This database should cover all sub-agencies, offices, bureaus and divisions within your agency (CBP, FEMA, etc.), including offices of general counsel and inspector general. It should also include the name, title, grade, location, annual or hourly pay, agency, work or bargaining unit, dates, hours used and category under the statute for of each individual who used official time. It should also include any information as to what union, labor group and/or bargaining unit the employee was representing when the official time was used. It is my understanding that official time has unique payroll codes, and that this information is readily available and easily extractable through the Enterprise Human Resources Integration System or other payroll databases available to your agency</p>

Copies of any current master labor agreements between your agency or office and a labor organization/union which allow for official time under the previously referenced statute. What you are seeking is the master agreements governing the use of official time by top union officials
