

# INTERNATIONAL ROAD SAFETY

A route to avoiding a crash while traveling abroad.

**Motor vehicle crashes are the #1 KILLER** of healthy US citizens traveling in foreign countries.

Always wear seat belts and put children in car seats.

Remember to look both ways!

Be alert when crossing the street, especially in countries where people drive on the left.

Ride only in marked taxis that have seat belts.

Don't drink and drive.

Expect cars and trucks to share the road with pedestrians, bicycles, rickshaws, and animals.

Don't ride motorcycles. If you must ride a motorcycle, wear a helmet.

When possible, avoid riding in a car in a developing country at night.

Know local traffic laws before you get behind the wheel.

Avoid overcrowded, overweight, or top-heavy buses or vans.
