Subject: RIN 1210-AB79 comment

I am opposed to a 60 day delay in the fiduciary rule that directs financial advisors to place the best interests of their clients before profits they may make when recommending an investment for several reasons:

(a) the proposed rule was announced more than ten months ago, (b) the proposed rule will help to protect members of the public from unscrupulous financial advisors, (c) the proposed rule will not affect my ability to access retirement information or financial advice.

I encourage you to not delay the April 1, 2017 effective date of the fiduciary rule.
