USDA Announces Enrollment Period for Safety Net Coverage in 2018

FSA today announced that starting Nov. 1, 2017, farmers and ranchers with base acres in the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) safety net program may enroll for the 2018 crop year. The enrollment period will end on Aug. 1, 2018.

Since shares and ownership of a farm can change year-to-year, producers must enroll by signing a contract each program year.

The producers on a farm that are not enrolled for the 2018 enrollment period will not be eligible for financial assistance from the ARC or PLC programs for the 2018 crop should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program. Producers who made their elections in previous years must still enroll during the 2018 enrollment period.

The ARC and PLC programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity. For more details regarding these programs, go to www.fsa.usda.gov/arc-plc.

USDA Processing Pending Conservation Reserve Program Continuous Enrollment Offers

Acceptance of Most 2018 Offers Temporarily Suspended

USDA's Farm Service Agency (FSA) will process many pending eligible offers for land enrollment in the Conservation Reserve Program (CRP), and will temporarily suspend accepting most new offers until later in the 2018 fiscal year.

All current, eligible CRP continuous enrollment offers made through Sept. 30, 2017, except for those made under the Pollinator Habitat Initiative (CP42), will be approved. Additionally, FSA is temporarily suspending acceptance of most offers going forward to provide time to review CRP allocation levels, and to avoid exceeding the statutory cap of 24 million acres.

The CRP acreage cap is a provision of the 2014 Farm Bill. Current enrollment is about 23.5 million acres nationwide. USDA is accepting all pending continuous enrollment offers that were made beginning on May 4, 2017, and extending through Sept. 30, 2017, except Pollinator Habitat Initiative offers. Pollinator acreage offers are being declined because the program has met its acreage enrollment goal. Effective immediately, USDA is suspending acceptance of all new CRP continuous offers received or submitted after Sept. 30, 2017. The suspension will continue until later in the 2018 fiscal year.

However, FSA will continue to accept eligible offers for state-specific Conservation Reserve Enhancement Program (CREP) and CRP Grasslands enrollment. Offers received on or after Oct. 1, 2017, are subject to fiscal year 2018 rental rates which have been adjusted to reflect current market conditions and were established after careful review of the latest USDA National Agricultural Statistics Service (NASS) cash rent data.

In return for enrolling in CRP, USDA, through FSA, provides participants with rental payments and cost-share assistance. Landowners enter into contracts that last between 10 and 15 years. CRP pays farmers and ranchers who remove sensitive lands from production and plant certain grasses, shrubs and trees that improve water quality, prevent soil erosion and increase wildlife habitat. Payment totals for 2017 were announced earlier this week totaling over \$1.6 billion.

For more information about CRP, contact your local FSA office or visit www.fsa.usda.gov/crp. To locate your local FSA office, visit <http://offices.usda.gov>.

Transitioning Expiring CRP Land to Beginning, Veteran or Underserved Farmers and Ranchers

Retired or retiring landowners or operators are encouraged to transition their Conservation Reserve Program (CRP) acres to beginning, veteran or underserved farmers or ranchers through the Transition Incentives Program (TIP). TIP provides annual rental payments to the retiring farmer for up to two additional years after the CRP contract expires, provided the transition is not to a family member.

Enrollment in TIP is on a continuous basis. Beginning, veteran or underserved farmers and ranchers and retiring CRP participants may enroll in TIP beginning one year before the expiration date of the CRP contract or Aug. 15. For example, if a CRP contract is scheduled to expire on Sept. 30, 2018, the land may be offered for enrollment in TIP beginning Oct. 1, 2017, through Aug. 15, 2018. The Aug. 15 deadline allows the Natural Resources Conservation Service (NRCS) time to

complete the TIP sustainable grazing or crop production conservation plans. The TIP application must be submitted prior to completing the lease or sale of the affected lands.

New landowners or renters must return the land to production using sustainable grazing or farming methods.

For more information on TIP, visit <https://www.fsa.usda.gov/conservation>.

Maintaining Good Credit History

Farm Service Agency (FSA) Farm Loan programs require that applicants have a satisfactory credit history. A credit report is requested for all FSA direct farm loan applicants. These reports are reviewed to verify outstanding debts, if bills are paid timely and to determine the impact on cash flow.

Information found on a customer's credit report is strictly confidential and is used only as an aid in conducting FSA business.

Our farm loan staff will discuss options with you if you have an unfavorable credit report and will provide a copy of your report. If you dispute the accuracy of the information on the credit report, it is up to you to contact the issuing credit report company to resolve any errors or inaccuracies.

There are multiple ways to remedy an unfavorable credit score.

- Make sure to pay bills on time. Setting up automatic payments or automated reminders can be an effective way to remember payment due dates.
- Pay down existing debt.
- Keep your credit card balances low.
- Avoid suddenly opening or closing existing credit accounts.

FSA's farm loan staff will guide you through the process, which may require you to reapply for a loan after improving or correcting your credit report.

For more information on FSA farm loan programs, visit www.fsa.usda.gov.

Loan Servicing

There are options for Farm Service Agency loan customers during financial stress. If you are a borrower who is unable to make payments on a loan, contact your local FSA Farm Loan Manager to learn about the options available to you.

USDA Encourages Producers to Consider Risk Protection Coverage before Crop Sales Deadlines

The Farm Service Agency encourages producers to examine available USDA crop risk protection options, including federal crop insurance and Noninsured Crop Disaster Assistance Program (NAP) coverage, before the applicable crop sales deadline.

Producers are reminded that crops not covered by insurance may be eligible for NAP. The 2014 Farm Bill expanded NAP to include higher levels of protection. Beginning, underserved and limited resource farmers are now eligible for free catastrophic level coverage, as well as discounted premiums for additional levels of protection."

Federal crop insurance covers crop losses from natural adversities such as drought, hail and excessive moisture. NAP covers losses from natural disasters on crops for which no permanent federal crop insurance program is available, including perennial grass forage and grazing crops,

fruits, vegetables, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.

Producers can determine if crops are eligible for federal crop insurance or NAP by visiting <https://webapp.rma.usda.gov/apps/actuarialinformationbrowser2017/CropCriteria.aspx>.

NAP basic coverage is available at 55 percent of the average market price for crop losses that exceed 50 percent of expected production, with higher levels of coverage, up to 65 percent of their expected production at 100 percent of the average market price, including coverage for organics and crops marketed directly to consumers.

Deadlines for coverage vary by state and crop. To learn more about NAP visit www.fsa.usda.gov/nap or contact your local USDA Service Center. To find your local USDA Service Centers go to <http://offices.usda.gov>.

Federal crop insurance coverage is sold and delivered solely through private insurance agents. Agent lists are available at all USDA Service Centers or at USDA's online Agent Locator: <http://prodwebnlb.rma.usda.gov/apps/AgentLocator/#>. Producers can use the USDA Cost Estimator, <https://ewebapp.rma.usda.gov/apps/costestimator/Default.aspx>, to predict insurance premium costs.
