

Occupational Requirements Survey

ORS: Why It Matters

Better decisions begin with better data

SSA is developing a new Occupational Information System (OIS) to replace the Dictionary of Occupational Titles (DOT) that is currently used to adjudicate disability claims.

The new OIS will use **ORS data** to better define jobs that exist in our modern economy to support an accurate and fair disability determination process.

What is the Occupational Requirements Survey (ORS)?

The BLS conducts this survey under an agreement with the Social Security Administration (SSA). The goal of the ORS is to collect and publish information about specific work-related requirements that will be available to the public and used by SSA to help make decisions for their disability programs. For more information on the ORS, see www.bls.gov/ors.

Vocational Preparation:
Education, Experience,
Professional Licenses,
Certifications, Training

Cognitive Demands:
Decision-making,
Work Review and Pace,
Adaptability, Contacts

Physical Demands:
Sitting, Standing, Walking,
Lifting, Pushing, Climbing,
Reaching, Posture, Keyboarding

Environmental Conditions:
Extreme Temperatures, Heavy Vibrations,
Hazardous Contaminants, Outdoors,
Noise Level, Wetness, Humidity
