Subject: Delay Fiduciary Rule

It has come to my attention the fiduciary rule that has been purposed by many to delay beyond the April 10, 2017, deadline; may actually be implemented without further study into the effects it could have on our economy, on our Baby Boomer generation. I feel my Adviser should be able to advise me on what products to invest in - this educate ruling is too defining and strict.

More studies need to be done under the new administration. Please DELAY the ruling.
IMMEDIATELY!

Thank you for your consideration. Joyce Shade 1320
