

TABLE SNR12. Highest incidence rates¹ of total nonfatal occupational illness cases, 2015

Industry ²	NAICS Code ³	Incidence Rate
Animal (except poultry) slaughtering (Private industry)	311611	307.3
Light truck and utility vehicle manufacturing (Private industry)	336112	208.1
Alumina refining and primary aluminum production (Private industry)	331313	179.1
Automobile manufacturing (Private industry)	336111	165.3
Police protection (Local government)	92212	131.3
Aquaculture (Private industry)	1125	117.3
Police protection (State government)	92212	109.9
Meat processed from carcasses (Private industry)	311612	107.3
Aircraft manufacturing (Private industry)	336411	107.2
Poultry processing (Private industry)	311615	106.4
Footwear manufacturing (Private industry)	3162	102.6
Fire protection (Local government)	92216	100.4
Motor home manufacturing (Private industry)	336213	96.5
Seafood product preparation and packaging (Private industry)	3117	93.8
Oilseed and grain farming (Private industry)	1111	88.9
Tortilla manufacturing (Private industry)	31183	84.9
Metal can manufacturing (Private industry)	332431	83.5
Steel foundries (except investment) (Private industry)	331513	81.1
Amusement and theme parks (Private industry)	71311	78.9
Heavy and civil engineering construction (Local government)	237	74.8
Motor vehicle gasoline engine and engine parts manufacturing (Private industry)	33631	70.3
Ambulance services (Private industry)	62191	68.4
Motor vehicle metal stamping (Private industry)	33637	67.4
Bituminous coal underground mining (Private industry)	212112	62.2
Aluminum foundries (except die-casting) (Private industry)	331524	61.3
All industries including state and local government⁴		16.9

¹ The incidence rates represent the number of illnesses per 10,000 full-time workers and were calculated as: (N/EH) x 20,000,000, where

N = number of illnesses

EH = total hours worked by all employees during the calendar year

20,000,000 = base for 10,000 equivalent full-time workers (working 40 hours per week, 50 weeks per year)

² High rate industries were those having the highest incidence rate of total recordable cases of illnesses and at least 500 total recordable cases at the most detailed level of publication based on the *North American Industry Classification System* -- United States 2012.

³ *North American Industry Classification System* -- United States, 2012

⁴ Excludes farms with fewer than 11 employees.

NOTE: Dash indicates data do not meet publication guidelines.
