

HIV & Youth

Did you know not all youth (aged 13-24) with HIV are getting the care they need?

Of youth living with HIV:

56%

received an HIV diagnosis

41%

received HIV medical care

31%

retained in care

27%

virally suppressed*

www.cdc.gov/hiv

*virus at low enough levels to stay healthy and reduce transmission risk

Based on the most recent data available in April 2018

Get Tested. Get in Care. Stay in Care. Be Healthy.
