

TABLE SNR12. **Highest incidence rates<sup>1</sup> of total nonfatal occupational illness cases, 2014**

Industry <sup>2</sup>	NAICS code <sup>3</sup>	Incidence rate
Animal (except poultry) slaughtering (Private industry) .....	311611	303.1
Automobile manufacturing (Private industry) .....	336111	198.3
Light truck and utility vehicle manufacturing (Private industry) .....	336112	170.3
Spring manufacturing (Private industry) .....	332613	142.7
Fire protection (Local government) .....	92216	133.4
Rope, cordage, twine, tire cord, and tire fabric mills (Private industry) .....	314994	130.7
Police protection (Local government) .....	92212	105.0
Poultry processing (Private industry) .....	311615	103.5
Motor vehicle metal stamping (Private industry) .....	33637	93.6
Amusement and theme parks (Private industry) .....	71311	92.5
Police protection (State government) .....	92212	90.8
Footwear manufacturing (Private industry) .....	3162	89.5
Glass container manufacturing (Private industry) .....	327213	80.2
Metal can manufacturing (Private industry) .....	332431	79.3
Meat processed from carcasses (Private industry) .....	311612	75.8
Correctional institutions (State government) .....	92214	74.4
Beet sugar manufacturing (Private industry) .....	311313	72.8
Office furniture (except wood) manufacturing (Private industry) .....	337214	72.5
Motor vehicle gasoline engine and engine parts manufacturing (Private industry) .....	33631	70.5
Frozen fruit, juice, and vegetable manufacturing (Private industry) .....	311411	68.9
Bituminous coal underground mining (Private industry) .....	212112	68.7
Seafood product preparation and packaging (Private industry) .....	3117	68.5
Breweries (Private industry) .....	31212	67.7
Interurban and rural bus transportation (Private industry) .....	4852	67.4
Other nonferrous metal foundries (except die-casting) (Private industry) .....	331529	65.1
<b>All industries including state and local government<sup>4</sup> .....</b>		<b>17.5</b>

<sup>1</sup> The incidence rates represent the number of illnesses per 10,000 full-time workers and were calculated as: (N/EH) x 20,000,000, where

N = number of illnesses  
 EH = total hours worked by all employees during the calendar year  
 20,000,000 = base for 10,000 equivalent full-time workers (working 40 hours per week, 50 weeks per year)

<sup>2</sup> High rate industries were those having the highest incidence rate of total recordable cases of illnesses and at least 500 total recordable cases at the most detailed level of publication, based on the *North American Industry Classification System* -- United States, 2012.

<sup>3</sup> *North American Industry Classification System* — United States, 2012

<sup>4</sup> Excludes farms with fewer than 11 employees.
