

HRSA PROGRAMS

HRSA programs provide health care to people who are geographically isolated, economically, or medically vulnerable. This includes people living with HIV/AIDS, pregnant women, mothers, and their families, and those otherwise unable to access high quality health care. HRSA also supports access to health care in rural areas, the training of health professionals, the distribution of providers to areas where they are needed most, and improvements in health care delivery.

In addition, HRSA oversees organ, bone marrow, and cord blood donation. It compensates individuals harmed by vaccination, and maintains databases that flag providers with a record of health care malpractice, waste, fraud, and abuse for federal, state, and local use.

Nearly 90% of HRSA's budget is awarded through grants and cooperative agreements to approximately 3,000 awardees, including community-based organizations, colleges and universities, hospitals, state, local, and tribal governments, and private entities.

PROGRAM HIGHLIGHTS

- **Nearly 26 million people receive primary medical, dental, or behavioral health care from a health center.**
- **Approximately 54% of people living with diagnosed HIV in the United States** receive services through the Ryan White HIV/AIDS Program.
- **Approximately 10.7 million people living in health professional shortage areas** receive primary medical, dental, or mental health care from a National Health Service Corps clinician.
- **Over 61 million pregnant women and children** in the U.S., representing 84% of all pregnant women, and 63% of all infants and children, are supported by the Maternal and Child Health Block Grant.
- **More than 800,000 rural Americans** receive direct health services through the Rural Health Care Outreach Services programs.
- **About 160,000 parents and children** participate in the Maternal, Infant, and Early Childhood Home Visiting Program.
- **About 33,000 organ transplants and 6,000 bone marrow and cord blood transplants** are facilitated annually.
- **85% of Ryan White HIV/AIDS Program clients are virally suppressed**, up from 70% in 2010, and exceeding the national average of 58%.

BUREAUS & OFFICE

HRSA's management and oversight of programs is organized through the following bureaus and office:

[Bureau of Health Workforce](#)

[Healthcare Systems Bureau](#)

[Bureau of Primary Health Care](#)

[HIV/AIDS Bureau](#)

[Federal Office of Rural Health Policy](#)

[Maternal and Child Health Bureau](#)

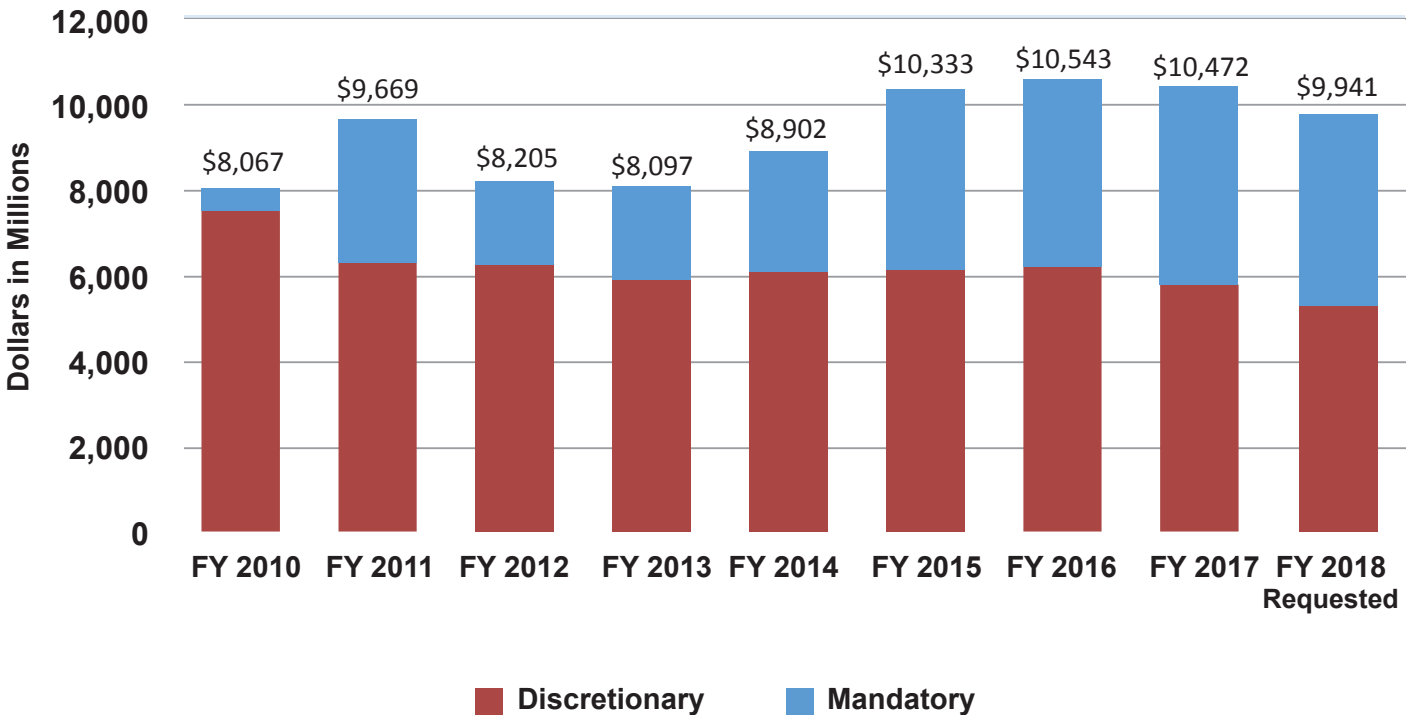

HRSA FY 2018 BUDGET REQUEST: \$9.9 BILLION

- **Ryan White HIV/AIDS**
\$2.3 billion to support cities, states, and local community-based organizations to help those patients living with HIV have access to health services.
- **Maternal & Child Health**
\$1.2 billion to improve the health of all mothers, children and their families.
- **Rural Health Policy**
\$74 million to promote better health care service in rural America.
- **Healthcare Systems**
\$108 million to provide oversight to organ and tissue donation and transplantation systems, poison control, vaccine injury compensation, and drug discount programs.

- **Primary Health Care**
\$5.1 billion for comprehensive primary and preventive health care services in medically underserved communities.
- **Health Workforce**
\$771 million to educate, train, and connect health care professionals to communities in need.
- **Family Planning**
\$287 million to expand family planning services to individuals in need by improving access to family planning centers and preventive services.
- **Program Management**
\$152 million to support HRSA's program oversight and operations.
