

Cote de Pablo: I Was Lucky PSA (:60)

[Cote de Pablo] Hi, I'm Cote de Pablo. Cancer...we don't want to think about it. But I had to. Because, well, I was, I was busy...working, traveling, enjoying life. Completely forgot to pay attention to my health. Too much time passed since my last Pap. By the time I was tested, things didn't look too good. We thought I might have cervical cancer. Cervical, ovarian, and uterine cancers are gynecologic cancers. I was lucky; after lots of worries, no cancer.

I've always been very close to my mother. When we finally got good results, she broke down. And that's when I realized, it's not just about me. It's about your loved ones, too. So women, get a Pap test to check for cervical cancer. And get the Inside Knowledge about gynecologic cancers.

[Announcer] A message from the Inside Knowledge campaign and the U.S. Department of Health and Human Services. For more information, call 1-800-CDC-INFO.
