#### Acreage Reporting Dates

In order to comply with Farm Service Agency (FSA) program eligibility requirements, all producers are encouraged to make an appointment with their FSA County Office to file an accurate crop certification report by the following deadlines:

January 2 - Honey

March 15 - Coffee

March 31 - All other non-insurable crops covered by Non-Insured Disaster Assistance Program not listed in this table. Acreage reporting date is by March 31 of the subsequent crop year.

May 31 - Nursery for the ensuing crop year

July 15 - Banana, Papaya, Conservation Reserve Enhancement Program (CREP)

September 30 - Aquaculture, Floriculture, Ginseng, Mushrooms, Turfgrass Sod for the ensuing year

December 16 - Grazed Forage - 15 days before the onset of grazing

If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate

documentation must be provided to the county office. For questions regarding crop certification and crop loss reports, please contact your local FSA County Office.

---

## Save Time – Make an Appointment with FSA

Producers are encouraged to call their local FSA office to schedule an appointment to ensure maximum use of their time and to make sure FSA staff is available to tend to their important business needs. Please call your local FSA office ahead of your visit to set an appointment and to discuss any records or documentation that might be needed during your appointment. To find your local FSA office, visit: <http://offices.sc.egov.usda.gov/locator/app>.

## Farm Storage Facility Loans

FSA's Farm Storage Facility Loan (FSFL) program provides low-interest financing to producers to build or upgrade storage facilities and to purchase portable (new or used) structures, equipment and storage and handling trucks.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley, minor oilseeds harvested as whole grain, pulse crops (lentils, chickpeas and dry peas), hay, honey, renewable biomass, fruits, nuts and vegetables for cold storage facilities, floriculture, hops, maple sap, rye, milk, cheese, butter, yogurt, meat and poultry (unprocessed), eggs, and aquaculture (excluding systems that maintain live animals through uptake and discharge of water). Qualified facilities include grain bins, hay barns and cold storage facilities for eligible commodities.

Loans up to \$50,000 can be secured by a promissory note/security agreement and some loans between \$50,000 and \$100,000 will no longer require additional security.

Producers do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small and mid-sized businesses, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

To learn more about the FSA Farm Storage Facility Loan, visit [www.fsa.usda.gov/pricesupport](http://www.fsa.usda.gov/pricesupport) or contact your local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.

## Filing a Notice of Loss

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a Notice of Loss is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP), you must file a CCC-576, Notice of Loss, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent or 15 calendar days after the normal harvest date.

Producers of hand-harvested crops must notify FSA of damage or loss through the administrative County Office within 72 hours of the date of damage or loss first becomes apparent. This notification can be provided by filing a CCC-576, email, fax or phone. Producers who notify the County Office by any method other than by filing the CCC-576 are still required to file a CCC-576, Notice of Loss, within the required 15 calendar days.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

## FSAfarm+, FSA's Customer Self-Service Portal

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) has launched a new tool to provide farmers and ranchers with remote access to their personal farm information using their home computers. Farmers and ranchers can now view, print or export their personal farm data all without visiting an FSA county office.

The program, known as **FSAfarm+**, provides you with secure access to view your personal FSA data, such as base and yields, Conservation Reserve Program data, other conservation program acreage, Highly Erodible Land Conservation and Wetland Conservation status information, field boundaries, farm imagery, name and address details, contact information and membership interest and shares in the operation. This data will be available in real time, at no cost to the producer and allow operators and owners to export and print farm records, including maps. Producers also can electronically share their data with a crop insurance agent from their own personal computer.

Farm operators and owners first will need "Level 2 eAuthentication" to access the webportal. This level of security ensures that personal information is protected for each user. Level 2 access can be obtained by going to [www.eauth.usda.gov](http://www.eauth.usda.gov), completing the required information and then visiting your local FSA office to finalize access.

For more information on **FSAfarm+**, the customer self-service portal, contact your local FSA office. To find your local FSA county office, click <http://offices.usda.gov>.
