Subject: Risk Corridors Payment and Charge Amounts for Benefit Year 2014

Background:

Section 1342 of the Affordable Care Act directs the Secretary of the Department of Health and Human Services (HHS) to establish a temporary risk corridors program that provides issuers of qualified health plans (QHPs) in the individual and small group markets additional protection against uncertainty in claims costs during the first three years of the Marketplace. The program, which was modeled after a similar program implemented as part of the Medicare Part D prescription drug benefit program, encourages issuers to keep their rates stable as they adjust to the new health insurance reforms in the early years of the Marketplaces.

HHS has previously stated that if risk corridors collections for a particular year are insufficient to make full risk corridors payments for that year, risk corridors payments for the year will be reduced pro rata to the extent of any shortfall.¹ On October 1, 2015, HHS announced the payment proration rate for 2014 will be approximately 12.6 percent, reflecting risk corridors charges of \$362 million and payments of \$2.87 billion requested by issuers.² This proration rate was based on the most current risk corridors data submitted by issuers and assumes full collection of charges from issuers.

Today, HHS is releasing issuer-level risk corridors payments and charges based on the most current risk corridors data submitted by issuers and assuming full collection of charges from issuers, by market and state, for the 2014 benefit year. The tables below include the risk corridors payment or charge amounts for the individual and small group markets, respectively, and the prorated risk corridors payment, if applicable. **Risk corridors charges payable to HHS are not prorated, and the full risk corridors charge amounts are noted in the chart below. Only risk corridors payment amounts are prorated.** HHS will begin collection of risk corridors charges in November 2015 and will begin remitting risk corridors payments to issuers starting in December 2015.³

² The exact proration rate for 2014 is 12.6178665287897%.

³ We note that the risk corridor payment and charge amounts published in this bulletin do not reflect any payment or charge adjustments due to resubmissions after September 15, 2015 or any amount held back for appeals.
