INTRODUCTION

The Consumer Sentinel Network (CSN) is a secure online database of millions of consumer complaints available only to law enforcement. In addition to storing complaints received by the FTC, the CSN also includes complaints filed with the Internet Crime Complaint Center, Better Business Bureaus, Canada's PhoneBusters, the U.S. Postal Inspection Service, the Identity Theft Assistance Center, and the National Fraud Information Center, among others.

Law enforcement partners --- whether they are down the street, across the nation, or around the world --- can use information in the database to enhance and coordinate investigations. Upgraded features make searching complaints more efficient.

Begun in 1997 to collect fraud and identity theft complaints, the CSN now has more than 5.4 million complaints, including those about credit reports, debt collection, mortgages, and lending, among other subjects. The CSN has a five-year data retention policy; complaints older than five years are purged biannually.

Between January and December 2009, the CSN received more than 1.3 million consumer complaints, which we have sorted into thirty categories. Some organizations transfer their complaints to the CSN after the end of the calendar year, and as a result, the total number of complaints for 2009 will increase in a few months. For the same reason, totals from previous years may differ from prior CSN annual reports.

The 2009 Consumer Sentinel Network Data Book is based on unverified complaints reported by consumers. The data is not based on a consumer survey.

In conjunction with this year's report, the Commission has released a video showing consumers how to file a complaint and examples of what they might file a complaint about. This video is available for viewing at www.FTC.gov/video under "Scam Watch." For more information about the Consumer Sentinel Network, visit www.FTC.gov/sentinel. Law enforcement personnel may join CSN at Register.ConsumerSentinel.gov.

Executive Summary
Consumer Sentinel Network Data Book
January – December 2009

- The Consumer Sentinel Network (CSN) contains over 5.4 million complaints dating from calendar year 2005 through calendar year 2009. There are over 6.9 million do-not-call complaints from this same time period.
- The CSN received over 1.3 million complaints during calendar year 2009: 54% fraud complaints; 21% identity theft complaints; and 25% other types of complaints.
- Identity theft was the number one complaint category in the CSN for calendar year 2009 with 21% of the overall complaints, followed by Third Party and Creditor Debt Collection (9%); Internet Services (6%); Shop-at-Home and Catalog Sales (6%); Foreign Money Offers and Counterfeit Check Scams (5%); Internet Auction (4%); Credit Cards (3%); Prizes, Sweepstakes and Lotteries (3%); and Advance-Fee Loans and Credit Protection/Repair (3%). The complete ranking of all thirty complaint categories is listed on page six of this report.

Fraud

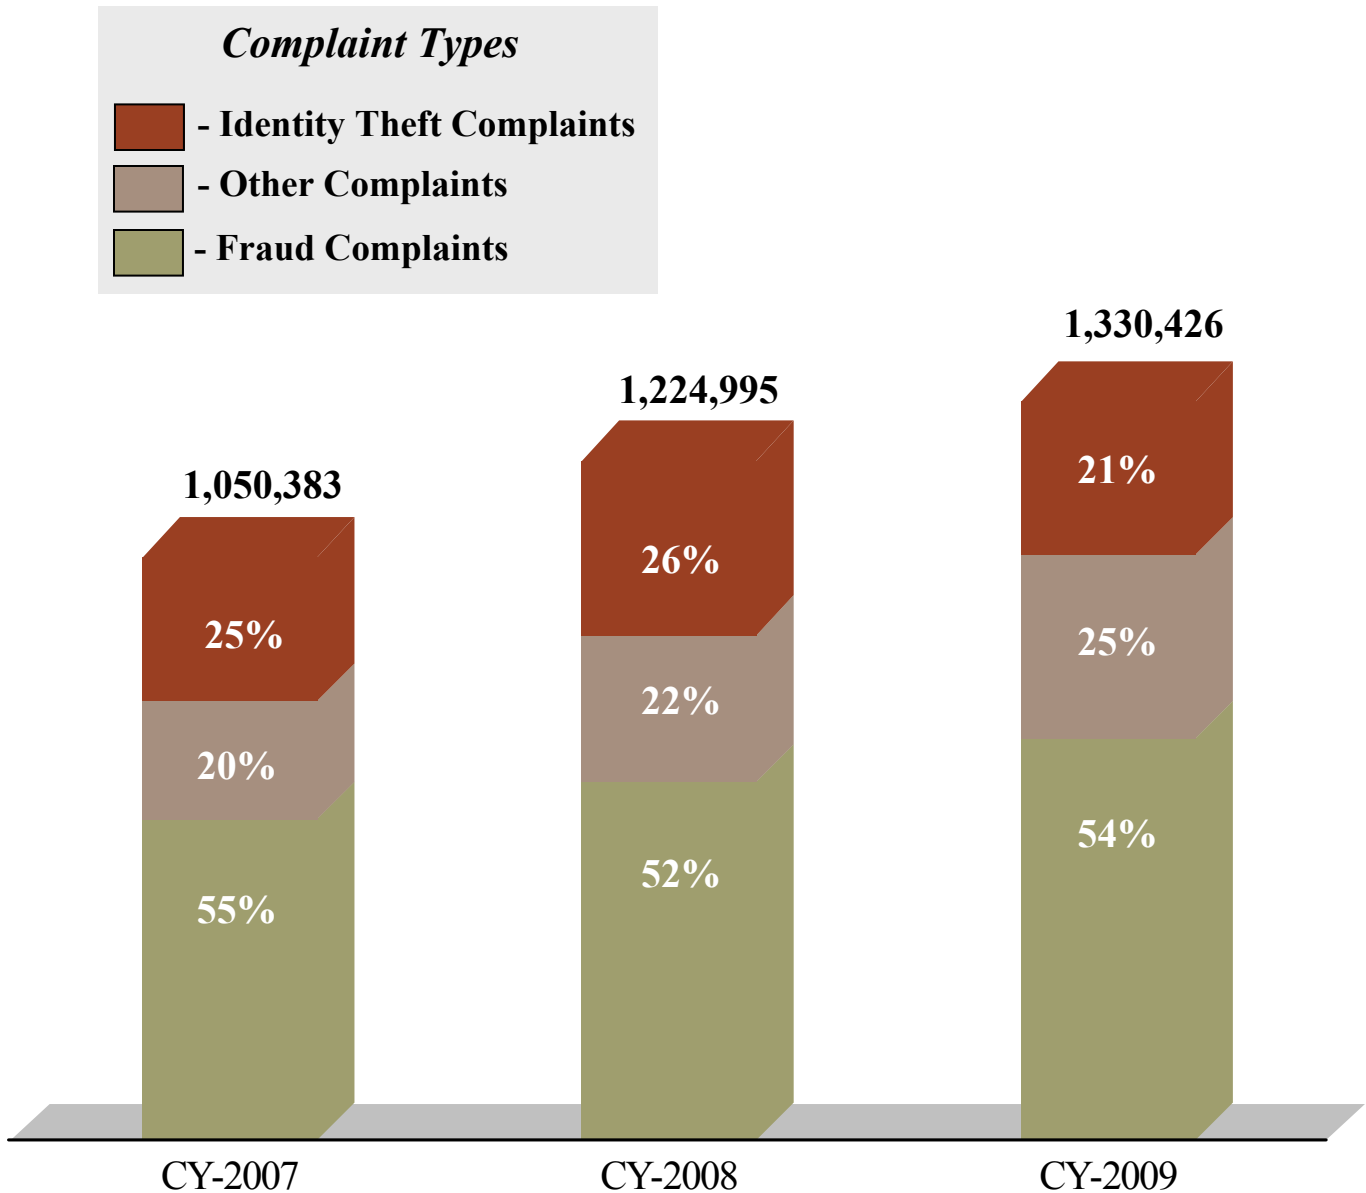

- A total of 721,418 CSN 2009 complaints were fraud-related. Consumers reported paying over \$1.7 billion in those fraud complaints; the median amount paid was \$399. Eighty-seven percent of the consumers who reported a fraud-related complaint also reported an amount paid.
- The percentage of fraud-related complaints with credit card as the reported payment method continues to increase. Forty percent of the consumers reported credit card as the payment method, an increase of 7 percentage points from calendar year 2007 (3% from 2007 to 2008 and 4% from 2008 to 2009).
- Sixty-two percent of all fraud-related complaints reported the method of initial contact. Of those complaints, 48% said email, while another 12% said an Internet website. Only 10% of those consumers reported the phone as the initial point of contact.
- Nevada is the state with the highest per capita rate of reported fraud and other types of complaints, followed by Colorado and New Hampshire.

Identity Theft

- Credit card fraud (17%) was the most common form of reported identity theft, followed by government documents/benefits fraud (16%), phone or utilities fraud (15%), and employment fraud (13%). Other significant categories of identity theft reported by victims were bank fraud (10%) and loan fraud (4%).
- Identity theft-related credit card fraud decreased 6 percentage points since calendar year 2007, declining 3 percentage points each year. Additionally, overall CSN identity theft complaints declined 5 percentage points from calendar year 2008.
- Forty-two percent of identity theft complainants reported whether they contacted law enforcement. Of those victims, 72% notified a police department. Sixty-two percent indicated a report was taken.
- Florida is the state with the highest per capita rate of reported identity theft complaints, followed by Arizona and Texas.

Appendix A1: The Consumer Sentinel Network

The Consumer Sentinel Network is a unique investigative cyber tool that provides law enforcement members secure access to millions of consumer complaints. It is provided at no cost to any federal, state or local law enforcement agency, as well as to select international law enforcement authorities. The Consumer Sentinel Network is based on the premise that sharing information can make law enforcement even more effective. To that end, the Consumer Sentinel Network provides law enforcement members with access to consumer complaints provided directly to the FTC, as well as providing members with access to complaints shared by other data contributors.

www.FTC.gov/Sentinel

The Identity Theft Data Clearinghouse was launched in November 1999 and is the sole national repository of consumer complaints about identity theft. The Clearinghouse provides specific investigative material for law enforcement and broader reports that provide insight to both private and public sector partners on ways to reduce the incidence of identity theft. Information in the Clearinghouse is available to law enforcement members via the Consumer Sentinel Network. This access enables law enforcers to readily spot identity theft problems in their own backyards, and to coordinate with other law enforcement officers where the data reveals common schemes or perpetrators.

www.FTC.gov/idtheft

Econsumer.gov was created in April 2001 to gather and share cross-border e-commerce complaints in order to respond to the challenges of multinational Internet fraud, and enhance consumer confidence in e-commerce. The multilingual public Web site provides general information about consumer protection in all countries that belong to the International Consumer Protection and Enforcement Network, contact information for consumer protection authorities in those countries, and an online complaint form. All information is available in English, French, German, Korean, Polish, and Spanish. Using the existing Consumer Sentinel Network, the incoming complaints are shared through the government Web site with participating consumer protection law enforcers from 23 nations.

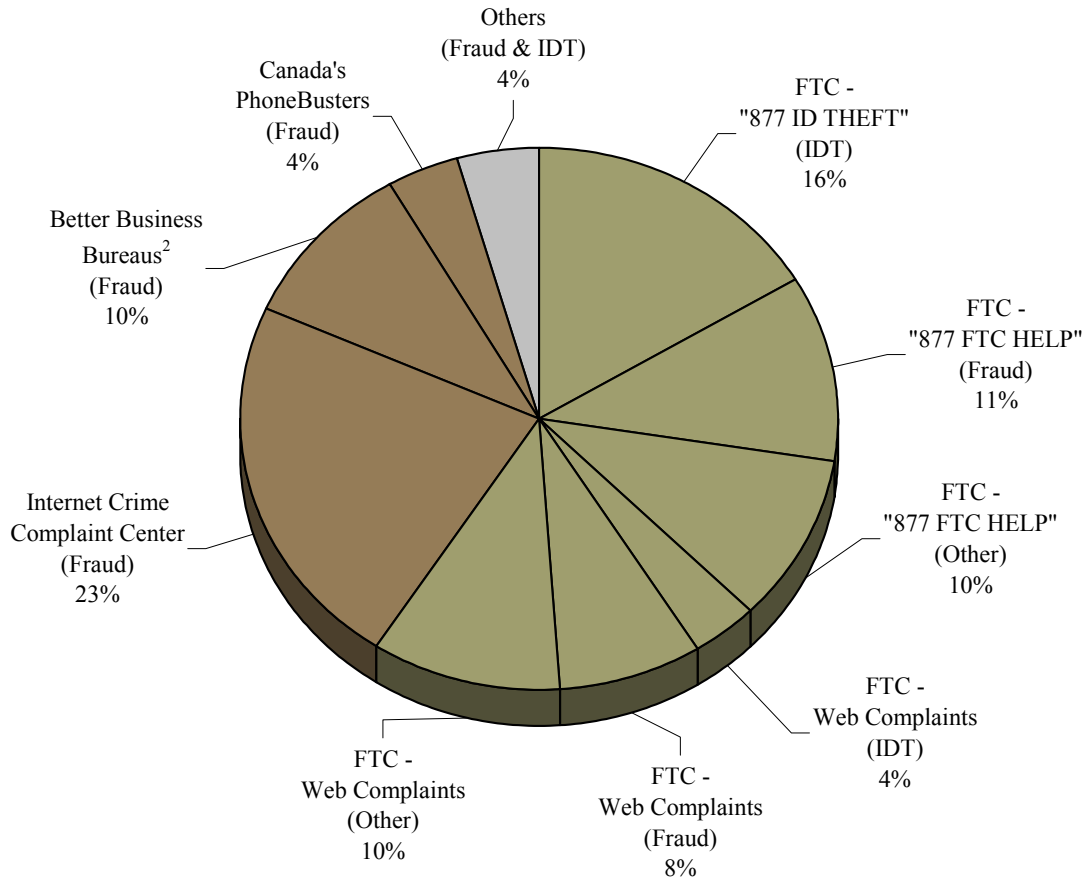

www.econsumer.gov

Consumer Sentinel/Military, which was established in September 2002, is a project of the Federal Trade Commission and the Department of Defense to identify and target consumer protection issues that affect members of the United States Armed Forces and their families. Consumer Sentinel/Military also provides a gateway to consumer education materials covering a wide range of consumer protection issues, such as auto leasing, identity theft, and work-at-home scams. Members of the United States Armed Forces can enter complaints directly into Consumer Sentinel. This information is used by law enforcement agencies, members of the Judge Advocate General staff, and others in the Department of Defense to help protect armed services members and their families from consumer protection-related problems.

¹This chart illustrates Metropolitan Areas (Metropolitan and Micropolitan Statistical Areas) with a population of one hundred thousand or more. Ranking is based on the number of fraud and other complaints per 100,000 inhabitants for each Metropolitan Area. Metropolitan Areas presented here are those defined by the Office of Management and Budget as of December 2006 and the population estimates are based on the 2007 U.S. Census table CBSA-EST2007-01.
