I completely support the immediate implementation of the DOL conflict of interest rule and oppose any delay. The American people deserve protections such as this. I am almost 65 and with the small 401K I have, plus SOCIAL SECURITY, I can barely make ends meet. I depend on ethical and sound advice from my financial adviser to put his client(s) first. No adviser should be able to line his pockets at his client's expense.

This DOL rule would close loopholes and serve citizens at large. Please, NO DELAY is justified.

Sincerely,

Paula Jennings
