## Biennial Report to Congress 2013-2014 and 2015-2016

---

January 2017

U.S. Department of Education

## OVERVIEW

The Institute of Education Sciences (the Institute) is the statistics, research, and evaluation arm of the U.S. Department of Education. Authorized by the Education Sciences Reform Act of 2002 (ESRA), the Institute provides scientific evidence on which to ground education practice and policy and shares this information in formats that are useful and accessible to educators, parents, policymakers, researchers, and the public.

As required by ESRA, this report includes information on each grant, contract, and cooperative agreement in excess of \$100,000 awarded through the Institute's four national education centers. The report summarizes activities by center, type of award, fiscal year, and by the unit or program under which the activity is supported. The report also provides the award number, recipient, and amount of award. Consistent with ESRA, additional information on each grant awarded by the Institute is available in a searchable, electronic database on the IES Funding Opportunities Web page using the [Search Funded Research Grants and Contracts](#) feature. Additional information on contracts awarded by the Department can be found on the [Contracts and Acquisitions Management Web page](#), using the *Active Contracts* spreadsheet.

This is the sixth report and covers activities for fiscal years 2013 through 2016 (October 1, 2012 to September 30, 2016).
