**State Executive Director:**  
Tas Smith

### USDA Reopens Enrollment for Improved Dairy Safety Net Tool

USDA's Farm Service Agency encourages dairy producers to consider enrolling in the new and improved [Margin Protection Program for Dairy](#) (MPP-Dairy), which will provide better protections for dairy producers from shifting milk and feed prices. With changes authorized under the Bipartisan Budget Act of 2018, the U.S. Department of Agriculture's (USDA) Farm Service Agency (FSA) has set the enrollment period to run from April 9, 2018 to June 1, 2018.

**State Committee:**

L.G. (Bo) Herndon, Jr.  
Meredith McNair Rogers  
Donnie Smith

**Administrative Officer:**

Dianne R. Westmoreland

**Farm Loan Chief:**

Robert Tyson

**Farm Programs Chief:**

Brett Martin

**Public Affairs/Outreach:**

Neal Leonard

To find contact information for  
your local office go to  
[www.fsa.usda.gov/ga](http://www.fsa.usda.gov/ga)

**About the Program:**

The program protects dairy producers by paying them when the difference between the national all-milk price and the national average feed cost (the margin) falls below a certain dollar amount elected by the producer.

Changes include:

- Calculations of the margin period is monthly rather than bi-monthly.
- Covered production is increased to 5 million pounds on the Tier 1 premium schedule, and premium rates for Tier 1 are substantially lowered.
- An exemption from paying an administrative fee for limited resource, beginning, veteran, and disadvantaged producers. Dairy operators enrolled in the previous 2018 enrollment period that qualify for this exemption under the new provisions may request a refund.

Dairy operations must make a new coverage election for 2018, even if you enrolled during the previous 2018 signup period. Coverage elections made for 2018 will be retroactive to January 1, 2018. All dairy operations desiring coverage must sign up during the enrollment period and submit an appropriate form (CCC-782) and dairy operations may still “opt out” by not submitting a form. All outstanding balances for 2017 and prior years must be paid in full before 2018 coverage is approved.

Dairy producers can participate in FSA’s MPP-Dairy or the Risk Management Agency’s Livestock Gross Margin Insurance Plan for Dairy Cattle (LGM-Dairy), but not both. During the 2018 enrollment period, only producers with an active LGM-Dairy policy who have targeted marketings insured in 2018 months will be allowed to enroll in MPP-Dairy by June 1, 2018; however, their coverage will start only after active target marketings conclude under LGM-Dairy.

USDA has a web tool to help producers determine the level of coverage under the MPP-Dairy that will provide them with the strongest safety net under a variety of conditions. The online resource, which will be updated and available by April 9 at [www.fsa.usda.gov/mpptool](http://www.fsa.usda.gov/mpptool), allows dairy farmers to quickly and easily combine unique operation data and other key variables to calculate their coverage needs based on price projections. Producers can also review historical data or estimate future coverage based on data projections. The secure site can be accessed via computer, smartphone, tablet or any other platform.

USDA is mailing postcards advising dairy producers of the changes. For more information, visit [www.fsa.usda.gov/dairy](http://www.fsa.usda.gov/dairy) or contact your [local USDA service center](#).

## USDA Implements up to \$2.36 Billion to Help Agricultural Producers Recover after 2017 Hurricanes and Wildfires

### 2017 Wildfires and Hurricanes Indemnity Program to Aid Recovery in Rural Communities

The U.S. Department of Agriculture (USDA) will make disaster payments of up to \$2.36 billion, as provided by Congress, to help America's farmers and ranchers recover from hurricanes and wildfires. The funds are available as part of the new 2017 Wildfires and Hurricanes Indemnity Program (2017 WHIP). Sign-up for the new program, authorized by the Bipartisan Budget Act of 2018, will begin no later than July 16.

USDA's [Farm Service Agency](#) (FSA) will make these disaster payments to agricultural producers to offset losses from hurricanes Harvey, Irma and Maria and devastating wildfires. The 2017 calendar year was a historic year for natural disasters, and this investment is part of a broader suite of programs that USDA is delivering to rural America to aid recovery. In total, the Act provided more than \$3 billion in disaster relief by creating new programs, and expediting or enhancing payments for producers.

### About 2017 WHIP Disaster Payments

The new 2017 WHIP will provide significant disaster assistance and be guided by the following principles:

- Eligibility will be limited to producers in counties that experienced hurricanes or wildfires designated as presidentially-declared disasters in 2017;
- Compensation determined by a producer's individual losses rather than an average of losses for a particular area (where data is available);
- Producers who purchased higher levels of risk protection, such as crop insurance and noninsured crop disaster assistance program, will receive higher payments;
- Advance payments up to 50 percent; and
- A requirement that payment recipients obtain future risk protection.

### Other USDA Disaster Assistance

WHIP disaster payments are being issued in addition to payments through our traditional programs, some of which obtained increased funding or had amendments made by the Act to make the programs more responsive, including the [Emergency Conservation Program](#), [Emergency Watershed Protection Program](#), [Emergency Assistance for Livestock, Honeybees and Farm-raised Fish Program](#), [Tree Assistance Program](#) and [Livestock Indemnity Program](#).

During 2017, the U.S. experienced a historic year of weather-related disasters, with an economic impact totaling more than \$300 billion. In total, the United States was impacted by 16 separate billion-dollar disaster events including: three tropical cyclones, eight severe storms, two inland floods, a crop freeze, drought and wildfire. More than 25 million people – almost eight percent of the population – were affected by major disasters.

### More Information

FSA will distribute more information on how producers can file claims for WHIP disaster payments at a later date. For questions on how to establish farm records to be prepared when WHIP disaster

signup begins, or to learn about other disaster assistance programs, producers are asked to contact their [local USDA service center](#).

---

## USDA to Immediately Assist Producers for Qualifying Livestock, Honeybee and Farm-raised Fish Program Losses

\$34 Million in Payments for 2017 Losses Part of Broad Suite of Programs Aiding Ag Operations

USDA will issue \$34 million to help agricultural producers recover from 2017 natural disasters through the [Emergency Assistance for Livestock, Honeybees and Farm-raised Fish Program](#) (ELAP), which covers losses not covered by certain other USDA disaster assistance programs. These payments are being made available today, and they are part of a broader USDA effort to help producers recover from hurricanes Harvey, Irma and Maria, wildfires and drought. A large portion of this assistance will be made available in [federally designated disaster areas](#).

ELAP aims to help eligible producers of livestock, honeybees and farm-raised fish for losses due to disease, certain adverse weather events or loss conditions, including blizzards and wildfires, as determined by the Secretary. ELAP assistance is provided for losses not covered by other disaster assistance programs such as the [Livestock Forage Disaster Program \(LFP\)](#) and the [Livestock Indemnity Program \(LIP\)](#).

The increased amount of assistance through ELAP was made possible by the Bipartisan Budget Act of 2018, signed earlier this year. The Act amended the 2014 Farm Bill to enable USDA's [Farm Service Agency](#) (FSA) to provide assistance to producers without an annual funding cap and immediately for 2017. It also enables FSA to pay ELAP applications as they are filed for 2018 and subsequent program years.

### Other USDA Disaster Assistance Programs

The Act removed program year payment limitations and increased the acreage cap for the [Tree Assistance Program](#) (TAP), a nationwide program that provides owners of orchards, vineyards and nurseries with cost share assistance to replant eligible trees, bushes, and vines following a natural disaster. For example, the program will help owners of citrus groves in Florida, avocado trees in California, coffee plantations in Puerto Rico and vineyards reduce the cost of replanting, and speed recovery from the loss of fruit and nut trees, bushes, and vines.

Prior to the Act, there was a combined program year payment limitation of \$125,000 for ELAP, LIP and LFP per person or legal entity. The Tree Assistance Program (TAP) had its own \$125,000 payment limitation. The Act removed the program year per person and legal entity payment limitation for LIP and TAP. As a result of the Act, a \$125,000 per person and legal entity single payment limitation applies to the total amount of program year payments received under both ELAP and the [Livestock Forage Disaster Program](#) (LFP) and program payments under LIP and TAP no longer have payment limits.

Under the updated program, as amended by the Act, growers are eligible to be partly reimbursed for losses on up to 1,000 acres per program year, double the previous acreage limit of 500 acres.

In total, it is estimated that the Act will enable USDA to provide more than \$3 billion in disaster assistance, including the \$2.36 billion announced last week to be made available through FSA's new 2017 Wildfires and Hurricanes Indemnity Program. This includes \$400 million made available for the [Emergency Conservation Program](#), which helps farmers and ranchers repair damage to

farmlands caused by natural disasters. As signups across the country are completed, additional applications will be funded.

According to the U.S. National Oceanic and Atmospheric Administration (NOAA), the United States was impacted by 16 separate billion-dollar disaster events in 2017 including: three tropical cyclones, eight severe storms, two inland floods, a crop freeze, drought and wildfire. More than 25 million people – almost eight percent of the population – were affected by major disasters. From severe flooding in Puerto Rico and Texas to mudslides and wildfires in California, major natural disasters caused catastrophic damages, with an economic impact totaling more than \$300 billion.

### **For Assistance**

Producers with operations impacted by natural disasters and diseases in 2018 are encouraged to contact their [local USDA service center](#) to apply for assistance through ELAP, TAP, LIP and LFP. Producers with 2017 ELAP claims need to take no action as FSA will begin paying those claims today.

---

## **Livestock Inventory Records**

Producers are reminded to keep updated livestock inventory records. These records are necessary in the event of a natural disaster.

When disasters strike, the USDA Farm Service Agency (FSA) can assist producers who suffered excessive livestock death losses and grazing or feed losses due to eligible natural disasters.

To participate in livestock disaster assistance programs, producers will be required to provide verifiable documentation of death losses resulting from an eligible adverse weather event and must submit a notice of loss to their local FSA office within 30 calendar days of when the loss of livestock is apparent. For grazing or feed losses, producers must submit a notice of loss to their local FSA office within 30 calendar days of when the loss is apparent and should maintain documentation and receipts.

Producers should record all pertinent information regarding livestock inventory records including:

- Documentation of the number, kind, type, and weight range of livestock
- Beginning inventory supported by birth recordings or purchase receipts;

For more information on documentation requirements, contact your local FSA office.

---

## **Still Time to be Counted in the 2017 Census of Agriculture**

### **NASS to follow-up with producers who have not yet responded**

Farmers and ranchers still have time to be counted in the 2017 Census of Agriculture, according to the U.S. Department of Agriculture's (USDA) National Agricultural Statistics Service (NASS). Although the first deadline has just passed, NASS will continue to accept Census information through the spring to get a complete and accurate picture of American agriculture that represents all farmers and ranchers.

Federal law mandates that everyone who received the 2017 Census of Agriculture questionnaire complete it and return it even if not currently farming. NASS will continue to follow-up with producers

through the spring with mailings, phone calls, and personal visits. To avoid these additional contacts, farmers and ranchers are encouraged to complete their Census either online at [www.agcounts.usda.gov](http://www.agcounts.usda.gov) or by mail as soon as possible. Responding online saves time by skipping sections that do not apply and automatically calculating totals. The online questionnaire is accessible on desktops, laptops, and mobile devices.

For more information about the 2017 Census of Agriculture, visit [www.agcensus.usda.gov](http://www.agcensus.usda.gov). For questions or assistance filling out the Census, call toll-free (888) 424-7828.

---

## 2018 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local County FSA office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for Georgia:

May 15, 2018	Sweet Corn (Planted 8/26-5/15), Tobacco, Tomatoes (Planted 8/16-4/5)
July 15, 2018	All other Crops
August 15, 2018	Tomatoes (Planted 7/1-8/15)
September 15, 2018	Sweet Corn (Planted 7/15-8/25)
October 15, 2018	Cabbage (Planted 7/16-9/30)

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of "cover only," "green manure," "left standing," or "seed," then the acreage must be reported by July 15.

Noninsured Crop Disaster Assistance Program (NAP) policyholders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

---

## USDA Helps Cotton Producers Maintain, Expand Domestic Market

The U.S. Department of Agriculture (USDA) is taking action to assist cotton producers through a Cotton Ginning Cost Share (CGCS) program in order to expand and maintain the domestic marketing of cotton.

The sign-up period for the CGCS program runs from March 12, 2018, to May 11, 2018.

Under the program, which is administered by the Farm Service Agency (FSA), cotton producers may receive a cost share payment, which is based on a producer's 2016 cotton acres reported to FSA multiplied by 20 percent of the average ginning cost for each production region.

The CGCS payment rates for each region of the country are:

Region	States	Cost of Ginning Per Acre	CGCS Payment Rate
Southeast	Alabama, Florida, Georgia		
	N. Carolina, S. Carolina, Virginia	\$116.05	\$23.21
Mid-South	Arkansas, Illinois, Kentucky, Louisiana		
	Missouri, Mississippi, Tennessee	\$151.97	\$30.39
Southwest	Kansas, Oklahoma, Texas	\$98.26	\$19.65
West	Arizona, California, New Mexico	\$240.10	\$48.02

CGCS payments are capped at \$40,000 per producer. To qualify for the program, cotton producers must meet conservation compliance provisions, be actively engaged in farming and have adjusted gross incomes not exceeding \$900,000. FSA will mail letters and pre-filled applications to all eligible cotton producers.

The program was established under the statutory authority of the Commodity Credit Corporation Charter Act.

To learn more about the CGCS program, visit [www.fsa.usda.gov/cgcs](http://www.fsa.usda.gov/cgcs) or contact a local FSA county office. To find your local FSA county office, visit the USDA's new website: <https://www.farmers.gov/>.

## CRP Participants Must Maintain Approved Cover on Acreages Enrolled in CRP and Farm Programs

Conservation Reserve Program (CRP) participants are responsible for ensuring adequate, approved vegetative and practice cover is maintained to control erosion throughout the life of the contract after the practice has been established. Participants must also control undesirable vegetation, weeds (including noxious weeds), insects and rodents that may pose a threat to existing cover or adversely impact other landowners in the area.

All CRP maintenance activities, such as mowing, burning, disking and spraying, must be conducted outside the primary nesting or brood rearing season for wildlife, which for Georgia is April 1 through August 31. However, spot treatment of the acreage may be allowed during the primary nesting or brood rearing season if, left untreated, the weeds, insects or undesirable species would adversely impact the approved cover. In this instance, spot treatment is limited to the affected areas in the field and requires County Committee approval prior to beginning the spot treatment. The County

Committee will consult with NRCS to determine if such activities are needed to maintain the approved cover.

Annual mowing of CRP for generic weed control, or for cosmetic purposes, is prohibited at all times.

---

## Maintaining Good Credit History

Farm Service Agency (FSA) Farm Loan programs require that applicants have a satisfactory credit history. A credit report is requested for all FSA direct farm loan applicants. These reports are reviewed to verify outstanding debts, if bills are paid timely and to determine the impact on cash flow.

Information found on a customer's credit report is strictly confidential and is used only as an aid in conducting FSA business.

Our farm loan staff will discuss options with you if you have an unfavorable credit report and will provide a copy of your report. If you dispute the accuracy of the information on the credit report, it is up to you to contact the issuing credit report company to resolve any errors or inaccuracies.

There are multiple ways to remedy an unfavorable credit score.

- Make sure to pay bills on time. Setting up automatic payments or automated reminders can be an effective way to remember payment due dates.
- Pay down existing debt.
- Keep your credit card balances low.
- Avoid suddenly opening or closing existing credit accounts.

FSA's farm loan staff will guide you through the process, which may require you to reapply for a loan after improving or correcting your credit report.

For more information on FSA farm loan programs, visit [www.fsa.usda.gov](http://www.fsa.usda.gov).

---

## USDA Announces Streamlined Guaranteed Loans and Additional Lender Category for Small-Scale Operators

Options Help More Beginning, Small and Urban Producers Gain Access to Credit

The U.S. Department of Agriculture (USDA) announced the availability of a streamlined version of USDA guaranteed loans, which are tailored for smaller scale farms and urban producers. The program, called EZ Guarantee Loans, uses a simplified application process to help beginning, small, underserved and family farmers and ranchers apply for loans of up to \$100,000 from USDA-approved lenders to purchase farmland or finance agricultural operations.

A new category of lenders will join traditional lenders, such as banks and credit unions, in offering USDA EZ Guarantee Loans. Microlenders, which include Community Development Financial Institutions and Rural Rehabilitation Corporations, will be able to offer their customers up to \$50,000 of EZ Guaranteed Loans, helping to reach urban areas and underserved producers. Banks, credit

unions and other traditional USDA-approved lenders, can offer customers up to \$100,000 to help with agricultural operation costs.

EZ Guarantee Loans offer low interest rates and terms up to seven years for financing operating expenses and 40 years for financing the purchase of farm real estate. USDA-approved lenders can issue these loans with the Farm Service Agency (FSA) guaranteeing the loan up to 95 percent.

More information about the available types of FSA farm loans can be found at [www.fsa.usda.gov/farmloans](http://www.fsa.usda.gov/farmloans) or by contacting your local FSA office.

---

## **Nondiscrimination Statement**

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider, employer and lender.

---

USDA is an equal opportunity provider, employer and lender. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
