23      acreage.

24           (C) If the Secretary designates additional  
25      oilseeds, any eligible oilseed acreage, which shall

7           paragraph (1) will be made.

8           (4) EXCEPTION FOR DOUBLE-CROPPED ACRE-  
9           AGE.—In applying paragraph (1), the Secretary

25           has been subdivided and developed for multiple

1 residential units or other nonfarming uses if the  
2 size of the tracts and the density of the subdivi-  
3 sion is such that the land is unlikely to return  
4 to the previous agricultural use, unless the pro-  
5 ducers on the farm demonstrate that the land—

6 (i) remains devoted to commercial ag-  
7 ricultural production; or

8 (ii) is likely to be returned to the pre-  
9 vious agricultural use.

10 (B) REQUIREMENT.—The Secretary shall  
11 establish procedures to identify land described  
12 in subparagraph (A).

13 **SEC. 1106. PAYMENT YIELDS.**

14 (a) ESTABLISHMENT AND PURPOSE.—For the pur-  
15 pose of making payments under this subtitle, the Sec-  
16 retary shall provide for the establishment of a yield for  
17 each farm for any designated oilseed for which a payment  
18 yield was not established under section 1102 of the Food,  
19 Conservation, and Energy Act of 2008 (7 U.S.C. 8712)  
20 in accordance with this section.

21 (b) PAYMENT YIELDS FOR DESIGNATED OIL-  
22 SEEDS.—

23 (1) DETERMINATION OF AVERAGE YIELD.—In  
24 the case of designated oilseeds, the Secretary shall  
25 determine the average yield per planted acre for the

1 designated oilseed on a farm for the 1998 through  
2 2001 crop years, excluding any crop year in which  
3 the acreage planted to the designated oilseed was  
4 zero.

5 (2) ADJUSTMENT FOR PAYMENT YIELD.—

6 (A) IN GENERAL.—The payment yield for  
7 a farm for a designated oilseed shall be equal  
8 to the product of the following:

9 (i) The average yield for the des-  
10 ignated oilseed determined under para-  
11 graph (1).

12 (ii) The ratio resulting from dividing  
13 the national average yield for the des-  
14 ignated oilseed for the 1981 through 1985  
15 crops by the national average yield for the  
16 designated oilseed for the 1998 through  
17 2001 crops.

18 (B) NO NATIONAL AVERAGE YIELD INFOR-  
19 MATION AVAILABLE.—To the extent that na-  
20 tional average yield information for a des-  
21 ignated oilseed is not available, the Secretary  
22 shall use such information as the Secretary de-  
23 termines to be fair and equitable to establish a  
24 national average yield under this section.

1           (3) USE OF COUNTY AVERAGE YIELD.—If the  
2 yield per planted acre for a crop of a designated oil-  
3 seed for a farm for any of the 1998 through 2001  
4 crop years was less than 75 percent of the county  
5 yield for that designated oilseed, the Secretary shall  
6 assign a yield for that crop year equal to 75 percent  
7 of the county yield for the purpose of determining  
8 the average under paragraph (1).

9           (4) NO HISTORIC YIELD DATA AVAILABLE.—In  
10 the case of establishing yields for designated oil-  
11 seeds, if historic yield data is not available, the Sec-  
12 retary shall use the ratio for dry peas calculated  
13 under paragraph (2)(A)(ii) in determining the yields  
14 for designated oilseeds, as determined to be fair and  
15 equitable by the Secretary.

16 (c) EFFECT OF LACK OF PAYMENT YIELD.—

17           (1) ESTABLISHMENT BY SECRETARY.—If no  
18 payment yield is otherwise established for a farm for  
19 which a covered commodity is planted and eligible to  
20 receive price loss coverage payments, the Secretary  
21 shall establish an appropriate payment yield for the  
22 covered commodity on the farm under paragraph  
23 (2).

24           (2) USE OF SIMILARLY SITUATED FARMS.—To  
25 establish an appropriate payment yield for a covered

1 commodity on a farm as required by paragraph (1),  
2 the Secretary shall take into consideration the farm  
3 program payment yields applicable to that covered  
4 commodity for similarly situated farms. The use of  
5 such data in an appeal, by the Secretary or by the  
6 producer, shall not be subject to any other provision  
7 of law.

8 (d) SINGLE OPPORTUNITY TO UPDATE YIELDS  
9 USED TO DETERMINE PRICE LOSS COVERAGE PAY-  
10 MENTS.—

11 (1) ELECTION TO UPDATE.—At the sole discre-  
12 tion of the owner of a farm, the owner of a farm  
13 shall have a 1-time opportunity to update the pay-  
14 ment yields on a covered commodity-by-covered-com-  
15 modity basis that would otherwise be used in calcu-  
16 lating any price loss coverage payment for covered  
17 commodities on the farm.

18 (2) TIME FOR ELECTION.—The election under  
19 paragraph (1) shall be made at a time and manner  
20 to be in effect for the 2014 crop year as determined  
21 by the Secretary.

22 (3) METHOD OF UPDATING YIELDS.—If the  
23 owner of a farm elects to update yields under this  
24 subsection, the payment yield for a covered com-  
25 modity on the farm, for the purpose of calculating

1 price loss coverage payments only, shall be equal to  
2 90 percent of the average of the yield per planted  
3 acre for the crop of the covered commodity on the  
4 farm for the 2008 through 2012 crop years, as de-  
5 termined by the Secretary, excluding any crop year  
6 in which the acreage planted to the crop of the cov-  
7 ered commodity was zero.

8 (4) USE OF COUNTY AVERAGE YIELD.—If the  
9 yield per planted acre for a crop of the covered com-  
10 modity for a farm for any of the 2008 through 2012  
11 crop years was less than 75 percent of the average  
12 of the 2008 through 2012 county yield for that com-  
13 modity, the Secretary shall assign a yield for that  
14 crop year equal to 75 percent of the average of the  
15 2008 through 2012 county yield for the purposes of  
16 determining the average yield under paragraph (3).

17 (5) EFFECT OF LACK OF PAYMENT YIELD.—

18 (A) ESTABLISHMENT BY SECRETARY.—

19 For purposes of this subsection, if no payment  
20 yield is otherwise established for a covered com-  
21 modity on a farm, the Secretary shall establish  
22 an appropriate updated payment yield for the  
23 covered commodity on the farm under subpara-  
24 graph (B).

1           (B) USE OF SIMILARLY SITUATED  
2 FARMS.—To establish an appropriate payment

19 (2) EFFECTIVE PRICE.—The effective price for  
20 a covered commodity for a crop year shall be the  
21 higher of—

22 (A) the midseason price; or

23 (B) the national average loan rate for a

8           paragraph (2) for the covered commodity.

9           (4) PAYMENT AMOUNT.—If price loss coverage  
10          payments are required to be provided under this  
11          subsection for the 2014 crop year or any succeeding

14          producers on a farm for the crop year shall be equal  
15          to the product obtained by multiplying—

13      (c) REVENUE LOSS COVERAGE.—

14              (1) AVAILABLE AS AN ALTERNATIVE.—As an  
15      alternative to receiving price loss coverage payments  
16      under subsection (b) for a covered commodity, all of  
17      the owners of the farm may make a one-time, irrev-  
18      ocable election on a covered commodity-by-covered-  
19      commodity basis to receive revenue loss coverage  
20      payments for each covered commodity in accordance  
21      with this subsection. If any of the owners of the  
22      farm make different elections on the same covered

24      farm shall be deemed to have not made the election  
25      available under this paragraph.

1           (2) PAYMENTS.—In the case of owners of a  
2 farm that make the election described in paragraph  
3 (1) for a covered commodity, the Secretary shall  
4 make revenue loss coverage payments available  
5 under this subsection for the 2014 crop year and  
6 each succeeding crop year if the Secretary deter-  
7 mines that—

8                   (A) the actual county revenue for the crop  
9 year for the covered commodity; is less than

10                   (B) the county revenue loss coverage trig-  
11 ger for the crop year for the covered com-

13           (3) TIME FOR PAYMENTS.—If the Secretary de-  
14 termines under this subsection that revenue loss cov-

16 covered commodity, payments shall be made begin-  
17 ning October 1, or as soon as practicable thereafter,  
18 after the end of the applicable marketing year for  
19 the covered commodity.

20           (4) ACTUAL COUNTY REVENUE.—The amount  
21 of the actual county revenue for a crop year of a  
22 covered commodity shall be equal to the product ob-

1 (A) the actual county yield, as determined  
 2 by the Secretary, for each planted acre for the  
 3 crop year for the covered commodity; and

4 (B) the higher of—

 25 lowest yields; and

1 (II) subject to clause (iii), the av-  
2 erage national marketing year average  
3 price for the most recent 5 crop years,  
4 excluding each of the crop years with  
5 the highest and lowest prices.

6 (ii) YIELD CONDITIONS.—If the his-  
7 torical county yield in clause (i)(I) for any  
8 of the 5 most recent crop years, as deter-

12 for any of those years in clause (i)(I) shall  
13 be 70 percent of the transitional yield.

14 (iii) REFERENCE PRICE.—If the na-

16 clause (i)(II) for any of the 5 most recent  
17 crop years is lower than the reference price

9 erage payments under this subsection are required  
10 to be provided for the 2014 crop year or any suc-

12 amount of the revenue loss coverage payment to be  
13 provided to the producers on a farm for the crop  
14 year shall be equal to the product obtained by multi-

19 modity on the farm.

20 (8) DUTIES OF THE SECRETARY.—In providing  
21 revenue loss coverage payments under this sub-  
22 section, the Secretary—

23 (A) shall ensure that producers on a farm

19 by the Secretary, if—

20 (i) the Secretary cannot establish the

23 modity in the county in accordance with  
24 paragraph (5); or

1                   (ii) the yield determined under para-  
2                   graph (5) is an unrepresentative average  
3                   yield for the county (as determined by the  
4                   Secretary); and

5                   (E) to the maximum extent practicable,  
6                   shall ensure that in order to be eligible for a  
7                   payment under this subsection, the producers  
8                   on the farm suffered an actual loss on the cov-  
9                   ered commodity for the crop year for which

14          subparagraph (B) by extrapolating the actual  
15          milk marketings for the months that the dairy

17          amount.

18          “(2) REQUIRED INFORMATION.—A partici-

12 thereafter, the seller shall have no interest  
13 in the production history of the sold dairy  
14 operation.

15       “(B) TRANSFER BY LEASE.—

16           “(i) REQUEST FOR TRANSFER.—If an  
17 existing dairy producer leases an entire  
18 dairy operation to another party, the lessor  
19 and lessee may jointly request that the  
20 Secretary transfer to the lessee for the du-  
21 ration of the term of the lease the interest  
22 of the lessor in the production history of  
23 the dairy operation.

24           “(ii) TRANSFER.—If the Secretary de-  
25 termines that the lessor has leased the en-

24          “(3) ADDITIONAL CRITERIA.—The Secretary  
25          may develop and use such additional criteria that

2 that national, State, and local priority resource con-  
3 cerns are effectively addressed.

4 “(c) ENTERING INTO CONTRACTS.—After a deter-  
5 mination that a producer is eligible for the program under  
6 subsection (a), and a determination that the contract offer  
7 ranks sufficiently high under the evaluation criteria under  
8 subsection (b), the Secretary shall enter into a conserva-

8           to defeat the purposes of the program;

9           “(C) permit all economic uses of the eligi-  
10          ble land that—

11           “(i) maintain the agricultural nature

24          contract at any time the producer has control  
25          of the land—

1           “(i) if the Secretary determines that  
2           the violation warrants termination of the  
3           contract—

4                   “(I) the producer shall forfeit all  
5                   rights to receive payments under the  
6                   contract; and

7                   “(II) the producer shall refund  
8                   all or a portion of the payments re-  
9                   ceived by the producer under the con-  
10                  tract, including any interest on the  
11                  payments, as determined by the Sec-  
12                  retary; or

13                  “(ii) if the Secretary determines that  
14                  the violation does not warrant termination  
15                  of the contract, the producer shall refund  
16                  or accept adjustments to the payments  
17                  provided to the producer, as the Secretary

1           “(A) IN GENERAL.—At the time of appli-  
2 cation, a producer shall have control of the eli-  
3 gible land to be enrolled in the program. Except  
4 as provided in subparagraph (B), a change in  
5 the interest of a producer in eligible land cov-  
6 ered by a contract under the program shall re-  
7 sult in the termination of the contract with re-  
8 gard to that land.

9           “(B) TRANSFER OF DUTIES AND  
10 RIGHTS.—Subparagraph (A) shall not apply  
11 if—

25 and

1           “(II) will maximize the wildlife

18 “(C) BIDDING DOWN.—If the Secretary  
19 determines that 2 or more applications for cost-  
20 share assistance are comparable in achieving  
21 the purpose of the program, the Secretary shall  
22 not assign a higher priority to any of those ap-  
23 plications solely on the basis of lesser cost to  
24 the program.

25 “(4) AGREEMENTS WITH ELIGIBLE ENTITIES.—

1           “(A) IN GENERAL.—The Secretary shall  
2 enter into agreements with eligible entities to

4 terest is purchased to an agricultural land  
5 easement plan that—

6 “(I) describes the activities which  
7 promote the long-term viability of the  
8 land to meet the purposes for which  
9 the easement was acquired;

10 “(II) requires the management of  
11 grasslands according to a grasslands  
12 management plan; and

23           “(C) REVIEW AND REVISION.—

24                   “(i) REVIEW.—The Secretary shall  
25 conduct a review of eligible entities cer-

1           tified under subparagraph (A) every three

3           meeting the criteria established under sub-  
4           paragraph (B).

5           “(ii) REVOCATION.—If the Secretary  
6           finds that the certified eligible entity no

8           subparagraph (B), the Secretary may—

9                   “(I) allow the certified eligible  
10                  entity a specified period of time, at a

23 subtitle).

24           “(2) LIMITATIONS.—

1           “(A) INELIGIBLE LAND.—The Secretary  
2 may not acquire easements on—

3           “(i) land established to trees under

5 cases where the Secretary determines it  
6 would further the purposes of the program;  
7 and

9 wetlands where the conversion was not  
10 commenced prior to December 23, 1985.

11           “(B) CHANGES IN OWNERSHIP.—No wet-

16 by will or succession as a result of the  
17 death of the previous owner;

18           “(ii)(I) the ownership change occurred  
19 because of foreclosure on the land; and

20           “(II) immediately before the fore-

4           “(3) EVALUATION AND RANKING OF OFFERS.—

5           “(A) CRITERIA.—The Secretary shall es-

8           the program.

9           “(B) CONSIDERATIONS.—When evaluating  
10          offers from landowners, the Secretary may con-  
11          sider—

12                 “(i) the conservation benefits of ob-  
13                 taining a wetland easement, including the  
14                 potential environmental benefits if the land  
15                 was removed from agricultural production;

16                 “(ii) the cost-effectiveness of each  
17                 wetland easement, so as to maximize the  
18                 environmental benefits per dollar expended;

11 drainage systems; and

12                           “(II) owners to control public ac-  
13 cess on the easement areas while iden-  
14 tifying access routes to be used for  
15 restoration activities and management

17                   “(ii) prohibit—

18                           “(I) the alteration of wildlife  
19 habitat and other natural features of  
20 such land, unless specifically author-  
21 ized by the Secretary;

22                           “(II) the spraying of such land  
23 with chemicals or the mowing of such  
24 land, except where such spraying or

4 eral or State noxious weed con-  
5 trol laws;

6 “(bb) to comply with a Fed-

9 “(cc) to meet habitat needs  
10 of specific wildlife species;

11 “(III) any activities to be carried  
12 out on the owner’s or successor’s land  
13 that is immediately adjacent to, and  
14 functionally related to, the land that  
15 is subject to the easement if such ac-  
16 tivities will alter, degrade, or other-  
17 wise diminish the functional value of  
18 the eligible land; and

19 “(IV) the adoption of any other  
20 practice that would tend to defeat the  
21 purposes of the program, as deter-  
22 mined by the Secretary;

23 “(iii) provide for the efficient and ef-  
24 fective establishment of wildlife functions  
25 and values; and

1           “(iv) include such additional provi-

4           tate the practical administration thereof.

5           “(B) VIOLATION.—On the violation of the  
6           terms or conditions of a wetland easement, the  
7           wetland easement shall remain in force and the  
8           Secretary may require the owner to refund all  
9           or part of any payments received by the owner  
10          under the program, together with interest  
11          thereon as determined appropriate by the Sec-  
12          retary.

13          “(C) COMPATIBLE USES.—Land subject to  
14          a wetland easement may be used for compatible  
15          economic uses, including such activities as  
16          hunting and fishing, managed timber harvest,  
17          or periodic haying or grazing, if such use is spe-  
18          cifically permitted by the wetland easement plan  
19          developed for the land under subsection (f) and  
20          is consistent with the long-term protection and  
21          enhancement of the wetland resources for which  
22          the easement was established.

23          “(D) RESERVATION OF GRAZING  
24          RIGHTS.—The Secretary may include in the  
25          terms and conditions of a wetland easement a

1 provision under which the owner reserves graz-  
2 ing rights if—

3 “(i) the Secretary determines that the  
4 reservation and use of the grazing rights—

5 “(I) is compatible with the land  
6 subject to the easement;

7 “(II) is consistent with the his-  
8 torical natural uses of the land and  
9 the long-term protection and enhance-  
10 ment goals for which the easement  
11 was established; and

12 “(III) complies with the wetland  
13 easement plan developed for the land  
14 under subsection (f); and

15 “(ii) the agreement provides for a  
16 commensurate reduction in the easement  
17 payment to account for the grazing value,  
18 as determined by the Secretary.

19 “(6) COMPENSATION.—

20 “(A) DETERMINATION.—

21 “(i) PERMANENT EASEMENTS.—The  
22 Secretary shall pay as compensation for a  
23 permanent wetland easement acquired  
24 under the program an amount necessary to

2 based on the lowest of—

3 “(I) the fair market value of the  
4 land, as determined by the Secretary,  
5 using the Uniform Standards of Pro-  
6 fessional Appraisal Practice or an  
7 area-wide market analysis or survey;

8 “(II) the amount corresponding  
9 to a geographical cap, as determined

14 pensation for a 30-year wetland easement

18 land easement.

20 for a wetland easement shall be provided by the  
21 Secretary in the form of a cash payment, in an

3 than 10 annual payments.

4 “(ii) EASEMENTS VALUED AT MORE  
5 THAN \$500,000.—For wetland easements  
6 valued at more than \$500,000, the Sec-  
7 retary may provide easement payments in  
8 at least 5, but not more than 10 annual  
9 payments, except that, if the Secretary de-  
10 termines it would further the purposes of  
11 the program, the Secretary may make a  
12 lump-sum payment for such an easement.

13 “(c) EASEMENT RESTORATION.—

14 “(1) IN GENERAL.—The Secretary shall provide

7 It is the sense of the Congress that—

8 (1) institutions of higher education designated  
9 under the Act of August 30, 1890 (commonly

11 ond Morrill Act”; 7 U.S.C. 321 et seq.) have played

15 of colleges and universities have fulfilled similar and  
16 parallel missions in successfully training and grad-  
17 uating generations of students who have gone on to  
18 be leaders in their field;

19 (3) the colleges and universities, both with and  
20 without designation under the Second Morrill Act,  
21 fulfill a vital role to the future of industry, opportu-  
22 nities for increased job creation, and the strength of  
23 agriculture in the United States;

24 (4) Congress must ensure that the United  
25 States’ higher education framework and policies

1 meet the needs of young individuals in the United  
2 States, and that students from across the country  
3 are able to choose from a variety of institutions and  
4 programs that will equip them with the skills and  
5 training necessary to achieve their individual goals;  
6 and

7 (5) as Congress and the agricultural community  
8 generally consider policies and approaches to im-  
9 prove research, extension, and education in the agri-  
10 cultural sciences, expansion of the land grant pro-  
11 gram under the Second Morrill Act to include en-  
12 hanced funding and additional institutions should be  
13 considered.

15 or field office of the Farm Service Agency in a State if

16                    ational as of January 1, 2012, during the pe-  
17                    riod that begins on a date that is not later than  
18                    180 days after the date of the enactment of the  
19                    Federal Agriculture Reform and Risk Manage-

9 retary holds” and inserting “hold”; and

10 (3) in subparagraph (B), by striking “the Sec-  
11 retary notifies” and inserting “notify”.

16          tural entities.

17          (b) INFORMATION GATHERING.—For a publication

10          tion item; and

11          (4) convene a review panel for analysis of the  
12          publication item that includes the Secretary, any  
13          full-time Federal employee of the Department of Ag-  
14          riculture appointed to the panel by the Secretary,

12 (d) COMMENTS.—

13 (1) IN GENERAL.—Not later than 60 days after  
14 the date the Secretary convenes a review panel pur-  
15 suant to subsection (b)(4), the Secretary shall sub-  
16 mit to the Administrator comments on the planned  
17 or proposed guidance, policy, memorandum, regula-  
18 tion, or statement of general applicability and future  
19 effect for consideration and inclusion in any related  
20 administrative record, including—

21 (A) a report by the Secretary on the con-  
22 cerns of agricultural entities;

23 (B) the findings of the review panel;

24 (C) the findings of the Secretary, including  
25 any adopted findings of the review panel; and

1 (D) recommendations of the Secretary.

5 net website of the Department of Agriculture.

6 (e) WAIVERS.—The Secretary may waive initiation of  
7 the review panel under subsection (b)(4) as the Secretary  
8 determines appropriate.

9 (f) DEFINITION OF AGRICULTURAL ENTITY.—In this  
10 section, the term “agricultural entity” means any entity  
11 involved in or related to agricultural enterprise, including  
12 enterprises that are engaged in the business of production  
13 of food and fiber, ranching and raising of livestock, aqua-  
14 culture, and all other farming and agricultural related in-  
15 dustries.

16 **SEC. 11311. PROHIBITION ON ATTENDING AN ANIMAL**  
17 **FIGHTING VENTURE OR CAUSING A MINOR**  
18 **TO ATTEND AN ANIMAL FIGHTING VENTURE.**

19 Section 26(a)(1) of the Animal Welfare Act (7 U.S.C.  
20 2156(a)(1)) is amended by striking the period and insert-  
21 ing “or to knowingly attend or knowingly cause a minor  
22 to attend an animal fighting venture.”.

1 **SEC. 11312. PROHIBITION AGAINST INTERFERENCE BY**  
2 **STATE AND LOCAL GOVERNMENTS WITH**  
3 **PRODUCTION OR MANUFACTURE OF ITEMS**  
4 **IN OTHER STATES.**

5 (a) IN GENERAL.—Consistent with Article I, section  
6 8, clause 3 of the Constitution of the United States, the  
7 government of a State or locality therein shall not impose  
8 a standard or condition on the production or manufacture  
9 of any agricultural product sold or offered for sale in inter-  
10 state commerce if—

11 (1) such production or manufacture occurs in  
12 another State; and

13 (2) the standard or condition is in addition to  
14 the standards and conditions applicable to such pro-  
15 duction or manufacture pursuant to—

16 (A) Federal law; and

17 (B) the laws of the State and locality in  
18 which such production or manufacture occurs.

19 (b) AGRICULTURAL PRODUCT DEFINED.—In this  
20 section, the term “agricultural product” has the meaning  
21 given such term in section 207 of the Agricultural Mar-  
22 keting Act of 1946 (7 U.S.C. 1626).

23 **SEC. 11313. INCREASED PROTECTION FOR AGRICULTURAL**  
24 **INTERESTS IN THE MISSOURI RIVER BASIN.**

25 (a) FINDINGS.—Congress finds the following:

1           (1) Record runoff occurred in the Missouri  
2 River basin during 2011 as a result of historic rain-  
3 fall over portions of the upper basin coupled with  
4 heavy plains and mountain snowpack.

5           (2) Runoff above Sioux City, Iowa, during the  
6 5-month period of March through July totaled an es-  
7 timated 48.4 million acre-feet (referred to in this  
8 section as “MAF”). This runoff volume was more  
9 than 20 percent greater than the design storm for  
10 the Missouri River Mainstem Reservoir System (re-  
11 ferred to in this section as the “System”), which was  
12 based on the 1881 runoff of 40.0 MAF during the  
13 same 5-month period.

14           (3) During the 2011 runoff season, nearly 61  
15 million acre-feet of water entered the Missouri River  
16 system, far surpassing the previous record of 49  
17 MAF in runoff that was set during the flood of  
18 1997.

19           (4) Given the incredible amount of water enter-  
20 ing the System, the summer months were spent  
21 working to evacuate as much water from the System  
22 as possible, ultimately leading to record high water  
23 releases from Gavins Point Dam of 160,000 cubic  
24 feet per second, a rate that more than doubled the

1 previous release record of 70,000 cubic feet per sec-  
2 ond set in 1997.

3 (5) For nearly four months, those extremely  
4 high releases from Gavins Point were maintained,  
5 resulting in severe and sustained flooding, with  
6 much of western Iowa and eastern Nebraska as well  
7 as portions of South Dakota, Kansas, and Missouri  
8 inundated by a flooding river three to five feet deep,  
9 up to 11 miles wide, and flowing at a rate of 4 to  
10 11 miles per hour.

11 (6) Thousands of homes and businesses were  
12 damaged or destroyed and hundreds of millions of  
13 dollars in damage was done to roads and other pub-  
14 lic infrastructure.

15 (7) In addition to the homes, businesses, and  
16 infrastructure impacted by the flooding, hundreds of  
17 thousands of acres of cropland were affected.

18 (8) The Department of Agriculture has esti-  
19 mated that 400,000 to 500,000 acres of some of the  
20 most productive crop land in the world was flooded  
21 in 2011.

22 (9) Local Farm Services Agency representatives  
23 have estimated that \$82,100,000 was lost in 2011  
24 alone due to damaged or lost crops and unplanted  
25 acres.

1           (10) Not only did the flooding eliminate the  
2           2011 crop, but it is highly unlikely that many farm-  
3           ers will be able to put that land back into production  
4           at any point in the near future.

5           (11) Producers will have to contend with large  
6           piles of sand, silt, and other debris that have been  
7           deposited in their fields, meaning the impact of the  
8           2011 flood will be felt in the agricultural commu-  
9           nities up and down the Missouri River for many  
10          years to come.

11          (12) Currently, the amount of storage capacity  
12          in the System that is set aside for flood control is  
13          based upon the vacated space required to control the  
14          1881 flood, because prior to the 2011 flood, the  
15          1881 flood was seen as the “high water mark”.

16          (13) Given the historic flooding that took place  
17          in 2011, it is clear that year’s flooding now rep-  
18          resents a new “high water mark”, surpassing the  
19          flooding of even the 1881 flood.

20          (14) It is important that the flood control re-  
21          lated functions of the System management be ad-  
22          justed to reflect the reality of the 2011 flood as the  
23          new “worst case scenario” for flooding along the  
24          Missouri River.

1           (15) System management may begin to be ad-  
2           justed to account for the 2011 flood through a recal-  
3           culation of the amount of storage space within the  
4           System that is allocated to flood control, using the  
5           model not of the 1881 flood, but of the greatest  
6           flood experienced—the flood of 2011.

7           (16) As a result of the flooding in 2011, many  
8           States received disaster declarations from the De-  
9           partment of Agriculture to help farmers and pro-  
10          ducers recover from the damage done by the high  
11          water.

12          (17) Though helpful, even the assistance pro-  
13          vided by the Department of Agriculture will not pro-  
14          vide many in the agriculture community with the re-  
15          sources to put their land back into production any  
16          time soon.

17          (18) Without the protection that will come from  
18          a fundamental change in the System's flood control  
19          storage allocations, farmers, producers, and other  
20          agricultural interests who may be in a position to re-  
21          start their operations will find it difficult to justify  
22          doing so, given the fact that they will not be pro-  
23          tected from similar flooding in the future.

24          (b) UPDATED MANAGEMENT OF THE MISSOURI  
25 RIVER TO PROTECT AGRICULTURAL INTERESTS.—In

1 order to strengthen the agricultural economy, revitalize  
2 the rural communities, and conserve the natural resources  
3 of the Missouri River basin, the Congress directs that the  
4 Secretary of Agriculture take action to promote immediate  
5 increased flood protection to farmers, producers, and other  
6 agricultural interests in the Missouri River basin by work-  
7 ing within its jurisdiction to support efforts—

8           (1) to recalculate the amount of space within  
9           the System that is allocated to flood control storage  
10          using the 2011 flood as the model; and

11          (2) to increase the Missouri River’s channel ca-  
12          pacity between the reservoirs and below Gavins  
13          Point.

14 **SEC. 11314. INCREASED PROTECTION FOR AGRICULTURAL**  
15 **INTERESTS IN THE BLACK DIRT REGION.**

16          In order to strengthen the agricultural economy, revi-  
17 talize the rural communities, and conserve the natural re-  
18 sources of the Black Dirt region, the Congress directs that  
19 the Secretary of Agriculture take action to promote imme-  
20 diate increased flood protection to farmers, producers, and  
21 other agricultural interests around the Wallkill River and  
22 in the Black Dirt region.

1 **SEC. 11315. PROTECTION OF HONEY BEES AND OTHER POL-**  
2 **LINATORS.**

3 (a) IN GENERAL.—The Secretary, in consultation  
4 with the Secretary of the Interior and the Administrator  
5 of the Environmental Protection Agency, shall carry out  
6 such activities as the Secretary determines to be appro-  
7 priate to protect and ensure the long-term viability of pop-  
8 ulations of honey bees, wild bees, and other beneficial in-  
9 sects of agricultural crops, horticultural plants, wild  
10 plants, and other plants, including—

11 (1) providing technical expertise relating to pro-  
12 posed agency actions that may threaten pollinator  
13 health or jeopardize the long-term viability of popu-  
14 lations of pollinators;

15 (2) providing formal guidance on national poli-  
16 cies relating to—

17 (A) permitting managed honey bees to for-  
18 age on National Forest Service lands where  
19 compatible with other natural resource manage-  
20 ment priorities; and

21 (B) planting and maintaining managed  
22 honey bee and native pollinator forage on Na-  
23 tional Forest Service lands where compatible  
24 with other natural resource management prior-  
25 ities;

1           (3) making use of the best available peer-re-  
2           viewed science regarding environmental and chemical  
3           stressors on pollinator health; and

4           (4) regularly monitoring and reporting on the  
5           health and population status of managed and native  
6           pollinators including bees, birds, bats, and other spe-  
7           cies.

8           (b) TASK FORCE ON BEE HEALTH AND COMMERCIAL  
9           BEEKEEPING.—

10           (1) ESTABLISHMENT.—The Secretary shall es-  
11           tablish a task force—

12                   (A) to coordinate Federal efforts carried  
13                   out on or after the date of enactment of this  
14                   Act to address the serious worldwide decline in  
15                   bee health, especially honey bees and declining  
16                   native bees; and

17                   (B) to assess Federal efforts to mitigate  
18                   pollinator losses and threats to the United  
19                   States commercial beekeeping industry.

20           (2) AGENCY CONSULTATION.—The task force  
21           established under this subsection shall seek ongoing  
22           consultation from any Federal agency carrying out  
23           activities important to bee health and commercial  
24           beekeeping, including officials from—

25                   (A) the Department of Agriculture;

- 1 (B) the Department of the Interior;  
2 (C) the Environmental Protection Agency;  
3 (D) the Food and Drug Administration;

7 force established under this subsection shall consult  
8 with beekeeper, conservation, scientist, and agricul-  
9 tural stakeholders.

11 after the date of enactment of this Act, the task force es-  
12 tablished under subsection (b) shall submit to Congress  
13 a report that—

14 (1) summarizes Federal activities carried out  
15 pursuant to subsection (f) of section of the Food,  
16 Agriculture, Conservation, and Trade Act of 1990 (7  
17 U.S.C. 5925) (as redesignated by section 7209) or  
18 any other provision of law (including regulations) to  
19 address bee decline;

20 (2) summarizes international efforts to address  
21 the decline of managed honey bees and native polli-  
22 nators; and

23 (3) provides recommendations to Congress re-  
24 garding how to better coordinate Federal agency ef-

1       forts to address the decline of managed honey bees  
2       and native pollinators.

3       (d) POLLINATOR RESEARCH LAB FEASIBILITY  
4 STUDY.—

5           (1) IN GENERAL.—The Secretary, acting  
6       through the Administrator of the Agricultural Re-  
7       search Service, may conduct feasibility studies re-  
8       garding—

9           (A) re-locating existing honey bee and na-  
10       tive pollinator research from Federal labora-  
11       tories to a cooperator-run facility in a location  
12       most geographically appropriate for pollinator  
13       research; and

14          (B) modernizing existing honey bee re-  
15       search laboratories identified by the Agricul-

24       needs under paragraph (1)(A); and

1 (B) commercial beekeepers regarding the  
2 modernizing of existing honey bee laboratories  
3 under paragraph (1)(B).

24 erations;

1           (1) Executive Order 13547, issued on July 19,  
2           2010, established the national policy for the Stew-

4           Lakes and requires—

5                   (A) Federal implementation of “ecosystem-  
6                   based management” to achieve a “fundamental  
7                   shift” in how the United States manages ocean,  
8                   coastal, and Great Lakes resources; and

9                   (B) the establishment of nine new govern-  
10                  mental “Regional Planning Bodies” and  
11                  “Coastal and Marine Spatial Plans” in every  
12                  region of the United States.

14           ber National Ocean Council led by the White House  
15           Council on Environmental Quality and Office of  
16           Science and Technology Policy that includes 54 prin-

25           agency Ocean Policy Task Force that were adopted

1 by Executive Order 13547 state that “effective” im-  
2 plementation of the National Ocean Policy will “re-  
3 quire clear and easily understood requirements and  
4 regulations, where appropriate, that include enforce-  
5 ment as a critical component”.

6 (5) Despite repeated Congressional requests,  
7 the National Ocean Council, which is charged with  
8 overseeing implementation of the policy, has still not  
9 provided a complete accounting of Federal activities  
10 under the policy and resources expended and allo-
