DSHS must notify you of your Health Information Portability and Accountability Act (HIPAA) privacy rights. (45 CFR 164.520). DSHS is a “hybrid entity.” Not all of DSHS is covered by HIPAA, only the programs listed as [Health Care Components on the DSHS website](#) are covered by HIPAA. This notice only applies to clients served by those covered programs. This notice does not affect your eligibility for DSHS services.

**This notice describes how medical information about you may be used and disclosed and how you can get this information. Please review it carefully.**

### **What is PHI?**

Protected Health Information (PHI) is client medical information held by parts of DSHS covered by HIPAA. PHI is medical information linked to you about your health status or condition, health care you receive, or payment for your health care. DSHS must protect your PHI by law.

### **What PHI does DSHS have about me?**

To help us serve you, you may need to give us medical or health information including your location, financial information or medical records. We also may get PHI about you from other sources needed to serve you or pay for your care.

### **Who sees my PHI?**

We see only the smallest amount of PHI we need to do our jobs. We may share PHI with other programs or persons if allowed by law or permitted by you. For example, your PHI may be given to and used by the Health Care Authority and other health care providers to coordinate and pay for your health care. We may share past, current, or future PHI.

### **What PHI does DSHS share?**

We only share your PHI that others need to do their job and as allowed by law. You may ask for a list of who has seen your PHI for some purposes.

### **When does DSHS share PHI?**

We share PHI on a “need to know basis” to coordinate services and for treatment, payment, and health care operations. For example, we may share information to decide if:

- Medical treatment should be provided.
- We can pay for services by health care providers.
- You are eligible for DSHS programs.
- The care you get from providers meets legal standards.

### **May I see my PHI?**

You may see your PHI. If you ask, you will get a copy of your PHI. DSHS may charge you for copies.

### **May I change my PHI?**

If you think your PHI is wrong, you may ask us to change or add new PHI. You may also ask that we send any changes to others who have copies of your PHI.

### **What if someone else needs my PHI?**

You may be asked to sign a form to let us share your PHI if:

- We need your permission to provide services or care;
- You want us to send your PHI to another agency or provider for reasons not allowed by law without your permission;
- You want PHI sent to someone else, such as your attorney, a relative or other representative.

Your permission to share your PHI is good until the end date you put on the form. We can only share the PHI you list. You may cancel or change this permission by writing to DSHS
