**Subject:** RIN 1210-AB82 Protect retirees: Fully implement and enforce the fiduciary rule  
**Date:** Thursday, July 20, 2017 7:54:26 PM

---

Department of Labor,

Every American that has worked hard in their lifetime deserves some security in their retirement years. Investments should work for the people investing the money and the companies benefitting from the capitol, not the advisors. I urge you to fully implement the fiduciary rule. As a daughter of aging parents, I expect honesty and integrity with how their investments are handled.

Sincerely,

Antje Schramm
