Subject: RIN 1210-AB82 Protect retirees: Fully implement and enforce the fiduciary rule
Date: Thursday, July 20, 2017 5:52:58 PM

Department of Labor,

I urge you all to leave this alone. We need the fiduciary rule to protect the retirees.

A lot of Americans lost value of their homes which they had planned as a source for care in their old age.

I truly believe with the present Congress and President and their plans only the wealthy will have health care and funds to live a decent life.

I can not understand why Congress and the president seem hell bent on destroying the very people they are elected to serve.

thank you..
