

# NEWS RELEASE

**FOR IMMEDIATE RELEASE: January 25, 2018**

## Schedule of Press Releases for CES and LAUS

The CES data are available for Oklahoma (as well as other states) and their areas each month about six weeks after the survey reference week. For instance, "preliminary" data for November 2018 and "final" data for October 2018 will be released in a comprehensive state press release on December 21, 2018. Many states will release their state and area data prior to the release dates below.

The annual release for the new benchmark data is effective with the preliminary January estimates yearly. The estimates are available in March. New seasonally adjusted data for the previous five years and factors to be applied to the current year's estimates are released also with the benchmark. For more information, see <http://www.bls.gov/sae/790sced.htm>.

Below is the current press release schedule for Oklahoma.
