Free File: Seventy percent of taxpayers have an Adjusted Gross Income (AGI) of \$66,000 or less and are eligible for easy-to-use, brand-name software. Find the right software product for you at irs.gov/freefile.

Free File Fillable Forms has no age, income or residency restrictions; however: **this program is not for you if you are not comfortable with completing a paper return, using only the forms and instructions as a guide to file a correct return.**

Before Getting Started

This program operates from the beginning of each filing season through mid-October (usually October 15) each year. The filing season will extend beyond October 15 if October 15 is on a Saturday or Sunday. If your tax return is rejected at the end of the filing season, you have 5 days to correct any errors and resubmit your return. If you cannot correct the errors in your return, print and mail it in.

All accounts and tax return information is erased after the 5-day correction period; usually October 20. After the correction period has expired you will lose access to your account; therefore, it is important that you print a copy of your tax return before the program ends for the year.

1. **Review** the [Forms and Limitations](#) page. Although this program supports most forms, if you need an unsupported form, you will not be able to E-File your return. The page also provides form and program limitations that may prevent you from e-filing your return.
2. **Check** the [Computer Requirements](#). Using non-recommended browsers and operating systems can result in form display problems, form calculation problems and problems with the information you have entered.
3. **Familiarize** yourself with the self-help webpages, which answer the most common questions taxpayers have. Easy navigation to the help you want begins with the [Help](#) link on our main page.

What You Will Need: Have the following on hand before you start.

- Social Security Numbers for all persons on your tax return
- Birth dates for all persons on your return
- The Adjusted Gross Income (AGI) from last year's federal tax return. See [Section 3: Verify Your Identity](#), if you do not know last year's AGI.
- A valid email address

Create Your Account

1. Select "Start Fillable Forms Now" from the Free File landing page.
2. Once at the Free File Fillable Forms landing page, select "Start Free File Fillable Forms."
3. Even if you used this program in previous years, if you have not created an account for the current tax year, you need to "Create an Account" for this year.
4. Complete all the required information and select "Create Account"

ACCOUNT RECOVERY: If you make a mistake typing in your email address or phone number, you may not be able to recover your account. Make sure you correctly type in your email address and phone number.

To recover a Password or User ID, you must be able to receive email at the email address you entered and/or receive information (call or text) from the phone number you entered.

5. A User ID (UID) requires a minimum of four visible keyboard entries, containing no spaces or commas. The green check only indicates that the UID provided is not already stored in the database. If an invalid User ID is entered and “Create Account” is clicked, an “Invalid Character” message appears at the top of the page.
6. Extreme care must be taken when entering your email address and phone number. If you make errors entering this information you may not be able to recover your account.
7. Account Creation will not accept foreign phone numbers. See the section below on [International, Foreign and Military filers](#).
8. A confirmation email is sent from customerservice@freefilefillableforms.com to the email address used to create the account. If you do not receive this email, [view this information](#).

Tip

If you forget your login information, you can access your account through the “Forgot User Id/Password?” option at the bottom of the Sign In box.

When creating your account, always enter a valid email address. After you create an account, customer service@freefilefillableforms.com will send a confirmation email to the email address you entered. If you do not receive the email, check your spam folder. Free File Fillable Forms will email or send you a text message to your mobile phone with a confirmation code to verify your identify and account information. You will need to enter this code to complete the account confirmation process.

Select Your Main Form

Make your main form selection- Form 1040, Form 1040A or Form 1040EZ. A brief description of each main form, and who should use them, is available at the time of selection. **If you select the wrong main form, switching to another main form will erase all your tax information.**

To file an extension (Form 4868), select a main form, then select the [“File an Extension”](#) button.

Selecting Areas to Enter Information

Moving within the Forms — Use your mouse or pointing device to select icons, buttons, checkboxes, menu items and to select a space to enter information. Use the scroll bar to view more of the form you have selected.

Entering your Information — Placing your mouse or pointing device over an entry area may display text about what to enter.

1. Avoid entering extraneous information into the forms. Only enter what is necessary. If you are unsure of what to enter, consult the IRS instructions for the form.
2. Never add forms that do not apply to your tax situation.

!

NEVER

use your browser's back button to move backward in the program

Tip

NEGATIVE NUMBERS

generally, you should place a minus sign (-) in front of them

!

NEVER

enter unnecessary zeros on any line. Doing so may cause a rejection

Types of Information Areas on the Forms

Manual Entry Fields — Select an area to enter information. A blue box will surround the area and a blinking vertical line appears, indicating the area will accept information.

Drop-Down Menu (or pick-list) — A down symbol ▾ indicates these areas. The items to select are limited to acceptable information that describes an additional entry you are making for that line. If you don't understand the menu choices, the area probably doesn't apply to you. The description selected from the menu usually has an associated amount to enter. Do not enter amounts in these areas if you have not made a selection from the menu. If a menu item you expect to see is not listed, consult the form instructions, review the [Forms and Limitations](#) page and review the [Line-by-Line instructions](#) for the program.

Calculated Fields — These areas calculate when you enter the required information in other parts of the return and select "Do the Math." If you think the line isn't calculating properly, view the [Line-by-Line instructions](#) for that form.

- Sometimes you can manually enter a number into a calculated field if you have not yet completed the form that transfers information to the calculated field. However, once that form is completed, its information will transfer to the calculated field.

Tip

When you try to enter a number into a calculated area, your cursor's pointer will turn into the "DO NOT" symbol.  And, this message, "This field is automatically calculated for you" will also appear below your cursor.

- You cannot override a calculated field unless you change the data used to make the calculation.
- Calculated field information may come from a completed field on another form you have added.
- Calculated fields sometimes require you to enter something into the "[additional information](#)" areas before they will calculate.

The screenshot shows a portion of a tax form with the following lines and annotations:

- Line 7:** Wages, salaries, tips. Includes a dropdown menu for "DPC" and a text input field. An arrow points to the dropdown with the label "Drop Down Menu".
- Line 8a:** Taxable interest. Includes an "Add" button. An arrow points to the "Add" button with the label "Manual Entry Fields".
- Line 9a:** Ordinary dividends. Includes a dropdown menu for "PSO" and a text input field. An arrow points to the dropdown with the label "Drop Down Menu".
- Line 10:** Taxable refunds, credit for state and local income taxes. Includes a text input field. An arrow points to the field with the label "Manual Entry Fields".
- Line 11:** Alimony received. Includes an "Add" button. An arrow points to the "Add" button with the label "Manual Entry Fields".
- Line 12:** Business income or (loss). Includes "Add" buttons for "Taxpayer C-EZ" and "Spouse C-EZ". An arrow points to the "Add" buttons with the label "Manual Entry Fields".
- Line 13:** Capital gain or (loss). Includes a dropdown menu for "DCB" and a text input field. An arrow points to the dropdown with the label "Drop Down Menu".
- Line 14:** Other gains or (losses). Includes a dropdown menu for "SNE" and a text input field. An arrow points to the dropdown with the label "Drop Down Menu".
- Line 15a:** IRA distributions. Includes a text input field for "15a" and a text input field for "b Taxable amount".
- Line 16a:** Pensions and annuities. Includes a text input field for "16a" and a text input field for "b Taxable amount".
- Line 17:** Rental real estate, royalties, partnerships, S corporations, trusts, etc. Includes an "Add" button.
- Line 18:** Farm income or (loss). Includes an "Add" button.
- Line 19:** Unemployment compensation. Includes a text input field.
- Line 20a:** Social security benefits. Includes a dropdown menu for "20a" and a text input field for "b Taxable amount".
- Line 21:** Other income. List type and amount. Includes a dropdown menu for "21" with "JURY DUTY" selected, a text input field for "200", and a text input field for "21". An arrow points to the "200" value with the label "Calculated field".
- Line 22:** Combine the amounts in the far right column for lines 7 through 21. This is your total income. Includes a text input field for "22". An arrow points to the "200" value on line 21 with the label "Additional Information Fields".

Radio Buttons — These are small round circles. You “Fill in” the circle to provide information. You may only select one radio button from the associated group.

The image shows a portion of a tax form. On the left, a red box labeled 'Radio Buttons' has an arrow pointing to the 'Filing Status' section, which contains five radio button options: 'Single' (selected), 'Married filing jointly', 'Married filing separately', 'Head of household', and 'Qualifying widow(er)'. Below this, a red box labeled 'Checkboxes' has an arrow pointing to the 'Dependents' section, which includes a checked box for 'Yourself' and an unchecked box for 'Spouse'. The 'Dependents' table has columns for 'First name', 'Last name', 'social security number', and 'relationship to you'. A 'Boxes checked on 6a and 6b' section shows '1' checked.

To fill in the circle:

- Use your mouse- Place your cursor on the circle and “left click” or Tap the touchpad on your laptop
- Selecting another radio button from the group will also de-select your previous selection
- To de-select a radio button without making another selection from the group, place your cursor on the radio button and “double click.”

Tip

If you select direct deposit for your refund, make sure to select the radio button for the type of account, either checking or savings.

Checkboxes — These are like radio buttons, except you may select multiple checkboxes within the group.

Additional Information Areas — There are times when you are instructed to enter additional information on the form. You may enter this additional information into the small gray areas on any given line.

The form instructions will state what you should enter and the order the information is entered. In most cases, you will enter a description of the item and a corresponding amount, in that order. In the amount areas, you may only enter numbers. Always consult the form instructions before entering information in these areas.

The image shows a tax form with several lines of income. Red and black boxes highlight specific areas: 'PSO' and '1,500' on line 7; '8b 300' on line 8b; '20,000' and 'ROLLOVER' on line 15a; 'REPAID' and '1,000' on line 19; and 'JURY DUTY' and '200' on line 21. A text box on the right explains that line 8b is an example of where additional information appears for an amount and no corresponding description is necessary. Another text box at the bottom right states that red and black boxes show examples of Additional Information Areas where descriptions and corresponding amounts are entered.

Placing your cursor in the area may provide information on what you should enter. Never enter any information in these areas unless instructed to. Extraneous zeros or entering such things as “N/A” will cause your return to reject. **Reviewing the [Line-by-Line instructions](#) may also assist with these areas.**

Description Area — Some description areas have a drop-down menu to assist entering acceptable information. Most taxpayers do not need to enter information in these areas. If you do not recognize the menu items, leave the area blank and review the form instructions to determine if the menu items apply to your tax situation.

Amount Area — Never enter an amount in these areas if you leave the corresponding description area blank. Some amount areas do not have a corresponding description area.

See the Example Below: Line 21 has two additional information areas: (1) A description area and (2) an amount area.

This example also shows a calculated field with the “Do Not” symbol and the notice that line 21 is a calculated field. This symbol and message appears when you try to enter information in the area.

For line 21 to calculate, you must enter the “Other Income” amount in the appropriate area and select “Do the Math.” In the designated area, you must also enter a corresponding description for the other income, otherwise, the return will reject.

21	Other income. List type and amount	Description	Amount	21	⊘
22	Combine the amounts in the far right column for lines 7 through 21. This is your total income			22	

This field is automatically calculated for you

Attaching Statements — This program does not support attaching any supplemental statements. If you are instructed to attach a statement to clarify an entry, you will not be able to E-File your return using this program.

Tabs, Links, Buttons and Icons

This is how you open forms, get help, change your account information, save your information and submit (E-File) your return.

- STEP 1** — The active default page when you begin a tax return. The blue color indicates the tab is active. STEP 1 is where you select and complete all forms and schedules, except income documents (W-2, W2-G and 1099-R).
- STEP 2** — There are five (5) sections in STEP 2. Select this tab to add income documents (W-2, W2-G and 1099-R) and to begin the process of filing your return electronically (E-File). Review [STEP 2](#) in its entirety.
- File an Extension** — Opens Form 4868 and the E-File documentation for [filing the extension](#). **Note-** The program does not support this Form 2350, *Extension for U. S. citizens and resident aliens living abroad*.

4. **Help** — Opens a new browser and takes you to an IRS page that will assist with how forms are supposed to function. The [Line-by-Line instructions](#) page provides information on the most commonly used forms. The [Forms and Limitations](#) page provides information on supported forms, when a form is available and problems you may encounter when using the form.
5. **IRS Publications** — Opens a new browser and takes you to an IRS page where you can view and download forms, instructions and publications. You cannot attach and E-File forms and schedules downloaded from the IRS page.
6. **Interactive Tax Law Assistant** — Takes you to a tax law resource page, which walks you through a series of questions and provides you with responses to tax law questions.
7. **Update Your Account** — Takes you to a page where you can update the information you entered to establish your current account.
8. **Sign Out** — Saves all the information you have entered thus far and logs you out of your account.
9. **Save** — Saves all the information you have entered thus far. Note, if any of your saved information disappears, you probably have a browser compatibility issue. See the [Computer Requirements](#) page.
10. **Print Return** — Opens a new browser window and displays your tax return as a pdf file for printing. You may also use this function to save a copy of the return to your computer. Documents that do not print indicate that the missing forms/schedules were not completed. Missing documents will not transmit to the IRS with the return. Some documents (W2, W2-G and 1099-R) are not supposed to print with the return.
11. **Add/View Forms** — Allows you to add, view and delete forms and schedules. Selecting a form makes it the active form. Added forms are stored in “My Tax Forms.” Forms seen in “My Tax Forms” only indicates you have selected the form/schedule to add to your return. Forms seen here is not an indication of their completeness. Only completed forms / schedules will transmit with your return. (See “Print Return,” above.).
12. **Start Over** — Allows you to select another main form. Selecting another main form permanently deletes the information you have entered on your current main form.
13. **Check E-File Status** — Opens a page where you can enter information about yourself and determine the status of your E-Filed return.
14. **FAQs** — Opens a new browser and takes you to Frequently Asked Questions about the program.
15. **Instructions for This Form** — Opens a pdf file in a new browser window, which contains the IRS form instructions for the form you are currently viewing.
16. **Do the Math** — Calculates all fields on the form, currently viewed, which have the required elements entered to make the calculation. It also saves your work. We recommend you save your work often.
17. **Delete This Form** — Deletes the form currently viewed. You can add the same form later; however, you will have to re-enter all the information again.
18. **Print This Form** — Opens a new browser window and displays the form, currently viewed, as a pdf file. You can print and/or save the form to your computer from this window.
19. **Done With This Form** — Closes the form currently viewed and returns you to your main form. It also “Saves” your work. The button is not functional when viewing the main form. Select the STEP 2 tab if you have completed your return and want to begin the E-File process.

Add and Delete Forms

You cannot add every form and schedule from the Add/View Forms Icon or the Add Button on the forms. Here are exceptions to the “Add Forms” methods described below.

- Exception 1- Income documents (W2, W2-G and 1099-R) are added from STEP 2.

- Exception 2- You **must** add some forms and schedules only from a “parent” form. For example: You may only add Form 4562 from its “Parent” Schedule C, E and F

Check the [Forms and Limitations](#) page to see all supported forms and the dates they become available.

Add Forms — Two methods:

1. **Add/View Forms Icon** – Select the “Add/View Forms” icon to open the “My Tax Forms” list.
 - a. Select “Add a Form” from the bottom of the “My Tax Forms” box.
 - b. Scroll the list of forms then select the form you want
 - c. Some forms have “Taxpayer” and “Spouse” versions. Select the correct version.
 - d. You cannot add some forms/schedules with this method. See the above exceptions.

Income documents, W-2, W-2G and 1099-R are added from STEP 2, Section 1. Once added, you can view and edit those forms using Method 1 and selecting that form from your "My Tax Forms" list.

To add the same form more than once, use either add method available to select the form. A box will open which shows the previously added form. Select "Add Another Copy" from the bottom of the box.

2. **Add Button** – Select the “Add” button for the form, if there is one for it on the line.
 - a. “Add” buttons are usually placed conveniently on the line that will accept the information from the added form.
 - b. Not all supported forms and schedules have an “add” button on the form you are viewing.

Deleting Forms — Two methods:

Delete this Form Button – If the form you want to delete is displayed, delete it by selecting the “Delete this Form” button, at the bottom of the page.

Add/View Form Icon – Select the “Add/View Forms” icon from the top of the page, which opens “My Tax Forms”

- a. Select “Delete a Form” to bring up the list of forms
- b. Scroll the list and click on the form you want to delete
- c. Select “Yes” from the pop-up box, asking if you are sure you want to delete the form.

STEP 2 – Preparing to E-File Now

STEP 2 has five sections. Three sections (2, 3 and 4) prepare your return for submission to the IRS and everyone must complete these sections. The remaining two sections are optional and depend on whether you have income documents (W2, W2-G or 1099-R) or have a balance you want to pay using Direct Debit.

Section 1: Add Income Documents — Enter the information from your income documents (W-2, W2-G and 1099-R). Use the “Add” button for each type of income document. If you have more than one W-2, W2-G or 1099-R, select the “Add” button again, for each of the paper documents you received from the employers/payers.

Section 1: Add your W-2, 1099-R and/or W-2G information

W-2s, 1099-Rs and W2Gs are the only tax forms you need to add to your return.

Complete one electronic W-2 for every W-2 you received. If you received more than one W-2, choose the **Add** button to enter each one separately.

Complete one electronic 1099-R for every 1099-R you received. If you received more than one 1099-R, choose the **Add** button to enter each one separately.

Complete one electronic W-2G for every W-2G you received. If you received more than one W-2G, choose the **Add** button to enter each one separately.

Click the Add button for each Form W-2 you received

Click the Add button for each Form 1099-R you received

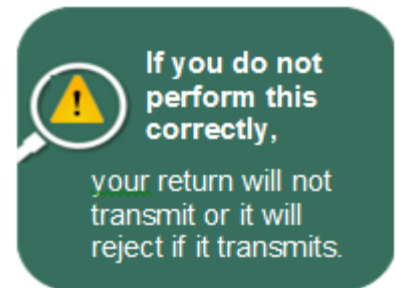

Click the Add button for each Form W-2G you received

- If you haven't any W-2, W2-G or 1099-R forms to add, skip Section 1.
- Enter the information and amounts exactly as it appears on your paper documents.
- NOTE: There are no "Add" buttons for any other 1099 forms, such as SSA-1099, 1099-RRB, 1099-MISC, etc. It is not necessary to "add" these other 1099 documents.

Section 2: Reconcile Your Federal Withholding — You must reconcile the amount of federal withholding you claim on your main form with the federal withholding shown on **all** your income documents.

Remember, this is about **FEDERAL WITHHOLDING** only!

- A. Look at your paper W-2, box 2; W2-G, box 4 and 1099-R, box 4, total the federal withholding and enter that amount in STEP 2, Section 2, Box A
- B. Look at all your other income documents that show federal withholding, total the federal withholding from those documents and enter that figure in Box B.
- C. If you completed Form 8959 and there was a federal withholding amount on line 24, that number will transfer to Box C.
- D. Box D calculates when you select "Do the Math"
- E. Box E reflects the amount of federal withholding you entered on your main form

Boxes D and E must match to proceed. If they do not match, you have made a mistake in the amount of federal withholding you entered on your main form or the amounts you entered in Boxes A and B are wrong. Perform the reconciliation again.

Section 2: Add your withholding information

Make sure the amounts on Lines D and E match, and make sure to fill in all applicable lines.

A Total the federal withholding amounts on all W-2s (Box 2), 1099-R's (Box 4) and W-2Gs (Box 4) and enter the total on Line A.

B Enter on Line B the total amount of other withholding that you are reporting on Form 1040, line 64 that is not reported on a form in Section 1 above. These amounts come from documents such as SSA-1099, 1099-DIV, 1099-MISC, 1099-B, other 1099s or Schedule K-1s.

C Enter federal withholding from line 24 of Form 8959, Additional Medicare Tax.

D Total federal withholding (Lines A through C).

E Total federal withholding from Form 1040, Line 64.

Enter the appropriate FEDERAL WITHHOLDING in boxes A and B

A

B

C

D

E

The amounts in boxes D and E must match

Note: If you are filing Form 1040A or Form 1040EZ, you cannot file Form 8959; therefore, Boxes C and D must match

Section 3: Verify Your Identity — The IRS needs to authenticate that you are the taxpayers whose Social Security Numbers appear as the Primary and Secondary (if married filing jointly) on this return.

Enter last year's AGI in the space provided. If you are filing jointly and you filed jointly with the same spouse last year, the AGI for the Taxpayer and Spouse will be the same. If last year's return was not filed jointly with your current spouse, the AGI must be taken from the separate returns.

If you did not file a return last year, enter "0" for your AGI.

If you do not know what last year's AGI is, [get help retrieving it](#). Alternatively, if you can remember the 5-digit signature PIN you used last year to sign your return, you can enter it in the space provided. If you cannot provide last year's AGI or Signature PIN, you must mail in your return to the IRS. See the IRS form instructions for a mailing address

Tip Do Not Guess at What Last Year's AGI Was

If you do not have last year's tax return, go to IRS.gov and search "Get Transcript"

Section 3: Verify your identity

You must enter **A** last year's Adjusted Gross Income (AGI), or **B** last year's five-digit self-selected signature PIN. If you're filing a joint return, both taxpayers must follow this process.

A Look at last year's federal tax return and enter your AGI in the space provided below. Look for your AGI on line 37 of the Form 1040, line 21 of the Form 1040A and line 4 of the Form 1040EZ.

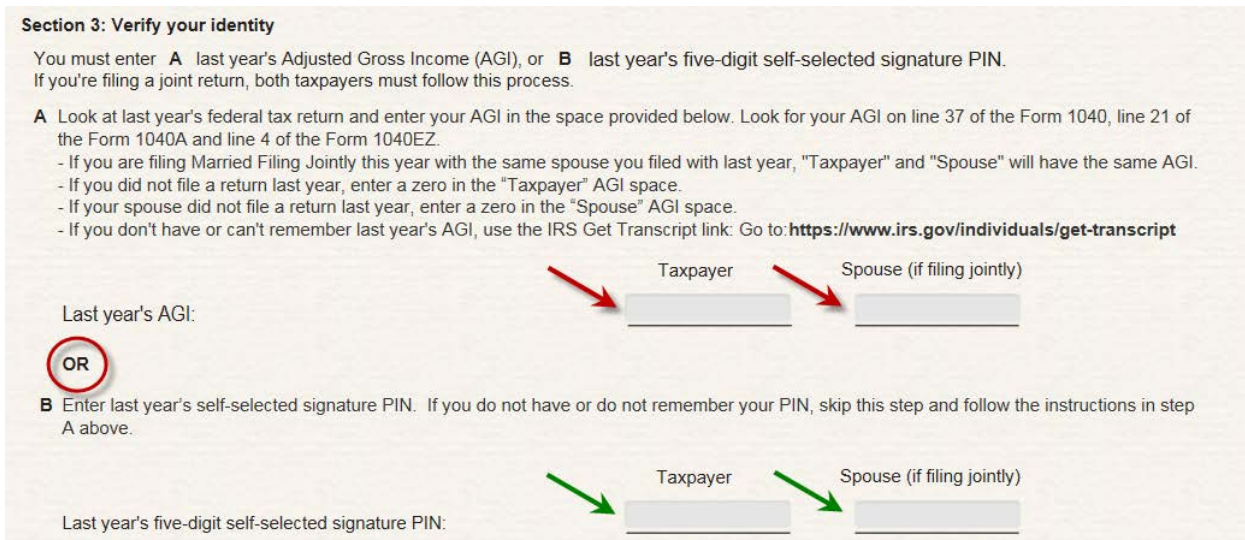

- If you are filing Married Filing Jointly this year with the same spouse you filed with last year, "Taxpayer" and "Spouse" will have the same AGI.
- If you did not file a return last year, enter a zero in the "Taxpayer" AGI space.
- If your spouse did not file a return last year, enter a zero in the "Spouse" AGI space.
- If you don't have or can't remember last year's AGI, use the IRS Get Transcript link: Go to: <https://www.irs.gov/individuals/get-transcript>

Last year's AGI:

OR

B Enter last year's self-selected signature PIN. If you do not have or do not remember your PIN, skip this step and follow the instructions in step A above.

Last year's five-digit self-selected signature PIN:

Section 4: Signing the Return — You need to provide the following information and, if filing jointly, the Spouse needs to provide information also.

- Enter your email address, twice
- Enter the date you are transmitting your return (Today's Date)
- Enter an optional cell phone number
- Make up a five-digit Signature PIN and enter it into the designated area. It can be any five numbers except 00000 or 12345.
- Enter your Date of Birth. The date format is MM/DD/YYYY. If you are the Primary taxpayer on the return, are under age 16 and have never filed a federal return before, you must mail in your return or use a professional tax preparer who is an Authorized IRS E-File provider.

Section 4: Add your electronic signature

To sign your return electronically, add your email, today's date and cell phone number here. If you're filing jointly with your spouse, you'll each add your own PIN and date of birth.

A Email address (for confirmation email)
Re-enter email address (must match)

B Today's date (mm/dd/yyyy)

C Cell phone number

D You can choose any 5 numbers for your PIN. (Don't use 00000 or 12345)

E Date of birth (mm/dd/yyyy)

F Driver's license or State issued ID number

G Driver's license or State issued ID state

H Driver's license or State issued ID issue date

I Driver's license or State issued ID expiration date

The Primary Taxpayer must complete all of the areas indicated

Taxpayer

Spouse (if filing jointly)

If married and filing jointly, the SPOUSE must also complete the areas indicated

For increased FRAUD PROTECTION, complete the state Drivers License / ID sections, if you have those documents

To increase your protection against fraud, complete the areas for driver's license or state issued ID, if you have those documents.

If you are receiving a refund or if you are not paying your balance, in full, with Direct Debit, scroll past Section 5 "Payment to the IRS" to reach the "Continue to E-File" button.

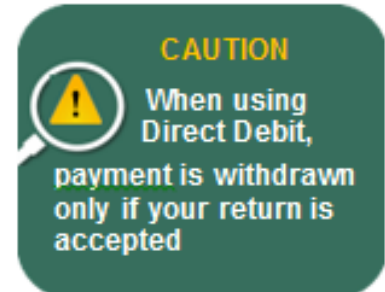

Remember to print and check your return for errors before transmit your return to the IRS. Once the return is transmitted and accepted by the IRS, you cannot E-File the return again. See [Amended Returns](#).

Section 5: Paying a Balance Owed — If you have a refund coming to you, do not enter any information in this section.

If you owe a balance on your return, you can pay by

- A. Direct Debit (Pay by Electronic Funds Withdrawal)
- B. Check
- C. Direct Pay

You can also explore other payment options from the IRS Payment webpage <https://www.irs.gov/payments>

Direct Debit (Electronic Funds Withdrawal) – This method is the most convenient payment method and linked to your accepted return. To make a full payment with direct debit:

1. Enter your Routing Number
2. Enter your Account Number

3. Select either the Checking or Savings Radio Button
4. Enter the withdrawal date (format MM/DD/YYYY)
5. Enter a ten-digit daytime phone number. **NOTE:** If you have a **foreign phone number**, See the section below on [International, Foreign and Military filers](#)
6. Check the "I Agree" checkbox
7. Print and check your return before you select the E-File Now button

If you have a **REFUND**, do not enter any information into Section 5.

REFUND TAXPAYERS who enter any information into Section 5 will not be able to transmit their return.

Section 5: How to pay your taxes due

If you're getting a refund, you can skip this section.

Here are three options for payment. You may have the money electronically withdrawn from your bank account, pay by check or use IRS Direct Pay.

A Pay by electronic withdrawal

The IRS can accept your payment by direct debit from your bank account. This does not apply to estimated payments.

Enter the required information below and agree to the disclosure statement.

Routing number **1** _____

Account number **2** _____

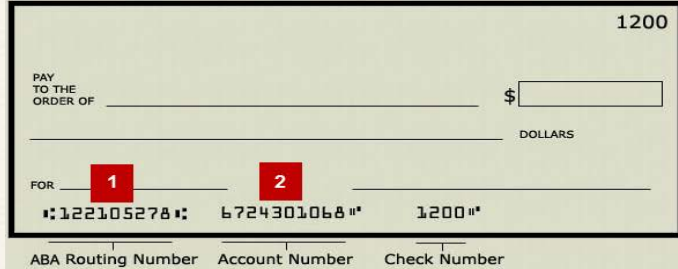

Type: Checking

Savings **3**

Date to make withdrawal **4**

Note: If you're getting a refund, leave information above blank.

Daytime phone number **5** _____

Electronic withdrawal disclosure statement

I authorize the U.S. Treasury and its designated Financial Agent to initiate an ACH Electronic Funds Withdrawal (Direct Debit) entry to the financial institution account indicated for payment of my federal taxes owed on this return and the financial institution to debit the entry to this account.

I further understand that this authorization may apply to subsequent federal tax payments that I direct to be debited through the Electronic Federal Payment System (EFTPS).

In order for me to initiate subsequent payments, I request that the IRS send me a personal identification number (PIN) to access EFTPS.

This authorization is to remain in full force and effect until I notify the U.S. Treasury Financial Agent to terminate the authorization.

To revoke a payment, I must contact the U.S. Treasury Financial Agent at 1-888-353-4537 no later than 2 business days prior to the payment (settlement) date.

I also authorize the financial institutions involved in the processing of the electronic payment of taxes to receive confidential information necessary to answer inquiries and resolve issues related to the payment.

I agree to pay by electronic withdrawal **6**

B Pay by check

Click if you e-file your tax return and mail a check or money order to the IRS for payment.

If you choose to pay by check, make sure to print your Form 1040V and mail it in with your tax return and your payment.

C Pay with IRS Direct Pay

You may also pay electronically from your bank account with IRS Direct Pay by following this link:

<https://www.irs.gov/Payments/Direct-Pay>

Continue to E-File

Check – Print Form 1040V (Payment Voucher) and make sure the payment is postmarked by the due date of the return. Payment addresses are in the 1040 instruction book.

Direct Pay – Make a full or partial payment on the balance of your return and/or make estimated tax payments. <https://www.irs.gov/payments/direct-pay>

Review Your Return

Prior to selecting the “E-File Now” button, print and review your return for completeness and accuracy. Once you transmit the return and the IRS accepts it, the only way to correct mistakes is to mail in an amended return, [Form 1040X](#).

Print the Return –

- Select the “Print Return” icon at the top.
- Check your printed return against the list of forms in “My Tax Forms”
 - Missing forms are not complete
 - Some forms are not supposed to print, such as Form 1040ES, W-2, W2-G and 1099-R

Reviewing Incomplete Forms –

- Select the Add/View icon and select the form missing from your printed return
- Review the form and it’s instructions for obvious omissions that pertain to your tax situation
- Review the [Line-by-Line instructions](#) for the form for help on how the lines on a form are supposed to function and idiosyncrasies of the form
- Make your correction(s)
- Select “Do the Math” and proceed with STEP 2

Continue to E-File Button

The button is at the bottom of STEP 2, Section 5. Select the “Continue to E-File button after you have completed all of your forms in STEP 1 and all of the required elements of STEP 2.

After selecting the button, you will receive a message that the E-Filing Information is Incomplete or a message to complete the CAPTCHA and continue to E-File.

If you receive the incomplete message, you must resolve the problem before you are able to transmit the return. See [Transmission Problems](#).

If no transmission problems are detected, complete the CAPTCHA and submit.

Once you submit, the “Ready to E-File” screen appears. Check the “I Agree” checkbox and select the “Transmit my Return” button.

After transmission, you will receive a final screen stating your return has been transmitted and to look for an email notification about Acceptance or Rejection of your return.

Note: After successful transmission of your return, you will also receive an email confirming the successful transmission of your return. **DO NOT** confuse this email with the email stating whether your return has been accepted or rejected.

Ready to E-File

When you select 'Transmit my Return', your tax return will be transmitted to the IRS.

Disclosure statement

Under penalties of perjury, I declare that I have examined this return (or request for refund) including any accompanying statements and schedules and, to the best of my knowledge and belief, it is true, correct, and complete.

I consent to allow my Intermediate Service Provider, transmitter, or Electronic Return Originator (ERO) to send my return (or request for refund) to the IRS and to receive the following information from the IRS: a) an acknowledgement of receipt or reason for rejection of transmission; b) an indication of any refund offset; c) the reason for any delay in processing the return or refund; and d) the date of any refund.

I am signing this tax return by entering my self-selected signature PIN and associated electronic signature data in STEP 2.

I agree

Back to Forms
Transmit my Return

Print Your Return for Your Records

After your return has transmitted and you have received notification that the IRS has accepted your return, print a copy of your accepted return for your records, if you have not already done so.

IMPORTANT – The Free File Fillable Forms program shuts down every year, on or shortly after October 20. See [“Before Getting Started.”](#) After that date, the developer erases all information from the server and you will not have access to your account or return information.

In addition to saving a paper copy, you may also want to save a “soft copy” of your return on your hard drive or portable storage device. To save a soft copy, use the “Print Return” icon. When the new browser opens with your tax return in pdf format, use your browser’s “File > Save as” function to save your soft copy.

Filing an Extension (Form 4868)

Form 4868 – After creating an account, select a main form and then select the “File an Extension” button. Enter your name, address and Social Security Number, and then complete the rest of the form. Transmit the extension by completing the E-File section below the form information. **If you are making a payment with the extension, make sure you enter your payment amount on line 7.**

Form 2350 – Not Supported

Help with Free File Fillable Forms

Free File Fillable Forms relies on taxpayers using web-based self-assist resources to discover solutions encountered with the program. [Help](#) follows two paths, (1) Rejected Returns and (2) Functional Issues. Although not a part of Free File Fillable Forms support, this section will also address questions about accepted returns.

Rejected Returns –

The Internal Revenue Service will either accept or reject the return after you transmit (submit) it. You will receive an email from customer_service@freefilefillableforms.com when the IRS rejects your return. This email will list the reason(s) for rejection (error) and provide a link to use to resolve the rejection issue.

A reason for rejection (error) has two parts:

1. The Business Rule Number and explanation
2. The Xpath

It is important to follow the instructions on the Rejection Help page.

- Copy and paste both parts of the rejection into the search box
- If you have multiple errors, search one error at a time

Functional Issues (All Issues except Rejections) –

If we discover a software issue that prevents you from completing or submitting (transmitting) your return, we will place the issue in the table on the [Functional Issues](#) page. The table will describe the problem and provide a “Tentative Fix” date.

1. The [Line-by-Line Instructions](#) page provides information on how the most commonly used forms work. Many times, taxpayers believe they have encountered a software “bug” or “glitch” because they are not familiar with program idiosyncrasies. This page is your best resource for determining how something is supposed to work or why it is not working the way you believe it should.
2. Free File Fillable Forms supports most, but not all forms and schedules. Some of the supported forms and schedules have limits, which may prevent you from completing or transmitting your return. The [Forms and Limitations](#) page will let you know:
 - a. What forms and schedules are available
 - b. When the forms and schedules will become available
 - c. Limitations that may prevent you from successfully completing the return
3. Our [Account Issues](#) page provides basic information on the most common problems taxpayers have with creating or accessing their Free File Fillable Forms account. Many times, the issue is caused when attempting to create or access an account using an unsupported browser or operating system. Using non-recommended operating systems and/or browsers will expose you to the risk of technical problems you may not be able to resolve later. Always comply with the recommendations on our [Computer Requirements](#) page.
 - a. Error 500 Code - This is a website server error. The error is generally temporary (15 minutes or less). Once the host notices and corrects the error, you can access your account and continue working on your return. If you continue to receive the error, repeat the event that caused the error to occur and [reply](#) with the following:
 - The error message, including the ID number
 - The date and time the error occurred (please note your time zone)
 - The user ID and email address you are using for the account
 - Your computer operating system
 - The browser and browser version you are using
 - b. Error 503 Code - When you experience Free File Fillable Forms account access issues and/or have difficulty creating your account and experience a “Code 503” error message, please read the following list of items to check, review, and/or correct in order to proceed:
 - Close all other programs and browsers other than the browser you are using to access your account.
 - Clear your browser’s history before your next attempt to access or create your account.
 - Create/use a *one-word* User ID of at least 4 characters (i.e., my.emailaddress@ustaxes.com). Do not use diacritics, accent marks, language-specific punctuation and quotation marks. A valid email address is acceptable.

- Create/use a one-word, 8-character password with at least one number and one special character (i.e., #, \$, *, !). Do not use of diacritics, accent marks, language-specific punctuation and quotation marks.
 - Double check the accuracy of the security question selected & the accuracy/spelling of the answer you provide.
 - Ensure that ALL required CREATE ACCOUNT fields have been filled-in before pressing the CONTINUE button.
 - When prompted, be sure to print the account login information, record your User ID, password and security question answer exactly as entered for your records.
- c. Changing Account Information - Click the 'Update Account' link on the upper right navigation bar.
- d. Deleting Your Data - If you have not successfully E-Filed your return, you can delete your data by selecting the Start Over option and then sign out of the return. This will erase any tax return information you entered.
- e. Not receiving expected email - If you did not receive a confirmation email when you created an account, it is possible your spam filter is blocking the email. Check your spam folder and look for an email from customer_service@freefilefillableforms.com
- f. Not receiving an acknowledgement email - The email should arrive within 2 hours after you successfully transmit your return. It takes longer the closer you get to April 15. If you do not receive this email within 24 hours, do the following:
- Make sure you are checking the same email account you entered in Step 2, (the E-File Your Tax Forms screen) when you submitted your tax return
 - Check your spam filter or junk mail folder for email from customer_service@freefilefillableforms.com
 - If you still have not received an email you can check your return status by selecting the "Check E-File Status" button, located at the top of the screen, when you are in your Free File Fillable Forms tax return. Enter your Social Security Number and zip code on the E-Filed return. If the program shows no status, you have not successfully transmitted your return. Wait at least 24 hours after transmitting your return before using "Check E-File Status", otherwise, you may receive conflicting information.
4. Transmission problems occur after you select the "Continue to E-File" button and prevent submission of your return to the IRS. They are difficult to diagnose because the software is not currently able to pinpoint where the error has occurred and the error can occur anywhere in the STEP 2 process or in the name and address section of your return. Transmission errors may also occur because you are using an incompatible browser or it could be as simple as you're your internet connection stopped working. Review the [Transmission Problem](#) page for a list of things to check.
5. Printing, Display and Miscellaneous Forms issues
- a) When you experience Display Issues, you need to review and comply with the recommended [Computer Requirements](#). A Print Issue could be a computer requirement issue, an incomplete form or simply a form that is not supposed to print. (See [Review Your Return](#)) The [Print and Display Issues](#) page lists some of these issues and their likely causes.
- b) Entered Information Disappears- If you are using a recommended browser and are using the browser's auto-fill or add-on, such as Incognito or In Private, turn them off and then perform these steps:
- Access the form and line causing the problem

- Highlight the entry field causing the problem, hit your “Delete” key, then, with your cursor still in the area, hold down the “Backspace” key for five seconds.
 - Save and exit the program
 - Close all browser sessions except one and clear you cache and cookies
 - Access your account and complete the form
 - Delete the form if this does not resolve the problem
- c) Negative numbers (or losses) - We apologize for the lack of consistency regarding the paper instructions and entering negative numbers in Free File Fillable Forms. Generally, you must precede a negative number with the minus sign (-). There are some instances where you may calculate a negative number, but the lowest acceptable figure for the line is a zero. Always review the form instructions regarding the entry of a zero or negative number
- d) Worksheets are not part of the functional program. Print, fill them in and enter your results on the form asking for the worksheet calculation
- e) Identity Protection PIN (IP PIN) Free File Fillable Forms supports the IP PIN for the Taxpayer and Spouse on the return. If the IRS sent you letter with an Identity Protection PIN (IP PIN), enter that six digit PIN in the area to the right of the “Spouse’s Occupation” (the lower right corner of your 1040, 1040A or 1040EZ form).
- Make sure you enter the IP PIN into the correct area for the “Taxpayer” or “Spouse”, otherwise, your return will reject.
 - An IP PIN for a Dependent is *not supported*. If your dependent has an IP PIN, you will have to mail in your return.
- g) Information Transfers, from form to form, have a hierarchy relationship. (Example: Form 1040 is the “parent” form to Schedule D and Schedule D is the “parent” to Form 8949) Figures from your “parent” form may not transfer to subordinate forms unless you complete the parent form to the point where you should add the subordinate form. The completed information on the parent form would include all the personal information on your Form 1040, 1040A or 1040EZ (Name, Address, SSN, Filing Status, Exemptions and Dependents)
- h) Writing in information – The instructions for some lines may tell you to write certain information somewhere on a line. Use the small grey areas, on the line, for this. See [Additional Information Areas](#).
- i) Calculations
- Calculated Fields – Some lines calculate for you. If you can manually enter a number on a line, do not expect it to calculate for you. To get a number to calculate on the line, you must first complete the lines, which should be included in the calculation and then select “Do the Math.” If a line is calculated, you cannot override the calculation
 - Incorrect Calculation - Calculations derive from information entered on other lines, so make sure that information is correct. Once you have verified the miscalculation is not a function of your entries, contact us about the issue.
6. International / Military / Foreign Filers – Review our [International Filer’s page](#) for assistance with particular forms and entering addresses. When creating an account, you cannot use a phone number that has more than 10 digits. When you must enter a phone number that is not your foreign number, make sure to uncheck the “Verify with text message” checkbox, which will disable the use of that phone number to unlock/recover your account.

Accepted Returns –

Once the IRS has accepted your return, you cannot interrupt acceptance processing. Processing usually takes 21 days or less. Any issue that arises after you receive an email that the IRS has accepted your return is an issue between you and the Internal Revenue Service.

- Incorrect Bank Routing Number or Account Number – You should contact your bank if you entered the correct routing number and the account number is incorrect to determine if the incorrect account number belongs to someone else. If the IRS determines it cannot direct deposit the refund, you will receive a paper check. Call 1800-829-1040 for more assistance.
- Balance Owed Returns – Review your bank transactions to ensure payment was processed. It is the policy of the Internal Revenue Service to process payments as soon as possible. If your payment was not made, check with your financial institution and call IRS customer service at 1800-829-1040.
- Refund Returns –
 - Check [Where's My Refund?](#)
 - If you entered the wrong banking information, check with your financial institution and call IRS customer service at 1800-829-1040
- Amended Returns (Form 1040X) – If you have discovered a mistake on your return, review [Filing an Amended Return](#). Amended returns are filed on paper and mailed in.

Other Issues and Assistance

We suggest you start your search for assistance on the [Tax Information for Individuals](#) page.

Do you think you are a victim of [ID Theft](#)?

Tax Law Help - If you need help understanding what information you should enter on a line, refer to the IRS instructions for the relevant form or schedule. There is a link for these instructions at the bottom of each Free File Fillable Forms screen. [Publication 17](#) is also a useful resource for information. The help available for this program, Free File Fillable Forms, does not include interpreting the tax code or other tax assistance. For more assistance with answering Tax Law Questions, consider these resources:

- Use the [Interactive Tax Assistant](#)
- Visit an IRS local [Taxpayer Assistance Center](#)
- Use [Tax Topics](#) to investigate specific tax issues
- Call Tele-Tax toll-free, available 24 hours a day, 7 days a week at 800-829-4477 to hear prerecorded information about various tax topics in English or Spanish. Tele-Tax topics begin at page 93 of the Form 1040 Instructions.
- Access the IRS website and enter your KEYWORD to search for your tax topic
- If you still need tax law help, contact the IRS, toll-free at 800-829-1040
- If you have a hearing impairment, contact the IRS, toll-free at 800-829-4059 (TDD)
- If you live outside the United States, visit the [International Taxpayers](#) page on IRS.gov
