made beginning on May 4, 2017, and extending through Sept. 30, 2017, except Pollinator Habitat Initiative offers. Pollinator acreage offers are being declined because the program has met its acreage enrollment goal. Effective immediately, USDA is suspending acceptance of all new CRP continuous offers received or submitted after Sept. 30, 2017. The suspension will continue until later in the 2018 fiscal year.

However, FSA will continue to accept eligible offers for state-specific Conservation Reserve Enhancement Program (CREP) and CRP Grasslands enrollment. Offers received on or after Oct. 1, 2017, are subject to fiscal year 2018 rental rates which have been adjusted to reflect current market conditions and were established after careful review of the latest USDA National Agricultural Statistics Service (NASS) cash rent data.

In return for enrolling in CRP, USDA, through FSA, provides participants with rental payments and cost-share assistance. Landowners enter into contracts that last between 10 and 15 years. CRP pays farmers and ranchers who remove sensitive lands from production and plant certain grasses, shrubs and trees that improve water quality, prevent soil erosion and increase wildlife habitat. Payment totals for 2017 were announced earlier this week totaling over \$1.6 billion.

For more information about CRP, contact your local FSA office or visit www.fsa.usda.gov/crp. To locate your local FSA office, visit <http://offices.usda.gov>.

USDA Announces Enrollment Period for Safety Net Coverage in 2018

FSA today announced that starting Nov. 1, 2017, farmers and ranchers with base acres in the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) safety net program may enroll for the 2018 crop year. The enrollment period will end on Aug. 1, 2018.

Since shares and ownership of a farm can change year-to-year, producers must enroll by signing a contract each program year.

The producers on a farm that are not enrolled for the 2018 enrollment period will not be eligible for financial assistance from the ARC or PLC programs for the 2018 crop should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program. Producers who made their elections in previous years must still enroll during the 2018 enrollment period.

The ARC and PLC programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity. For more details regarding these programs, go to www.fsa.usda.gov/arc-plc.

For more information, producers are encouraged to visit their local FSA office. To find a local FSA office, visit <http://offices.usda.gov>.

Disaster Set-Aside (DSA) Program

FSA borrowers with farms located in designated primary or contiguous disaster areas who are unable to make their scheduled FSA loan payments should consider the Disaster Set-Aside (DSA) program.

DSA is available to producers who suffered losses as a result of a natural disaster and is intended to relieve immediate and temporary financial stress. FSA is authorized to consider setting aside the portion of a payment/s needed for the operation to continue on a viable scale.

Borrowers must have at least two years left on the term of their loan in order to qualify.

Borrowers have eight months from the date of the disaster designation to submit a complete application. The application must include a written request for DSA signed by all parties liable for the debt along with production records and financial history for the operating year in which the disaster occurred. FSA may request additional information from the borrower in order to determine eligibility.

All farm loans must be current or less than 90 days past due at the time the DSA application is complete. Borrowers may not set aside more than one installment on each loan.

The amount set-aside, including interest accrued on the principal portion of the set-aside, is due on or before the final due date of the loan.

For more information, contact your local FSA farm loan office.

February Rates

Selected Interest Rates for February 2018	
90-Day Treasury Bill	1.250
Farm Operating Loans — Direct	3.125
Farm Ownership Loans — Direct	3.750
Farm Ownership Loans — Direct Down Payment, Begin- ning Farmer or Rancher	1.500
Emergency Loans	3.750
Farm Storage Facility Loans (3 years)	2.125
Farm Storage Facility Loans (5 years)	2.250
Farm Storage Facility Loans (7 years)	2.375
Farm Storage Facility Loans (10 years)	2.500
Farm Storage Facility Loans (12 years)	2.500
Commodity Loans 1996- Present	2.750
