LIVESTOCK FORAGE DISASTER PROGRAM (LFP)

Producers in Catron, Cibola, Colfax, Grant, Guadalupe, Harding, McKinley, Mora, Quay, Rio Arriba, Sandoval, and San Juan counties are eligible to apply for 2015 Livestock Forage Disaster Program (LFP) benefits on **native pasture**.

Producers in Colfax, Quay, and Union counties are eligible to apply for 2015 LFP benefits on **small grains**.

LFP provides compensation to eligible livestock producers who suffer grazing losses for covered livestock due to drought on privately owned or cash leased land or fire on federally managed land.

County committees can only accept LFP applications after notification is received by the National Office of qualifying drought or if a federal

Please contact your local FSA Office for questions specific to your operation or county.

agency prohibits producers from grazing normal permitted livestock on federally managed lands due to qualifying fire.

For 2015 and subsequent years, eligible livestock producers must complete a CCC-853 and the required supporting documentation no later than 30 calendar days after the end of the calendar year in which the grazing losses occurred. Losses must occur in the calendar year the application is being filed.

Additional Information about LFP, including eligible livestock and fire criteria, is available at your local FSA office or online at: www.fsa.usda.gov.

USDA's Farm Service Agency (FSA) Offers Farm Bill Website and Online Overview of Farm Bill Programs

The Agricultural Act of 2014 (the Act), also known as the 2014 Farm Bill, was signed by President Obama on Feb. 7, 2014. The Act repeals certain programs, continues some programs with modifications, and authorizes several new programs administered by the Farm Service Agency (FSA). Most of these programs are authorized and funded through 2018.

For the latest on 2014 Farm Bill programs administered by FSA, please visit our Farm Bill website at www.fsa.usda.gov/farmbill and for an FSA program overview please read, download and/or print our recently posted FSA Farm Bill Fact Sheet titled, [What's in the 2014 Farm Bill for Farm Service Agency Customers?](#)

USDA Provides One-Time Extension of Deadline to Update Base Acres or Yield History for ARC/PLC Programs

Farmers Now Have Until March 31 to Update Yields and Reallocate Base Acres; Deadline for Choosing Between ARC and PLC also Remains March 31

Agriculture Secretary Tom Vilsack announced today that a one-time extension will be provided to producers for the new safety-net programs established by the 2014 Farm Bill, known as Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC). The final day to update yield history or reallocate base acres has been extended one additional month, from Feb. 27, 2015 until March 31, 2015. The final day for farm owners and producers to choose ARC or PLC coverage also remains March 31, 2015.

If no changes are made to yield history or base acres by March 31, 2015, the farm's current yield and base will be used. A program choice of ARC or PLC coverage also must be made by March 31, 2015, or there will be no 2014 payments for the farm and the farm will default to PLC coverage through the 2018 crop year.

Nationwide, more than 2.9 million educational postcards, in [English](#) and [Spanish](#), have been sent to producers, and over 4,100 training sessions have been conducted on the new safety-net programs. The online tools, available at www.fsa.usda.gov/arc-plc, allow producers to explore projections on how ARC or PLC coverage will affect their operation under possible future scenarios.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity.

To learn more, farmers can contact their local Farm Service Agency county office. To find your local office visit <http://offices.usda.gov>.

USDA Reminds Producers of April 15 Sales Closing Date for Noninsurable Crops

Farm Service Agency (FSA) urges producers who want to purchase coverage through the Noninsured Crop Disaster Assistance Program (NAP) to do so before the sales closing date of April 15, 2015.

NAP provides financial assistance to producers of noninsurable crops when low yields/grazing loss, loss of inventory or prevented planting occur due to natural disasters including drought, freeze, hail, excessive moisture, excessive wind or hurricanes.

In order to meet eligibility requirements for NAP, crops must be noninsurable, commercially-produced agricultural commodity crops for which the catastrophic risk protection level of crop insurance is not available.

The Agricultural Act of 2014 (the 2014 Farm Bill) allows producers to choose higher levels of NAP coverage. Previously, the program offered coverage at 55 percent of the average market price for crop losses that exceed 50 percent of expected production. Producers can now choose higher levels of coverage, up to 65 percent of their expected production at 100 percent of the average market price. It is important to note that the higher coverage is not available on grazing crops.

The following crops have a NAP application closing date of April 15, 2015: Basil, Beets, Broccoli, Cantaloupe, Cauliflower, Cilantro, Eggplant, Gourds, Honeydew, Okra, Pumpkins, Strawberries, Turnips, and Watermelon.

Eligible producers must file the application and pay a service fee by the April 15 deadline. Producers also pay a fixed premium for higher coverage. Beginning, limited resource and underserved producers may request a waiver of the service fee and a 50 percent premium reduction when the application for coverage is filed.

LIVESTOCK INDEMNITY PROGRAM (LIP)

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2015, eligible losses must occur on or after Jan. 1, 2015, and before December 31, 2015. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 30 calendar days after the end of the calendar year for which benefits are requested:

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 1.5% and Non-Adult Beef Cattle (less than 400 pounds) = 3%. These established percentages reflect losses that are considered expected or typical under “normal” conditions. Producers who suffer livestock losses in 2015 must file both of the following:

- A notice of loss the earlier of 30 calendar days of when the loss was apparent or by January 30, 2016
- An application for payment by January 30, 2016.

Microloan Cap Grows to \$50,000

Farm Service Agency (FSA) reminds farmers and ranchers that the FSA borrowing limit for microloans increased from \$35,000 to \$50,000, effective Nov. 7. Microloans offer borrowers simplified lending with less paperwork.

The microloan change allows beginning, small and mid-sized farmers to access an additional \$15,000 in loans using a simplified application process with up to seven years to repay. Microloans are part of USDA’s continued commitment to [small and mid-sized farming operations](#).

To complement the microloan program additional changes to FSA eligibility requirements will enhance beginning farmers and ranchers access to land, a key barrier to entry level producers. FSA policies related to farm experience have changed so that other types of skills may be considered to meet the direct farming experience required for farm ownership loan eligibility. Operation or management of non-farm businesses, leadership positions while serving in the military or advanced education in an agricultural field will now count towards the experience applicants need to show when applying for farm ownership loans. **Important Note:** Microloans cannot be used to purchase real estate.

Since 2010, FSA has made a record amount of farm loans — more than 165,000 loans totaling nearly \$23 billion. More than 50 percent of USDA's farm loans now go to beginning farmers. In addition, FSA has increased its lending to underserved producers by nearly 50 percent since 2010.

Please review the FSA [Microloan Program Fact Sheet](#) for program application, eligibility and related information.

Many NM Counties are Eligible for Emergency Loans

Many NM Counties have been declared a primary or contiguous disaster due to drought and heat using the streamlined Secretarial Disaster Designation process. Under this designation, producers with operations in any primary or contiguous county are eligible to apply for low interest emergency loans.

The streamlined disaster designation process issues a drought disaster declaration when a county has experienced a drought intensity value of at least a D2 (severe drought) level for eight consecutive weeks based on the U.S. Drought Monitor during the crop year.

Emergency loans help producers recover from production and physical losses due to drought, flooding and other natural disasters or quarantine.

Producers have eight months from the date of the declaration to apply for emergency loan assistance. FSA will consider each loan application on its own merits, taking into account the extent of losses, security available and repayment ability. Producers can borrow up to 100 percent of actual production or physical losses, to a maximum amount of \$500,000.

For more information about emergency loans, please contact your local FSA office or visit www.fsa.usda.gov.

Loans for Targeted Underserved Producers

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of targeted underserved groups.

A targeted underserved applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, targeted underserved groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

USDA is an equal opportunity provider and employer.
