Office for questions specific to  
your operation or county

### Message from Michael Taylor, Acting State Executive Director for West Virginia

It's been almost a year since the devastating flooding event that left a hundreds of agricultural producers in southern West Virginia with farm damages. The USDA Farm Service Agency has stepped in to help producers get their farms back in normal production by assisting with the Emergency Conservation Program. Through this program, over \$1.1 million has been allocated for cost share payments to recoup expenses sustained from restoring fences, removing debris on pasture and fields, reseeding and reclaiming these fields, and repairing conservation practices. I encourage the producers of West Virginia to contact their local FSA offices to learn how our programs and can help you.

### Sonny Perdue Sworn in as 31st U.S. Secretary of Agriculture

Sonny Perdue was sworn in as the 31st U.S. Secretary of Agriculture by fellow Georgian and Associate Justice of the U.S. Supreme Court Clarence Thomas in a brief ceremony on April 25 at the Supreme Court building.

Perdue grew up on a dairy and diversified row crop farm in Bonaire, Georgia. Being uniquely qualified as a former farmer, agribusinessman, veterinarian, state legislator and governor of Georgia, he has experienced the agriculture industry from every possible perspective throughout his life.

As secretary, Perdue says he will champion the concerns of farmers, ranchers, foresters and producers, and will work tirelessly to solve the issues facing our farm families.

Perdue's policies as U.S. Secretary of Agriculture will be guided by four principles which will inform his decisions. First, he will maximize the ability of the men and women of America's agriculture and agribusiness sector to create jobs, to produce and sell the foods and fiber that feed and clothe the world, and to reap the earned reward of their labor. Second, he will prioritize customer service every day for American taxpayers and consumers. Third, as Americans expect a safe and secure food supply, USDA will continue to serve in the critical role of ensuring the food we put on the table to feed our families meets the strict safety standards we've established. And fourth, Perdue will always remember that America's agricultural bounty comes directly from the land.

For more information about Secretary Perdue, visit [www.usda.gov](http://www.usda.gov).

## **Enrollment Period for 2017 Safety Net Coverage Continues Through Aug. 1**

Producers on farms with base acres under the safety net programs established by the 2014 Farm Bill, known as the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs, can visit their local FSA office to sign contracts and enroll for the 2017 crop year. The enrollment period will continue until Aug. 1, 2017.

Since shares and ownership of a farm can change year-to-year, producers on the farm must enroll by signing a contract each program year.

If a farm is not enrolled during the 2017 enrollment period, the producers on that farm will not be eligible for financial assistance from the ARC or PLC programs for the 2017 crop should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program. Producers who made their elections in 2015 must still enroll during the 2017 enrollment period.

The ARC and PLC programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long

grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity. For more details regarding these programs, go to [www.fsa.usda.gov/arc-plc](http://www.fsa.usda.gov/arc-plc).

For more information, producers are encouraged to visit their local FSA office. To find a local FSA office, visit <http://offices.usda.gov>.

## Report Livestock Losses

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2017, eligible losses must occur on or after Jan. 1, 2017, and no later than 60 calendar days from the ending date of the applicable adverse weather event or attack. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 90 calendar days after the end of the calendar year in which the eligible loss condition occurred.

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 1.5% and Non-Adult Beef Cattle (less than 400 pounds) = 3%. These established percentages reflect losses that are considered expected or typical under "normal" conditions. Producers who suffer livestock losses in 2017 must file both of the following:

- A notice of loss the earlier of 30 calendar days of when the loss was apparent
- An application for payment by March 31, 2018.

Additional Information about LIP is available at your local FSA office or online at: [www.fsa.usda.gov](http://www.fsa.usda.gov).

## USDA Announces Streamlined Guaranteed Loans and Additional Lender Category for Small-Scale Operators

Options Help More Beginning, Small and Urban Producers Gain Access to Credit

The U.S. Department of Agriculture (USDA) announced the availability of a streamlined version of USDA guaranteed loans, which are tailored for smaller scale farms and urban producers. The program, called EZ Guarantee Loans, uses a simplified application process to help beginning, small, underserved and family farmers and ranchers apply for loans of up to \$100,000 from USDA-approved lenders to purchase farmland or finance agricultural operations.

A new category of lenders will join traditional lenders, such as banks and credit unions, in offering

USDA EZ Guarantee Loans. Microlenders, which include Community Development Financial Institutions and Rural Rehabilitation Corporations, will be able to offer their customers up to \$50,000 of EZ Guaranteed Loans, helping to reach urban areas and underserved producers. Banks, credit unions and other traditional USDA-approved lenders, can offer customers up to \$100,000 to help with agricultural operation costs.

EZ Guarantee Loans offer low interest rates and terms up to seven years for financing operating expenses and 40 years for financing the purchase of farm real estate. USDA-approved lenders can issue these loans with the Farm Service Agency (FSA) guaranteeing the loan up to 95 percent.

More information about the available types of FSA farm loans can be found at [www.fsa.usda.gov/farmloans](http://www.fsa.usda.gov/farmloans) or by contacting your local FSA office.

## 2017 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local County FSA office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for West Virginia:

May 31, 2017	Nursery
July 15, 2017	All other crops

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of “cover only,” “green manure,” “left standing,” or “seed,” then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact the State FSA office at 304-284-4800.
